Dag Hammarskjöld

The photograph on the cover is of a stained glass window in the United Nations Headquarters building in New York. The staff of the United Nations and Marc Chagall donated the stained glass panel designed by the French artist as a memorial to Dag Hammarskjöld and 15 others who died in a plane crash while on a peace mission in the Congo in 1961. Dag Hammarskjöld served as the second Secretary-General of the United Nations from 10 April 1953 until his death on 18 September 1961. He introduced the concept of peacekeeping and was awarded the Nobel Peace Prize. He also defined the

role of an international civil servant based on his personal devotion to the Charter of the United Nations and to public service.

In the panel Chagall sought to express the simplicity and beauty of the ideals of peace and brotherhood for which the United Nations was founded. Symbols of peace and love can be found throughout the panel. In the center is the figure of a young child being kissed on the cheek by an angelic face which emerges from a mass of flowers; the right hand side suggests mankind's yearning for peace, its prophets and its victims, and symbols of law. On the left are depicted motherhood and people struggling for peace.

The cover design is courtesy of the graphic designer, Sean Bacon.

FOREWORD

The *International Law Handbook* was prepared by the Codification Division of the Office of Legal Affairs under the United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law, pursuant to General Assembly resolution 70/116 of 14 December 2015.

Ambassador Emmanuel K. Dadzie of Ghana proposed the establishment of this programme when he served as Vice-Chairman of the Sixth Committee of the General Assembly at its 18th session in 1963. Following efforts led by Afghanistan, Belgium, Ghana and Ireland, the General Assembly decided, by resolution 2099 (XX) of 20 December 1965, to establish the Programme of Assistance to contribute towards a better knowledge of international law as a means of strengthening international peace and security and promoting friendly relations and cooperation among States.

The *International Law Handbook* is a collection of instruments used by the Codification Division as study materials for its training courses under the Programme of Assistance. This publication was prepared to celebrate the fiftieth anniversary of the establishment of the Programme in 2015 and to promote the teaching and dissemination of international law around the world. It is available on the United Nations Programme of Assistance website as well as the Audiovisual Library of International Law free of charge.¹ It may be reproduced for academic purposes to further the teaching and dissemination of international law anywhere in the world.

The *International Law Handbook* is intended to be used as a general work of reference. It comprises four books:

Book One contains the Charter of the United Nations and the Statute of the International Court of Justice, as well as instruments relating to the law of treaties, subjects of international law, diplomatic and consular relations, international responsibility, peaceful settlement of international disputes, international peace and security, international human rights law as well as movement of persons and international migration law.

Book Two contains instruments relating to the law of armed conflict, international criminal law as well as disarmament and non-proliferation.

Book Three contains instruments relating to the law of the sea, international environmental law and international watercourses.

Book Four contains instruments relating to international labour law, law of cultural relations as well as international trade and investment law.

For ease of reference, each book includes an overview of the content of all four books, as well as a detailed table of contents for each respective volume.

The present collection of international instruments is not exhaustive. The texts incorporate amendments and corrections to the instruments subsequent to their entry into force, as appropriate, and whether or not the amendments have entered into force for all parties. Only the texts of the instruments as kept in the custody of the respective depositary constitute the authentic versions. The *International Law Handbook* is issued for information and educational purposes only.

LAW OF ARMED CONFLICT

Main instruments

64. DECLARATION RENOUNCING THE USE, IN TIME OF WAR, OF EXPLOSIVE PROJECTILES UNDER 400 GRAMMES WEIGHT

Done at Saint Petersburg on 29 November/11 December 1868

Entry into force: 11 December 1868

Parliamentary Papers (1869), vol. LXIV, p. 659 [original: French]

[Translation]

On the proposition of the Imperial Cabinet of Russia, an International Military Commission having assembled at St. Petersburg in order to examine the expediency of forbidding the use of certain projectiles in time of war between civilized nations, and that Commission having by common agreement fixed the technical limits at which the necessities of war ought to yield to the requirements of humanity, the Undersigned are authorized by the orders of their Governments to declare as follows:

Considering:

That the progress of civilization should have the effect of alleviating as much as possible the calamities of war;

That the only legitimate object which States should endeavour to accomplish during war is to weaken the military forces of the enemy;

That for this purpose it is sufficient to disable the greatest possible number of men;

That this object would be exceeded by the employment of arms which uselessly aggravate the sufferings of disabled men, or render their death inevitable;

That the employment of such arms would, therefore, be contrary to the laws of humanity;

The Contracting Parties engage mutually to renounce, in case of war among themselves, the employment by their military or naval troops of any projectile of a weight below 400 grammes, which is either explosive or charged with fulminating or inflammable substances.

They will invite all the States which have not taken part in the deliberations of the International Military Commission assembled at St. Petersburg by sending Delegates thereto, to accede to the present engagement.

This engagement is compulsory only upon the Contracting or Acceding Parties thereto in case of war between two or more of themselves; it is not applicable to non-Contracting Parties, or Parties who shall not have acceded to it.

It will also cease to be compulsory from the moment when, in a war between Contracting or Acceding Parties, a non-Contracting Party or a non-Acceding Party shall join one of the belligerents.

The Contracting or Acceding Parties reserve to themselves to come hereafter to an understanding whenever a precise proposition shall be drawn up in view of future improvements which science may effect in the armament of troops, in order to maintain the principles which they have established, and to conciliate the necessities of war with the laws of humanity.

Done at St. Petersburg, 29 November (11 December) 1868.

65. DECLARATION CONCERNING EXPANDING BULLETS

Done at The Hague on 29 July 1899

Entry into force: 4 September 1900

United Kingdom, *Treaty Series*, No. 32 (Cd. 3751) (1907) [original: French]

[*Translation*]

The Undersigned, Plenipotentiaries of the Powers represented at the International Peace Conference at The Hague, duly authorized to that effect by their Governments, inspired by the sentiments which found expression in the Declaration of St. Petersburg of the 29th November (11th December) 1868,

Declare that:

The Contracting Parties agree to abstain from the use of bullets which expand or flatten easily in the human body, such as bullets with a hard envelope which does not entirely cover the core, or is pierced with incisions.

The present Declaration is only binding for the Contracting Powers in the case of a war between two or more of them.

It shall cease to be binding from the time when, in a war between the Contracting Powers, one of the belligerents is joined by a non-Contracting Power.

The present Declaration shall be ratified as soon as possible.

The ratifications shall be deposited at The Hague.

A *procès-verbal* shall be drawn up on the receipt of each ratification, a copy of which, duly certified, shall be sent through the diplomatic channel to all the Contracting Powers.

The non-Signatory Powers may accede to the present Declaration. For this purpose they must make their accession known to the Contracting Powers by means of a written notification addressed to the Netherlands Government, and by it communicated to all the other Contracting Powers.

In the event of one of the High Contracting Parties denouncing the present Declaration, such denunciation shall not take effect until a year after the notification made in writing to the Netherlands Government, and forthwith communicated by it to all the other Contracting Powers.

This denunciation shall only affect the notifying Power.

In faith of which the Plenipotentiaries have signed the present Declaration, and have affixed their seals thereto.

Done at The Hague the 29th July, 1899, in a single copy, which shall be kept in the archives of the Netherlands Government, and of which copies, duly certified, shall be sent through the diplomatic channel to the Contracting Powers.

66. INTERNATIONAL CONVENTION CONCERNING THE LAWS AND CUSTOMS OF WAR ON LAND*

Done at The Hague, on 18 October 1907

Entry into force: 26 January 1910

United Kingdom, *Treaty Series*, No. 9, (Cd. 5030) (1910) [original: French]

[Translation]

(List of Contracting Parties)

Considering that, while seeking means to preserve peace and prevent armed conflicts between nations, it is likewise necessary to bear in mind the case where an appeal to arms may be brought about by events beyond their responsibility to control;

Being animated also by the desire to serve, even in this extreme case, the interests of humanity and the ever-progressive needs of civilization; and

Thinking it important, with this object, to revise the general laws and customs of war, with the view on the one hand of defining them with greater precision, and, on the other hand, of confining them within limits intended to mitigate their severity as far as possible;

Have deemed it necessary to complete and render more precise in certain particulars the work of the First Peace Conference, which, following on the Brussels Conference of 1874, and inspired by the ideas dictated by a wise and generous forethought, adopted provisions intended to define and regulate the usages of war on land.

According to the views of the High Contracting Parties, these provisions, the drafting of which has been inspired by the desire to diminish the evils of war, so far as military requirements permit, are intended to serve as a general rule of conduct for the belligerents in their mutual relations and in their relations with the inhabitants.

It has not, however, been found possible at present to concert stipulations covering all the circumstances which arise in practice;

On the other hand, the High Contracting Parties clearly do not intend that unforeseen cases should, in default of written agreement, be left to the arbitrary opinion of military commanders.

Until a more complete code of the laws of war can be drawn up, the High Contracting Parties deem it expedient to declare that, in cases not covered by the rules adopted by them, the inhabitants and the belligerents remain under the protection and governance of the principles of the law of nations, derived from the usages established among civilized peoples, from the laws of humanity, and from the dictates of the public conscience.

They declare that it is in this sense especially that Articles 1 and 2 of the Regulations adopted must be understood.

The High Contracting Parties, wishing to conclude a fresh Convention to this effect, have appointed as their Plenipotentiaries, that is to say:

(Here follow the names of the Plenipotentiaries)

Who, after having deposited their full powers, found to be in good and due form, have agreed upon, the following:

Article 1

The Contracting Powers shall issue instructions to their armed land forces which shall be in conformity with the Regulations respecting the Laws and Customs of War on Land, annexed to the present Convention.

* This Convention is referred to as No. IV of the Instruments signed at the Second Peace Conference at the Hague.

Article 2

The provisions contained in the Regulations referred to in Article 1 as well as in the present Convention, do not apply except between Contracting Powers, and then only if all the belligerents are parties to the Convention.

Article 3

A belligerent party which violates the provisions of the said Regulations shall, if the case demands, be liable to pay compensation. It shall be responsible for all acts committed by persons forming part of its armed forces.

Article 4

The present Convention, duly ratified, shall replace, as between the Contracting Powers, the Convention of the 29th July, 1899, respecting the Laws and Customs of War on Land.

The Convention of 1899 remains in force as between the Powers which signed it, but which do not ratify the present Convention.

Article 5

The present Convention shall be ratified as soon as possible.

The ratifications shall be deposited at The Hague.

The first deposit of ratifications shall be recorded in a Protocol signed by the Representatives of the Powers which take part therein and by the Netherlands Minister for Foreign Affairs.

The subsequent deposits of ratifications shall be made by means of a written notification, addressed to the Netherlands Government and accompanied by the instrument of ratification.

A duly certified copy of the Protocol relating to the first deposit of ratifications, of the notifications mentioned in the preceding paragraph, and of the instruments of ratification, shall be immediately sent by the Netherlands Government, through the diplomatic channel, to the Powers invited to the Second Peace Conference, as well as to the other Powers which have acceded to the Convention. The said Government shall, in the cases contemplated in the preceding paragraph, inform them at the same time of the date on which it received the notification.

Article 6

Non-Signatory Powers may accede to the present Convention.

A Power which desires to accede notifies its intention in writing to the Netherlands Government, forwarding to it the act of accession, which shall be deposited in the archives of the said Government.

The said Government shall immediately forward to all the other Powers a duly certified copy of the notification as well as of the act of accession, mentioning the date on which it received the notification.

Article 7

The present Convention shall take effect, in the case of the Powers which were parties to the first deposit of ratifications, sixty days after the date of the Protocol recording such deposit, and, in the case of the Powers which shall ratify subsequently or which shall accede, sixty days after the notification of their ratification or of their accession has been received by the Netherlands Government.

Article 8

In the event of one of the Contracting Powers wishing to denounce the present Convention, the denunciation shall be notified in writing to the Netherlands Government, which shall immediately

communicate a duly certified copy of the notification to all the other Powers, informing them of the date on which it was received.

The denunciation shall only operate in respect of the denouncing Power, and only on the expiry of one year after the notification has reached the Netherlands Government.

Article 9

A register kept by the Netherlands Ministry for Foreign Affairs shall record the date of the deposit of ratifications effected in virtue of Article 5, paragraphs 3 and 4, as well as the date on which the notifications of accession (Article 6, paragraph 2) or of denunciation (Article 8, paragraph 1) have been received.

Each Contracting Power is entitled to have access to this register and to be supplied with duly certified extracts from it.

In faith whereof the Plenipotentiaries have appended their signatures to the present Convention.

Done at The Hague, the 18th October, 1907, in a single original, which shall remain deposited in the archives of the Netherlands Government, and of which duly certified copies shall be sent, through the diplomatic channel, to the Powers invited to the Second Peace Conference.

ANNEX TO THE CONVENTION REGULATIONS RESPECTING THE LAWS AND CUSTOMS OF WAR ON LAND

SECTION I. OF BELLIGERENTS

CHAPTER I. THE STATUS OF BELLIGERENT

Article 1

The laws, rights, and duties of war apply not only to the army, but also to militia and volunteer corps fulfilling all the following conditions:

1. They must be commanded by a person responsible for his subordinates;
2. They must have a fixed distinctive sign recognizable at a distance;
3. They must carry arms openly; and
4. They must conduct their operations in accordance with the laws and customs of war.

In countries where militia or volunteer corps constitute the army, or form part of it, they are included under the denomination "army".

Article 2

The inhabitants of a territory not under occupation, who, on the approach of the enemy, spontaneously take up arms to resist the invading troops without having had time to organize themselves in accordance with Article 1, shall be regarded as belligerents if they carry arms openly and if they respect the laws and customs of war.

Article 3

The armed forces of the belligerents may consist of combatants and non-combatants. In the case of capture by the enemy, both have the right to be treated as prisoners of war.

CHAPTER II. PRISONERS OF WAR

Article 4

Prisoners of war are in the power of the hostile Government, but not of the individuals or corps who capture them.

They must be humanely treated.

All their personal belongings, except arms, horses and military papers, remain their property.

Article 5

Prisoners of war may be interned in a town, fortress, camp, or other place, and are bound not to go beyond certain fixed limits; but they cannot be placed in confinement except as an indispensable measure of safety and only while the circumstances which necessitate the measure continue to exist.

Article 6

The State may employ the labour of prisoners of war, other than officers, according to their rank and capacity. The work shall not be excessive and shall have no connection with the operations of the war.

Prisoners may be authorized to work for the public service, for private persons, or on their own account.

Work done for the State is paid for at rates proportional to the work of a similar kind executed by soldiers of the national army, or, if there are no such rates in force, at rates proportional to the work executed.

When the work is for other branches of the public service or for private persons the conditions are settled in agreement with the military authorities.

The wages of the prisoners shall go towards improving their position, and the balance shall be paid them on their release, deductions on account of the cost of maintenance excepted.

Article 7

The Government into whose hands prisoners of war have fallen is charged with their maintenance.

In default of special agreement between the belligerents, prisoners of war shall be treated as regards rations, quarters, and clothing on the same footing as the troops of the Government which captured them.

Article 8

Prisoners of war shall be subject to the laws, regulations, and orders in force in the army of the State in the power of which they are. Any act of insubordination justifies the adoption towards them of such measures of severity as may be considered necessary.

Escaped prisoners who are retaken before being able to rejoin their own army or before leaving the territory occupied by the army which captured them are liable to disciplinary punishment.

Prisoners who, after succeeding in escaping, are again taken prisoners, are not liable to any punishment on account of their previous escape.

Article 9

Every prisoner of war is bound to give, if questioned on the subject, his true name and rank, and if he infringes this rule, he is liable to have the advantages given to prisoners of his class curtailed.

Article 10

Prisoners of war may be set at liberty on parole if the laws of their country allow it, and, in such cases, they are bound, on their personal honour, scrupulously to fulfil, both towards their own Government and the Government by which they were made prisoners, the engagements they may have contracted.

In such cases their own Government is bound neither to require of nor accept from them any service incompatible with the parole given.

Article 11

A prisoner of war cannot be compelled to accept his liberty on parole; similarly the hostile Government is not obliged to accede to the request of a prisoner to be set at liberty on parole.

Article 12

Prisoners of war liberated on parole and recaptured bearing arms against the Government to which they had pledged their honour, or against the allies of that Government, forfeit their right to be treated as prisoners of war, and may be put on trial before the Courts.

Article 13

Individuals following an army without directly belonging to it, such as newspaper correspondents or reporters, sutlers or contractors, who fall into the enemy's hands and whom the latter thinks it expedient to detain, are entitled to be treated as prisoners of war, provided they are in possession of a certificate from the military authorities of the army which they were accompanying.

Article 14

A bureau for information relative to prisoners of war is instituted at the commencement of hostilities in each of the belligerent States, and, when necessary, in neutral countries which have received belligerents on their territory. The business of this bureau is to reply to all inquiries about the prisoners, to receive from the various services concerned full information respecting internments and transfers, releases on parole, exchanges, escapes, admissions into hospital, deaths, as well as all other information necessary to enable it to make out and keep up to date an individual return for each prisoner of war. The bureau must state in this return the regimental number, name and surname, age, place of origin, rank, unit, wounds, date and place of capture, internment, wounding, and death, as well as any observations of a special character. The individual return shall be sent to the Government of the other belligerent after the conclusion of peace.

It is also the business of the information bureau to gather and keep together all personal effects, valuables, letters, &c., found on the field of battle or left by prisoners who have been released on parole, or exchanged, or who have escaped, or died in hospitals or ambulances, and to forward them to those concerned.

Article 15

Societies for the relief of prisoners of war, if properly constituted in accordance with the laws of their country and with the object of serving as the channel for charitable effort, shall receive from the belligerents, for themselves and their duly accredited agents, every facility for the efficient performance of their humane task within the bounds imposed by military exigencies and administrative regulations. Representatives of these societies, when furnished with a personal permit by the military authorities, may, on giving an undertaking in writing to comply with all measures of order and police which they may have to issue, be admitted to the places of internment for the purpose of distributing relief, as also to the halting places of repatriated prisoners.

Article 16

Information bureaux enjoy the privilege of free carriage. Letters, money, orders, and valuables, as well as postal parcels, intended for prisoners of war, or dispatched by them, shall be exempt from all postal charges in the countries of origin and destination, as well as in the countries they pass through.

Presents and relief in kind for prisoners of war shall be admitted free of all import or other duties, as well as any payment for carriage by State railways.

Article 17

Officers taken prisoners shall receive the same rate of pay as officers of corresponding rank in the country where they are detained; the amount shall be refunded by their own Government.

Article 18

Prisoners of war shall enjoy complete liberty in the exercise of their religion, including attendance at the services of their own Church, on the sole condition that they comply with the police regulations issued by the military authorities.

Article 19

The wills of prisoners of war are received or drawn up in the same way as for soldiers of the national army.

The same rules shall be followed as regards documents concerning the certification of the death and also as to the burials of prisoners of war, due regard being paid to their grade and rank.

Article 20

After the conclusion of peace, the repatriation of prisoners of war shall be carried out as quickly as possible.

CHAPTER III. THE SICK AND WOUNDED

Article 21

The obligations of belligerents with regard to the sick and wounded are governed by the Geneva Convention.

SECTION II. OF HOSTILITIES

CHAPTER I. MEANS OF INJURING THE ENEMY, SIEGES, AND BOMBARDMENTS'

Article 22

Belligerents have not got an unlimited right as to the choice of means of injuring the enemy.

Article 23

In addition to the prohibitions provided by special Conventions, it is particularly forbidden:

- (a) To employ poison or poisoned weapons;
- (b) To kill or wound by treachery individuals belonging to the hostile nation or army;
- (c) To kill or wound an enemy who, having laid down his arms, or no longer having means of defence, has surrendered at discretion;
- (d) To declare that no quarter will be given;
- (e) To employ arms, projectiles, or material calculated to cause unnecessary suffering;
- (f) To make improper use of a flag of truce, of the national flag, or of the military insignia and uniform of the enemy, as well as of the distinctive signs of the Geneva Convention;
- (g) To destroy or seize enemy property, unless such destruction or seizure be imperatively demanded by the necessities of war;
- (h) To declare abolished, suspended, or inadmissible the right of the subjects of the hostile party to institute legal proceedings.

A belligerent is likewise forbidden to compel the subjects of the hostile party to take part in the operations of war directed against their own country, even if they were in the service of the belligerent before the commencement of the war.

Article 24

Ruses of war and the employment of measures necessary for obtaining information about the enemy and the country are considered permissible.

Article 25

The attack or bombardment, by any means whatever, of undefended towns, villages, dwellings, or buildings, is forbidden.

Article 26

The officer in command of an attacking force must do all in his power to warn the authorities before commencing a bombardment, except in cases of assault.

Article 27

In sieges and bombardments all necessary steps must be taken to spare, as far as possible, buildings dedicated to public worship, art, science, or charitable purposes, historic monuments, hospitals, and places where the sick and wounded are collected, provided they are not being used at the time for military purposes.

It is the duty of the besieged to indicate such buildings or places by distinctive and visible signs, which shall be notified to the enemy beforehand.

Article 28

The giving over to pillage of a town or place, even when taken by assault, is forbidden.

CHAPTER II. SPIES

Article 29

A person can only be considered a spy when, acting clandestinely or on false pretences, he obtains or endeavours to obtain information in the zone of operations of a belligerent, with the intention of communicating it to the hostile party.

Accordingly, soldiers not wearing a disguise who have penetrated into the zone of operations of the hostile army, for the purpose of obtaining information, are not considered spies. Similarly, the following are not considered spies: Soldiers and civilians intrusted with the delivery of despatches intended either for their own army or for the enemy's army, and carrying out their mission openly. To this class likewise belong persons sent in balloons for the purpose of carrying despatches and, generally, of maintaining communications between the different parts of an army or a territory.

Article 30

A spy taken in the act shall not be punished without previous trial.

Article 31

A spy who, after rejoining the army to which he belongs, is subsequently captured by the enemy, is treated as a prisoner of war, and incurs no responsibility for his previous acts as a spy.

CHAPTER III. FLAGS OF TRUCE**Article 32**

A person is regarded as bearing a flag of truce who has been authorized by one of the belligerents to enter into communication with the other, and who presents himself under a white flag. He is entitled to inviolability, as also the trumpeter, bugler or drummer, the flag-bearer and the interpreter who might accompany him.

Article 33

The commander to whom a flag of truce is sent is not obliged in every case to receive it.

He may take all steps necessary in order to prevent the envoy from taking advantage of his mission to obtain information.

In case of abuse, he has the right temporarily to detain the envoy.

Article 34

The envoy loses his rights of inviolability if it is proved in a positive and incontestable manner that he has taken advantage of his privileged position to provoke or commit an act of treachery.

CHAPTER IV. CAPITULATIONS**Article 35**

Capitulations agreed upon between the contracting parties must take into account the rules of military honour.

Once settled, they must be scrupulously observed by both parties.

CHAPTER V. ARMISTICES**Article 36**

An armistice suspends military operations by mutual agreement between the belligerent parties. If its duration is not defined, the belligerent parties may resume operations at any time, provided always that the enemy is warned within the time agreed upon, in accordance with the terms of the armistice.

Article 37

An armistice may be general or local. The first suspends the entire military operations of the belligerent States; the second between certain portions of the belligerent armies only and within a fixed zone.

Article 38

An armistice must be notified officially and in good time to the competent authorities and to the troops. Hostilities are suspended immediately after the notification, or at the time fixed.

Article 39

It rests with the contracting parties to settle, in the terms of the armistice, the relations which may be allowed in the theatre of war with, and between, the civil populations.

Article 40

Any serious violation of the armistice by one of the parties gives the other party the right of denouncing it, and even, in cases of urgency, of recommencing hostilities immediately.

Article 41

A violation of the terms of the armistice by individuals acting on their own initiative only entitles the injured party to demand the punishment of the offenders and, if there is occasion for it, compensation for the losses sustained.

SECTION III. MILITARY AUTHORITY OVER THE TERRITORY OF THE HOSTILE STATE**Article 42**

Territory is considered occupied when actually placed under the authority of the hostile army.

The occupation extends only to the territory where such authority has been established and is in a position to assert itself.

Article 43

The authority of the power of the State having passed *de facto* into the hands of the occupant, the latter shall do all in his power to restore, and ensure, as far as possible, public order and safety, respecting at the same time, unless absolutely prevented, the laws in force in the country.

Article 44

A belligerent is forbidden to compel the inhabitants of territory occupied by it to furnish information about the army of the other belligerent, or about its means of defence.

Article 45

It is forbidden to force the inhabitants of occupied territory to swear allegiance to the hostile Power.

Article 46

Family honour and rights, individual life, and private property, as well as religious convictions and worship, must be respected.

Private property may not be confiscated.

Article 47

Pillage is expressly forbidden.

Article 48

If, in the territory occupied, the occupant collects the taxes, dues, and tolls payable to the State, he shall do so, as far as is possible, in accordance with the legal basis and assessment in force at the time, and shall in consequence be bound to defray the expenses of the administration of the occupied territory to the same extent as the national Government had been so bound.

Article 49

If, in addition to the taxes mentioned in the above Article, the occupant levies other money contributions in the occupied territory, they shall only be applied to the needs of the army or of the administration of the territory in question.

Article 50

No collective penalty, pecuniary or otherwise, shall be inflicted upon the population on account of the acts of individuals for which it cannot be regarded as collectively responsible.

Article 51

No contribution shall be collected except under a written order, and on the responsibility of a General in command.

The collection of the said contribution shall only be effected in accordance, as far as is possible, with the legal basis and assessment of taxes in force at the time.

For every contribution a receipt shall be given to the contributories.

Article 52

Requisitions in kind and services shall not be demanded from local authorities or inhabitants except for the needs of the army of occupation. They shall be in proportion to the resources of the country, and of such a nature as not to involve the inhabitants in the obligation of taking part in military operations against their own country.

Such requisitions and services shall only be demanded on the authority of the commander in the locality occupied.

Contributions in kind shall as far as possible be paid for in ready money; if not, a receipt shall be given and the payment of the amount due shall be made as soon as possible.

Article 53

An army of occupation shall only take possession of cash, funds, and realizable securities which are strictly the property of the State, depots of arms, means of transport, stores and supplies, and, generally, all movable property belonging to the State which may be used for military operations.

Except in cases governed by naval law, all appliances adapted for the transmission of news, or for the transport of persons or goods, whether on land, at sea, or in the air, depots of arms, and, in general, all kinds of war material may be seized, even if they belong to private individuals, but they must be restored at the conclusion of peace, and indemnities must be paid for them.

Article 54

Submarine cables connecting an occupied territory with a neutral territory shall not be seized or destroyed except in the case of absolute necessity. They also must be restored at the conclusion of peace, and indemnities paid for them.

Article 55

The occupying State shall be regarded only as administrator and usufructuary of public buildings, landed property, forests, and agricultural undertakings belonging to the hostile State, and situated in the occupied country. It must safeguard the capital of such properties, and administer them in accordance with the rules of usufruct.

Article 56

The property of local authorities, as well as that of institutions dedicated to public worship, charity, education, and to science and art, even when State property, shall be treated as private property.

Any seizure or destruction of, or wilful damage to, institutions of this character, historic monuments and works of science and art, is forbidden, and should be made the subject of legal proceedings.

67. PROTOCOL FOR THE PROHIBITION OF THE USE OF ASPHYXIATING, POISONOUS OR OTHER GASES, AND OF BACTERIOLOGICAL METHODS OF WARFARE

Entry into force: 8 February 1928

League of Nations, *Treaty Series*, vol. 94, p. 65; Reg No. 2138

The undersigned Plenipotentiaries, in the name of their respective Governments:

(Here follow the names of Plenipotentiaries)

Whereas the use in war of asphyxiating, poisonous or other gases, and of all analogous liquids materials or devices, has been justly condemned by the general opinion of the civilized world; and

Whereas the prohibition of such use has been declared in Treaties to which the majority of Powers of the world are Parties; and

To the end that this prohibition shall be universally accepted as a part of International Law, binding alike the conscience and the practice of nations;

Declare:

That the High Contracting Parties, so far as they are not already Parties to Treaties prohibiting such use, accept this prohibition, agree to extend this prohibition to the use of bacteriological methods of warfare and agree to be bound as between themselves according to the terms of this declaration.

The High Contracting Parties will exert every effort to induce other States to accede to the present Protocol. Such accession will be notified to the Government of the French Republic, and by the latter to all Signatory and Acceding Powers, and will take effect on the date of the notification by the Government of the French Republic.

The present Protocol of which the French and English texts are both authentic, shall be ratified as soon as possible. It shall bear today's date.

The ratifications of the present Protocol shall be addressed to the Government of the French Republic, which will at once notify the deposit of such ratification to each of the Signatory and Acceding Powers.

The instruments of ratification and accession to the present Protocol will remain deposited in the archives of the Government of the French Republic.

The present Protocol will come into force for each Signatory Power as from the date of deposit of its ratification, and, from that moment, each Power will be bound as regards other Powers which have already deposited their ratifications.

In witness whereof the Plenipotentiaries have signed the present Protocol.

Done at Geneva in a single copy, the seventeenth day of June, One Thousand Nine Hundred and Twenty-Five.

68. GENEVA CONVENTION FOR THE AMELIORATION OF THE CONDITION OF THE WOUNDED AND SICK IN ARMED FORCES IN THE FIELD

Done at Geneva on 12 August 1949

Entry into force: 21 October 1950

United Nations, *Treaty Series*, vol. 75, p. 31; Reg. No. 970

The undersigned Plenipotentiaries of the Governments represented at the Diplomatic Conference held at Geneva from April 21 to August 12, 1949, for the purpose of revising the Geneva Convention for the Relief of the Wounded and Sick in Armies in the Field of July 27, 1929, have agreed as follows:

CHAPTER I. GENERAL PROVISIONS

Article 1

The High Contracting Parties undertake to respect and to ensure respect for the present Convention in all circumstances.

Article 2

In addition to the provisions which shall be implemented in peacetime, the present Convention shall apply to all cases of declared war or of any other armed conflict which may arise between two or more of the High Contracting Parties, even if the state of war is not recognized by one of them.

The Convention shall also apply to all cases of partial or total occupation of the territory of a High Contracting Party, even if the said occupation meets with no armed resistance.

Although one of the Powers in conflict may not be a party to the present Convention, the Powers who are parties thereto shall remain bound by it in their mutual relations. They shall furthermore be bound by the Convention in relation to the said Power, if the latter accepts and applies the provisions thereof.

Article 3

In the case of armed conflict not of an international character occurring in the territory of one of the High Contracting Parties, each Party to the conflict shall be bound to apply, as a minimum, the following provisions:

1) Persons taking no active part in the hostilities, including members of armed forces who have laid down their arms and those placed *hors de combat* by sickness, wounds, detention, or any other cause, shall in all circumstances be treated humanely, without any adverse distinction founded on race, colour, religion or faith, sex, birth or wealth, or any other similar criteria.

To this end, the following acts are and shall remain prohibited at any time and in any place whatsoever with respect to the above-mentioned persons:

(a) violence to life and person, in particular murder of all kinds, mutilation, cruel treatment and torture;

(b) taking of hostages;

(c) outrages upon personal dignity, in particular humiliating and degrading treatment;

(d) the passing of sentences and the carrying out of executions without previous judgment pronounced by a regularly constituted court, affording all the judicial guarantees which are recognized as indispensable by civilized peoples.

2) The wounded and sick shall be collected and cared for.

An impartial humanitarian body, such as the International Committee of the Red Cross, may offer its services to the Parties to the conflict.

The Parties to the conflict should further endeavour to bring into force, by means of special agreements, all or part of the other provisions of the present Convention.

The application of the preceding provisions shall not affect the legal status of the Parties to the conflict.

Article 4

Neutral Powers shall apply by analogy the provisions of the present Convention to the wounded and sick, and to members of the medical personnel and to chaplains of the armed forces of the Parties to the conflict, received or interned in their territory, as well as to dead persons found.

Article 5

For the protected persons who have fallen into the hands of the enemy, the present Convention shall apply until their final repatriation.

Article 6

In addition to the agreements expressly provided for in Articles 10, 15, 23, 28, 31, 36, 37 and 52, the High Contracting Parties may conclude other special agreements for all matters concerning which they may deem it suitable to make separate provision. No special agreement shall adversely affect the situation of the wounded and sick, of members of the medical personnel or of chaplains, as defined by the present Convention, nor restrict the rights which it confers upon them.

Wounded and sick, as well as medical personnel and chaplains, shall continue to have the benefit of such agreements as long as the Convention is applicable to them, except where express provisions to the contrary are contained in the aforesaid or in subsequent agreements, or where more favourable measures have been taken with regard to them by one or other of the Parties to the conflict.

Article 7

Wounded and sick, as well as members of the medical personnel and chaplains, may in no circumstances renounce in part or in entirety the rights secured to them by the present Convention, and by the special agreements referred to in the foregoing Article, if such there be.

Article 8

The present Convention shall be applied with the cooperation and under the scrutiny of the Protecting Powers whose duty it is to safeguard the interests of the Parties to the conflict. For this purpose, the Protecting Powers may appoint, apart from their diplomatic or consular staff, delegates from amongst their own nationals or the nationals of other neutral Powers. The said delegates shall be subject to the approval of the Power with which they are to carry out their duties.

The Parties to the conflict shall facilitate, to the greatest extent possible, the task of the representatives or delegates of the Protecting Powers.

The representatives or delegates of the Protecting Powers shall not in any case exceed their mission under the present Convention. They shall, in particular, take account of the imperative necessities of security of the State wherein they carry out their duties. Their activities shall only be restricted, as an exceptional and temporary measure, when this is rendered necessary by imperative military necessities.

Article 9

The provisions of the present Convention constitute no obstacle to the humanitarian activities which the International Committee of the Red Cross or any other impartial humanitarian organization may, subject to the consent of the Parties to the conflict concerned, undertake for the protection of wounded and sick, medical personnel and chaplains, and for their relief.

Article 10

The High Contracting Parties may at any time agree to entrust to an organization which offers all guarantees of impartiality and efficacy the duties incumbent on the Protecting Powers by virtue of the present Convention.

When wounded and sick, or medical personnel and chaplains do not benefit or cease to benefit, no matter for what reason, by the activities of a Protecting Power or of an organization provided for in the first paragraph above, the Detaining Power shall request a neutral State, or such an organization, to undertake the functions performed under the present Convention by a Protecting Power designated by the Parties to a conflict.

If protection cannot be arranged accordingly, the Detaining Power shall request or shall accept, subject to the provisions of this Article, the offer of the services of a humanitarian organization, such as the International Committee of the Red Cross, to assume the humanitarian functions performed by Protecting Powers under the present Convention.

Any neutral Power, or any organization invited by the Power concerned or offering itself for these purposes, shall be required to act with a sense of responsibility towards the Party to the conflict on which persons protected by the present Convention depend, and shall be required to furnish sufficient assurances that it is in a position to undertake the appropriate functions and to discharge them impartially.

No derogation from the preceding provisions shall be made by special agreements between Powers one of which is restricted, even temporarily, in its freedom to negotiate with the other Power or its allies by reason of military events, more particularly where the whole, or a substantial part, of the territory of the said Power is occupied.

Whenever in the present Convention mention is made of a Protecting Power, such mention also applies to substitute organizations in the sense of the present Article.

Article 11

In cases where they deem it advisable in the interest of protected persons, particularly in cases of disagreement between the Parties to the conflict as to the application or interpretation of the provisions of the present Convention, the Protecting Powers shall lend their good offices with a view to settling the disagreement.

For this purpose, each of the Protecting Powers may, either at the invitation of one Party or on its own initiative, propose to the Parties to the conflict a meeting of their representatives, in particular of the authorities responsible for the wounded and sick, members of medical personnel and chaplains, possibly on neutral territory suitably chosen. The Parties to the conflict shall be bound to give effect to the proposals made to them for this purpose. The Protecting Powers may, if necessary, propose for approval by the Parties to the conflict a person belonging to a neutral Power or delegated by the International Committee of the Red Cross, who shall be invited to take part in such a meeting.

CHAPTER II. WOUNDED AND SICK

Article 12

Members of the armed forces and other persons mentioned in the following Article, who are wounded or sick, shall be respected and protected in all circumstances.

They shall be treated humanely and cared for by the Party to the conflict in whose power they may be, without any adverse distinction founded on sex, race, nationality, religion, political opinions, or any other similar criteria. Any attempts upon their lives, or violence to their persons, shall be strictly prohibited; in particular, they shall not be murdered or exterminated, subjected to torture or to biological experiments; they shall not wilfully be left without medical assistance and care, nor shall conditions exposing them to contagion or infection be created.

Only urgent medical reasons will authorize priority in the order of treatment to be administered.

Women shall be treated with all consideration due to their sex.

The Party to the conflict which is compelled to abandon wounded or sick to the enemy shall, as far as military considerations permit, leave with them a part of its medical personnel and material to assist in their care.

Article 13

The Present Convention shall apply to the wounded persons and sick belonging to the following categories:

1) Members of the armed forces of a Party to the conflict as well as members of militias or volunteer corps forming part of such armed forces.

2) Members of other militias and members of other volunteer corps, including those of organized resistance movements, belonging to a Party to the conflict and operating in or outside their own territory, even if this territory is occupied, provided that such militias or volunteer corps, including such organized resistance movements, fulfil the following conditions:

- (a) that of being commanded by a person responsible for his subordinates;
- (b) that of having a fixed distinctive sign recognizable at a distance;
- (c) that of carrying arms openly;
- (d) that of conducting their operations in accordance with the laws and customs of war.

3) Members of regular armed forces who profess allegiance to a Government or an authority not recognized by the Detaining Power.

4) Persons who accompany the armed forces without actually being members thereof, such as civilian members of military aircraft crews, war correspondents, supply contractors, members of labour units or of services responsible for the welfare of the armed forces, provided that they have received authorization from the armed forces which they accompany.

5) Members of crews including masters, pilots and apprentices of the merchant marine and the crews of civil aircraft of the Parties to the conflict, who do not benefit by more favourable treatment under any other provisions in international law.

6) Inhabitants of a non-occupied territory who, on the approach of the enemy, spontaneously take up arms to resist the invading forces, without having had time to form themselves into regular armed units, provided they carry arms openly and respect the laws and customs of war.

Article 14

Subject to the provisions of Article 12, the wounded and sick of a belligerent who fall into enemy hands shall be prisoners of war, and the provisions of international law concerning prisoners of war shall apply to them.

Article 15

At all times, and particularly after an engagement, Parties to the conflict shall, without delay, take all possible measures to search for and collect the wounded and sick, to protect them against pillage and ill-treatment, to ensure their adequate care, and to search for the dead and prevent their being despoiled.

Whenever circumstances permit, an armistice or a suspension of fire shall be arranged, or local arrangements made, to permit the removal, exchange and transport of the wounded left on the battlefield.

Likewise, local arrangements may be concluded between Parties to the conflict for the removal or exchange of wounded and sick from a besieged or encircled area, and for the passage of medical and religious personnel and equipment on their way to that area.

Article 16

Parties to the conflict shall record as soon as possible, in respect of each wounded, sick or dead person of the adverse Party falling into their hands, any particulars which may assist in his identification.

These records should if possible include:

- (a) designation of the Power on which he depends;
- (b) army, regimental, personal or serial number;
- (c) surname;
- (d) first name or names;
- (e) date of birth;
- (f) any other particulars shown on his identity card or disc;
- (g) date and place of capture or death;
- (h) particulars concerning wounds or illness, or cause of death.

As soon as possible the above mentioned information shall be forwarded to the Information Bureau described in Article 122 of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949, which shall transmit this information to the Power on which these persons depend through the intermediary of the Protecting Power and of the Central Prisoners of War Agency.

Parties to the conflict shall prepare and forward to each other through the same bureau, certificates of death or duly authenticated lists of the dead. They shall likewise collect and forward through the same bureau one half of a double identity disc, last wills or other documents of importance to the next of kin, money and in general all articles of an intrinsic or sentimental value, which are found on the dead. These articles, together with unidentified articles, shall be sent in sealed packets, accompanied by statements giving all particulars necessary for the identification of the deceased owners, as well as by a complete list of the contents of the parcel.

Article 17

Parties to the conflict shall ensure that burial or cremation of the dead, carried out individually as far as circumstances permit, is preceded by a careful examination, if possible by a medical examination, of the bodies, with a view to confirming death, establishing identity and enabling a report to be made. One half of the double identity disc, or the identity disc itself if it is a single disc, should remain on the body.

Bodies shall not be cremated except for imperative reasons of hygiene or for motives based on the religion of the deceased. In case of cremation, the circumstances and reasons for cremation shall be stated in detail in the death certificate or on the authenticated list of the dead.

They shall further ensure that the dead are honourably interred, if possible according to the rites of the religion to which they belonged, that their graves are respected, grouped if possible according to the nationality of the deceased, properly maintained and marked so that they may always be found. For this purpose, they shall organize at the commencement of hostilities an Official Graves Registration Service, to allow subsequent exhumations and to ensure the identification of bodies, whatever the site of the graves, and the possible transportation to the home country. These

provisions shall likewise apply to the ashes, which shall be kept by the Graves Registration Service until proper disposal thereof in accordance with the wishes of the home country.

As soon as circumstances permit, and at latest at the end of hostilities, these Services shall exchange, through the Information Bureau mentioned in the second paragraph of Article 16, lists showing the exact location and markings of the graves together with particulars of the dead interred therein.

Article 18

The military authorities may appeal to the charity of the inhabitants voluntarily to collect and care for, under their direction, the wounded and sick, granting persons who have responded to this appeal the necessary protection and facilities. Should the adverse Party take or retake control of the area, it shall likewise grant these persons the same protection and the same facilities.

The military authorities shall permit the inhabitants and relief societies, even in invaded or occupied areas, spontaneously to collect and care for wounded or sick of whatever nationality. The civilian population shall respect these wounded and sick, and in particular abstain from offering them violence.

No one may ever be molested or convicted for having nursed the wounded or sick.

The provisions of the present Article do not relieve the occupying Power of its obligation to give both physical and moral care to the wounded and sick.

CHAPTER III. MEDICAL UNITS AND ESTABLISHMENTS

Article 19

Fixed establishments and mobile medical units of the Medical Service may in no circumstances be attacked, but shall at all times be respected and protected by the Parties to the conflict.

Should they fall into the hands of the adverse Party, their personnel shall be free to pursue their duties, as long as the capturing Power has not itself ensured the necessary care of the wounded and sick found in such establishments and units.

The responsible authorities shall ensure that the said medical establishments and units are, as far as possible, situated in such a manner that attacks against military objectives cannot imperil their safety.

Article 20

Hospital ships entitled to the protection of the Geneva Convention for the Amelioration of the Condition of Wounded, Sick and Shipwrecked Members of Armed Forces at Sea of August 12, 1949, shall not be attacked from the land.

Article 21

The protection to which fixed establishments and mobile medical units of the Medical Service are entitled shall not cease unless they are used to commit, outside their humanitarian duties, acts harmful to the enemy. Protection may, however, cease only after a due warning has been given, naming, in all appropriate cases, a reasonable time limit and after such warning has remained unheeded.

Article 22

The following conditions shall not be considered as depriving a medical unit or establishment of the protection guaranteed by Article 19:

1. That the personnel of the unit or establishment are armed, and that they use the arms in their own defence, or in that of the wounded and sick in their charge.
2. That in the absence of armed orderlies, the unit or establishment is protected by a picket or by sentries or by an escort.

3. That small arms and ammunition taken from the wounded and sick and not yet handed to the proper service, are found in the unit or establishment.
4. That personnel and material of the veterinary service are found in the unit or establishment, without forming an integral part thereof.
5. That the humanitarian activities of medical units and establishments or of their personnel extend to the care of civilian wounded or sick.

Article 23

In time of peace, the High Contracting Parties and, after the outbreak of hostilities, the Parties to the conflict, may establish in their own territory and, if the need arises, in occupied areas, hospital zones and localities so organized as to protect the wounded and sick from the effects of war, as well as the personnel entrusted with the organization and administration of these zones and localities and with the care of the persons therein assembled.

Upon the outbreak and during the course of hostilities, the Parties concerned may conclude agreements on mutual recognition of the hospital zones and localities they have created. They may for this purpose implement the provisions of the Draft Agreement annexed to the present Convention, with such amendments as they may consider necessary.

The Protecting Powers and the International Committee of the Red Cross are invited to lend their good offices in order to facilitate the institution and recognition of these hospital zones and localities.

CHAPTER IV. PERSONNEL

Article 24

Medical personnel exclusively engaged in the search for, or the collection, transport or treatment of the wounded or sick, or in the prevention of disease, staff exclusively engaged in the administration of medical units and establishments, as well as chaplains attached to the armed forces, shall be respected and protected in all circumstances.

Article 25

Members of the armed forces specially trained for employment, should the need arise, as hospital orderlies, nurses or auxiliary stretcher-bearers, in the search for or the collection, transport or treatment of the wounded and sick shall likewise be respected and protected if they are carrying out these duties at the time when they come into contact with the enemy or fall into his hands.

Article 26

The staff of National Red Cross Societies and that of other Voluntary Aid Societies, duly recognized and authorized by their Governments, who may be employed on the same duties as the personnel named in Article 24, are placed on the same footing as the personnel named in the said Article, provided that the staff of such societies are subject to military laws and regulations.

Each High Contracting Party shall notify to the other, either in time of peace or at the commencement of or during hostilities, but in any case before actually employing them, the names of the societies which it has authorized, under its responsibility, to render assistance to the regular medical service of its armed forces.

Article 27

A recognized Society of a neutral country can only lend the assistance of its medical personnel and units to a Party to the conflict with the previous consent of its own Government and the authorization of the Party to the conflict concerned. That personnel and those units shall be placed under the control of that Party to the conflict.

The neutral Government shall notify this consent to the adversary of the State which accepts such assistance. The Party to the conflict who accepts such assistance is bound to notify the adverse Party thereof before making any use of it.

In no circumstances shall this assistance be considered as interference in the conflict.

The members of the personnel named in the first paragraph shall be duly furnished with the identity cards provided for in Article 40 before leaving the neutral country to which they belong.

Article 28

Personnel designated in Articles 24 and 26 who fall into the hands of the adverse Party, shall be retained only in so far as the state of health, the spiritual needs and the number of prisoners of war require.

Personnel thus retained shall not be deemed prisoners of war. Nevertheless they shall at least benefit by all the provisions of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949. Within the framework of the military laws and regulations of the Detaining Power, and under the authority of its competent service, they shall continue to carry out, in accordance with their professional ethics, their medical and spiritual duties on behalf of prisoners of war, preferably those of the armed forces to which they themselves belong. They shall further enjoy the following facilities for carrying out their medical or spiritual duties:

(a) They shall be authorized to visit periodically the prisoners of war in labour units or hospitals outside the camp. The Detaining Power shall put at their disposal the means of transport required.

(b) In each camp the senior medical officer of the highest rank shall be responsible to the military authorities of the camp for the professional activity of the retained medical personnel. For this purpose, from the outbreak of hostilities, the Parties to the conflict shall agree regarding the corresponding seniority of the ranks of their medical personnel, including those of the societies designated in Article 26. In all questions arising out of their duties, this medical officer, and the chaplains, shall have direct access to the military and medical authorities of the camp who shall grant them the facilities they may require for correspondence relating to these questions.

(c) Although retained personnel in a camp shall be subject to its internal discipline, they shall not, however, be required to perform any work outside their medical or religious duties.

During hostilities the Parties to the conflict shall make arrangements for relieving where possible retained personnel, and shall settle the procedure of such relief.

None of the preceding provisions shall relieve the Detaining Power of the obligations imposed upon it with regard to the medical and spiritual welfare of the prisoners of war.

Article 29

Members of the personnel designated in Article 25 who have fallen into the hands of the enemy, shall be prisoners of war, but shall be employed on their medical duties in so far as the need arises.

Article 30

Personnel whose retention is not indispensable by virtue of the provisions of Article 28 shall be returned to the Party to the conflict to whom they belong, as soon as a road is open for their return and military requirements permit.

Pending their return, they shall not be deemed prisoners of war. Nevertheless they shall at least benefit by all the provisions of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949. They shall continue to fulfil their duties under the orders of the adverse Party and shall preferably be engaged in the care of the wounded and sick of the Party to the conflict to which they themselves belong.

On their departure, they shall take with them the effects, personal belongings, valuables and instruments belonging to them.

Article 31

The selection of personnel for return under Article 30 shall be made irrespective of any consideration of race, religion or political opinion, but preferably according to the chronological order of their capture and their state of health.

As from the outbreak of hostilities, Parties to the conflict may determine by special agreement the percentage of personnel to be retained, in proportion to the number of prisoners and the distribution of the said personnel in the camps.

Article 32

Persons designated in Article 27 who have fallen into the hands of the adverse Party may not be detained.

Unless otherwise agreed, they shall have permission to return to their country, or if this is not possible, to the territory of the Party to the conflict in whose service they were, as soon as a route for their return is open and military considerations permit.

Pending their release, they shall continue their work under the direction of the adverse Party; they shall preferably be engaged in the care of the wounded and sick of the Party to the conflict in whose service they were.

On their departure, they shall take with them their effects, personal articles and valuables and the instruments, arms and if possible the means of transport belonging to them.

The Parties to the conflict shall secure to this personnel, while in their power, the same food, lodging, allowances and pay as are granted to the corresponding personnel of their armed forces. The food shall in any case be sufficient as regards quantity, quality and variety to keep the said personnel in a normal state of health.

CHAPTER V. BUILDINGS AND MATERIAL

Article 33

The material of mobile medical units of the armed forces which fall into the hands of the enemy, shall be reserved for the care of wounded and sick.

The buildings, material and stores of fixed medical establishments of the armed forces shall remain subject to the laws of war, but may not be diverted from that purpose as long as they are required for the care of wounded and sick. Nevertheless, the commanders of forces in the field may make use of them, in case of urgent military necessity, provided that they make previous arrangements for the welfare of the wounded and sick who are nursed in them.

The material and stores defined in the present Article shall not be intentionally destroyed.

Article 34

The real and personal property of aid societies which are admitted to the privileges of the Convention shall be regarded as private property.

The right of requisition recognized for belligerents by the laws and customs of war shall not be exercised except in case of urgent necessity, and only after the welfare of the wounded and sick has been ensured.

CHAPTER VI. MEDICAL TRANSPORTS**Article 35**

Transports of wounded and sick or of medical equipment shall be respected and protected in the same way as mobile medical units.

Should such transports or vehicles fall into the hands of the adverse Party, they shall be subject to the laws of war, on condition that the Party to the conflict who captures them shall in all cases ensure the care of the wounded and sick they contain.

The civilian personnel and all means of transport obtained by requisition shall be subject to the general rules of international law.

Article 36

Medical aircraft, that is to say, aircraft exclusively employed for the removal of wounded and sick and for the transport of medical personnel and equipment, shall not be attacked, but shall be respected by the belligerents, while flying at heights, times and on routes specifically agreed upon between the belligerents concerned.

They shall bear, clearly marked, the distinctive emblem prescribed in Article 38, together with their national colours, on their lower, upper and lateral surfaces. They shall be provided with any other markings or means of identification that may be agreed upon between the belligerents upon the outbreak or during the course of hostilities.

Unless agreed otherwise, flights over enemy or enemy-occupied territory are prohibited.

Medical aircraft shall obey every summons to land. In the event of a landing thus imposed, the aircraft with its occupants may continue its flight after examination, if any.

In the event of an involuntary landing in enemy or enemy-occupied territory, the wounded and sick, as well as the crew of the aircraft shall be prisoners of war. The medical personnel shall be treated according to Article 24 and the Articles following.

Article 37

Subject to the provisions of the second paragraph, medical aircraft of Parties to the conflict may fly over the territory of neutral Powers, land on it in case of necessity, or use it as a port of call. They shall give the neutral Powers previous notice of their passage over the said territory and obey all summons to alight, on land or water. They will be immune from attack only when flying on routes, at heights and at times specifically agreed upon between the Parties to the conflict and the neutral Power concerned.

The neutral Powers may, however, place conditions or restrictions on the passage or landing of medical aircraft on their territory. Such possible conditions or restrictions shall be applied equally to all Parties to the conflict.

Unless agreed otherwise between the neutral Power and the Parties to the conflict, the wounded and sick who are disembarked, with the consent of the local authorities, on neutral territory by medical aircraft, shall be detained by the neutral Power, where so required by international law, in such a manner that they cannot again take part in operations of war. The cost of their accommodation and internment shall be borne by the Power on which they depend.

CHAPTER VII. THE DISTINCTIVE EMBLEM**Article 38**

As a compliment to Switzerland, the heraldic emblem of the red cross on a white ground, formed by reversing the Federal colours, is retained as the emblem and distinctive sign of the Medical Service of armed forces.

Nevertheless, in the case of countries which already use as emblem, in place of the red cross, the red crescent or the red lion and sun on a white ground, those emblems are also recognized by the terms of the present Convention.

Article 39

Under the direction of the competent military authority, the emblem shall be displayed on the flags, armlets and on all equipment employed in the Medical Service.

Article 40

The personnel designated in Article 24 and in Articles 26 and 27 shall wear, affixed to the left arm, a water-resistant armlet bearing the distinctive emblem, issued and stamped by the military authority.

Such personnel, in addition to wearing the identity disc mentioned in Article 16, shall also carry a special identity card bearing the distinctive emblem. This card shall be water-resistant and of such size that it can be carried in the pocket. It shall be worded in the national language, shall mention at least the surname and first names, the date of birth, the rank and the service number of the bearer, and shall state in what capacity he is entitled to the protection of the present Convention. The card shall bear the photograph of the owner and also either his signature or his finger-prints or both. It shall be embossed with the stamp of the military authority.

The identity card shall be uniform throughout the same armed forces and, as far as possible, of a similar type in the armed forces of the High Contracting Parties. The Parties to the conflict may be guided by the model which is annexed, by way of example, to the present Convention. They shall inform each other, at the outbreak of hostilities, of the model they are using. Identity cards should be made out, if possible, at least in duplicate, one copy being kept by the home country.

In no circumstances may the said personnel be deprived of their insignia or identity cards nor of the right to wear the armlet. In case of loss, they shall be entitled to receive duplicates of the cards and to have the insignia replaced.

Article 41

The personnel designated in Article 25 shall wear, but only while carrying out medical duties, a white armlet bearing in its centre the distinctive sign in miniature; the armlet shall be issued and stamped by the military authority.

Military identity documents to be carried by this type of personnel shall specify what special training they have received, the temporary character of the duties they are engaged upon, and their authority for wearing the armlet.

Article 42

The distinctive flag of the Convention shall be hoisted only over such medical units and establishments as are entitled to be respected under the Convention, and only with the consent of the military authorities.

In mobile units, as in fixed establishments, it may be accompanied by the national flag of the Party to the conflict to which the unit or establishment belongs.

Nevertheless, medical units which have fallen into the hands of the enemy shall not fly any flag other than that of the Convention.

Parties to the conflict shall take the necessary steps, in so far as military considerations permit, to make the distinctive emblems indicating medical units and establishments clearly visible to the enemy land, air or naval forces, in order to obviate the possibility of any hostile action.

Article 43

The medical units belonging to neutral countries, which may have been authorized to lend their services to a belligerent under the conditions laid down in Article 27, shall fly, along with the flag of the Convention, the national flag of that belligerent, wherever the latter makes use of the faculty conferred on him by Article 42.

Subject to orders to the contrary by the responsible military authorities, they may, on all occasions, fly their national flag, even if they fall into the hands of the adverse Party.

Article 44

With the exception of the cases mentioned in the following paragraphs of the present Article, the emblem of the red cross on a white ground and the words “Red Cross”, or “Geneva Cross” may not be employed, either in time of peace or in time of war, except to indicate or to protect the medical units and establishments, the personnel and material protected by the present Convention and other Conventions dealing with similar matters. The same shall apply to the emblems mentioned in Article 38, second paragraph, in respect of the countries which use them. The National Red Cross Societies and other Societies designated in Article 26 shall have the right to use the distinctive emblem conferring the protection of the Convention only within the framework of the present paragraph.

Furthermore, National Red Cross (Red Crescent, Red Lion and Sun) Societies may, in time of peace, in accordance with their national legislation, make use of the name and emblem of the Red Cross for their other activities which are in conformity with the principles laid down by the International Red Cross Conferences. When those activities are carried out in time of war, the conditions for the use of the emblem shall be such that it cannot be considered as conferring the protection of the Convention; the emblem shall be comparatively small in size and may not be placed on armlets or on the roofs of buildings.

The international Red Cross organizations and their duly authorized personnel shall be permitted to make use, at all times, of the emblem of the red cross on a white ground.

As an exceptional measure, in conformity with national legislation and with the express permission of one of the National Red Cross (Red Crescent, Red Lion and Sun) Societies, the emblem of the Convention may be employed in time of peace to identify vehicles used as ambulances and to mark the position of aid stations exclusively assigned to the purpose of giving free treatment to the wounded or sick.

CHAPTER VIII. EXECUTION OF THE CONVENTION**Article 45**

Each Party to the conflict, acting through its commanders-in-chief, shall ensure the detailed execution of the preceding Articles, and provide for unforeseen cases, in conformity with the general principles of the present Convention.

Article 46

Reprisals against the wounded, sick, personnel, buildings or equipment protected by the Convention are prohibited.

Article 47

The High Contracting Parties undertake, in time of peace as in time of war, to disseminate the text of the present Convention as widely as possible in their respective countries, and, in particular, to include the study thereof in their programmes of military and, if possible, civil instruction, so that the principles thereof may become known to the entire population, in particular to the armed fighting forces, the medical personnel and the chaplains.

Article 48

The High Contracting Parties shall communicate to one another through the Swiss Federal Council and, during hostilities, through the Protecting Powers, the official translations of the present Convention, as well as the laws and regulations which they may adopt to ensure the application thereof.

CHAPTER IX. REPRESSION OF ABUSES AND INFRACTIONS**Article 49**

The High Contracting Parties undertake to enact any legislation necessary to provide effective penal sanctions for persons committing, or ordering to be committed, any of the grave breaches of the present Convention defined in the following Article.

Each High Contracting Party shall be under the obligation to search for persons alleged to have committed, or to have ordered to be committed, such grave breaches, and shall bring such persons, regardless of their nationality, before its own courts. It may also, if it prefers, and in accordance with the provisions of its own legislation, hand such persons over for trial to another High Contracting Party concerned, provided such High Contracting Party has made out a *prima facie* case.

Each High Contracting Party shall take measures necessary for the suppression of all acts contrary to the provisions of the present Convention other than the grave breaches defined in the following Article.

In all circumstances, the accused persons shall benefit by safeguards of proper trial and defence, which shall not be less favourable than those provided by Article 105 and those following of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949.

Article 50

Grave breaches to which the preceding Article relates shall be those involving any of the following acts, if committed against persons or property protected by the Convention: wilful killing, torture or inhuman treatment, including biological experiments, wilfully causing great suffering or serious injury to body or health, and extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly.

Article 51

No High Contracting Party shall be allowed to absolve itself or any other High Contracting Party of any liability incurred by itself or by another High Contracting Party in respect of breaches referred to in the preceding Article.

Article 52

At the request of a Party to the conflict, an enquiry shall be instituted, in a manner to be decided between the interested Parties, concerning any alleged violation of the Convention.

If agreement has not been reached concerning the procedure for the enquiry, the Parties should agree on the choice of an umpire who will decide upon the procedure to be followed.

Once the violation has been established, the Parties to the conflict shall put an end to it and shall repress it with the least possible delay.

Article 53

The use by individuals, societies, firms or companies either public or private, other than those entitled thereto under the present Convention, of the emblem or the designation "Red Cross" or "Geneva Cross", or any sign or designation constituting an imitation thereof, whatever the object of such use, and irrespective of the date of its adoption, shall be prohibited at all times.

By reason of the tribute paid to Switzerland by the adoption of the reversed Federal colours, and of the confusion which may arise between the arms of Switzerland and the distinctive emblem of the Convention, the use by private individuals, societies or firms, of the arms of the Swiss Confederation, or of marks constituting an imitation thereof, whether as trademarks or commercial marks, or as parts of such marks, or for a purpose contrary to commercial honesty, or in circumstances capable of wounding Swiss national sentiment, shall be prohibited at all times.

Nevertheless, such High Contracting Parties as were not party to the Geneva Convention of July 27, 1929, may grant to prior users of the emblems, designations, signs or marks designated in the first paragraph, a time limit not to exceed three years from the coming into force of the present Convention to discontinue such use, provided that the said use shall not be such as would appear, in time of war, to confer the protection of the Convention.

The prohibition laid down in the first paragraph of the present Article shall also apply, without effect on any rights acquired through prior use, to the emblems and marks mentioned in the second paragraph of Article 38.

Article 54

The High Contracting Parties shall, if their legislation is not already adequate, take measures necessary for the prevention and repression, at all times, of the abuses referred to under Article 53.

FINAL PROVISIONS

Article 55

The present Convention is established in English and in French. Both texts are equally authentic.

The Swiss Federal Council shall arrange for official translations of the Convention to be made in the Russian and Spanish languages.

Article 56

The present Convention, which bears the date of this day, is open to signature until February 12, 1950, in the name of the Powers represented at the Conference which opened at Geneva on April 21, 1949; furthermore, by Powers not represented at that Conference but which are parties to the Geneva Conventions of 1864, 1906 or 1929 for the Relief of the Wounded and Sick in Armies in the Field.

Article 57

The present Convention shall be ratified as soon as possible and the ratifications shall be deposited at Berne.

A record shall be drawn up of the deposit of each instrument of ratification and certified copies of this record shall be transmitted by the Swiss Federal Council to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 58

The present Convention shall come into force six months after not less than two instruments of ratification have been deposited.

Thereafter, it shall come into force for each High Contracting Party six months after the deposit of the instrument of ratification.

Article 59

The present Convention replaces the Conventions of August 22, 1864, July 6, 1906 and July 27, 1929, in relations between the High Contracting Parties.

Article 60

From the date of its coming into force, it shall be open to any Power in whose name the present Convention has not been signed, to accede to this Convention.

Article 61

Accessions shall be notified in writing to the Swiss Federal Council, and shall take effect six months after the date on which they are received.

The Swiss Federal Council shall communicate the accessions to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 62

The situations provided for in Articles 2 and 3 shall give immediate effect to ratifications deposited and accessions notified by the Parties to the conflict before or after the beginning of hostilities or occupation. The Swiss Federal Council shall communicate by the quickest method any ratifications or accessions received from Parties to the conflict.

Article 63

Each of the High Contracting Parties shall be at liberty to denounce the present Convention.

The denunciation shall be notified in writing to the Swiss Federal Council, which shall transmit it to the Governments of all the High Contracting Parties.

The denunciation shall take effect one year after the notification thereof has been made to the Swiss Federal Council. However, a denunciation of which notification has been made at a time when the denouncing Power is involved in a conflict shall not take effect until peace has been concluded, and until after operations connected with the release and repatriation of the persons protected by the present Convention have been terminated.

The denunciation shall have effect only in respect of the denouncing Power. It shall in no way impair the obligations which the Parties to the conflict shall remain bound to fulfil by virtue of the principles of the law of nations, as they result from the usages established among civilized peoples, from the laws of humanity and the dictates of the public conscience.

Article 64

The Swiss Federal Council shall register the present Convention with the Secretariat of the United Nations. The Swiss Federal Council shall also inform the Secretariat of the United Nations of all ratifications, accessions and denunciations received by it with respect to the present Convention.

In witness whereof the undersigned, having deposited their respective full powers, have signed the present Convention.

Done at Geneva this twelfth day of August 1949, in the English and French languages. The original shall be deposited in the Archives of the Swiss Confederation. The Swiss Federal Council shall transmit certified copies thereof to each of the signatory and acceding States.

ANNEX I**DRAFT AGREEMENT RELATING TO HOSPITAL ZONES AND LOCALITIES****Article 1**

Hospital zones shall be strictly reserved for the persons named in Article 23 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in the Armed Forces in the Field of August 12, 1949, and for the personnel entrusted with the organization and administration of these zones and localities, and with the care of the persons therein assembled.

Nevertheless, persons whose permanent residence is within such zones shall have the right to stay there.

Article 2

No persons residing, in whatever capacity, in a hospital zone shall perform any work, either within or without the zone, directly connected with military operations or the production of war material.

Article 3

The Power establishing a hospital zone shall take all necessary measures to prohibit access to all persons who have no right of residence or entry therein.

Article 4

Hospital zones shall fulfil the following conditions:

- (a) They shall comprise only a small part of the territory governed by the Power which has established them.
- (b) They shall be thinly populated in relation to the possibilities of accommodation.
- (c) They shall be far removed and free from all military objectives, or large industrial or administrative establishments.
- (d) They shall not be situated in areas which, according to every probability, may become important for the conduct of the war.

Article 5

Hospital zones shall be subject to the following obligations:

- (a) The lines of communication and means of transport which they possess shall not be used for the transport of military personnel or material, even in transit.
- (b) They shall in no case be defended by military means.

Article 6

Hospital zones shall be marked by means of red crosses (red crescents, red lions and suns) on a white background placed on the outer precincts and on the buildings. They may be similarly marked at night by means of appropriate illumination.

Article 7

The Powers shall communicate to all the High Contracting Parties in peacetime or on the outbreak of hostilities, a list of the hospital zones in the territories governed by them. They shall also give notice of any new zones set up during hostilities.

As soon as the adverse Party has received the above-mentioned notification, the zone shall be regularly constituted.

If, however, the adverse Party considers that the conditions of the present agreement have not been fulfilled, it may refuse to recognize the zone by giving immediate notice thereof to the Party responsible for the said zone, or may make its recognition of such zone dependent upon the institution of the control provided for in Article 8.

Article 8

Any Power having recognized one or several hospital zones instituted by the adverse Party shall be entitled to demand control by one or more Special Commissions, for the purpose of ascertaining if the zones fulfil the conditions and obligations stipulated in the present agreement.

For this purpose, the members of the Special Commissions shall at all times have free access to the various zones and may even reside there permanently. They shall be given all facilities for their duties of inspection.

Article 9

Should the Special Commissions note any facts which they consider contrary to the stipulations of the present agreement, they shall at once draw the attention of the Power governing the said zone to these facts, and shall fix a time limit of five days within which the matter should be rectified. They shall duly notify the Power who has recognized the zone.

If, when the time limit has expired, the Power governing the zone has not complied with the warning, the adverse Party may declare that it is no longer bound by the present agreement in respect of the said zone.

Article 10

Any Power setting up one or more hospital zones and localities, and the adverse Parties to whom their existence has been notified, shall nominate or have nominated by neutral Powers, the persons who shall be members of the Special Commissions mentioned in Articles 8 and 9.

Article 11

In no circumstances may hospital zones be the object of attack. They shall be protected and respected at all times by the Parties to the conflict.

Article 12

In the case of occupation of a territory, the hospital zones therein shall continue to be respected and utilized as such.

Their purpose may, however, be modified by the Occupying Power, on condition that all measures are taken to ensure the safety of the persons accommodated.

Article 13

The present agreement shall also apply to localities which the Powers may utilize for the same purposes as hospital zones.

69. GENEVA CONVENTION FOR THE AMELIORATION OF THE CONDITION OF WOUNDED, SICK AND SHIPWRECKED MEMBERS OF ARMED FORCES AT SEA

Done at Geneva on 12 August 1949

Entry into force: 21 October 1950

United Nations, *Treaty Series*, vol. 75, p. 85; Reg. No. 971

The undersigned Plenipotentiaries of the Governments represented at the Diplomatic Conference held at Geneva from April 21 to August 12, 1949, for the purpose of revising the Xth Hague Convention of October 18, 1907, for the Adaptation to Maritime Warfare of the Principles of the Geneva Convention of 1906, have agreed as follows:

CHAPTER I. GENERAL PROVISIONS

Article 1

The High Contracting Parties undertake to respect and to ensure respect for the present Convention in all circumstances.

Article 2

In addition to the provisions which shall be implemented in peacetime, the present Convention shall apply to all cases of declared war or of any other armed conflict which may arise between two or more of the High Contracting Parties, even if the state of war is not recognized by one of them.

The Convention shall also apply to all cases of partial or total occupation of the territory of a High Contracting Party, even if the said occupation meets with no armed resistance.

Although one of the Powers in conflict may not be a party to the present Convention, the Powers who are parties thereto shall remain bound by it in their mutual relations. They shall furthermore be bound by the Convention in relation to the said Power, if the latter accepts and applies the provisions thereof.

Article 3

In the case of armed conflict not of an international character occurring in the territory of one of the High Contracting Parties, each Party to the conflict shall be bound to apply, as a minimum, the following provisions:

1) Persons taking no active part in the hostilities, including members of armed forces who have laid down their arms and those placed *hors de combat* by sickness, wounds, detention, or any other cause, shall in all circumstances be treated humanely, without any adverse distinction founded on race, colour, religion or faith, sex, birth or wealth, or any other similar criteria.

To this end, the following acts are and shall remain prohibited at any time and in any place whatsoever with respect to the above-mentioned persons:

(a) violence to life and person, in particular murder of all kinds, mutilation, cruel treatment and torture;

(b) taking of hostages;

(c) outrages upon personal dignity, in particular, humiliating and degrading treatment;

(d) the passing of sentences and the carrying out of executions without previous judgment pronounced by a regularly constituted court, affording all the judicial guarantees which are recognized as indispensable by civilized peoples.

2) The wounded, sick and shipwrecked shall be collected and cared for.

An impartial humanitarian body, such as the International Committee of the Red Cross, may offer its services to the Parties to the conflict.

The Parties to the conflict should further endeavour to bring into force, by means of special agreements, all or part of the other provisions of the present Convention.

The application of the preceding provisions shall not affect the legal status of the Parties to the conflict.

Article 4

In case of hostilities between land and naval forces of Parties to the conflict, the provisions of the present Convention shall apply only to forces on board ship. Forces put ashore shall immediately become subject to the provisions of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949.

Article 5

Neutral Powers shall apply by analogy the provisions of the present Convention to the wounded, sick and shipwrecked, and to members of the medical personnel and to chaplains of the armed forces of the Parties to the conflict received or interned in their territory, as well as to dead persons found.

Article 6

In addition to the agreements expressly provided for in Articles 10, 18, 31, 38, 39, 40, 43 and 53, the High Contracting Parties may conclude other special agreements for all matters concerning which they may deem it suitable to make separate provision. No special agreement shall adversely affect the situation of wounded, sick and shipwrecked persons, of members of the medical personnel or of chaplains, as defined by the present Convention, nor restrict the rights which it confers upon them.

Wounded, sick, and shipwrecked persons, as well as medical personnel and chaplains, shall continue to have the benefit of such agreements as long as the Convention is applicable to them, except where express provisions to the contrary are contained in the aforesaid or in subsequent agreements, or where more favourable measures have been taken with regard to them by one or other of the Parties to the conflict.

Article 7

Wounded, sick and shipwrecked persons, as well as members of the medical personnel and chaplains, may in no circumstances renounce in part or in entirety the rights secured to them by the present Convention, and by the special agreements referred to in the foregoing Article, if such there be.

Article 8

The present Convention shall be applied with the cooperation and under the scrutiny of the Protecting Powers whose duty it is to safeguard the interests of the Parties to the conflict. For this purpose, the Protecting Powers may appoint, apart from their diplomatic or consular staff, delegates from amongst their own nationals or the nationals of other neutral Powers. The said delegates shall be subject to the approval of the Power with which they are to carry out their duties.

The Parties to the conflict shall facilitate to the greatest extent possible the task of the representatives or delegates of the Protecting Powers.

The representatives or delegates of the Protecting Powers shall not in any case exceed their mission under the present Convention. They shall, in particular, take account of the imperative necessities of security of the State wherein they carry out their duties. Their activities shall only be

restricted as an exceptional and temporary measure when this is rendered necessary by imperative military necessities.

Article 9

The provisions of the present Convention constitute no obstacle to the humanitarian activities which the International Committee of the Red Cross or any other impartial humanitarian organization may, subject to the consent of the Parties to the conflict concerned, undertake for the protection of wounded, sick and shipwrecked persons, medical personnel and chaplains, and for their relief.

Article 10

The High Contracting Parties may at any time agree to entrust to an organization which offers all guarantees of impartiality and efficacy the duties incumbent on the Protecting Powers by virtue of the present Convention.

When wounded, sick and shipwrecked, or medical personnel and chaplains do not benefit or cease to benefit, no matter for what reason, by the activities of a Protecting Power or of an organization provided for in the first paragraph above, the Detaining Power shall request a neutral State, or such an organization, to undertake the functions performed under the present Convention by a Protecting Power designated by the Parties to a conflict.

If protection cannot be arranged accordingly, the Detaining Power shall request or shall accept, subject to the provisions of this Article, the offer of the services of a humanitarian organization, such as the International Committee of the Red Cross, to assume the humanitarian functions performed by Protecting Powers under the present Convention.

Any neutral Power, or any organization invited by the Power concerned or offering itself for these purposes, shall be required to act with a sense of responsibility towards the Party to the conflict on which persons protected by the present Convention depend, and shall be required to furnish sufficient assurances that it is in a position to undertake the appropriate functions and to discharge them impartially.

No derogation from the preceding provisions shall be made by special agreements between Powers one of which is restricted, even temporarily, in its freedom to negotiate with the other Power or its allies by reason of military events, more particularly where the whole, or a substantial part, of the territory of the said Power is occupied.

Whenever, in the present Convention, mention is made of a Protecting Power, such mention also applies to substitute organizations in the sense of the present Article.

Article 11

In cases where they deem it advisable in the interest of protected persons, particularly in cases of disagreement between the Parties to the conflict as to the application or interpretation of the provisions of the present Convention, the Protecting Powers shall lend their good offices with a view to settling the disagreement.

For this purpose, each of the Protecting Powers may, either at the invitation of one Party or on its own initiative, propose to the Parties to the conflict a meeting of their representatives, in particular of the authorities responsible for the wounded, sick and shipwrecked, medical personnel and chaplains, possibly on neutral territory suitably chosen. The Parties to the conflict shall be bound to give effect to the proposals made to them for this purpose. The Protecting Powers may, if necessary, propose for approval by the Parties to the conflict, a person belonging to a neutral Power or delegated by the International Committee of the Red Cross, who shall be invited to take part in such a meeting.

CHAPTER II. WOUNDED, SICK AND SHIPWRECKED

Article 12

Members of the armed forces and other persons mentioned in the following Article, who are at sea and who are wounded, sick or shipwrecked, shall be respected and protected in all circumstances, it being understood that the term “shipwreck” means shipwreck from any cause and includes forced landings at sea by or from aircraft.

Such persons shall be treated humanely and cared for by the Parties to the conflict in whose power they may be, without any adverse distinction founded on sex, race, nationality, religion, political opinions, or any other similar criteria. Any attempts upon their lives, or violence to their persons, shall be strictly prohibited; in particular, they shall not be murdered or exterminated, subjected to torture or to biological experiments; they shall not wilfully be left without medical assistance and care, nor shall conditions exposing them to contagion or infection be created.

Only urgent medical reasons will authorize priority in the order of treatment to be administered.

Women shall be treated with all consideration due to their sex.

Article 13

The present Convention shall apply to the wounded, sick and shipwrecked at sea belonging to the following categories:

1) Members of the armed forces of a Party to the conflict, as well as members of militias or volunteer corps forming part of such armed forces.

2) Members of other militias and members of other volunteer corps, including those of organized resistance movements, belonging to a Party to the conflict and operating in or outside their own territory, even if this territory is occupied, provided that such militias or volunteer corps, including such organized resistance movements, fulfil the following conditions:

- (a) that of being commanded by a person responsible for his subordinates;
- (b) that of having a fixed distinctive sign recognizable at a distance;
- (c) that of carrying arms openly;
- (d) that of conducting their operations in accordance with the laws and customs of war.

3) Members of regular armed forces who profess allegiance to a Government or an authority not recognized by the Detaining Power.

4) Persons who accompany the armed forces without actually being members thereof, such as civilian members of military aircraft crews, war correspondents, supply contractors, members of labour units or of services responsible for the welfare of the armed forces, provided that they have received authorization from the armed forces which they accompany.

5) Members of crews, including masters, pilots and apprentices of the merchant marine and the crews of civil aircraft of the Parties to the conflict, who do not benefit by more favourable treatment under any other provisions of international law.

6) Inhabitants of a non-occupied territory who, on the approach of the enemy, spontaneously take up arms to resist the invading forces, without having had time to form themselves into regular armed units, provided they carry arms openly and respect the laws and customs of war.

Article 14

All warships of a belligerent Party shall have the right to demand that the wounded, sick or shipwrecked on board military hospital ships, and hospital ships belonging to relief societies or to private individuals, as well as merchant vessels, yachts and other craft shall be surrendered, whatever their nationality, provided that the wounded and sick are in a fit state to be moved and that the warship can provide adequate facilities for necessary medical treatment.

Article 15

If wounded, sick or shipwrecked persons are taken on board a neutral warship or a neutral military aircraft, it shall be ensured, where so required by international law, that they can take no further part in operations of war.

Article 16

Subject to the provisions of Article 12, the wounded, sick and shipwrecked of a belligerent who fall into enemy hands shall be prisoners of war, and the provisions of international law concerning prisoners of war shall apply to them. The captor may decide, according to circumstances, whether it is expedient to hold them, or to convey them to a port in the captor's own country, to a neutral port or even to a port in enemy territory. In the last case, prisoners of war thus returned to their home country may not serve for the duration of the war.

Article 17

Wounded, sick or shipwrecked persons who are landed in neutral ports with the consent of the local authorities, shall, failing arrangements to the contrary between the neutral and the belligerent Powers, be so guarded by the neutral Power, where so required by international law, that the said persons cannot again take part in operations of war.

The costs of hospital accommodation and internment shall be borne by the Power on whom the wounded, sick or shipwrecked persons depend.

Article 18

After each engagement, Parties to the conflict shall, without delay, take all possible measures to search for and collect the shipwrecked, wounded and sick, to protect them against pillage and ill-treatment, to ensure their adequate care, and to search for the dead and prevent their being despoiled.

Whenever circumstances permit, the Parties to the conflict shall conclude local arrangements for the removal of the wounded and sick by sea from a besieged or encircled area and for the passage of medical and religious personnel and equipment on their way to that area.

Article 19

The Parties to the conflict shall record as soon as possible, in respect of each shipwrecked, wounded, sick or dead person of the adverse Party falling into their hands, any particulars which may assist in his identification. These records should if possible include:

- (a) designation of the Power on which he depends;
- (b) army, regimental, personal or serial number;
- (c) surname;
- (d) first name or names;
- (e) date of birth;
- (f) any other particulars shown on his identity card or disc;
- (g) date and place of capture or death;
- (h) particulars concerning wounds or illness, or cause of death.

As soon as possible the above-mentioned information shall be forwarded to the Information Bureau described in Article 122 of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949, which shall transmit this information to the Power on which these persons depend through the intermediary of the Protecting Power and of the Central Prisoners of War Agency.

Parties to the conflict shall prepare and forward to each other through the same bureau, certificates of death or duly authenticated lists of the dead. They shall likewise collect and forward through the same bureau one half of the double identity disc, or the identity disc itself if it is a single disc, last wills or other documents of importance to the next of kin, money and in general all articles of an intrinsic or sentimental value, which are found on the dead. These articles together with unidentified articles, shall be sent in sealed packets, accompanied by statements giving all particulars necessary for the identification of the deceased owners, as well as by a complete list of the contents of the parcel.

Article 20

Parties to the conflict shall ensure that burial at sea of the dead, carried out individually as far as circumstances permit, is preceded by a careful examination, if possible by a medical examination, of the bodies, with a view to confirming death, establishing identity and enabling a report to be made. Where a double identity disc is used, one half of the disc should remain on the body.

If dead persons are landed, the provisions of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949, shall be applicable.

Article 21

The Parties to the conflict may appeal to the charity of commanders of neutral merchant vessels, yachts or other craft, to take on board and care for wounded, sick or shipwrecked persons, and to collect the dead.

Vessels of any kind responding to this appeal, and those having of their own accord collected wounded, sick or shipwrecked persons, shall enjoy special protection and facilities to carry out such assistance.

They may, in no case, be captured on account of any such transport; but, in the absence of any promise to the contrary, they shall remain liable to capture for any violations of neutrality they may have committed.

CHAPTER III. HOSPITAL SHIPS

Article 22

Military hospital ships, that is to say, ships built or equipped by the Powers specially and solely with a view to assisting the wounded, sick and shipwrecked, to treating them and to transporting them, may in no circumstances be attacked or captured, but shall at all times be respected and protected, on condition that their names and descriptions have been notified to the Parties to the conflict ten days before those ships are employed.

The characteristics which must appear in the notification shall include registered gross tonnage, the length from stem to stern and the number of masts and funnels.

Article 23

Establishments ashore entitled to the protection of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949, shall be protected from bombardment or attack from the sea.

Article 24

Hospital ships utilized by National Red Cross Societies, by officially recognized relief societies or by private persons shall have the same protection as military hospital ships and shall be exempt from capture, if the Party to the conflict on which they depend has given them an official commission and in so far as the provisions of Article 22 concerning notification have been complied with.

These ships must be provided with certificates from the responsible authorities, stating that the vessels have been under their control while fitting out and on departure.

Article 25

Hospital ships utilized by National Red Cross Societies, officially recognized relief societies, or private persons of neutral countries shall have the same protection as military hospital ships and shall be exempt from capture, on condition that they have placed themselves under the control of one of the Parties to the conflict, with the previous consent of their own governments and with the authorization of the Party to the conflict concerned, in so far as the provisions of Article 22 concerning notification have been complied with.

Article 26

The protection mentioned in Articles 22, 24 and 25 shall apply to hospital ships of any tonnage and to their lifeboats, wherever they are operating. Nevertheless, to ensure the maximum comfort and security, the Parties to the conflict shall endeavour to utilize, for the transport of wounded, sick and shipwrecked over long distances and on the high seas, only hospital ships of over 2,000 tons gross.

Article 27

Under the same conditions as those provided for in Articles 22 and 24, small craft employed by the State or by the officially recognized lifeboat institutions for coastal rescue operations, shall also be respected and protected, so far as operational requirements permit.

The same shall apply so far as possible to fixed coastal installations used exclusively by these craft for their humanitarian missions.

Article 28

Should fighting occur on board a warship, the sick-bays shall be respected and spared as far as possible. Sick-bays and their equipment shall remain subject to the laws of warfare, but may not be diverted from their purpose so long as they are required for the wounded and sick. Nevertheless, the commander into whose power they have fallen may, after ensuring the proper care of the wounded and sick who are accommodated therein, apply them to other purposes in case of urgent military necessity.

Article 29

Any hospital ship in a port which falls into the hands of the enemy shall be authorized to leave the said port.

Article 30

The vessels described in Articles 22, 24, 25 and 27 shall afford relief and assistance to the wounded, sick and shipwrecked without distinction of nationality.

The High Contracting Parties undertake not to use these vessels for any military purpose.

Such vessels shall in no wise hamper the movements of the combatants.

During and after an engagement, they will act at their own risk.

Article 31

The Parties to the conflict shall have the right to control and search the vessels mentioned in Articles 22, 24, 25 and 27. They can refuse assistance from these vessels, order them off, make them take a certain course, control the use of their wireless and other means of communication, and even

detain them for a period not exceeding seven days from the time of interception, if the gravity of the circumstances so requires.

They may put a commissioner temporarily on board whose sole task shall be to see that orders given in virtue of the provisions of the preceding paragraph are carried out.

As far as possible, the Parties to the conflict shall enter in the log of the hospital ship, in a language he can understand, the orders they have given the captain of the vessel.

Parties to the conflict may, either unilaterally or by particular agreements, put on board their ships neutral observers who shall verify the strict observation of the provisions contained in the present Convention.

Article 32

Vessels described in Articles 22, 24, 25 and 27 are not classed as warships as regards their stay in a neutral port.

Article 33

Merchant vessels which have been transformed into hospital ships cannot be put to any other use throughout the duration of hostilities.

Article 34

The protection to which hospital ships and sick-bays are entitled shall not cease unless they are used to commit, outside their humanitarian duties, acts harmful to the enemy. Protection may, however, cease only after due warning has been given, naming in all appropriate cases a reasonable time limit, and after such warning has remained unheeded.

In particular, hospital ships may not possess or use a secret code for their wireless or other means of communication.

Article 35

The following conditions shall not be considered as depriving hospital ships or sick-bays of vessels of the protection due to them:

- 1) The fact that the crews of ships or sick-bays are armed for the maintenance of order, for their own defence or that of the sick and wounded.
- 2) The presence on board of apparatus exclusively intended to facilitate navigation or communication.
- 3) The discovery on board hospital ships or in sick-bays of portable arms and ammunition taken from the wounded, sick and shipwrecked and not yet handed to the proper service.
- 4) The fact that the humanitarian activities of hospital ships and sick-bays of vessels or of the crews extend to the care of wounded, sick or shipwrecked civilians.
- 5) The transport of equipment and of personnel intended exclusively for medical duties, over and above the normal requirements.

CHAPTER IV. PERSONNEL

Article 36

The religious, medical and hospital personnel of hospital ships and their crews shall be respected and protected; they may not be captured during the time they are in the service of the hospital ship, whether or not there are wounded and sick on board.

Article 37

The religious, medical and hospital personnel assigned to the medical or spiritual care of the persons designated in Articles 12 and 13 shall, if they fall into the hands of the enemy, be respected and protected; they may continue to carry out their duties as long as this is necessary for the care of the wounded and sick. They shall afterwards be sent back as soon as the Commander-in-Chief, under whose authority they are, considers it practicable. They may take with them, on leaving the ship, their personal property.

If, however, it proves necessary to retain some of this personnel owing to the medical or spiritual needs of prisoners of war, everything possible shall be done for their earliest possible landing.

Retained personnel shall be subject, on landing, to the provisions of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949.

CHAPTER V. MEDICAL TRANSPORTS**Article 38**

Ships chartered for that purpose shall be authorized to transport equipment exclusively intended for the treatment of wounded and sick members of armed forces or for the prevention of disease, provided that the particulars regarding their voyage have been notified to the adverse Power and approved by the latter. The adverse Power shall preserve the right to board the carrier ships, but not to capture them or to seize the equipment carried.

By agreement amongst the Parties to the conflict, neutral observers may be placed on board such ships to verify the equipment carried. For this purpose, free access to the equipment shall be given.

Article 39

Medical aircraft, that is to say, aircraft exclusively employed for the removal of wounded, sick and shipwrecked, and for the transport of medical personnel and equipment, may not be the object of attack, but shall be respected by the Parties to the conflict, while flying at heights, at times and on routes specifically agreed upon between the Parties to the conflict concerned.

They shall be clearly marked with the distinctive emblem prescribed in Article 41, together with their national colours, on their lower, upper and lateral surfaces. They shall be provided with any other markings or means of identification which may be agreed upon between the Parties to the conflict upon the outbreak or during the course of hostilities.

Unless agreed otherwise, flights over enemy or enemy-occupied territory are prohibited.

Medical aircraft shall obey every summons to alight on land or water. In the event of having thus to alight, the aircraft with its occupants may continue its flight after examination, if any.

In the event of alighting involuntarily on land or water in enemy or enemy-occupied territory, the wounded, sick and shipwrecked, as well as the crew of the aircraft shall be prisoners of war. The medical personnel shall be treated according to Articles 36 and 37.

Article 40

Subject to the provisions of the second paragraph, medical aircraft of Parties to the conflict may fly over the territory of neutral Powers, land thereon in case of necessity, or use it as a port of call. They shall give neutral Powers prior notice of their passage over the said territory, and obey every summons to alight, on land or water. They will be immune from attack only when flying on routes, at heights and at times specifically agreed upon between the Parties to the conflict and the neutral Power concerned.

The neutral Powers may, however, place conditions or restrictions on the passage or landing of medical aircraft on their territory. Such possible conditions or restrictions shall be applied equally to all Parties to the conflict.

Unless otherwise agreed between the neutral Powers and the Parties to the conflict, the wounded, sick or shipwrecked who are disembarked with the consent of the local authorities on neutral territory by medical aircraft shall be detained by the neutral Power, where so required by international law, in such a manner that they cannot again take part in operations of war. The cost of their accommodation and internment shall be borne by the Power on which they depend.

CHAPTER VI. THE DISTINCTIVE EMBLEM

Article 41

Under the direction of the competent military authority, the emblem of the red cross on a white ground shall be displayed on the flags, armlets and on all equipment employed in the Medical Service.

Nevertheless, in the case of countries which already use as emblem, in place of the red cross, the red crescent or the red lion and sun on a white ground, these emblems are also recognized by the terms of the present Convention.

Article 42

The personnel designated in Articles 36 and 37 shall wear, affixed to the left arm, a water-resistant armlet bearing the distinctive emblem, issued and stamped by the military authority.

Such personnel, in addition to wearing the identity disc mentioned in Article 19, shall also carry a special identity card bearing the distinctive emblem. This card shall be water-resistant and of such size that it can be carried in the pocket. It shall be worded in the national language, shall mention at least the surname and first names, the date of birth, the rank and the service number of the bearer, and shall state in what capacity he is entitled to the protection of the present Convention. The card shall bear the photograph of the owner and also either his signature or his fingerprints or both. It shall be embossed with the stamp of the military authority.

The identity card shall be uniform throughout the same armed forces and, as far as possible, of a similar type in the armed forces of the High Contracting Parties. The Parties to the conflict may be guided by the model which is annexed, by way of example, to the present Convention. They shall inform each other, at the outbreak of hostilities, of the model they are using. Identity cards should be made out, if possible, at least in duplicate, one copy being kept by the home country.

In no circumstances may the said personnel be deprived of their insignia or identity cards nor of the right to wear the armlet. In cases of loss they shall be entitled to receive duplicates of the cards and to have the insignia replaced.

Article 43

The ships designated in Articles 22, 24, 25 and 27 shall be distinctively marked as follows:

- (a) All exterior surfaces shall be white.
- (b) One or more dark red crosses, as large as possible, shall be painted and displayed on each side of the hull and on the horizontal surfaces, so placed as to afford the greatest possible visibility from the sea and from the air.

All hospital ships shall make themselves known by hoisting their national flag and further, if they belong to a neutral state, the flag of the Party to the conflict whose direction they have accepted. A white flag with a red cross shall be flown at the mainmast as high as possible.

Lifeboats of hospital ships, coastal lifeboats and all small craft used by the Medical Service shall be painted white with dark red crosses prominently displayed and shall, in general, comply with the identification system prescribed above for hospital ships.

The above-mentioned ships and craft, which may wish to ensure by night and in times of reduced visibility the protection to which they are entitled, must, subject to the assent of the Party to the conflict under whose power they are, take the necessary measures to render their painting and distinctive emblems sufficiently apparent.

Hospital ships which, in accordance with Article 31, are provisionally detained by the enemy, must haul down the flag of the Party to the conflict in whose service they are or whose direction they have accepted.

Coastal lifeboats, if they continue to operate with the consent of the Occupying Power from a base which is occupied, may be allowed, when away from their base, to continue to fly their own national colours along with a flag carrying a red cross on a white ground, subject to prior notification to all the Parties to the conflict concerned.

All the provisions in this Article relating to the red cross shall apply equally to the other emblems mentioned in Article 41.

Parties to the conflict shall at all times endeavour to conclude mutual agreements, in order to use the most modern methods available to facilitate the identification of hospital ships.

Article 44

The distinguishing signs referred to in Article 43 can only be used, whether in time of peace or war, for indicating or protecting the ships therein mentioned, except as may be provided in any other international Convention or by agreement between all the Parties to the conflict concerned.

Article 45

The High Contracting Parties shall, if their legislation is not already adequate, take the measures necessary for the prevention and repression, at all times, of any abuse of the distinctive signs provided for under Article 43.

CHAPTER VII. EXECUTION OF THE CONVENTION

Article 46

Each Party to the conflict, acting through its Commanders-in-Chief, shall ensure the detailed execution of the preceding Articles and provide for unforeseen cases, in conformity with the general principles of the present Convention.

Article 47

Reprisals against the wounded, sick and shipwrecked persons, the personnel, the vessels or the equipment protected by the Convention are prohibited.

Article 48

The High Contracting Parties undertake, in time of peace as in time of war, to disseminate the text of the present Convention as widely as possible in their respective countries, and, in particular, to include the study thereof in their programmes of military and, if possible, civil instruction, so that the principles thereof may become known to the entire population, in particular to the armed fighting forces, the medical personnel and the chaplains.

Article 49

The High Contracting Parties shall communicate to one another through the Swiss Federal Council and, during hostilities, through the Protecting Powers, the official translations of the present Convention, as well as the laws and regulations which they may adopt to ensure the application thereof.

CHAPTER VIII. REPRESSION OF ABUSES AND INFRACTIONS**Article 50**

The High Contracting Parties undertake to enact any legislation necessary to provide effective penal sanctions for persons committing, or ordering to be committed, any of the grave breaches of the present Convention defined in the following Article.

Each High Contracting Party shall be under the obligation to search for persons alleged to have committed, or to have ordered to be committed, such grave breaches, and shall bring such persons, regardless of their nationality, before its own courts. It may also, if it prefers, and in accordance with the provisions of its own legislation, hand such persons over for trial to another High Contracting Party concerned, provided such High Contracting Party has made out a *prima facie* case.

Each High Contracting Party shall take measures necessary for the suppression of all acts contrary to the provisions of the present Convention other than the grave breaches defined in the following Article.

In all circumstances, the accused persons shall benefit by safeguards of proper trial and defence, which shall not be less favourable than those provided by Article 105 and those following of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949.

Article 51

Grave breaches to which the preceding Article relates shall be those involving any of the following acts, if committed against persons or property protected by the Convention: wilful killing, torture or inhuman treatment, including biological experiments, wilfully causing great suffering or serious injury to body or health, and extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly.

Article 52

No High Contracting Party shall be allowed to absolve itself or any other High Contracting Party of any liability incurred by itself or by another High Contracting Party in respect of breaches referred to in the preceding Article.

Article 53

At the request of a Party to the conflict, an enquiry shall be instituted, in a manner to be decided between the interested Parties, concerning any alleged violation of the Convention.

If agreement has not been reached concerning the procedure for the enquiry, the Parties should agree on the choice of an umpire, who will decide upon the procedure to be followed.

Once the violation has been established, the Parties to the conflict shall put an end to it and shall repress it with the least possible delay.

FINAL PROVISIONS**Article 54**

The present Convention is established in English and in French. Both texts are equally authentic.

The Swiss Federal Council shall arrange for official translations of the Convention to be made in the Russian and Spanish languages.

Article 55

The present Convention, which bears the date of this day, is open to signature until February 12, 1950, in the name of the Powers represented at the Conference which opened at Geneva on April 21, 1949; furthermore, by Powers not represented at that Conference, but which are parties to the Xth Hague Convention of October 18, 1907, for the adaptation to Maritime Warfare of the

principles of the Geneva Convention of 1906, or to the Geneva Conventions of 1864, 1906 or 1929 for the Relief of the Wounded and Sick in Armies in the Field.

Article 56

The present Convention shall be ratified as soon as possible and the ratifications shall be deposited at Berne.

A record shall be drawn up of the deposit of each instrument of ratification and certified copies of this record shall be transmitted by the Swiss Federal Council to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 57

The present Convention shall come into force six months after not less than two instruments of ratification have been deposited.

Thereafter, it shall come into force for each High Contracting Party six months after the deposit of the instruments of ratification.

Article 58

The present Convention replaces the Xth Hague Convention of October 18, 1907, for the adaptation to Maritime Warfare of the principles of the Geneva Convention of 1906, in relations between the High Contracting Parties.

Article 59

From the date of its coming into force, it shall be open to any Power in whose name the present Convention has not been signed, to accede to this Convention.

Article 60

Accessions shall be notified in writing to the Swiss Federal Council, and shall take effect six months after the date on which they are received.

The Swiss Federal Council shall communicate the accessions to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 61

The situations provided for in Articles 2 and 3 shall give immediate effect to ratifications deposited and accessions notified by the Parties to the conflict before or after the beginning of hostilities or occupation. The Swiss Federal Council shall communicate by the quickest method any ratifications or accessions received from Parties to the conflict.

Article 62

Each of the High Contracting Parties shall be at liberty to denounce the present Convention.

The denunciation shall be notified in writing to the Swiss Federal Council, which shall transmit it to the Governments of all the High Contracting Parties.

The denunciation shall take effect one year after the notification thereof has been made to the Swiss Federal Council. However, a denunciation of which notification has been made at a time when the denouncing Power is involved in a conflict shall not take effect until peace has been concluded, and until after operations connected with the release and repatriation of the persons protected by the present Convention have been terminated.

The denunciation shall have effect only in respect of the denouncing Power. It shall in no way impair the obligations which the Parties to the conflict shall remain bound to fulfil by virtue of the

principles of the law of nations, as they result from the usages established among civilized peoples, from the laws of humanity and the dictates of the public conscience.

Article 63

The Swiss Federal Council shall register the present Convention with the Secretariat of the United Nations. The Swiss Federal Council shall also inform the Secretariat of the United Nations of all ratifications, accessions and denunciations received by it with respect to the present Convention.

In witness whereof the undersigned, having deposited their respective full powers, have signed the present Convention.

Done at Geneva this twelfth day of August 1949, in the English and French languages. The original shall be deposited in the Archives of the Swiss Confederation. The Swiss Federal Council shall transmit certified copies thereof to each of the signatory and acceding States.

70. GENEVA CONVENTION RELATIVE TO THE TREATMENT OF PRISONERS OF WAR

Done at Geneva on 12 August 1949

Entry into force: 21 October 1950

United Nations, *Treaty Series*, vol. 75, p. 135; Reg. No. 972

The undersigned Plenipotentiaries of the Governments represented at the Diplomatic Conference held at Geneva from April 21 to August 12, 1949, for the purpose of revising the Convention concluded at Geneva on July 27, 1929, relative to the Treatment of Prisoners of War, have agreed as follows:

PART I. GENERAL PROVISIONS

Article 1

The High Contracting Parties undertake to respect and to ensure respect for the present Convention in all circumstances.

Article 2

In addition to the provisions which shall be implemented in peacetime, the present Convention shall apply to all cases of declared war or of any other armed conflict which may arise between two or more of the High Contracting Parties, even if the state of war is not recognized by one of them.

The Convention shall also apply to all cases of partial or total occupation of the territory of a High Contracting Party, even if the said occupation meets with no armed resistance.

Although one of the Powers in conflict may not be a party to the present Convention, the Powers who are parties thereto shall remain bound by it in their mutual relations. They shall furthermore be bound by the Convention in relation to the said Power, if the latter accepts and applies the provisions thereof.

Article 3

In the case of armed conflict not of an international character occurring in the territory of one of the High Contracting Parties, each Party to the conflict shall be bound to apply, as a minimum, the following provisions:

1) Persons taking no active part in the hostilities, including members of armed forces who have laid down their arms and those placed *hors de combat* by sickness, wounds, detention, or any other cause, shall in all circumstances be treated humanely, without any adverse distinction founded on race, colour, religion or faith, sex, birth or wealth, or any other similar criteria.

To this end, the following acts are and shall remain prohibited at any time and in any place whatsoever with respect to the above-mentioned persons:

(a) violence to life and person, in particular murder of all kinds, mutilation, cruel treatment and torture;

(b) taking of hostages;

(c) outrages upon personal dignity, in particular, humiliating and degrading treatment;

(d) the passing of sentences and the carrying out of executions without previous judgment pronounced by a regularly constituted court affording all the judicial guarantees which are recognized as indispensable by civilized peoples.

2) The wounded and sick shall be collected and cared for.

An impartial humanitarian body, such as the International Committee of the Red Cross, may offer its services to the Parties to the conflict.

The Parties to the conflict should further endeavour to bring into force, by means of special agreements, all or part of the other provisions of the present Convention.

The application of the preceding provisions shall not affect the legal status of the Parties to the conflict.

Article 4

A. Prisoners of war, in the sense of the present Convention, are persons belonging to one of the following categories, who have fallen into the power of the enemy:

1) Members of the armed forces of a Party to the conflict as well as members of militias or volunteer corps forming part of such armed forces.

2) Members of other militias and members of other volunteer corps, including those of organized resistance movements, belonging to a Party to the conflict and operating in or outside their own territory, even if this territory is occupied, provided that such militias or volunteer corps, including such organized resistance movements, fulfil the following conditions:

- (a) that of being commanded by a person responsible for his subordinates;
- (b) that of having a fixed distinctive sign recognizable at a distance;
- (c) that of carrying arms openly;
- (d) that of conducting their operations in accordance with the laws and customs of war.

3) Members of regular armed forces who profess allegiance to a government or an authority not recognized by the Detaining Power.

4) Persons who accompany the armed forces without actually being members thereof, such as civilian members of military aircraft crews, war correspondents, supply contractors, members of labour units or of services responsible for the welfare of the armed forces, provided that they have received authorization from the armed forces which they accompany, who shall provide them for that purpose with an identity card similar to the annexed model.

5) Members of crews, including masters, pilots and apprentices of the merchant marine and the crews of civil aircraft of the Parties to the conflict, who do not benefit by more favourable treatment under any other provisions of international law.

6) Inhabitants of a non-occupied territory who, on the approach of the enemy, spontaneously take up arms to resist the invading forces, without having had time to form themselves into regular armed units, provided they carry arms openly and respect the laws and customs of war.

B. The following shall likewise be treated as prisoners of war under the present Convention:

1) Persons belonging, or having belonged, to the armed forces of the occupied country, if the occupying Power considers it necessary by reason of such allegiance to intern them, even though it has originally liberated them while hostilities were going on outside the territory it occupies, in particular where such persons have made an unsuccessful attempt to rejoin the armed forces to which they belong and which are engaged in combat, or where they fail to comply with a summons made to them with a view to internment.

2) The persons belonging to one of the categories enumerated in the present Article, who have been received by neutral or nonbelligerent Powers on their territory and whom these Powers are required to intern under international law, without prejudice to any more favourable treatment which these Powers may choose to give and with the exception of Articles 8, 10, 15, 30, fifth paragraph, 58-67, 92, 126 and, where diplomatic relations exist between the Parties to the conflict and the neutral or non-belligerent Power concerned, those Articles concerning the Protecting Power. Where such diplomatic relations exist, the Parties to a conflict on whom these persons depend shall be allowed to perform towards them the functions of a Protecting Power as provided in the present Convention, without prejudice to the functions which these Parties normally exercise in conformity with diplomatic and consular usage and treaties.

C. This Article shall in no way affect the status of medical personnel and chaplains as provided for in Article 33 of the present Convention.

Article 5

The present Convention shall apply to the persons referred to in Article 4 from the time they fall into the power of the enemy and until their final release and repatriation.

Should any doubt arise as to whether persons having committed a belligerent act and having fallen into the hands of the enemy belong to any of the categories enumerated in Article 4, such persons shall enjoy the protection of the present Convention until such time as their status has been determined by a competent tribunal.

Article 6

In addition to the agreements expressly provided for in Articles 10, 23, 28, 33, 60, 65, 66, 67, 72, 73, 75, 109, 110, 118, 119, 122 and 132, the High Contracting Parties may conclude other special agreements for all matters concerning which they may deem it suitable to make separate provision. No special agreement shall adversely affect the situation of prisoners of war, as defined by the present Convention, nor restrict the rights which it confers upon them.

Prisoners of war shall continue to have the benefit of such agreements as long as the Convention is applicable to them, except where express provisions to the contrary are contained in the aforesaid or in subsequent agreements, or where more favourable measures have been taken with regard to them by one or other of the Parties to the conflict.

Article 7

Prisoners of war may in no circumstances renounce in part or in entirety the rights secured to them by the present Convention, and by the special agreements referred to in the foregoing Article, if such there be.

Article 8

The present Convention shall be applied with the cooperation and under the scrutiny of the Protecting Powers whose duty it is to safeguard the interests of the Parties to the conflict. For this purpose, the Protecting Powers may appoint, apart from their diplomatic or consular staff, delegates from amongst their own nationals or the nationals of other neutral Powers. The said delegates shall be subject to the approval of the Power with which they are to carry out their duties.

The Parties to the conflict shall facilitate to the greatest extent possible the task of the representatives or delegates of the Protecting Powers.

The representatives or delegates of the Protecting Powers shall not in any case exceed their mission under the present Convention. They shall, in particular, take account of the imperative necessities of security of the State wherein they carry out their duties.

Article 9

The provisions of the present Convention constitute no obstacle to the humanitarian activities which the International Committee of the Red Cross or any other impartial humanitarian organization may, subject to the consent of the Parties to the conflict concerned, undertake for the protection of prisoners of war and for their relief.

Article 10

The High Contracting Parties may at any time agree to entrust to an organization which offers all guarantees of impartiality and efficacy the duties incumbent on the Protecting Powers by virtue of the present Convention.

When prisoners of war do not benefit or cease to benefit, no matter for what reason, by the activities of a Protecting Power or of an organization provided for in the first paragraph above, the Detaining Power shall request a neutral state, or such an organization, to undertake the functions performed under the present Convention by a Protecting Power designated by the Parties to a conflict.

If protection cannot be arranged accordingly, the Detaining Power shall request or shall accept, subject to the provisions of this Article, the offer of the services of a humanitarian organization, such as the International Committee of the Red Cross, to assume the humanitarian functions performed by Protecting Powers under the present Convention.

Any neutral Power or any organization invited by the Power concerned or offering itself for these purposes, shall be required to act with a sense of responsibility towards the Party to the conflict on which persons protected by the present Convention depend, and shall be required to furnish sufficient assurances that it is in a position to undertake the appropriate functions and to discharge them impartially.

No derogation from the preceding provisions shall be made by special agreements between Powers one of which is restricted, even temporarily, in its freedom to negotiate with the other Power or its allies by reason of military events, more particularly where the whole, or a substantial part, of the territory of the said Power is occupied.

Whenever in the present Convention mention is made of a Protecting Power, such mention applies to substitute organizations in the sense of the present Article.

Article 11

In cases where they deem it advisable in the interest of protected persons, particularly in cases of disagreement between the Parties to the conflict as to the application or interpretation of the provisions of the present Convention, the Protecting Powers shall lend their good offices with a view to settling the disagreement.

For this purpose, each of the Protecting Powers may, either at the invitation of one Party or on its own initiative, propose to the Parties to the conflict a meeting of their representatives, and in particular of the authorities responsible for prisoners of war, possibly on neutral territory suitably chosen. The Parties to the conflict shall be bound to give effect to the proposals made to them for this purpose. The Protecting Powers may, if necessary, propose for approval by the Parties to the conflict a person belonging to a neutral Power, or delegated by the International Committee of the Red Cross, who shall be invited to take part in such a meeting.

PART II. GENERAL PROTECTION OF PRISONERS OF WAR

Article 12

Prisoners of war are in the hands of the enemy Power, but not of the individuals or military units who have captured them. Irrespective of the individual responsibilities that may exist, the Detaining Power is responsible for the treatment given them.

Prisoners of war may only be transferred by the Detaining Power to a Power which is a party to the Convention and after the Detaining Power has satisfied itself of the willingness and ability of such transferee Power to apply the Convention. When prisoners of war are transferred under such circumstances, responsibility for the application of the Convention rests on the Power accepting them while they are in its custody.

Nevertheless if that Power fails to carry out the provisions of the Convention in any important respect, the Power by whom the prisoners of war were transferred shall, upon being notified by the Protecting Power, take effective measures to correct the situation or shall request the return of the prisoners of war. Such requests must be complied with.

Article 13

Prisoners of war must at all times be humanely treated. Any unlawful act or omission by the Detaining Power causing death or seriously endangering the health of a prisoner of war in its custody is prohibited, and will be regarded as a serious breach of the present Convention. In particular, no prisoner of war may be subjected to physical mutilation or to medical or scientific experiments of any kind which are not justified by the medical, dental or hospital treatment of the prisoner concerned and carried out in his interest.

Likewise, prisoners of war must at all times be protected, particularly against acts of violence or intimidation and against insults and public curiosity.

Measures of reprisal against prisoners of war are prohibited.

Article 14

Prisoners of war are entitled in all circumstances to respect for their persons and their honour.

Women shall be treated with all the regard due to their sex and shall in all cases benefit by treatment as favourable as that granted to men.

Prisoners of war shall retain the full civil capacity which they enjoyed at the time of their capture. The Detaining Power may not restrict the exercise, either within or without its own territory, of the rights such capacity confers except in so far as the captivity requires.

Article 15

The Power detaining prisoners of war shall be bound to provide free of charge for their maintenance and for the medical attention required by their state of health.

Article 16

Taking into consideration the provisions of the present Convention relating to rank and sex, and subject to any privileged treatment which may be accorded to them by reason of their state of health, age or professional qualifications, all prisoners of war shall be treated alike by the Detaining Power, without any adverse distinction based on race, nationality, religious belief or political opinions, or any other distinction founded on similar criteria.

PART III. CAPTIVITY**SECTION I. BEGINNING OF CAPTIVITY****Article 17**

Every prisoner of war, when questioned on the subject, is bound to give only his surname, first names and rank, date of birth, and army, regimental, personal or serial number, or failing this, equivalent information.

If he wilfully infringes this rule, he may render himself liable to a restriction of the privileges accorded to his rank or status.

Each Party to a conflict is required to furnish the persons under its jurisdiction who are liable to become prisoners of war, with an identity card showing the owner's surname, first names, rank, army, regimental, personal or serial number or equivalent information, and date of birth. The identity card may, furthermore, bear the signature or the finger-prints, or both, of the owner, and may bear, as well, any other information the Party to the conflict may wish to add concerning persons belonging to its armed forces. As far as possible the card shall measure 6.5 x 10 cm. and shall be issued in duplicate. The identity card shall be shown by the prisoner of war upon demand, but may in no case be taken away from him.

No physical or mental torture, nor any other form of coercion, may be inflicted on prisoners of war to secure from them information of any kind whatever. Prisoners of war who refuse to answer

may not be threatened, insulted, or exposed to any unpleasant or disadvantageous treatment of any kind.

Prisoners of war who, owing to their physical or mental condition, are unable to state their identity, shall be handed over to the medical service. The identity of such prisoners shall be established by all possible means, subject to the provisions of the preceding paragraph.

The questioning of prisoners of war shall be carried out in a language which they understand.

Article 18

All effects and articles of personal use, except arms, horses, military equipment and military documents, shall remain in the possession of prisoners of war, likewise their metal helmets and gas masks and like articles issued for personal protection. Effects and articles used for their clothing or feeding shall likewise remain in their possession, even if such effects and articles belong to their regulation military equipment.

At no time should prisoners of war be without identity documents. The Detaining Power shall supply such documents to prisoners of war who possess none.

Badges of rank and nationality, decorations and articles having above all a personal or sentimental value may not be taken from prisoners of war.

Sums of money carried by prisoners of war may not be taken away from them except by order of an officer, and after the amount and particulars of the owner have been recorded in a special register and an itemized receipt has been given, legibly inscribed with the name, rank and unit of the person issuing the said receipt. Sums in the currency of the Detaining Power, or which are changed into such currency at the prisoner's request, shall be placed to the credit of the prisoner's account as provided in Article 64.

The Detaining Power may withdraw articles of value from prisoners of war only for reasons of security; when such articles are withdrawn, the procedure laid down for sums of money impounded shall apply.

Such objects, likewise the sums taken away in any currency other than that of the Detaining Power and the conversion of which has not been asked for by the owners, shall be kept in the custody of the Detaining Power and shall be returned in their initial shape to prisoners of war at the end of their captivity.

Article 19

Prisoners of war shall be evacuated, as soon as possible after their capture, to camps situated in an area far enough from the combat zone for them to be out of danger.

Only those prisoners of war who, owing to wounds or sickness, would run greater risks by being evacuated than by remaining where they are, may be temporarily kept back in a danger zone.

Prisoners of war shall not be unnecessarily exposed to danger while awaiting evacuation from a fighting zone.

Article 20

The evacuation of prisoners of war shall always be effected humanely and in conditions similar to those for the forces of the Detaining Power in their changes of station.

The Detaining Power shall supply prisoners of war who are being evacuated with sufficient food and potable water, and with the necessary clothing and medical attention. The Detaining Power shall take all suitable precautions to ensure their safety during evacuation, and shall establish as soon as possible a list of the prisoners of war who are evacuated.

If prisoners of war must, during evacuation, pass through transit camps, their stay in such camps shall be as brief as possible.

SECTION II. INTERNMENT OF PRISONERS OF WAR

CHAPTER I. GENERAL OBSERVATIONS

Article 21

The Detaining Power may subject prisoners of war to internment. It may impose on them the obligation of not leaving, beyond certain limits, the camp where they are interned, or if the said camp is fenced in, of not going outside its perimeter. Subject to the provisions of the present Convention relative to penal and disciplinary sanctions, prisoners of war may not be held in close confinement except where necessary to safeguard their health and then only during the continuation of the circumstances which make such confinement necessary.

Prisoners of war may be partially or wholly released on parole or promise, in so far as is allowed by the laws of the Power on which they depend. Such measures shall be taken particularly in cases where this may contribute to the improvement of their state of health. No prisoner of war shall be compelled to accept liberty on parole or promise.

Upon the outbreak of hostilities, each Party to the conflict shall notify the adverse Party of the laws and regulations allowing or forbidding its own nationals to accept liberty on parole or promise. Prisoners of war who are paroled or who have given their promise in conformity with the laws and regulations so notified, are bound on their personal honour scrupulously to fulfil, both towards the Power on which they depend and towards the Power which has captured them, the engagements of their paroles or promises. In such cases, the Power on which they depend is bound neither to require nor to accept from them any service incompatible with the parole or promise given.

Article 22

Prisoners of war may be interned only in premises located on land and affording every guarantee of hygiene and healthfulness. Except in particular cases which are justified by the interest of the prisoners themselves, they shall not be interned in penitentiaries.

Prisoners of war interned in unhealthy areas, or where the climate is injurious for them, shall be removed as soon as possible to a more favourable climate.

The Detaining Power shall assemble prisoners of war in camps or camp compounds according to their nationality, language and customs, provided that such prisoners shall not be separated from prisoners of war belonging to the armed forces with which they were serving at the time of their capture, except with their consent.

Article 23

No prisoner of war may at any time be sent to, or detained in areas where he may be exposed to the fire of the combat zone, nor may his presence be used to render certain points or areas immune from military operations.

Prisoners of war shall have shelters against air bombardment and other hazards of war, to the same extent as the local civilian population. With the exception of those engaged in the protection of their quarters against the aforesaid hazards, they may enter such shelters as soon as possible after the giving of the alarm. Any other protective measure taken in favour of the population shall also apply to them.

Detaining Powers shall give the Powers concerned, through the intermediary of the Protecting Powers, all useful information regarding the geographical location of prisoner of war camps.

Whenever military considerations permit, prisoner of war camps shall be indicated in the day-time by the letters PW or PG, placed so as to be clearly visible from the air. The Powers concerned may, however, agree upon any other system of marking. Only prisoner of war camps shall be marked as such.

Article 24

Transit or screening camps of a permanent kind shall be fitted out under conditions similar to those described in the present Section, and the prisoners therein shall have the same treatment as in other camps.

CHAPTER II. QUARTERS, FOOD AND CLOTHING OF PRISONERS OF WAR**Article 25**

Prisoners of war shall be quartered under conditions as favourable as those for the forces of the Detaining Power who are billeted in the same area. The said conditions shall make allowance for the habits and customs of the prisoners and shall in no case be prejudicial to their health.

The foregoing provisions shall apply in particular to the dormitories of prisoners of war as regards both total surface and minimum cubic space, and the general installations, bedding and blankets.

The premises provided for the use of prisoners of war individually or collectively, shall be entirely protected from dampness and adequately heated and lighted, in particular between dusk and lights out. All precautions must be taken against the danger of fire.

In any camps in which women prisoners of war, as well as men, are accommodated, separate dormitories shall be provided for them.

Article 26

The basic daily food rations shall be sufficient in quantity, quality and variety to keep prisoners of war in good health and to prevent loss of weight or the development of nutritional deficiencies. Account shall also be taken of the habitual diet of the prisoners.

The Detaining Power shall supply prisoners of war who work with such additional rations as are necessary for the labour on which they are employed.

Sufficient drinking water shall be supplied to prisoners of war. The use of tobacco shall be permitted.

Prisoners of war shall, as far as possible, be associated with the preparation of their meals; they may be employed for that purpose in the kitchens. Furthermore, they shall be given the means of preparing, themselves, the additional food in their possession.

Adequate premises shall be provided for messing.

Collective disciplinary measures affecting food are prohibited.

Article 27

Clothing, underwear and footwear shall be supplied to prisoners of war in sufficient quantities by the Detaining Power, which shall make allowance for the climate of the region where the prisoners are detained. Uniforms of enemy armed forces captured by the Detaining Power should, if suitable for the climate, be made available to clothe prisoners of war.

The regular replacement and repair of the above articles shall be assured by the Detaining Power. In addition, prisoners of war who work shall receive appropriate clothing, wherever the nature of the work demands.

Article 28

Canteens shall be installed in all camps, where prisoners of war may procure foodstuffs, soap and tobacco and ordinary articles in daily use. The tariff shall never be in excess of local market prices.

The profits made by camp canteens shall be used for the benefit of the prisoners; a special fund shall be created for this purpose. The prisoners' representative shall have the right to collaborate in the management of the canteen and of this fund.

When a camp is closed down, the credit balance of the special fund shall be handed to an international welfare organization, to be employed for the benefit of prisoners of war of the same nationality as those who have contributed to the fund. In case of a general repatriation, such profits shall be kept by the Detaining Power, subject to any agreement to the contrary between the Powers concerned.

CHAPTER III. HYGIENE AND MEDICAL ATTENTION

Article 29

The Detaining Power shall be bound to take all sanitary measures necessary to ensure the cleanliness and healthfulness of camps and to prevent epidemics.

Prisoners of war shall have for their use, day and night, conveniences which conform to the rules of hygiene and are maintained in a constant state of cleanliness. In any camps in which women prisoners of war are accommodated, separate conveniences shall be provided for them.

Also, apart from the baths and showers with which the camps shall be furnished, prisoners of war shall be provided with sufficient water and soap for their personal toilet and for washing their personal laundry; the necessary installations, facilities and time shall be granted them for that purpose.

Article 30

Every camp shall have an adequate infirmary where prisoners of war may have the attention they require, as well as appropriate diet. Isolation wards shall, if necessary, be set aside for cases of contagious or mental disease.

Prisoners of war suffering from serious disease, or whose condition necessitates special treatment, a surgical operation or hospital care, must be admitted to any military or civilian medical unit where such treatment can be given, even if their repatriation is contemplated in the near future. Special facilities shall be afforded for the care to be given to the disabled, in particular to the blind, and for their rehabilitation, pending repatriation.

Prisoners of war shall have the attention, preferably, of medical personnel of the Power on which they depend and, if possible, of their nationality.

Prisoners of war may not be prevented from presenting themselves to the medical authorities for examination. The detaining authorities shall, upon request, issue to every prisoner who has undergone treatment, an official certificate indicating the nature of his illness or injury, and the duration and kind of treatment received. A duplicate of this certificate shall be forwarded to the Central Prisoners of War Agency.

The costs of treatment, including those of any apparatus necessary for the maintenance of prisoners of war in good health, particularly dentures and other artificial appliances, and spectacles, shall be borne by the Detaining Power.

Article 31

Medical inspections of prisoners of war shall be held at least once a month. They shall include the checking and the recording of the weight of each prisoner of war. Their purpose shall be, in particular, to supervise the general state of health, nutrition and cleanliness of prisoners and to detect contagious diseases, especially tuberculosis, malaria and venereal disease. For this purpose the most efficient methods available shall be employed, e.g. periodic mass miniature radiography for the early detection of tuberculosis.

Article 32

Prisoners of war who, though not attached to the medical service of their armed forces, are physicians, surgeons, dentists, nurses or medical orderlies, may be required by the Detaining Power to exercise their medical functions in the interests of prisoners of war dependent on the same Power. In that case they shall continue to be prisoners of war, but shall receive the same treatment as corresponding medical personnel retained by the Detaining Power. They shall be exempted from any other work under Article 49.

**CHAPTER IV. MEDICAL PERSONNEL AND CHAPLAINS
RETAINED TO ASSIST PRISONERS OF WAR****Article 33**

Members of the medical personnel and chaplains while retained by the Detaining Power with a view to assisting prisoners of war, shall not be considered as prisoners of war. They shall, however, receive as a minimum the benefits and protection of the present Convention, and shall also be granted all facilities necessary to provide for the medical care of, and religious ministration to prisoners of war.

They shall continue to exercise their medical and spiritual functions for the benefit of prisoners of war, preferably those belonging to the armed forces upon which they depend, within the scope of the military laws and regulations of the Detaining Power and under the control of its competent services, in accordance with their professional etiquette. They shall also benefit by the following facilities in the exercise of their medical or spiritual functions:

(a) They shall be authorized to visit periodically prisoners of war situated in working detachments or in hospitals outside the camp. For this purpose, the Detaining Power shall place at their disposal the necessary means of transport.

(b) The senior medical officer in each camp shall be responsible to the camp military authorities for everything connected with the activities of retained medical personnel. For this purpose, Parties to the conflict shall agree at the outbreak of hostilities on the subject of the corresponding ranks of the medical personnel, including that of societies mentioned in Article 26 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949. This senior medical officer, as well as chaplains, shall have the right to deal with the competent authorities of the camp on all questions relating to their duties. Such authorities shall afford them all necessary facilities for correspondence relating to these questions.

(c) Although they shall be subject to the internal discipline of the camp in which they are retained, such personnel may not be compelled to carry out any work other than that concerned with their medical or religious duties.

During hostilities, the Parties to the conflict shall agree concerning the possible relief of retained personnel and shall settle the procedure to be followed.

None of the preceding provisions shall relieve the Detaining Power of its obligations with regard to prisoners of war from the medical or spiritual point of view.

CHAPTER V. RELIGIOUS, INTELLECTUAL AND PHYSICAL ACTIVITIES**Article 34**

Prisoners of war shall enjoy complete latitude in the exercise of their religious duties, including attendance at the service of their faith, on condition that they comply with the disciplinary routine prescribed by the military authorities.

Adequate premises shall be provided where religious services may be held.

Article 35

Chaplains who fall into the hands of the enemy Power and who remain or are retained with a view to assisting prisoners of war, shall be allowed to minister to them and to exercise freely their ministry amongst prisoners of war of the same religion, in accordance with their religious conscience. They shall be allocated among the various camps and labour detachments containing prisoners of war belonging to the same forces, speaking the same language or practising the same religion. They shall enjoy the necessary facilities, including the means of transport provided for in Article 33, for visiting the prisoners of war outside their camp. They shall be free to correspond, subject to censorship, on matters concerning their religious duties with the ecclesiastical authorities in the country of detention and with international religious organizations. Letters and cards which they may send for this purpose shall be in addition to the quota provided for in Article 71.

Article 36

Prisoners of war who are ministers of religion, without having officiated as chaplains to their own forces, shall be at liberty, whatever their denomination, to minister freely to the members of their community. For this purpose, they shall receive the same treatment as the chaplains retained by the Detaining Power. They shall not be obliged to do any other work.

Article 37

When prisoners of war have not the assistance of a retained chaplain or of a prisoner of war minister of their faith, a minister belonging to the prisoners' or a similar denomination, or in his absence a qualified layman, if such a course is feasible from a confessional point of view, shall be appointed, at the request of the prisoners concerned, to fill this office. This appointment, subject to the approval of the Detaining Power, shall take place with the agreement of the community of prisoners concerned and, wherever necessary, with the approval of the local religious authorities of the same faith. The person thus appointed shall comply with all regulations established by the Detaining Power in the interests of discipline and military security.

Article 38

While respecting the individual preferences of every prisoner, the Detaining Power shall encourage the practice of intellectual, educational, and recreational pursuits, sports and games amongst prisoners, and shall take the measures necessary to ensure the exercise thereof by providing them with adequate premises and necessary equipment.

Prisoners shall have opportunities for taking physical exercise, including sports and games and for being out of doors. Sufficient open spaces shall be provided for this purpose in all camps.

CHAPTER VI. DISCIPLINE

Article 39

Every prisoner of war camp shall be put under the immediate authority of a responsible commissioned officer belonging to the regular armed forces of the Detaining Power. Such officer shall have in his possession a copy of the present Convention; he shall ensure that its provisions are known to the camp staff and the guard and shall be responsible, under the direction of his government, for its application.

Prisoners of war, with the exception of officers, must salute and show to all officers of the Detaining Power the external marks of respect provided for by the regulations applying in their own forces.

Officer prisoners of war are bound to salute only officers of a higher rank of the Detaining Power; they must, however, salute the camp commander regardless of his rank.

Article 40

The wearing of badges of rank and nationality, as well as of decorations, shall be permitted.

Article 41

In every camp the text of the present Convention and its Annexes and the contents of any special agreement provided for in Article 6, shall be posted, in the prisoners' own language, at places where all may read them. Copies shall be supplied, on request, to the prisoners who cannot have access to the copy which has been posted.

Regulations, orders, notices and publications of every kind relating to the conduct of prisoners of war shall be issued to them in a language which they understand. Such regulations, orders and publications shall be posted in the manner described above and copies shall be handed to the prisoners' representative. Every order and command addressed to prisoners of war individually must likewise be given in a language which they understand.

Article 42

The use of weapons against prisoners of war, especially against those who are escaping or attempting to escape, shall constitute an extreme measure, which shall always be preceded by warnings appropriate to the circumstances.

CHAPTER VII. RANK OF PRISONERS OF WAR**Article 43**

Upon the outbreak of hostilities, the Parties to the conflict shall communicate to one another the titles and ranks of all the persons mentioned in Article 4 of the present Convention, in order to ensure equality of treatment between prisoners of equivalent rank. Titles and ranks which are subsequently created shall form the subject of similar communications.

The Detaining Power shall recognize promotions in rank which have been accorded to prisoners of war and which have been duly notified by the Power on which these prisoners depend.

Article 44

Officers and prisoners of equivalent status shall be treated with the regard due to their rank and age.

In order to ensure service in officers' camps, other ranks of the same armed forces who, as far as possible, speak the same language, shall be assigned in sufficient numbers, account being taken of the rank of officers and prisoners of equivalent status. Such orderlies shall not be required to perform any other work.

Supervision of the mess by the officers themselves shall be facilitated in every way.

Article 45

Prisoners of war other than officers and prisoners of equivalent status shall be treated with the regard due to their rank and age.

Supervision of the mess by the prisoners themselves shall be facilitated in every way.

CHAPTER VIII. TRANSFER OF PRISONERS OF WAR AFTER THEIR ARRIVAL IN CAMP**Article 46**

The Detaining Power, when deciding upon the transfer of prisoners of war, shall take into account the interests of the prisoners themselves, more especially so as not to increase the difficulty of their repatriation.

The transfer of prisoners of war shall always be effected humanely and in conditions not less favourable than those under which the forces of the Detaining Power are transferred. Account shall always be taken of the climatic conditions to which the prisoners of war are accustomed and the conditions of transfer shall in no case be prejudicial to their health.

The Detaining Power shall supply prisoners of war during transfer with sufficient food and drinking water to keep them in good health, likewise with the necessary clothing, shelter and medical attention. The Detaining Power shall take adequate precautions especially in case of transport by sea or by air, to ensure their safety during transfer, and shall draw up a complete list of all transferred prisoners before their departure.

Article 47

Sick or wounded prisoners of war shall not be transferred as long as their recovery may be endangered by the journey, unless their safety imperatively demands it.

If the combat zone draws closer to a camp, the prisoners of war in the said camp shall not be transferred unless their transfer can be carried out in adequate conditions of safety, or if they are exposed to greater risks by remaining on the spot than by being transferred.

Article 48

In the event of transfer, prisoners of war shall be officially advised of their departure and of their new postal address. Such notifications shall be given in time for them to pack their luggage and inform their next of kin.

They shall be allowed to take with them their personal effects, and the correspondence and parcels which have arrived for them. The weight of such baggage may be limited, if the conditions of transfer so require, to what each prisoner can reasonably carry, which shall in no case be more than twenty-five kilograms per head.

Mail and parcels addressed to their former camp shall be forwarded to them without delay. The camp commander shall take, in agreement with the prisoners' representative, any measures needed to ensure the transport of the prisoners' community property and of the luggage they are unable to take with them in consequence of restrictions imposed by virtue of the second paragraph of this Article.

The costs of transfers shall be borne by the Detaining Power.

SECTION III. LABOUR OF PRISONERS OF WAR

Article 49

The Detaining Power may utilize the labour of prisoners of war who are physically fit, taking into account their age, sex, rank and physical aptitude, and with a view particularly to maintaining them in a good state of physical and mental health.

Non-commissioned officers who are prisoners of war shall only be required to do supervisory work. Those not so required may ask for other suitable work which shall, so far as possible, be found for them.

If officers or persons of equivalent status ask for suitable work, it shall be found for them, so far as possible, but they may in no circumstances be compelled to work.

Article 50

Besides work connected with camp administration, installation or maintenance, prisoners of war may be compelled to do only such work as is included in the following classes:

- (a) agriculture;

(b) industries connected with the production or the extraction of raw materials, and manufacturing industries, with the exception of metallurgical, machinery and chemical industries; public works and building operations which have no military character or purpose;

(c) transport and handling of stores which are not military in character or purpose;

(d) commercial business, and arts and crafts;

(e) domestic service;

(f) public utility services having no military character or purpose.

Should the above provisions be infringed, prisoners of war shall be allowed to exercise their right of complaint, in conformity with Article 78.

Article 51

Prisoners of war must be granted suitable working conditions, especially as regards accommodation, food, clothing and equipment; such conditions shall not be inferior to those enjoyed by nationals of the Detaining Power employed in similar work; account shall also be taken of climatic conditions.

The Detaining Power, in utilizing the labour of prisoners of war, shall ensure that in areas in which prisoners are employed, the national legislation concerning the protection of labour, and, more particularly, the regulations for the safety of workers, are duly applied.

Prisoners of war shall receive training and be provided with the means of protection suitable to the work they will have to do and similar to those accorded to the nationals of the Detaining Power. Subject to the provisions of Article 52, prisoners may be submitted to the normal risks run by these civilian workers.

Conditions of labour shall in no case be rendered more arduous by disciplinary measures.

Article 52

Unless he be a volunteer, no prisoner of war may be employed on labour which is of an unhealthy or dangerous nature.

No prisoner of war shall be assigned to labour which would be looked upon as humiliating for a member of the Detaining Power's own forces.

The removal of mines or similar devices shall be considered as dangerous labour.

Article 53

The duration of the daily labour of prisoners of war, including the time of the journey to and from, shall not be excessive, and must in no case exceed that permitted for civilian workers in the district, who are nationals of the Detaining Power and employed on the same work.

Prisoners of war must be allowed, in the middle of the day's work, a rest of not less than one hour. This rest will be the same as that to which workers of the Detaining Power are entitled, if the latter is of longer duration. They shall be allowed in addition a rest of twenty-four consecutive hours every week, preferably on Sunday or the day of rest in their country of origin. Furthermore, every prisoner who has worked for one year shall be granted a rest of eight consecutive days, during which his working pay shall be paid him.

If methods of labour such as piece work are employed, the length of the working period shall not be rendered excessive thereby.

Article 54

The working pay due to prisoners of war shall be fixed in accordance with the provisions of Article 62 of the present Convention.

Prisoners of war who sustain accidents in connection with work, or who contract a disease in the course, or in consequence of their work, shall receive all the care their condition may require.

The Detaining Power shall furthermore deliver to such prisoners of war a medical certificate enabling them to submit their claims to the Power on which they depend, and shall send a duplicate to the Central Prisoners of War Agency provided for in Article 123.

Article 55

The fitness of prisoners of war for work shall be periodically verified by medical examinations at least once a month. The examinations shall have particular regard to the nature of the work which prisoners of war are required to do.

If any prisoner of war considers himself incapable of working, he shall be permitted to appear before the medical authorities of his camp. Physicians or surgeons may recommend that the prisoners who are, in their opinion, unfit for work, be exempted therefrom.

Article 56

The organization and administration of labour detachments shall be similar to those of prisoner of war camps.

Every labour detachment shall remain under the control of and administratively part of a prisoner of war camp. The military authorities and the commander of the said camp shall be responsible, under the direction of their government, for the observance of the provisions of the present Convention in labour detachments.

The camp commander shall keep an up-to-date record of the labour detachments dependent on his camp, and shall communicate it to the delegates of the Protecting Power, of the International Committee of the Red Cross, or of other agencies giving relief to prisoners of war, who may visit the camp.

Article 57

The treatment of prisoners of war who work for private persons, even if the latter are responsible for guarding and protecting them, shall not be inferior to that which is provided for by the present Convention. The Detaining Power, the military authorities and the commander of the camp to which such prisoners belong shall be entirely responsible for the maintenance, care, treatment, and payment of the working pay of such prisoners of war.

Such prisoners of war shall have the right to remain in communication with the prisoners' representatives in the camps on which they depend.

SECTION IV. FINANCIAL RESOURCES OF PRISONERS OF WAR

Article 58

Upon the outbreak of hostilities, and pending an arrangement on this matter with the Protecting Power, the Detaining Power may determine the maximum amount of money in cash or in any similar form, that prisoners may have in their possession. Any amount in excess, which was properly in their possession and which has been taken or withheld from them, shall be placed to their account, together with any monies deposited by them, and shall not be converted into any other currency without their consent.

If prisoners of war are permitted to purchase services or commodities outside the camp against payment in cash, such payments shall be made by the prisoner himself or by the camp administration who will charge them to the accounts of the prisoners concerned. The Detaining Power will establish the necessary rules in this respect.

Article 59

Cash which was taken from prisoners of war, in accordance with Article 18, at the time of their capture, and which is in the currency of the Detaining Power, shall be placed to their separate accounts, in accordance with the provisions of Article 64 of the present Section.

The amounts, in the currency of the Detaining Power, due to the conversion of sums in other currencies that are taken from the prisoners of war at the same time, shall also be credited to their separate accounts.

Article 60

The Detaining Power shall grant all prisoners of war a monthly advance of pay, the amount of which shall be fixed by conversion, into the currency of the said Power, of the following amounts:

- Category I: Prisoners ranking below sergeants: eight Swiss francs.
- Category II: Sergeants and other non-commissioned officers, or prisoners of equivalent rank: twelve Swiss francs.
- Category III: Warrant officers and commissioned officers below the rank of major or prisoners of equivalent rank: fifty Swiss francs.
- Category IV: Majors, lieutenant-colonels, colonels or prisoners of equivalent rank: sixty Swiss francs.
- Category V: General officers or prisoners of war of equivalent rank: seventy-five Swiss francs.

However, the Parties to the conflict concerned may by special agreement modify the amount of advances of pay due to prisoners of the preceding categories.

Furthermore, if the amounts indicated in the first paragraph above would be unduly high compared with the pay of the Detaining Power's armed forces or would, for any reason, seriously embarrass the Detaining Power, then, pending the conclusion of a special agreement with the Power on which the prisoners depend to vary the amounts indicated above, the Detaining Power:

- (a) shall continue to credit the accounts of the prisoners with the amounts indicated in the first paragraph above;
- (b) may temporarily limit the amount made available from these advances of pay to prisoners of war for their own use, to sums which are reasonable, but which, for Category I, shall never be inferior to the amount that the Detaining Power gives to the members of its own armed forces.

The reasons for any limitations will be given without delay to the Protecting Power.

Article 61

The Detaining Power shall accept for distribution as supplementary pay to prisoners of war sums which the Power on which the prisoners depend may forward to them, on condition that the sums to be paid shall be the same for each prisoner of the same category, shall be payable to all prisoners of that category depending on that Power, and shall be placed in their separate accounts, at the earliest opportunity, in accordance with the provisions of Article 64. Such supplementary pay shall not relieve the Detaining Power of any obligation under this Convention.

Article 62

Prisoners of war shall be paid a fair working rate of pay by the detaining authorities direct. The rate shall be fixed by the said authorities, but shall at no time be less than one-fourth of one Swiss franc for a full working day. The Detaining Power shall inform prisoners of war, as well as the Power on which they depend, through the intermediary of the Protecting Power, of the rate of daily working pay that it has fixed.

Working pay shall likewise be paid by the detaining authorities to prisoners of war permanently detailed to duties or to a skilled or semi-skilled occupation in connection with the administration, installation or maintenance of camps, and to the prisoners who are required to carry out spiritual or medical duties on behalf of their comrades.

The working pay of the prisoners' representative, of his advisers, if any, and of his assistants, shall be paid out of the fund maintained by canteen profits. The scale of this working pay shall be

fixed by the prisoners' representative and approved by the camp commander. If there is no such fund, the detaining authorities shall pay these prisoners a fair working rate of pay.

Article 63

Prisoners of war shall be permitted to receive remittances of money addressed to them individually or collectively.

Every prisoner of war shall have at his disposal the credit balance of his account as provided for in the following Article, within the limits fixed by the Detaining Power, which shall make such payments as are requested. Subject to financial or monetary restrictions which the Detaining Power regards as essential, prisoners of war may also have payments made abroad. In this case payments addressed by prisoners of war to dependents shall be given priority.

In any event, and subject to the consent of the Power on which they depend, prisoners may have payments made in their own country, as follows: the Detaining Power shall send to the aforesaid Power through the Protecting Power, a notification giving all the necessary particulars concerning the prisoners of war, the beneficiaries of the payments, and the amount of the sums to be paid, expressed in the Detaining Power's currency. The said notification shall be signed by the prisoners and countersigned by the camp commander. The Detaining Power shall debit the prisoners' account by a corresponding amount; the sums thus debited shall be placed by it to the credit of the Power on which the prisoners depend.

To apply the foregoing provisions, the Detaining Power may usefully consult the Model Regulations in Annex V of the present Convention.

Article 64

The Detaining Power shall hold an account for each prisoner of war, showing at least the following:

- 1) The amounts due to the prisoner or received by him as advances of pay, as working pay or derived from any other source; the sums in the currency of the Detaining Power which were taken from him; the sums taken from him and converted at his request into the currency of the said Power.
- 2) The payments made to the prisoner in cash, or in any other similar form; the payments made on his behalf and at his request; the sums transferred under Article 63, third paragraph.

Article 65

Every item entered in the account of a prisoner of war shall be countersigned or initialled by him, or by the prisoners' representative acting on his behalf.

Prisoners of war shall at all times be afforded reasonable facilities for consulting and obtaining copies of their accounts, which may likewise be inspected by the representatives of the Protecting Powers at the time of visits to the camp.

When prisoners of war are transferred from one camp to another, their personal accounts will follow them. In case of transfer from one Detaining Power to another, the monies which are their property and are not in the currency of the Detaining Power will follow them. They shall be given certificates for any other monies standing to the credit of their accounts.

The Parties to the conflict concerned may agree to notify to each other at specific intervals through the Protecting Power, the amount of the accounts of the prisoners of war.

Article 66

On the termination of captivity, through the release of a prisoner of war or his repatriation, the Detaining Power shall give him a statement, signed by an authorized officer of that Power, showing the credit balance then due to him. The Detaining Power shall also send through the Protecting Power to the government upon which the prisoner of war depends, lists giving all appropriate par-

particulars of all prisoners of war whose captivity has been terminated by repatriation, release, escape, death or any other means, and showing the amount of their credit balances. Such lists shall be certified on each sheet by an authorized representative of the Detaining Power.

Any of the above provisions of this Article may be varied by mutual agreement between any two Parties to the conflict.

The Power on which the prisoner of war depends shall be responsible for settling with him any credit balance due to him from the Detaining Power on the termination of his captivity.

Article 67

Advances of pay, issued to prisoners of war in conformity with Article 60, shall be considered as made on behalf of the Power on which they depend. Such advances of pay, as well as all payments made by the said Power under Article 63, third paragraph, and Article 68, shall form the subject of arrangements between the Powers concerned, at the close of hostilities.

Article 68

Any claim by a prisoner of war for compensation in respect of any injury or other disability arising out of work shall be referred to the Power on which he depends, through the Protecting Power. In accordance with Article 54, the Detaining Power will, in all cases, provide the prisoner of war concerned with a statement showing the nature of the injury or disability, the circumstances in which it arose and particulars of medical or hospital treatment given for it. This statement will be signed by a responsible officer of the Detaining Power and the medical particulars certified by a medical officer.

Any claim by a prisoner of war for compensation in respect of personal effects, monies or valuables impounded by the Detaining Power under Article 18 and not forthcoming on his repatriation, or in respect of loss alleged to be due to the fault of the Detaining Power or any of its servants, shall likewise be referred to the Power on which he depends. Nevertheless, any such personal effects required for use by the prisoners of war whilst in captivity shall be replaced at the expense of the Detaining Power. The Detaining Power will, in all cases, provide the prisoner of war with a statement, signed by a responsible officer, showing all available information regarding the reasons why such effects, monies or valuables have not been restored to him. A copy of this statement will be forwarded to the Power on which he depends through the Central Prisoners of War Agency provided for in Article 123.

SECTION V. RELATIONS OF PRISONERS OF WAR WITH THE EXTERIOR

Article 69

Immediately upon prisoners of war falling into its power, the Detaining Power shall inform them and the Powers on which they depend, through the Protecting Power, of the measures taken to carry out the provisions of the present Section. They shall likewise inform the parties concerned of any subsequent modifications of such measures.

Article 70

Immediately upon capture, or not more than one week after arrival at a camp, even if it is a transit camp, likewise in case of sickness or transfer to hospital or another camp, every prisoner of war shall be enabled to write direct to his family, on the one hand, and to the Central Prisoners of War Agency provided for in Article 123, on the other hand, a card similar, if possible, to the model annexed to the present Convention, informing his relatives of his capture, address and state of health. The said cards shall be forwarded as rapidly as possible and may not be delayed in any manner.

Article 71

Prisoners of war shall be allowed to send and receive letters and cards. If the Detaining Power deems it necessary to limit the number of letters and cards sent by each prisoner of war, the said number shall not be less than two letters and four cards monthly, exclusive of the capture cards provided for in Article 70, and conforming as closely as possible to the models annexed to the present Convention. Further limitations may be imposed only if the Protecting Power is satisfied that it would be in the interests of the prisoners of war concerned to do so owing to difficulties of translation caused by the Detaining Power's inability to find sufficient qualified linguists to carry out the necessary censorship. If limitations must be placed on the correspondence addressed to prisoners of war, they may be ordered only by the Power on which the prisoners depend, possibly at the request of the Detaining Power. Such letters and cards must be conveyed by the most rapid method at the disposal of the Detaining Power; they may not be delayed or retained for disciplinary reasons.

Prisoners of war who have been without news for a long period, or who are unable to receive news from their next of kin or to give them news by the ordinary postal route, as well as those who are at a great distance from their homes, shall be permitted to send telegrams, the fees being charged against the prisoners of war's accounts with the Detaining Power or paid in the currency at their disposal. They shall likewise benefit by this measure in cases of urgency.

As a general rule, the correspondence of prisoners of war shall be written in their native language. The Parties to the conflict may allow correspondence in other languages.

Sacks containing prisoner of war mail must be securely sealed and labelled so as clearly to indicate their contents, and must be addressed to offices of destination.

Article 72

Prisoners of war shall be allowed to receive by post or by any other means individual parcels or collective shipments containing, in particular, foodstuffs, clothing, medical supplies and articles of a religious, educational or recreational character which may meet their needs, including books, devotional articles, scientific equipment, examination papers, musical instruments, sports outfits and materials allowing prisoners of war to pursue their studies or their cultural activities.

Such shipments shall in no way free the Detaining Power from the obligations imposed upon it by virtue of the present Convention.

The only limits which may be placed on these shipments shall be those proposed by the Protecting Power in the interest of the prisoners themselves, or by the International Committee of the Red Cross or any other organization giving assistance to the prisoners, in respect of their own shipments only, on account of exceptional strain on transport or communications.

The conditions for the sending of individual parcels and collective relief shall, if necessary, be the subject of special agreements between the Powers concerned, which may in no case delay the receipt by the prisoners of relief supplies. Books may not be included in parcels of clothing and foodstuffs. Medical supplies shall, as a rule, be sent in collective parcels.

Article 73

In the absence of special agreements between the Powers concerned on the conditions for the receipt and distribution of collective relief shipments, the rules and regulations concerning collective shipments, which are annexed to the present Convention, shall be applied.

The special agreements referred to above shall in no case restrict the right of prisoners' representatives to take possession of collective relief shipments intended for prisoners of war, to proceed to their distribution or to dispose of them in the interest of the prisoners.

Nor shall such agreements restrict the right of representatives of the Protecting Power, the International Committee of the Red Cross or any other organization giving assistance to prisoners of war and responsible for the forwarding of collective shipments, to supervise their distribution to the recipients.

Article 74

All relief shipments for prisoners of war shall be exempt from import, customs and other dues.

Correspondence, relief shipments and authorized remittances of money addressed to prisoners of war or despatched by them through the post office, either direct or through the Information Bureaux provided for in Article 122 and the Central Prisoners of War Agency provided for in Article 123, shall be exempt from any postal dues, both in the countries of origin and destination, and in intermediate countries.

If relief shipments intended for prisoners of war cannot be sent through the post office by reason of weight or for any other cause, the cost of transportation shall be borne by the Detaining Power in all the territories under its control. The other Powers party to the Convention shall bear the cost of transport in their respective territories.

In the absence of special agreements between the Parties concerned, the costs connected with transport of such shipments, other than costs covered by the above exemption, shall be charged to the senders.

The High Contracting Parties shall endeavour to reduce, so far as possible, the rates charged for telegrams sent by prisoners of war, or addressed to them.

Article 75

Should military operations prevent the Powers concerned from fulfilling their obligation to assure the transport of the shipments referred to in Articles 70, 71, 72 and 77, the Protecting Powers concerned, the International Committee of the Red Cross or any other organization duly approved by the Parties to the conflict may undertake to ensure the conveyance of such shipments by suitable means (railway wagons, motor vehicles, vessels or aircraft, etc.). For this purpose, the High Contracting Parties shall endeavour to supply them with such transport and to allow its circulation, especially by granting the necessary safe-conducts.

Such transport may also be used to convey:

- (a) correspondence, lists and reports exchanged between the Central Information Agency referred to in Article 123 and the National Bureaux referred to in Article 122;
- (b) correspondence and reports relating to prisoners of war which the Protecting Power, the International Committee of the Red Cross or any other body assisting the prisoners, exchange either with their own delegates or with the Parties to the conflict.

These provisions in no way detract from the right of any Party to the conflict to arrange other means of transport, if it should so prefer, nor preclude the granting of safe-conducts, under mutually agreed conditions, to such means of transport.

In the absence of special agreements, the costs occasioned by the use of such means of transport shall be borne proportionally by the Parties to the conflict whose nationals are benefited thereby.

Article 76

The censoring of correspondence addressed to prisoners of war or despatched by them shall be done as quickly as possible. Mail shall be censored only by the despatching State and the receiving State, and once only by each.

The examination of consignments intended for prisoners of war shall not be carried out under conditions that will expose the goods contained in them to deterioration; except in the case of written or printed matter, it shall be done in the presence of the addressee, or of a fellow-prisoner duly delegated by him. The delivery to prisoners of individual or collective consignments shall not be delayed under the pretext of difficulties of censorship.

Any prohibition of correspondence ordered by Parties to the conflict, either for military or political reasons, shall be only temporary and its duration shall be as short as possible.

Article 77

The Detaining Power shall provide all facilities for the transmission, through the Protecting Power or the Central Prisoners of War Agency provided for in Article 123, of instruments, papers or documents intended for prisoners of war or despatched by them, especially powers of attorney and wills.

In all cases they shall facilitate the preparation and execution of such documents on behalf of prisoners of war; in particular, they shall allow them to consult a lawyer and shall take what measures are necessary for the authentication of their signatures.

SECTION VI. RELATIONS BETWEEN PRISONERS OF WAR AND THE AUTHORITIES

CHAPTER I. COMPLAINTS OF PRISONERS OF WAR RESPECTING THE CONDITIONS OF CAPTIVITY

Article 78

Prisoners of war shall have the right to make known to the military authorities in whose power they are, their requests regarding the conditions of captivity to which they are subjected.

They shall also have the unrestricted right to apply to the representatives of the Protecting Powers either through their prisoners' representative or, if they consider it necessary, direct, in order to draw their attention to any points on which they may have complaints to make regarding their conditions of captivity.

These requests and complaints shall not be limited nor considered to be a part of the correspondence quota referred to in Article 71. They must be transmitted immediately. Even if they are recognized to be unfounded, they may not give rise to any punishment.

Prisoners' representative may send periodic reports on the situation in the camps and the needs of the prisoners of war to the representatives of the Protecting Powers.

CHAPTER II. PRISONER OF WAR REPRESENTATIVES

Article 79

In all places where there are prisoners of war, except in those where there are officers, the prisoners shall freely elect by secret ballot, every six months, and also in case of vacancies, prisoners' representatives entrusted with representing them before the military authorities, the Protecting Powers, the International Committee of the Red Cross and any other organization which may assist them. These prisoners' representatives shall be eligible for re-election.

In camps for officers and persons of equivalent status or in mixed camps, the senior officer among the prisoners of war shall be recognized as the camp prisoners' representative. In camps for officers, he shall be assisted by one or more advisers chosen by the officers; in mixed camps, his assistants shall be chosen from among the prisoners of war who are not officers and shall be elected by them.

Officer prisoners of war of the same nationality shall be stationed in labour camps for prisoners of war, for the purpose of carrying out the camp administration duties for which the prisoners of war are responsible. These officers may be elected as prisoners' representatives under the first paragraph of this Article. In such a case the assistants to the prisoners' representatives shall be chosen from among those prisoners of war who are not officers.

Every representative elected must be approved by the Detaining Power before he has the right to commence his duties. Where the Detaining Power refuses to approve a prisoner of war elected by his fellow prisoners of war, it must inform the Protecting Power of the reason for such refusal.

In all cases the prisoners' representative must have the same nationality, language and customs as the prisoners of war whom he represents. Thus, prisoners of war distributed in different sections of a camp, according to their nationality, language or customs, shall have for each section their own prisoners' representative, in accordance with the foregoing paragraphs.

Article 80

Prisoners' representatives shall further the physical, spiritual and intellectual well-being of prisoners of war.

In particular, where the prisoners decide to organize amongst themselves a system of mutual assistance, this organization will be within the province of the prisoners' representative, in addition to the special duties entrusted to him by other provisions of the present Convention.

Prisoners' representatives shall not be held responsible, simply by reason of their duties, for any offences committed by prisoners of war.

Article 81

Prisoners' representatives shall not be required to perform any other work, if the accomplishment of their duties is thereby made more difficult.

Prisoners' representatives may appoint from amongst the prisoners such assistants as they may require. All material facilities shall be granted them, particularly a certain freedom of movement necessary for the accomplishment of their duties (inspection of labour detachments, receipt of supplies, etc.).

Prisoners' representatives shall be permitted to visit premises where prisoners of war are detained, and every prisoner of war shall have the right to consult freely his prisoners' representative.

All facilities shall likewise be accorded to the prisoners' representatives for communication by post and telegraph with the detaining authorities, the Protecting Powers, the International Committee of the Red Cross and their delegates, the Mixed Medical Commissions and with the bodies which give assistance to prisoners of war. Prisoners' representatives of labour detachments shall enjoy the same facilities for communication with the prisoners' representatives of the principal camp. Such communications shall not be restricted, nor considered as forming a part of the quota mentioned in Article 71.

Prisoners' representatives who are transferred shall be allowed a reasonable time to acquaint their successors with current affairs.

In case of dismissal, the reasons therefor shall be communicated to the Protecting Power.

CHAPTER III. PENAL AND DISCIPLINARY SANCTIONS

I. General Provisions

Article 82

A prisoner of war shall be subject to the laws, regulations and orders in force in the armed forces of the Detaining Power; the Detaining Power shall be justified in taking judicial or disciplinary measures in respect of any offence committed by a prisoner of war against such laws, regulations or orders. However, no proceedings or punishments contrary to the provisions of this Chapter shall be allowed.

If any law, regulation or order of the Detaining Power shall declare acts committed by a prisoner of war to be punishable, whereas the same acts would not be punishable if committed by a member of the forces of the Detaining Power, such acts shall entail disciplinary punishments only.

Article 83

In deciding whether proceedings in respect of an offence alleged to have been committed by a prisoner of war shall be judicial or disciplinary, the Detaining Power shall ensure that the competent authorities exercise the greatest leniency and adopt, wherever possible, disciplinary rather than judicial measures.

Article 84

A prisoner of war shall be tried only by a military court, unless the existing laws of the Detaining Power expressly permit the civil courts to try a member of the armed forces of the Detaining Power in respect of the particular offence alleged to have been committed by the prisoner of war.

In no circumstances whatever shall a prisoner of war be tried by a court of any kind which does not offer the essential guarantees of independence and impartiality as generally recognized, and, in particular, the procedure of which does not afford the accused the rights and means of defence provided for in Article 105.

Article 85

Prisoners of war prosecuted under the laws of the Detaining Power for acts committed prior to capture shall retain, even if convicted, the benefits of the present Convention.

Article 86

No prisoner of war may be punished more than once for the same act, or on the same charge.

Article 87

Prisoners of war may not be sentenced by the military authorities and courts of the Detaining Power to any penalties except those provided for in respect of members of the armed forces of the said Power who have committed the same acts.

When fixing the penalty, the courts or authorities of the Detaining Power shall take into consideration, to the widest extent possible, the fact that the accused, not being a national of the Detaining Power, is not bound to it by any duty of allegiance, and that he is in its power as the result of circumstances independent of his own will. The said courts or authorities shall be at liberty to reduce the penalty provided for the violation of which the prisoner of war is accused, and shall therefore not be bound to apply the minimum penalty prescribed.

Collective punishment for individual acts, corporal punishment, imprisonment in premises without daylight and, in general, any form of torture or cruelty, are forbidden.

No prisoner of war may be deprived of his rank by the Detaining Power, or prevented from wearing his badges.

Article 88

Officers, non-commissioned officers and men who are prisoners of war undergoing a disciplinary or judicial punishment, shall not be subjected to more severe treatment than that applied in respect of the same punishment to members of the armed forces of the Detaining Power of equivalent rank.

A woman prisoner of war shall not be awarded or sentenced to a punishment more severe, or treated whilst undergoing punishment more severely, than a woman member of the armed forces of the Detaining Power dealt with for a similar offence.

In no case may a woman prisoner of war be awarded or sentenced to a punishment more severe, or treated whilst undergoing punishment more severely, than a male member of the armed forces of the Detaining Power dealt with for a similar offence.

Prisoners of war who have served disciplinary or judicial sentences may not be treated differently from other prisoners of war.

II. Disciplinary Sanctions**Article 89**

The disciplinary punishments applicable to prisoners of war are the following:

1) A fine which shall not exceed 50 per cent of the advances of pay and working pay which the prisoner of war would otherwise receive under the provisions of Articles 60 and 62 during a period of not more than thirty days.

2) Discontinuance of privileges granted over and above the treatment provided for by the present Convention.

3) Fatigue duties not exceeding two hours daily.

4) Confinement.

The punishment referred to under 3) shall not be applied to officers.

In no case shall disciplinary punishments be inhuman, brutal or dangerous to the health of prisoners of war.

Article 90

The duration of any single punishment shall in no case exceed thirty days. Any period of confinement awaiting the hearing of a disciplinary offence or the award of disciplinary punishment shall be deducted from an award pronounced against a prisoner of war.

The maximum of thirty days provided above may not be exceeded, even if the prisoner of war is answerable for several acts at the same time when he is awarded punishment, whether such acts are related or not.

The period between the pronouncing of an award of disciplinary punishment and its execution shall not exceed one month.

When a prisoner of war is awarded a further disciplinary punishment, a period of at least three days shall elapse between the execution of any two of the punishments, if the duration of one of these is ten days or more.

Article 91

The escape of a prisoner of war shall be deemed to have succeeded when:

1) he has joined the armed forces of the Power on which he depends, or those of an allied Power;

2) he has left the territory under the control of the Detaining Power, or of an ally of the said Power;

3) he has joined a ship flying the flag of the Power on which he depends, or of an allied Power, in the territorial waters of the Detaining Power, the said ship not being under the control of the last named Power.

Prisoners of war who have made good their escape in the sense of this Article and who are recaptured, shall not be liable to any punishment in respect of their previous escape.

Article 92

A prisoner of war who attempts to escape and is recaptured before having made good his escape in the sense of Article 91 shall be liable only to a disciplinary punishment in respect of this act, even if it is a repeated offence.

A prisoner of war who is recaptured shall be handed over without delay to the competent military authority.

Article 88, fourth paragraph, notwithstanding, prisoners of war punished as a result of an unsuccessful escape may be subjected to special surveillance. Such surveillance must not affect the state of their health, must be undergone in a prisoner of war camp, and must not entail the suppression of any of the safeguards granted them by the present Convention.

Article 93

Escape or attempt to escape, even if it is a repeated offence, shall not be deemed an aggravating circumstance if the prisoner of war is subjected to trial by judicial proceedings in respect of an offence committed during his escape or attempt to escape.

In conformity with the principle stated in Article 83, offences committed by prisoners of war with the sole intention of facilitating their escape and which do not entail any violence against life or limb, such as offences against public property, theft without intention of self-enrichment, the drawing up or use of false papers, the wearing of civilian clothing, shall occasion disciplinary punishment only.

Prisoners of war who aid or abet an escape or an attempt to escape shall be liable on this count to disciplinary punishment only.

Article 94

If an escaped prisoner of war is recaptured, the Power on which he depends shall be notified thereof in the manner defined in Article 122, provided notification of his escape has been made.

Article 95

A prisoner of war accused of an offence against discipline shall not be kept in confinement pending the hearing unless a member of the armed forces of the Detaining Power would be so kept if he were accused of a similar offence, or if it is essential in the interests of camp order and discipline.

Any period spent by a prisoner of war in confinement awaiting the disposal of an offence against discipline shall be reduced to an absolute minimum and shall not exceed fourteen days.

The provisions of Articles 97 and 98 of this Chapter shall apply to prisoners of war who are in confinement awaiting the disposal of offences against discipline.

Article 96

Acts which constitute offences against discipline shall be investigated immediately.

Without prejudice to the competence of courts and superior military authorities, disciplinary punishment may be ordered only by an officer having disciplinary powers in his capacity as camp commander, or by a responsible officer who replaces him or to whom he has delegated his disciplinary powers.

In no case may such powers be delegated to a prisoner of war or be exercised by a prisoner of war.

Before any disciplinary award is pronounced, the accused shall be given precise information regarding the offences of which he is accused, and given an opportunity of explaining his conduct and of defending himself. He shall be permitted, in particular, to call witnesses and to have recourse, if necessary, to the services of a qualified interpreter. The decision shall be announced to the accused prisoner of war and to the prisoners' representative.

A record of disciplinary punishments shall be maintained by the camp commander and shall be open to inspection by representatives of the Protecting Power.

Article 97

Prisoners of war shall not in any case be transferred to penitentiary establishments (prisons, penitentiaries, convict prisons, etc.) to undergo disciplinary punishment therein.

All premises in which disciplinary punishments are undergone shall conform to the sanitary requirements set forth in Article 25. A prisoner of war undergoing punishment shall be enabled to keep himself in a state of cleanliness, in conformity with Article 29.

Officers and persons of equivalent status shall not be lodged in the same quarters as non-commissioned officers or men.

Women prisoners of war undergoing disciplinary punishment shall be confined in separate quarters from male prisoners of war and shall be under the immediate supervision of women.

Article 98

A prisoner of war undergoing confinement as a disciplinary punishment, shall continue to enjoy the benefits of the provisions of this Convention except in so far as these are necessarily rendered inapplicable by the mere fact that he is confined. In no case may he be deprived of the benefits of the provisions of Articles 78 and 126.

A prisoner of war awarded disciplinary punishment may not be deprived of the prerogatives attached to his rank.

Prisoners of war awarded disciplinary punishment shall be allowed to exercise and to stay in the open air at least two hours daily.

They shall be allowed, on their request, to be present at the daily medical inspections. They shall receive the attention which their state of health requires and, if necessary, shall be removed to the camp infirmary or to a hospital.

They shall have permission to read and write, likewise to send and receive letters. Parcels and remittances of money, however, may be withheld from them until the completion of the punishment; they shall meanwhile be entrusted to the prisoners' representative, who will hand over to the infirmary the perishable goods contained in such parcels.

III. Judicial Proceedings

Article 99

No prisoner of war may be tried or sentenced for an act which is not forbidden by the law of the Detaining Power or by international law, in force at the time the said act was committed.

No moral or physical coercion may be exerted on a prisoner of war in order to induce him to admit himself guilty of the act of which he is accused.

No prisoner of war may be convicted without having had an opportunity to present his defence and the assistance of a qualified advocate or counsel.

Article 100

Prisoners of war and the Protecting Powers shall be informed as soon as possible of the offences which are punishable by the death sentence under the laws of the Detaining Power.

Other offences shall not thereafter be made punishable by the death penalty without the concurrence of the Power upon which the prisoners of war depend.

The death sentence cannot be pronounced on a prisoner of war unless the attention of the court has, in accordance with Article 87, second paragraph, been particularly called to the fact that since the accused is not a national of the Detaining Power, he is not bound to it by any duty of allegiance, and that he is in its power as the result of circumstances independent of his own will.

Article 101

If the death penalty is pronounced on a prisoner of war, the sentence shall not be executed before the expiration of a period of at least six months from the date when the Protecting Power receives, at an indicated address, the detailed communication provided for in Article 107.

Article 102

A prisoner of war can be validly sentenced only if the sentence has been pronounced by the same courts according to the same procedure as in the case of members of the armed forces of the Detaining Power, and if, furthermore, the provisions of the present Chapter have been observed.

Article 103

Judicial investigations relating to a prisoner of war shall be conducted as rapidly as circumstances permit and so that his trial shall take place as soon as possible. A prisoner of war shall not be confined while awaiting trial unless a member of the armed forces of the Detaining Power would be so confined if he were accused of a similar offence, or if it is essential to do so in the interests of national security. In no circumstances shall this confinement exceed three months.

Any period spent by a prisoner of war in confinement awaiting trial shall be deducted from any sentence of imprisonment passed upon him and taken into account in fixing any penalty.

The provisions of Articles 97 and 98 of this Chapter shall apply to a prisoner of war whilst in confinement awaiting trial.

Article 104

In any case in which the Detaining Power has decided to institute judicial proceedings against a prisoner of war, it shall notify the Protecting Power as soon as possible and at least three weeks before the opening of the trial. This period of three weeks shall run as from the day on which such notification reaches the Protecting Power at the address previously indicated by the latter to the Detaining Power.

The said notification shall contain the following information:

- 1) surname and first names of the prisoner of war, his rank, his army, regimental, personal or serial number, his date of birth, and his profession or trade, if any;
- 2) place of internment or confinement;
- 3) specification of the charge or charges on which the prisoner of war is to be arraigned, giving the legal provisions applicable;
- 4) designation of the court which will try the case, likewise the date and place fixed for the opening of the trial.

The same communication shall be made by the Detaining Power to the prisoners' representative.

If no evidence is submitted, at the opening of a trial, that the notification referred to above was received by the Protecting Power, by the prisoner of war and by the prisoners' representative concerned, at least three weeks before the opening of the trial, then the latter cannot take place and must be adjourned.

Article 105

The prisoner of war shall be entitled to assistance by one of his prisoner comrades, to defence by a qualified advocate or counsel of his own choice, to the calling of witnesses and, if he deems necessary, to the services of a competent interpreter. He shall be advised of these rights by the Detaining Power in due time before the trial.

Failing a choice by the prisoner of war, the Protecting Power shall find him an advocate or counsel, and shall have at least one week at its disposal for the purpose. The Detaining Power shall deliver to the said Power, on request, a list of persons qualified to present the defence. Failing a choice of an advocate or counsel by the prisoner of war or the Protecting Power, the Detaining Power shall appoint a competent advocate or counsel to conduct the defence.

The advocate or counsel conducting the defence on behalf of the prisoner of war shall have at his disposal a period of two weeks at least before the opening of the trial, as well as the necessary facilities to prepare the defence of the accused. He may, in particular, freely visit the accused and interview him in private. He may also confer with any witnesses for the defence, including prisoners of war. He shall have the benefit of these facilities until the term of appeal or petition has expired.

Particulars of the charge or charges on which the prisoner of war is to be arraigned, as well as the documents which are generally communicated to the accused by virtue of the laws in force in the armed forces of the Detaining Power, shall be communicated to the accused prisoner of war

in a language which he understands, and in good time before the opening of the trial. The same communication in the same circumstances shall be made to the advocate or counsel conducting the defence on behalf of the prisoner of war.

The representatives of the Protecting Power shall be entitled to attend the trial of the case, unless, exceptionally, this is held *in camera* in the interest of State security. In such a case the Detaining Power shall advise the Protecting Power accordingly.

Article 106

Every prisoner of war shall have, in the same manner as the members of the armed forces of the Detaining Power, the right of appeal or petition from any sentence pronounced upon him, with a view to the quashing or revising of the sentence or the reopening of the trial. He shall be fully informed of his right to appeal or petition and of the time limit within which he may do so.

Article 107

Any judgment and sentence pronounced upon a prisoner of war shall be immediately reported to the Protecting Power in the form of a summary communication, which shall also indicate whether he has the right of appeal with a view to the quashing of the sentence or the reopening of the trial. This communication shall likewise be sent to the prisoners' representative concerned. It shall also be sent to the accused prisoner of war in a language he understands, if the sentence was not pronounced in his presence. The Detaining Power shall also immediately communicate to the Protecting Power the decision of the prisoner of war to use or to waive his right of appeal.

Furthermore, if a prisoner of war is finally convicted or if a sentence pronounced on a prisoner of war in the first instance is a death sentence, the Detaining Power shall as soon as possible address to the Protecting Power a detailed communication containing:

- 1) the precise wording of the finding and sentence;
- 2) a summarized report of any preliminary investigation and of the trial, emphasizing in particular the elements of the prosecution and the defence;
- 3) notification, where applicable, of the establishment where the sentence will be served.

The communications provided for in the foregoing subparagraphs shall be sent to the Protecting Power at the address previously made known to the Detaining Power.

Article 108

Sentence pronounced on prisoners of war after a conviction has become duly enforceable shall be served in the same establishments and under the same conditions as in the case of members of the armed forces of the Detaining Power. These conditions shall in all cases conform to the requirements of health and humanity.

A woman prisoner of war on whom such a sentence has been pronounced shall be confined in separate quarters and shall be under the supervision of women.

In any case, prisoners of war sentenced to a penalty depriving them of their liberty shall retain the benefit of the provisions of Articles 78 and 126 of the present Convention. Furthermore, they shall be entitled to receive and despatch correspondence, to receive at least one relief parcel monthly, to take regular exercise in the open air, to have the medical care required by their state of health, and the spiritual assistance they may desire. Penalties to which they may be subjected shall be in accordance with the provisions of Article 87, third paragraph.

PART IV. TERMINATION OF CAPTIVITY**SECTION I. DIRECT REPATRIATION AND ACCOMMODATION IN NEUTRAL COUNTRIES****Article 109**

Subject to the provisions of the third paragraph of this Article, Parties to the conflict are bound to send back to their own country, regardless of number or rank, seriously wounded and seriously sick prisoners of war, after having cared for them until they are fit to travel, in accordance with the first paragraph of the following Article.

Throughout the duration of hostilities, Parties to the conflict shall endeavour, with the co-operation of the neutral Powers concerned, to make arrangements for the accommodation in neutral countries of the sick and wounded prisoners of war referred to in the second paragraph of the following Article. They may, in addition, conclude agreements with a view to the direct repatriation or internment in a neutral country of able-bodied prisoners of war who have undergone a long period of captivity.

No sick or injured prisoner of war who is eligible for repatriation under the first paragraph of this Article, may be repatriated against his will during hostilities.

Article 110

The following shall be repatriated direct:

- 1) Incurably wounded and sick whose mental or physical fitness seems to have been gravely diminished.
- 2) Wounded and sick who, according to medical opinion, are not likely to recover within one year, whose condition requires treatment and whose mental or physical fitness seems to have been gravely diminished.
- 3) Wounded and sick who have recovered, but whose mental or physical fitness seems to have gravely and permanently diminished.

The following may be accommodated in a neutral country:

- 1) Wounded and sick whose recovery may be expected within one year of the date of the wound or the beginning of the illness, if treatment in a neutral country might increase the prospects of a more certain and speedy recovery.
- 2) Prisoners of war whose mental or physical health, according to medical opinion, is seriously threatened by continued captivity, but whose accommodation in a neutral country might remove such a threat.

The conditions which prisoners of war accommodated in a neutral country must fulfil in order to permit their repatriation shall be fixed, as shall likewise their status, by agreement between the Powers concerned. In general, prisoners of war who have been accommodated in a neutral country, and who belong to the following categories, should be repatriated:

- 1) those whose state of health has deteriorated so as to fulfil the conditions laid down for direct repatriation;
- 2) those whose mental or physical powers remain, even after treatment, considerably impaired.

If no special agreements are concluded between the Parties to the conflict concerned, to determine the cases of disablement or sickness entailing direct repatriation or accommodation in a neutral country, such cases shall be settled in accordance with the principles laid down in the Model Agreement concerning direct repatriation and accommodation in neutral countries of wounded and sick prisoners of war and in the Regulations concerning Mixed Medical Commissions annexed to the present Convention.

Article 111

The Detaining Power, the Power on which the prisoners of war depend, and a neutral Power agreed upon by these two Powers, shall endeavour to conclude agreements which will enable prisoners of war to be interned in the territory of the said neutral Power until the close of hostilities.

Article 112

Upon the outbreak of hostilities, Mixed Medical Commissions shall be appointed to examine sick and wounded prisoners of war, and to make all appropriate decisions regarding them. The appointment, duties and functioning of these Commissions shall be in conformity with the provisions of the Regulations annexed to the present Convention.

However, prisoners of war who, in the opinion of the medical authorities of the Detaining Power, are manifestly seriously injured or seriously sick, may be repatriated without having to be examined by a Mixed Medical Commission.

Article 113

Besides those who are designated by the medical authorities of the Detaining Power, wounded or sick prisoners of war belonging to the categories listed below shall be entitled to present themselves for examination by the Mixed Medical Commissions provided for in the foregoing Article:

- 1) Wounded and sick proposed by a physician or surgeon who is of the same nationality, or a national of a Party to the conflict allied with the Power on which the said prisoners depend, and who exercises his functions in the camp.
- 2) Wounded and sick proposed by their prisoners' representative.
- 3) Wounded and sick proposed by the Power on which they depend, or by an organization duly recognized by the said Power and giving assistance to the prisoners.

Prisoners of war who do not belong to one of the three foregoing categories may nevertheless present themselves for examination by Mixed Medical Commissions, but shall be examined only after those belonging to the said categories.

The physician or surgeon of the same nationality as the prisoners who present themselves for examination by the Mixed Medical Commission, likewise the prisoners' representative of the said prisoners, shall have permission to be present at the examination.

Article 114

Prisoners of war who meet with accidents shall, unless the injury is self-inflicted, have the benefit of the provisions of this Convention as regards repatriation or accommodation in a neutral country.

Article 115

No prisoner of war on whom a disciplinary punishment has been imposed and who is eligible for repatriation or for accommodation in a neutral country, may be kept back on the plea that he has not undergone his punishment.

Prisoners of war detained in connection with a judicial prosecution or conviction and who are designated for repatriation or accommodation in a neutral country, may benefit by such measures before the end of the proceedings or the completion of the punishment, if the Detaining Power consents.

Parties to the conflict shall communicate to each other the names of those who will be detained until the end of the proceedings or the completion of the punishment.

Article 116

The costs of repatriating prisoners of war or of transporting them to a neutral country shall be borne, from the frontiers of the Detaining Power, by the Power on which the said prisoners depend.

Article 117

No repatriated person may be employed on active military service.

**SECTION II. RELEASE AND REPATRIATION OF PRISONERS OF WAR
AT THE CLOSE OF HOSTILITIES****Article 118**

Prisoners of war shall be released and repatriated without delay after the cessation of active hostilities.

In the absence of stipulations to the above effect in any agreement concluded between the Parties to the conflict with a view to the cessation of hostilities, or failing any such agreement, each of the Detaining Powers shall itself establish and execute without delay a plan of repatriation in conformity with the principle laid down in the foregoing paragraph.

In either case, the measures adopted shall be brought to the knowledge of the prisoners of war.

The costs of repatriation of prisoners of war shall in all cases be equitably apportioned between the Detaining Power and the Power on which the prisoners depend. This apportionment shall be carried out on the following basis:

(a) If the two Powers are contiguous, the Power on which the prisoners of war depend shall bear the costs of repatriation from the frontiers of the Detaining Power.

(b) If the two Powers are not contiguous, the Detaining Power shall bear the costs of transport of prisoners of war over its own territory as far as its frontier or its port of embarkation nearest to the territory of the Power on which the prisoners of war depend. The Parties concerned shall agree between themselves as to the equitable apportionment of the remaining costs of the repatriation. The conclusion of this agreement shall in no circumstances justify any delay in the repatriation of the prisoners of war.

Article 119

Repatriation shall be effected in conditions similar to those laid down in Articles 46 to 48 inclusive of the present Convention for the transfer of prisoners of war, having regard to the provisions of Article 118 and to those of the following paragraphs.

On repatriation, any articles of value impounded from prisoners of war under Article 18, and any foreign currency which has not been converted into the currency of the Detaining Power, shall be restored to them. Articles of value and foreign currency which, for any reason whatever, are not restored to prisoners of war on repatriation, shall be despatched to the Information Bureau set up under Article 122.

Prisoners of war shall be allowed to take with them their personal effects, and any correspondence and parcels which have arrived for them. The weight of such baggage may be limited, if the conditions of repatriation so require, to what each prisoner can reasonably carry. Each prisoner shall in all cases be authorized to carry at least twenty-five kilograms.

The other personal effects of the repatriated prisoner shall be left in the charge of the Detaining Power which shall have them forwarded to him as soon as it has concluded an agreement to this effect, regulating the conditions of transport and the payment of the costs involved, with the Power on which the prisoner depends.

Prisoners of war against whom criminal proceedings for an indictable offence are pending may be detained until the end of such proceedings, and, if necessary, until the completion of the punishment. The same shall apply to prisoners of war already convicted for an indictable offence.

Parties to the conflict shall communicate to each other the names of any prisoners of war who are detained until the end of the proceedings or until punishment has been completed.

By agreement between the Parties to the conflict, commissions shall be established for the purpose of searching for dispersed prisoners of war and of assuring their repatriation with the least possible delay.

SECTION III. DEATH OF PRISONERS OF WAR

Article 120

Wills of prisoners of war shall be drawn up so as to satisfy the conditions of validity required by the legislation of their country of origin, which will take steps to inform the Detaining Power of its requirements in this respect. At the request of the prisoner of war and, in all cases, after death, the will shall be transmitted without delay to the Protecting Power; a certified copy shall be sent to the Central Agency.

Death certificates, in the form annexed to the present Convention, or lists certified by a responsible officer, of all persons who die as prisoners of war shall be forwarded as rapidly as possible to the Prisoner of War Information Bureau established in accordance with Article 122. The death certificates or certified lists shall show particulars of identity as set out in the third paragraph of Article 17, and also the date and place of death, the cause of death, the date and place of burial and all particulars necessary to identify the graves.

The burial or cremation of a prisoner of war shall be preceded by a medical examination of the body with a view to confirming death and enabling a report to be made and, where necessary, establishing identity.

The detaining authorities shall ensure that prisoners of war who have died in captivity are honourably buried, if possible according to the rites of the religion to which they belonged, and that their graves are respected, suitably maintained and marked so as to be found at any time. Wherever possible, deceased prisoners of war who depended on the same Power shall be interred in the same place.

Deceased prisoners of war shall be buried in individual graves unless unavoidable circumstances require the use of collective graves. Bodies may be cremated only for imperative reasons of hygiene, on account of the religion of the deceased or in accordance with his express wish to this effect. In case of cremation, the fact shall be stated and the reasons given in the death certificate of the deceased.

In order that graves may always be found, all particulars of burials and graves shall be recorded with a Graves Registration Service established by the Detaining Power. Lists of graves and particulars of the prisoners of war interred in cemeteries and elsewhere shall be transmitted to the Power on which such prisoners of war depended. Responsibility for the care of these graves and for records of any subsequent moves of the bodies shall rest on the Power controlling the territory, if a Party to the present Convention. These provisions shall also apply to the ashes, which shall be kept by the Graves Registration Service until proper disposal thereof in accordance with the wishes of the home country.

Article 121

Every death or serious injury of a prisoner of war caused or suspected to have been caused by a sentry, another prisoner of war, or any other person, as well as any death the cause of which is unknown, shall be immediately followed by an official enquiry by the Detaining Power.

A communication on this subject shall be sent immediately to the Protecting Power. Statements shall be taken from witnesses, especially from those who are prisoners of war, and a report including such statements shall be forwarded to the Protecting Power.

If the enquiry indicates the guilt of one or more persons, the Detaining Power shall take all measures for the prosecution of the person or persons responsible.

PART V. INFORMATION BUREAUX AND RELIEF SOCIETIES FOR PRISONERS OF WAR**Article 122**

Upon the outbreak of a conflict and in all cases of occupation, each of the Parties to the conflict shall institute an official Information Bureau for prisoners of war who are in its power. Neutral or non-belligerent Powers who may have received within their territory persons belonging to one of the categories referred to in Article 4, shall take the same action with respect to such persons. The Power concerned shall ensure that the Prisoners of War Information Bureau is provided with the necessary accommodation, equipment and staff to ensure its efficient working. It shall be at liberty to employ prisoners of war in such a Bureau under the conditions laid down in the Section of the present Convention dealing with work by prisoners of war.

Within the shortest possible period, each of the Parties to the conflict shall give its Bureau the information referred to in the fourth, fifth and sixth paragraphs of this Article regarding any enemy person belonging to one of the categories referred to in Article 4, who has fallen into its power. Neutral or non-belligerent Powers shall take the same action with regard to persons belonging to such categories whom they have received within their territory.

The Bureau shall immediately forward such information by the most rapid means to the Powers concerned, through the intermediary of the Protecting Powers and likewise of the Central Agency provided for in Article 123.

This information shall make it possible quickly to advise the next of kin concerned. Subject to the provisions of Article 17, the information shall include, in so far as available to the Information Bureau, in respect of each prisoner of war, his surname, first names, rank, army, regimental, personal or serial number, place and full date of birth, indication of the Power on which he depends, first name of the father and maiden name of the mother, name and address of the person to be informed and the address to which correspondence for the prisoner may be sent.

The Information Bureau shall receive from the various departments concerned information regarding transfers, releases, repatriations, escapes, admissions to hospital, and deaths, and shall transmit such information in the manner described in the third paragraph above.

Likewise, information regarding the state of health of prisoners of war who are seriously ill or seriously wounded shall be supplied regularly, every week if possible.

The Information Bureau shall also be responsible for replying to all enquiries sent to it concerning prisoners of war, including those who have died in captivity; it will make any enquiries necessary to obtain the information which is asked for if this is not in its possession.

All written communications made by the Bureau shall be authenticated by a signature or a seal.

The Information Bureau shall furthermore be charged with collecting all personal valuables, including sums in currencies other than that of the Detaining Power and documents of importance to the next of kin, left by prisoners of war who have been repatriated or released, or who have escaped or died, and shall forward the said valuables to the Powers concerned. Such articles shall be sent by the Bureau in sealed packets which shall be accompanied by statements giving clear and full particulars of the identity of the person to whom the articles belonged, and by a complete list of the contents of the parcel. Other personal effects of such prisoners of war shall be transmitted under arrangements agreed upon between the Parties to the conflict concerned.

Article 123

A Central Prisoners of War Information Agency shall be created in a neutral country. The International Committee of the Red Cross shall, if it deems necessary, propose to the Powers concerned the organization of such an Agency.

The function of the Agency shall be to collect all the information it may obtain through official or private channels respecting prisoners of war, and to transmit it as rapidly as possible to the country of origin of the prisoners of war or to the Power on which they depend. It shall receive from the Parties to the conflict all facilities for effecting such transmissions.

The High Contracting Parties, and in particular those whose nationals benefit by the services of the Central Agency, are requested to give the said Agency the financial aid it may require.

The foregoing provisions shall in no way be interpreted as restricting the humanitarian activities of the International Committee of the Red Cross, or of the relief Societies provided for in Article 125.

Article 124

The national Information Bureaux and the Central Information Agency shall enjoy free postage for mail, likewise all the exemptions provided for in Article 74, and further, so far as possible, exemption from telegraphic charges or, at least, greatly reduced rates.

Article 125

Subject to the measures which the Detaining Powers may consider essential to ensure their security or to meet any other reasonable need, the representatives of religious organizations, relief societies, or any other organization assisting prisoners of war, shall receive from the said Powers, for themselves and their duly accredited agents, all necessary facilities for visiting the prisoners, distributing relief supplies and material, from any source, intended for religious, educational or recreative purposes, and for assisting them in organizing their leisure time within the camps. Such societies or organizations may be constituted in the territory of the Detaining Power or in any other country, or they may have an international character.

The Detaining Power may limit the number of societies and organizations whose delegates are allowed to carry out their activities in its territory and under its supervision, on condition, however, that such limitation shall not hinder the effective operation of adequate relief to all prisoners of war.

The special position of the International Committee of the Red Cross in this field shall be recognized and respected at all times.

As soon as relief supplies or material intended for the above-mentioned purposes are handed over to prisoners of war, or very shortly afterwards, receipts for each consignment, signed by the prisoners' representative, shall be forwarded to the relief society or organization making the shipment. At the same time, receipts for these consignments shall be supplied by the administrative authorities responsible for guarding the prisoners.

PART VI. EXECUTION OF THE CONVENTION

SECTION I. GENERAL PROVISIONS

Article 126

Representatives or delegates of the Protecting Powers shall have permission to go to all places where prisoners of war may be, particularly to places of internment, imprisonment and labour, and shall have access to all premises occupied by prisoners of war; they shall also be allowed to go to the places of departure, passage and arrival of prisoners who are being transferred. They shall be able to interview the prisoners, and in particular the prisoners' representatives, without witnesses, either personally or through an interpreter.

Representatives and delegates of the Protecting Powers shall have full liberty to select the places they wish to visit. The duration and frequency of these visits shall not be restricted. Visits may not be prohibited except for reasons of imperative military necessity, and then only as an exceptional and temporary measure.

The Detaining Power and the Power on which the said prisoners of war depend may agree, if necessary, that compatriots of these prisoners of war be permitted to participate in the visits.

The delegates of the International Committee of the Red Cross shall enjoy the same prerogatives. The appointment of such delegates shall be submitted to the approval of the Power detaining the prisoners of war to be visited.

Article 127

The High Contracting Parties undertake, in time of peace as in time of war, to disseminate the text of the present Convention as widely as possible in their respective countries, and, in particular, to include the study thereof in their programmes of military and, if possible, civil instruction, so that the principles thereof may become known to all their armed forces and to the entire population.

Any military or other authorities, who in time of war assume responsibilities in respect of prisoners of war, must possess the text of the Convention and be specially instructed as to its provisions.

Article 128

The High Contracting Parties shall communicate to one another through the Swiss Federal Council and, during hostilities, through the Protecting Powers, the official translations of the present Convention, as well as the laws and regulations which they may adopt to ensure the application thereof.

Article 129

The High Contracting Parties undertake to enact any legislation necessary to provide effective penal sanctions for persons committing, or ordering to be committed, any of the grave breaches of the present Convention defined in the following Article.

Each High Contracting Party shall be under the obligation to search for persons alleged to have committed, or to have ordered to be committed, such grave breaches, and shall bring such persons, regardless of their nationality, before its own courts. It may also, if it prefers, and in accordance with the provisions of its own legislation, hand such persons over for trial to another High Contracting Party concerned, provided such High Contracting Party has made out a *prima facie* case.

Each High Contracting Party shall take measures necessary for the suppression of all acts contrary to the provisions of the present Convention other than the grave breaches defined in the following Article.

In all circumstances, the accused persons shall benefit by safeguards of proper trial and defence, which shall not be less favourable than those provided by Article 105 and those following of the present Convention.

Article 130

Grave breaches to which the preceding Article relates shall be those involving any of the following acts, if committed against persons or property protected by the Convention: wilful killing, torture or inhuman treatment, including biological experiments, wilfully causing great suffering or serious injury to body or health, compelling a prisoner of war to serve in the forces of the hostile Power, or wilfully depriving a prisoner of war of the rights of fair and regular trial prescribed in this Convention.

Article 131

No High Contracting Party shall be allowed to absolve itself or any other High Contracting Party of any liability incurred by itself or by another High Contracting Party in respect of breaches referred to in the preceding Article.

Article 132

At the request of a Party to the conflict, an enquiry shall be instituted, in a manner to be decided between the interested Parties, concerning any alleged violation of the Convention.

If agreement has not been reached concerning the procedure for the enquiry, the Parties should agree on the choice of an umpire who will decide upon the procedure to be followed.

Once the violation has been established, the Parties to the conflict shall put an end to it and shall repress it with the least possible delay.

SECTION II. FINAL PROVISIONS

Article 133

The present Convention is established in English and in French. Both texts are equally authentic.

The Swiss Federal Council shall arrange for official translations of the Convention to be made in the Russian and Spanish languages.

Article 134

The present Convention replaces the Convention of July 27, 1929, in relations between the High Contracting Parties.

Article 135

In the relations between the Powers which are bound by the Hague Convention respecting the Laws and Customs of War on Land, whether that of July 29, 1899, or that of October 18, 1907, and which are parties to the present Convention, this last Convention shall be complementary to Chapter II of the Regulations annexed to the above-mentioned Conventions of the Hague.

Article 136

The present Convention, which bears the date of this day, is open to signature until February 12, 1950, in the name of the Powers represented at the Conference which opened at Geneva on April 21, 1949; furthermore, by Powers not represented at that Conference, but which are parties to the Convention of July 27, 1929.

Article 137

The present Convention shall be ratified as soon as possible and the ratifications shall be deposited at Berne.

A record shall be drawn up of the deposit of each instrument of ratification and certified copies of this record shall be transmitted by the Swiss Federal Council to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 138

The present Convention shall come into force six months after not less than two instruments of ratification have been deposited.

Thereafter, it shall come into force for each High Contracting Party six months after the deposit of the instrument of ratification.

Article 139

From the date of its coming into force, it shall be open to any Power in whose name the present Convention has not been signed, to accede to this Convention.

Article 140

Accessions shall be notified in writing to the Swiss Federal Council, and shall take effect six months after the date on which they are received.

The Swiss Federal Council shall communicate the accessions to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 141

The situations provided for in Articles 2 and 3 shall give immediate effect to ratifications deposited and accessions notified by the Parties to the conflict before or after the beginning of hostilities or occupation. The Swiss Federal Council shall communicate by the quickest method any ratifications or accessions received from Parties to the conflict.

Article 142

Each of the High Contracting Parties shall be at liberty to denounce the present Convention.

The denunciation shall be notified in writing to the Swiss Federal Council, which shall transmit it to the Governments of all the High Contracting Parties.

The denunciation shall take effect one year after the notification thereof has been made to the Swiss Federal Council. However, a denunciation of which notification has been made at a time when the denouncing Power is involved in a conflict shall not take effect until peace has been concluded, and until after operations connected with the release and repatriation of the persons protected by the present Convention have been terminated.

The denunciation shall have effect only in respect of the denouncing Power. It shall in no way impair the obligations which the Parties to the conflict shall remain bound to fulfil by virtue of the principles of the law of nations, as they result from the usages established among civilized peoples, from the laws of humanity and the dictates of the public conscience.

Article 143

The Swiss Federal Council shall register the present Convention with the Secretariat of the United Nations. The Swiss Federal Council shall also inform the Secretariat of the United Nations of all ratifications, accessions and denunciations received by it with respect to the present Convention.

In witness whereof the undersigned, having deposited their respective full powers, have signed the present Convention.

Done at Geneva this twelfth day of August 1949, in the English and French languages. The original shall be deposited in the Archives of the Swiss Confederation. The Swiss Federal Council shall transmit certified copies thereof to each of the signatory and acceding States.

ANNEX I

**MODEL AGREEMENT CONCERNING DIRECT REPATRIATION AND ACCOMMODATION
IN NEUTRAL COUNTRIES OF WOUNDED AND SICK PRISONERS OF WAR
(see Article 110)**

**I. PRINCIPLES FOR DIRECT REPATRIATION AND
ACCOMMODATION IN NEUTRAL COUNTRIES**

A. Direct Repatriation

The following shall be repatriated direct:

1) All prisoners of war suffering from the following disabilities as the result of trauma: loss of limb, paralysis, articular or other disabilities, when this disability is at least the loss of a hand or a foot, or the equivalent of the loss of a hand or a foot.

Without prejudice to a more generous interpretation, the following shall be considered as equivalent to the loss of a hand or a foot:

(a) Loss of a hand or of all the fingers, or of the thumb and forefinger of one hand; loss of a foot, or of all the toes and metatarsals of one foot.

(b) Ankylosis, loss of osseous tissue, cicatricial contracture preventing the functioning of one of the large articulations or of all the digital joints of one hand.

(c) Pseudarthrosis of the long bones.

(d) Deformities due to fracture or other injury which seriously interfere with function and weight-bearing power.

2) All wounded prisoners of war whose condition has become chronic, to the extent that prognosis appears to exclude recovery – in spite of treatment – within one year from the date of the injury, as, for example, in case of:

(a) Projectile in the heart, even if the Mixed Medical Commission should fail, at the time of their examination, to detect any serious disorders.

(b) Metallic splinter in the brain or the lungs, even if the Mixed Medical Commission cannot, at the time of examination, detect any local or general reaction.

(c) Osteomyelitis, when recovery cannot be foreseen in the course of the year following the injury, and which seems likely to result in ankylosis of a joint, or other impairments equivalent to the loss of a hand or a foot.

(d) Perforating and suppurating injury to the large joints.

(e) Injury to the skull, with loss or shifting of bony tissue.

(f) Injury or burning of the face with loss of tissue and functional lesions.

(g) Injury to the spinal cord.

(h) Lesion of the peripheral nerves, the sequelae of which are equivalent to the loss of a hand or foot, and the cure of which requires more than a year from the date of injury, for example: injury to the brachial or lumbosacral plexus, the median or sciatic nerves, likewise combined injury to the radial and cubital nerves or to the lateral popliteal nerve (N. peroneus communis) and medial popliteal nerve (N. tibialis); etc. The separate injury of the radial (musculo-spiral), cubital, lateral or medial popliteal nerves shall not, however, warrant repatriation except in case of contractures or of serious neurotrophic disturbance.

(i) Injury to the urinary system, with incapacitating results.

3) All sick prisoners of war whose condition has become chronic to the extent that prognosis seems to exclude recovery – in spite of treatment – within one year from the inception of the disease, as, for example, in case of:

(a) Progressive tuberculosis of any organ which, according to medical prognosis, cannot be cured, or at least considerably improved by treatment in a neutral country.

(b) Exudate pleurisy.

(c) Serious diseases of the respiratory organs of non-tubercular etiology, presumed incurable, for example: serious pulmonary emphysema, with or without bronchitis; chronic asthma;* chronic bronchitis* lasting more than one year in captivity; bronchiectasis;* etc.

(d) Serious chronic affections of the circulatory system, for example: valvular lesions and myocarditis,* which have shown signs of circulatory failure during captivity, even though the Mixed Medical Commission cannot detect any such signs at the time of examination; affections of the pericardium and the vessels (Buerger's disease, aneurism of the large vessels); etc.

(e) Serious chronic affections of the digestive organs, for example: gastric or duodenal ulcer; sequelae of gastric operations performed in captivity; chronic gastritis enteritis or colitis, having lasted more than one year and seriously affecting the general condition; cirrhosis of the liver; chronic cholecystopathy;* etc.

(f) Serious chronic affections of the genito-urinary organs, for example: chronic diseases of the kidney with consequent disorders; nephrectomy because of a tubercular kidney; chronic pyelitis

* The decision of the Mixed Medical Commission shall be based to a great extent on the records kept by camp physicians and surgeons of the same nationality as the prisoners of war, or on an examination by medical specialists of the Detaining Power.

or chronic cystitis; hydronephrosis or pyonephrosis; chronic grave gynaecological conditions; normal pregnancy and obstetrical disorder, where it is impossible to accommodate in a neutral country; etc.

(g) Serious chronic diseases of the central and peripheral nervous system, for example: all obvious psychoses and psychoneuroses, such as serious hysteria, serious captivity psychoneurosis, etc., duly verified by a specialist;* any epilepsy duly verified by the camp physician;* cerebral arteriosclerosis; chronic neuritis lasting more than one year; etc.

(h) Serious chronic diseases of the neuro-vegetative system, with considerable diminution of mental or physical fitness, noticeable loss of weight and general asthenia.

(i) Blindness of both eyes, or of one eye when the vision of the other is less than 1 in spite of the use of corrective glasses; diminution of visual acuity in cases where it is impossible to restore it by correction to an acuity of 1/2 in at least one eye;* other grave ocular affections, for example: glaucoma, iritis, choroiditis; trachoma; etc.

(k) Auditive disorders, such as total unilateral deafness, if the other ear does not discern the ordinary spoken word at a distance of one metre;* etc.

(l) Serious affections of metabolism, for example: diabetes mellitus requiring insulin treatment; etc.

(m) Serious disorders of the endocrine glands, for example: thyrotoxicosis; hypothyrosis; Addison's disease; Simmonds' cachexia; tetany; etc.

(n) Grave and chronic disorders of the blood-forming organs.

(q) Serious chronic skin diseases, not amenable to treatment.

(r) Any malignant growth.

(s) Serious chronic infectious diseases, persisting for one year after their inception, for example: malaria with decided organic impairment, amoebic or bacillary dysentery with grave disorders; tertiary visceral syphilis resistant to treatment; leprosy; etc.

(t) Serious avitaminosis or serious inanition.

B. Accommodation in neutral countries

The following shall be eligible for accommodation in a neutral country:

1) All wounded prisoners of war who are not likely to recover in captivity, but who might be cured or whose condition might be considerably improved by accommodation in a neutral country.

2) Prisoners of war suffering from any form of tuberculosis, of whatever organ, and whose treatment in a neutral country would be likely to lead to recovery or at least to considerable improvement, with the exception of primary tuberculosis cured before captivity.

3) Prisoners of war suffering from affections requiring treatment of the respiratory, circulatory, digestive, nervous, sensory, genito-urinary, cutaneous, locomotive organs, etc., if such treatment would clearly have better results in a neutral country than in captivity.

4) Prisoners of war who have undergone a nephrectomy in captivity for a non-tubercular renal affection; cases of osteomyelitis, on the way to recovery or latent; diabetes mellitus not requiring insulin treatment; etc.

* The decision of the Mixed Medical Commission shall be based to a great extent on the records kept by camp physicians and surgeons of the same nationality as the prisoners of war, or on an examination by medical specialists of the Detaining Power.

- 5) Prisoners of war suffering from war or captivity neuroses.

Cases of captivity neurosis which are not cured after three months of accommodation in a neutral country, or which after that length of time are not clearly on the way to complete cure, shall be repatriated.

- 6) All prisoners of war suffering from chronic intoxication (gases, metals, alkaloids, etc.), for whom the prospects of cure in a neutral country are especially favourable.

- 7) All women prisoners of war who are pregnant or mothers with infants and small children.

The following cases shall not be eligible for accommodation in a neutral country:

- 1) All duly verified chronic psychoses.
- 2) All organic or functional nervous affections considered to be incurable.
- 3) All contagious diseases during the period in which they are transmissible, with the exception of tuberculosis.

II. GENERAL OBSERVATIONS

- 1) The conditions given shall, in a general way, be interpreted and applied in as broad a spirit as possible.

Neuropathic and psychopathic conditions caused by war or captivity, as well as cases of tuberculosis in all stages, shall above all benefit by such liberal interpretation. Prisoners of war who have sustained several wounds, none of which, considered by itself, justifies repatriation, shall be examined in the same spirit, with due regard for the psychic traumatism due to the number of their wounds.

- 2) All unquestionable cases giving the right to direct repatriation (amputation, total blindness or deafness, open pulmonary tuberculosis, mental disorder, malignant growth, etc.) shall be examined and repatriated as soon as possible by the camp physicians or by military medical commissions appointed by the Detaining Power.

- 3) Injuries and diseases which existed before the war and which have not become worse, as well as war injuries which have not prevented subsequent military service, shall not entitle to direct repatriation.

- 4) The provisions of this Annex shall be interpreted and applied in a similar manner in all countries party to the conflict. The Powers and authorities concerned shall grant to Mixed Medical Commissions all the facilities necessary for the accomplishment of their task.

- 5) The examples quoted under (I) above represent only typical cases. Cases which do not correspond exactly to these provisions shall be judged in the spirit of the provisions of Article 110 of the present Convention, and of the principles embodied in the present Agreement.

ANNEX II. REGULATIONS CONCERNING MIXED MEDICAL COMMISSIONS (see Article 112)

Article 1

The Mixed Medical Commissions provided for in Article 112 of the Convention shall be composed of three members, two of whom shall belong to a neutral country, the third being appointed by the Detaining Power. One of the neutral members shall take the chair.

Article 2

The two neutral members shall be appointed by the International Committee of the Red Cross, acting in agreement with the Protecting Power, at the request of the Detaining Power. They may be domiciled either in their country of origin, in any other neutral country, or in the territory of the Detaining Power.

Article 3

The neutral members shall be approved by the Parties to the conflict concerned, who shall notify their approval to the International Committee of the Red Cross and to the Protecting Power. Upon such notification, the neutral members shall be considered as effectively appointed.

Article 4

Deputy members shall also be appointed in sufficient number to replace the regular members in case of need. They shall be appointed at the same time as the regular members or, at least, as soon as possible.

Article 5

If for any reason the International Committee of the Red Cross cannot arrange for the appointment of the neutral members, this shall be done by the Power protecting the interests of the prisoners of war to be examined.

Article 6

So far as possible, one of the two neutral members shall be a surgeon and the other a physician.

Article 7

The neutral members shall be entirely independent of the Parties to the conflict, which shall grant them all facilities in the accomplishment of their duties.

Article 8

By agreement with the Detaining Power, the International Committee of the Red Cross, when making the appointments provided for in Articles 2 and 4 of the present Regulations, shall settle the terms of service of the nominees.

Article 9

The Mixed Medical Commissions shall begin their work as soon as possible after the neutral members have been approved, and in any case within a period of three months from the date of such approval.

Article 10

The Mixed Medical Commissions shall examine all the prisoners designated in Article 113 of the Convention. They shall propose repatriation, rejection, or reference to a later examination. Their decisions shall be made by a majority vote.

Article 11

The decisions made by the Mixed Medical Commissions in each specific case shall be communicated, during the month following their visit, to the Detaining Power, the Protecting Power and the International Committee of the Red Cross. The Mixed Medical Commissions shall also inform each prisoner of war examined of the decision made, and shall issue to those whose repatriation has been proposed, certificates similar to the model appended to the present Convention.

Article 12

The Detaining Power shall be required to carry out the decisions of the Mixed Medical Commissions within three months of the time when it receives due notification of such decisions.

Article 13

If there is no neutral physician in a country where the services of a Mixed Medical Commission seem to be required, and if it is for any reason impossible to appoint neutral doctors who are resident in another country, the Detaining Power, acting in agreement with the Protecting Power, shall set up a Medical Commission which shall undertake the same duties as a Mixed Medical Commission, subject to the provisions of Articles 1, 2, 3, 4, 5 and 8 of the present Regulations.

Article 14

Mixed Medical Commissions shall function permanently and shall visit each camp at intervals of not more than six months.

ANNEX III. REGULATIONS CONCERNING COLLECTIVE RELIEF
(see *Article 73*)**Article 1**

Prisoners' representatives shall be allowed to distribute collective relief shipments for which they are responsible, to all prisoners of war administered by their camp, including those who are in hospitals, or in prisons or other penal establishments.

Article 2

The distribution of collective relief shipments shall be effected in accordance with the instructions of the donors and with a plan drawn up by the prisoners' representatives. The issue of medical stores shall, however, be made for preference in agreement with the senior medical officers, and the latter may, in hospitals and infirmaries, waive the said instructions, if the needs of their patients so demand. Within the limits thus defined, the distribution shall always be carried out equitably.

Article 3

The said prisoners' representatives or their assistants shall be allowed to go to the points of arrival of relief supplies near their camps, so as to enable the prisoners' representatives or their assistants to verify the quality as well as the quantity of the goods received, and to make out detailed reports thereon for the donors.

Article 4

Prisoners' representatives shall be given the facilities necessary for verifying whether the distribution of collective relief in all sub-divisions and annexes of their camps has been carried out in accordance with their instructions.

Article 5

Prisoners' representatives shall be allowed to fill up, and cause to be filled up by the prisoners' representatives of labour detachments or by the senior medical officers of infirmaries and hospitals, forms or questionnaires intended for the donors, relating to collective relief supplies (distribution, requirements, quantities, etc.). Such forms and questionnaires, duly completed, shall be forwarded to the donors without delay.

Article 6

In order to secure the regular issue of collective relief to the prisoners of war in their camp, and to meet any needs that may arise from the arrival of new contingents of prisoners, prisoners' representatives shall be allowed to build up and maintain adequate reserve stocks of collective relief. For this purpose, they shall have suitable warehouses at their disposal; each warehouse shall be

provided with two locks, the prisoners' representative holding the keys of one lock and the camp commander the keys of the other.

Article 7

When collective consignments of clothing are available, each prisoner of war shall retain in his possession at least one complete set of clothes. If a prisoner has more than one set of clothes, the prisoners' representative shall be permitted to withdraw excess clothing from those with the largest number of sets, or particular articles in excess of one, if this is necessary in order to supply prisoners who are less well provided. He shall not, however, withdraw second sets of underclothing, socks or footwear, unless this is the only means of providing for prisoners of war with none.

Article 8

The High Contracting Parties, and the Detaining Powers in particular, shall authorize, as far as possible and subject to the regulations governing the supply of the population, all purchases of goods made in their territories for the distribution of collective relief to prisoners of war. They shall similarly facilitate the transfer of funds and other financial measures of a technical or administrative nature taken for the purpose of making such purchases.

Article 9

The foregoing provisions shall not constitute an obstacle to the right of prisoners of war to receive collective relief before their arrival in a camp or in the course of transfer, nor to the possibility of representatives of the Protecting Power, the International Committee of the Red Cross, or any other body giving assistance to prisoners which may be responsible for the forwarding of such supplies, ensuring the distribution thereof to the addressees by any other means that they may deem useful.

71. GENEVA CONVENTION RELATIVE TO THE PROTECTION OF CIVILIAN PERSONS IN TIME OF WAR

Done at Geneva on 12 August 1949

Entry into force: 21 October 1950

United Nations, *Treaty Series*, vol. 75, p. 287; Reg. No. 973

The undersigned Plenipotentiaries of the Governments represented at the Diplomatic Conference held at Geneva from April 21 to August 12, 1949, for the purpose of establishing a Convention for the Protection of Civilian Persons in Time of War, have agreed as follows;

PART I. GENERAL PROVISIONS

Article 1

The High Contracting Parties undertake to respect and to ensure respect for the present Convention in all circumstances.

Article 2

In addition to the provisions which shall be implemented in peacetime, the present Convention shall apply to all cases of declared war or of any other armed conflict which may arise between two or more of the High Contracting Parties, even if the state of war is not recognized by one of them.

The Convention shall also apply to all cases of partial or total occupation of the territory of a High Contracting Party, even if the said occupation meets with no armed resistance.

Although one of the Powers in conflict may not be a party to the present Convention, the Powers who are parties thereto shall remain bound by it in their mutual relations. They shall furthermore be bound by the Convention in relation to the said Power, if the latter accepts and applies the provisions thereof.

Article 3

In the case of armed conflict not of an international character occurring in the territory of one of the High Contracting Parties, each Party to the conflict shall be bound to apply, as a minimum, the following provisions:

1) Persons taking no active part in the hostilities, including members of armed forces who have laid down their arms and those placed *hors de combat* by sickness, wounds, detention, or any other cause, shall in all circumstances be treated humanely, without any adverse distinction founded on race, colour, religion or faith, sex, birth or wealth, or any other similar criteria.

To this end, the following acts are and shall remain prohibited at any time and in any place whatsoever with respect to the above-mentioned persons:

- (a) violence to life and person, in particular murder of all kinds, mutilation, cruel treatment and torture;
- (b) taking of hostages;
- (c) outrages upon personal dignity, in particular humiliating and degrading treatment;
- (d) the passing of sentences and the carrying out of executions without previous judgment pronounced by a regularly constituted court, affording all the judicial guarantees which are recognized as indispensable by civilized peoples.

2) The wounded and sick shall be collected and cared for.

An impartial humanitarian body, such as the International Committee of the Red Cross, may offer its services to the Parties to the conflict.

The Parties to the conflict should further endeavour to bring into force, by means of special agreements, all or part of the other provisions of the present Convention.

The application of the preceding provisions shall not affect the legal status of the Parties to the conflict.

Article 4

Persons protected by the Convention are those who at a given moment and in any manner whatsoever, find themselves, in case of a conflict or occupation, in the hands of a Party to the conflict or Occupying Power of which they are not nationals.

Nationals of a State which is not bound by the Convention are not protected by it. Nationals of a neutral State who find themselves in the territory of a belligerent State, and nationals of a co-belligerent State, shall not be regarded as protected persons while the State of which they are nationals has normal diplomatic representation in the State in whose hands they are.

The provisions of Part II are, however, wider in application, as defined in Article 13.

Persons protected by the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949, or by the Geneva Convention for the Amelioration of the Condition of Wounded, Sick and Shipwrecked Members of Armed Forces at Sea of August 12, 1949, or by the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949, shall not be considered as protected persons within the meaning of the present Convention.

Article 5

Where, in the territory of a Party to the conflict, the latter is satisfied that an individual protected person is definitely suspected of or engaged in activities hostile to the security of the State, such individual person shall not be entitled to claim such rights and privileges under the present Convention as would, if exercised in the favour of such individual person, be prejudicial to the security of such State.

Where in occupied territory an individual protected person is detained as a spy or saboteur, or as a person under definite suspicion of activity hostile to the security of the occupying Power, such person shall, in those cases where absolute military security so requires, be regarded as having forfeited rights of communication under the present Convention.

In each case, such persons shall nevertheless be treated with humanity, and in case of trial, shall not be deprived of the rights of fair and regular trial prescribed by the present Convention. They shall also be granted the full rights and privileges of a protected person under the present Convention at the earliest date consistent with the security of the State or Occupying Power, as the case may be.

Article 6

The present Convention shall apply from the outset of any conflict or occupation mentioned in Article 2.

In the territory of Parties to the conflict, the application of the present Convention shall cease on the general close of military operations.

In the case of occupied territory, the application of the present Convention shall cease one year after the general close of military operations; however, the Occupying Power shall be bound, for the duration of the occupation, to the extent that such Power exercises the functions of government in such territory, by the provisions of the following Articles of the present Convention: 1 to 12, 27, 29 to 34, 47, 49, 51, 52, 53, 59, 61 to 77, 143.

Protected persons whose release, repatriation or re-establishment may take place after such dates shall meanwhile continue to benefit by the present Convention.

Article 7

In addition to the agreements expressly provided for in Articles 11, 14, 15, 17, 36, 108, 109, 132, 133 and 149, the High Contracting Parties may conclude other special agreements for all matters concerning which they may deem it suitable to make separate provision. No special agreement shall adversely affect the situation of protected persons, as defined by the present Convention, nor restrict the rights which it confers upon them.

Protected persons shall continue to have the benefit of such agreements as long as the Convention is applicable to them, except where express provisions to the contrary are contained in the aforesaid or in subsequent agreements, or where more favourable measures have been taken with regard to them by one or other of the Parties to the conflict.

Article 8

Protected persons may in no circumstances renounce in part or in entirety the rights secured to them by the present Convention, and by the special agreements referred to in the foregoing Article, if such there be.

Article 9

The present Convention shall be applied with the cooperation and under the scrutiny of the Protecting Powers whose duty it is to safeguard the interests of the Parties to the conflict. For this purpose, the Protecting Powers may appoint, apart from their diplomatic or consular staff, delegates from amongst their own nationals or the nationals of other neutral Powers. The said delegates shall be subject to the approval of the Power with which they are to carry out their duties.

The Parties to the conflict shall facilitate to the greatest extent possible the task of the representatives or delegates of the Protecting Powers.

The representatives or delegates of the Protecting Powers shall not in any case exceed their mission under the present Convention. They shall, in particular, take account of the imperative necessities of security of the State wherein they carry out their duties.

Article 10

The provisions of the present Convention constitute no obstacle to the humanitarian activities which the International Committee of the Red Cross or any other impartial humanitarian organization may, subject to the consent of the Parties to the conflict concerned, undertake for the protection of civilian persons and for their relief.

Article 11

The High Contracting Parties may at any time agree to entrust to an international organization which offers all guarantees of impartiality and efficacy the duties incumbent on the Protecting Powers by virtue of the present Convention.

When persons protected by the present Convention do not benefit or cease to benefit, no matter for what reason, by the activities of a Protecting Power or of an organization provided for in the first paragraph above, the Detaining Power shall request a neutral State, or such an organization, to undertake the functions performed under the present Convention by a Protecting Power designated by the Parties to a conflict.

If protection cannot be arranged accordingly, the Detaining Power shall request or shall accept, subject to the provisions of this Article, the offer of the services of a humanitarian organization, such as the International Committee of the Red Cross, to assume the humanitarian functions performed by Protecting Powers under the present Convention.

Any neutral Power or any organization invited by the Power concerned or offering itself for these purposes, shall be required to act with a sense of responsibility towards the Party to the conflict on which persons protected by the present Convention depend, and shall be required to furnish sufficient assurances that it is in a position to undertake the appropriate functions and to discharge them impartially.

No derogation from the preceding provisions shall be made by special agreements between Powers one of which is restricted, even temporarily, in its freedom to negotiate with the other Power or its allies by reason of military events, more particularly where the whole, or a substantial part, of the territory of the said Power is occupied.

Whenever in the present Convention mention is made of a Protecting Power, such mention applies to substitute organizations in the sense of the present Article.

The provisions of this Article shall extend and be adapted to cases of nationals of a neutral State who are in occupied territory or who find themselves in the territory of a belligerent State in which the State of which they are nationals has not normal diplomatic representation.

Article 12

In cases where they deem it advisable in the interest of protected persons, particularly in cases of disagreement between the Parties to the conflict as to the application or interpretation of the provisions of the present Convention, the Protecting Powers shall lend their good offices with a view to settling the disagreement.

For this purpose, each of the Protecting Powers may, either at the invitation of one Party or on its own initiative, propose to the Parties to the conflict a meeting of their representatives, and in particular of the authorities responsible for protected persons, possibly on neutral territory suitably chosen. The Parties to the conflict shall be bound to give effect to the proposals made to them for this purpose. The Protecting Powers may, if necessary, propose for approval by the Parties to the conflict, a person belonging to a neutral Power or delegated by the International Committee of the Red Cross, who shall be invited to take part in such a meeting.

PART II. GENERAL PROTECTION OF POPULATIONS AGAINST CERTAIN CONSEQUENCES OF WAR

Article 13

The provisions of Part II cover the whole of the populations of the countries in conflict, without any adverse distinction based, in particular, on race, nationality, religion or political opinion, and are intended to alleviate the sufferings caused by war.

Article 14

In time of peace, the High Contracting Parties and, after the outbreak of hostilities, the Parties thereto, may establish in their own territory and, if the need arises, in occupied areas, hospital and safety zones and localities so organized as to protect from the effects of war, wounded, sick and aged persons, children under fifteen, expectant mothers and mothers of children under seven.

Upon the outbreak and during the course of hostilities, the Parties concerned may conclude agreements on mutual recognition of the zones and localities they have created. They may for this purpose implement the provisions of the Draft Agreement annexed to the present Convention, with such amendments as they may consider necessary.

The Protecting Powers and the International Committee of the Red Cross are invited to lend their good offices in order to facilitate the institution and recognition of these hospital and safety zones and localities.

Article 15

Any Party to the conflict may, either direct or through a neutral State or some humanitarian organization, propose to the adverse Party to establish, in the regions where fighting is taking place, neutralized zones intended to shelter from the effects of war the following persons, without distinction:

- (a) wounded and sick combatants or non-combatants;
- (b) civilian persons who take no part in hostilities, and who, while they reside in the zones, perform no work of a military character.

When the Parties concerned have agreed upon the geographical position, administration, food supply and supervision of the proposed neutralized zone, a written agreement shall be concluded and signed by the representatives of the Parties to the conflict. The agreement shall fix the beginning and the duration of the neutralization of the zone.

Article 16

The wounded and sick, as well as the infirm, and expectant mothers, shall be the object of particular protection and respect.

As far as military considerations allow, each Party to the conflict shall facilitate the steps taken to search for the killed and wounded, to assist the shipwrecked and other persons exposed to grave danger, and to protect them against pillage and ill-treatment.

Article 17

The Parties to the conflict shall endeavour to conclude local agreements for the removal from besieged or encircled areas, of wounded, sick, infirm, and aged persons, children and maternity cases, and for the passage of ministers of all religions, medical personnel and medical equipment on their way to such areas.

Article 18

Civilian hospitals organized to give care to the wounded and sick, the infirm and maternity cases, may in no circumstances be the object of attack, but shall at all times be respected and protected by the Parties to the conflict.

States which are Parties to a conflict shall provide all civilian hospitals with certificates showing that they are civilian hospitals and that the buildings which they occupy are not used for any purpose which would deprive these hospitals of protection in accordance with Article 19.

Civilian hospitals shall be marked by means of the emblem provided for in Article 38 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949, but only if so authorized by the State.

The Parties to the conflict shall, in so far as military considerations permit, take the necessary steps to make the distinctive emblems indicating civilian hospitals clearly visible to the enemy land, air and naval forces in order to obviate the possibility of any hostile action.

In view of the dangers to which hospitals may be exposed by being close to military objectives, it is recommended that such hospitals be situated as far as possible from such objectives.

Article 19

The protection to which civilian hospitals are entitled shall not cease unless they are used to commit, outside their humanitarian duties, acts harmful to the enemy. Protection may, however, cease only after due warning has been given, naming, in all appropriate cases, a reasonable time limit, and after such warning has remained unheeded.

The fact that sick or wounded members of the armed forces are nursed in these hospitals, or the presence of small arms and ammunition taken from such combatants and not yet handed to the proper service, shall not be considered to be acts harmful to the enemy.

Article 20

Persons regularly and solely engaged in the operation and administration of civilian hospitals, including the personnel engaged in the search for, removal and transporting of and caring for wounded and sick civilians, the infirm and maternity cases, shall be respected and protected.

In occupied territory and in zones of military operations, the above personnel shall be recognizable by means of an identity card certifying their status, bearing the photograph of the holder and embossed with the stamp of the responsible authority, and also by means of a stamped, water-resistant armlet which they shall wear on the left arm while carrying out their duties. This armlet shall be issued by the State and shall bear the emblem provided for in Article 38 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949.

Other personnel who are engaged in the operation and administration of civilian hospitals shall be entitled to respect and protection and to wear the armlet, as provided in and under the conditions prescribed in this Article, while they are employed on such duties. The identity card shall state the duties on which they are employed.

The management of each hospital shall at all times hold at the disposal of the competent national or occupying authorities an up-to-date list of such personnel.

Article 21

Convoys of vehicles or hospital trains on land or specially provided vessels on sea, conveying wounded and sick civilians, the infirm and maternity cases, shall be respected and protected in the same manner as the hospitals provided for in Article 18, and shall be marked, with the consent of the State, by the display of the distinctive emblem provided for in Article 38 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949.

Article 22

Aircraft exclusively employed for the removal of wounded and sick civilians, the infirm and maternity cases, or for the transport of medical personnel and equipment, shall not be attacked, but shall be respected while flying at heights, times and on routes specifically agreed upon between all the Parties to the conflict concerned.

They may be marked with the distinctive emblem provided for in Article 38 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949.

Unless agreed otherwise, flights over enemy or enemy-occupied territory are prohibited.

Such aircraft shall obey every summons to land. In the event of a landing thus imposed, the aircraft with its occupants may continue its flight after examination, if any.

Article 23

Each High Contracting Party shall allow the free passage of all consignments of medical and hospital stores and objects necessary for religious worship intended only for civilians of another High Contracting Party, even if the latter is its adversary. It shall likewise permit the free passage of all consignments of essential foodstuffs, clothing and tonics intended for children under fifteen, expectant mothers and maternity cases.

The obligation of a High Contracting Party to allow the free passage of the consignments indicated in the preceding paragraph is subject to the condition that this Party is satisfied that there are no serious reasons for fearing:

- (a) that the consignments may be diverted from their destination,
- (b) that the control may not be effective, or
- (c) that a definite advantage may accrue to the military efforts or economy of the enemy through the substitution of the above-mentioned consignments for goods which would otherwise be provided or produced by the enemy or through the release of such material, services or facilities as would otherwise be required for the production of such goods.

The Power which allows the passage of the consignments indicated in the first paragraph of this Article may make such permission conditional on the distribution to the persons benefited thereby being made under the local supervision of the Protecting Powers.

Such consignments shall be forwarded as rapidly as possible, and the Power which permits their free passage shall have the right to prescribe the technical arrangements under which such passage is allowed.

Article 24

The Parties to the conflict shall take the necessary measures to ensure that children under fifteen, who are orphaned or are separated from their families as a result of the war, are not left to their own resources, and that their maintenance, the exercise of their religion and their education are facilitated in all circumstances. Their education shall, as far as possible, be entrusted to persons of a similar cultural tradition.

The Parties to the conflict shall facilitate the reception of such children in a neutral country for the duration of the conflict with the consent of the Protecting Power, if any, and under due safeguards for the observance of the principles stated in the first paragraph.

They shall, furthermore, endeavour to arrange for all children under twelve to be identified by the wearing of identity discs, or by some other means.

Article 25

All persons in the territory of a Party to the conflict, or in a territory occupied by it, shall be enabled to give news of a strictly personal nature to members of their families, wherever they may

be, and to receive news from them. This correspondence shall be forwarded speedily and without undue delay.

If, as a result of circumstances, it becomes difficult or impossible to exchange family correspondence by the ordinary post, the Parties to the conflict concerned shall apply to a neutral intermediary, such as the Central Agency provided for in Article 140, and shall decide in consultation with it how to ensure the fulfilment of their obligations under the best possible conditions, in particular with the cooperation of the National Red Cross (Red Crescent, Red Lion and Sun) Societies.

If the Parties to the conflict deem it necessary to restrict family correspondence, such restrictions shall be confined to the compulsory use of standard forms containing twenty-five freely chosen words, and to the limitation of the number of these forms despatched to one each month.

Article 26

Each Party to the conflict shall facilitate enquiries made by members of families dispersed owing to the war, with the object of renewing contact with one another and of meeting, if possible. It shall encourage, in particular, the work of organizations engaged on this task provided they are acceptable to it and conform to its security regulations.

PART III. STATUS AND TREATMENT OF PROTECTED PERSONS

SECTION I. PROVISIONS COMMON TO THE TERRITORIES OF THE PARTIES TO THE CONFLICT AND TO OCCUPIED TERRITORIES

Article 27

Protected persons are entitled, in all circumstances, to respect for their persons, their honour, their family rights, their religious convictions and practices, and their manners and customs. They shall at all times be humanely treated, and shall be protected especially against all acts of violence or threats thereof and against insults and public curiosity.

Women shall be especially protected against any attack on their honour, in particular against rape, enforced prostitution, or any form of indecent assault.

Without prejudice to the provisions relating to their state of health, age and sex, all protected persons shall be treated with the same consideration by the Party to the conflict in whose power they are, without any adverse distinction based, in particular, on race, religion or political opinion.

However, the Parties to the conflict may take such measures of control and security in regard to protected persons as may be necessary as a result of the war.

Article 28

The presence of a protected person may not be used to render certain points or areas immune from military operations.

Article 29

The Party to the conflict in whose hands protected persons may be, is responsible for the treatment accorded to them by its agents, irrespective of any individual responsibility which may be incurred.

Article 30

Protected persons shall have every facility for making application to the Protecting Powers, the International Committee of the Red Cross, the National Red Cross (Red Crescent, Red Lion and Sun) Society of the country where they may be, as well as to any organization that might assist them.

These several organizations shall be granted all facilities for that purpose by the authorities, within the bounds set by military or security considerations.

Apart from the visits of the delegates of the Protecting Powers and of the International Committee of the Red Cross, provided for by Article 143, the Detaining or Occupying Powers shall facilitate as much as possible visits to protected persons by the representatives of other organizations whose object is to give spiritual aid or material relief to such persons.

Article 31

No physical or moral coercion shall be exercised against protected persons, in particular to obtain information from them or from third parties.

Article 32

The High Contracting Parties specifically agree that each of them is prohibited from taking any measure of such a character as to cause the physical suffering or extermination of protected persons in their hands. This prohibition applies not only to murder, torture, corporal punishment, mutilation and medical or scientific experiments not necessitated by the medical treatment of a protected person, but also to any other measures of brutality whether applied by civilian or military agents.

Article 33

No protected person may be punished for an offence he or she has not personally committed. Collective penalties and likewise all measures of intimidation or of terrorism are prohibited.

Pillage is prohibited.

Reprisals against protected persons and their property are prohibited.

Article 34

The taking of hostages is prohibited.

SECTION II. ALIENS IN THE TERRITORY OF A PARTY TO THE CONFLICT

Article 35

All protected persons who may desire to leave the territory at the outset of, or during a conflict, shall be entitled to do so, unless their departure is contrary to the national interests of the State. The applications of such persons to leave shall be decided in accordance with regularly established procedures and the decision shall be taken as rapidly as possible. Those persons permitted to leave may provide themselves with the necessary funds for their journey and take with them a reasonable amount of their effects and articles of personal use.

If any such person is refused permission to leave the territory, he shall be entitled to have such refusal reconsidered as soon as possible by an appropriate court or administrative board designated by the Detaining Power for that purpose.

Upon request, representatives of the Protecting Power shall, unless reasons of security prevent it, or the persons concerned object, be furnished with the reasons for refusal of any request for permission to leave the territory and be given, as expeditiously as possible, the names of all persons who have been denied permission to leave.

Article 36

Departures permitted under the foregoing Article shall be carried out in satisfactory conditions as regards safety, hygiene, sanitation and food. All costs in connection therewith, from the point of exit in the territory of the Detaining Power, shall be borne by the country of destination, or, in the case of accommodation in a neutral country, by the Power whose nationals are benefited. The practical details of such movements may, if necessary, be settled by special agreements between the Powers concerned.

The foregoing shall not prejudice such special agreements as may be concluded between Parties to the conflict concerning the exchange and repatriation of their nationals in enemy hands.

Article 37

Protected persons who are confined pending proceedings or serving a sentence involving loss of liberty, shall during their confinement be humanely treated.

As soon as they are released, they may ask to leave the territory in conformity with the foregoing Articles.

Article 38

With the exception of special measures authorized by the present Convention, in particular by Articles 27 and 41 thereof, the situation of protected persons shall continue to be regulated, in principle, by the provisions concerning aliens in time of peace. In any case, the following rights shall be granted to them:

- 1) They shall be enabled to receive the individual or collective relief that may be sent to them.
- 2) They shall, if their state of health so requires, receive medical attention and hospital treatment to the same extent as the nationals of the State concerned.
- 3) They shall be allowed to practise their religion and to receive spiritual assistance from ministers of their faith.
- 4) If they reside in an area particularly exposed to the dangers of war, they shall be authorized to move from that area to the same extent as the nationals of the State concerned.
- 5) Children under fifteen years, pregnant women and mothers of children under seven years shall benefit by any preferential treatment to the same extent as the nationals of the State concerned.

Article 39

Protected persons who, as a result of the war, have lost their gainful employment, shall be granted the opportunity to find paid employment. That opportunity shall, subject to security considerations and to the provisions of Article 40, be equal to that enjoyed by the nationals of the Power in whose territory they are.

Where a Party to the conflict applies to a protected person methods of control which result in his being unable to support himself, and especially if such a person is prevented for reasons of security from finding paid employment on reasonable conditions, the said Party shall ensure his support and that of his dependents.

Protected persons may in any case receive allowances from their home country, the Protecting Power, or the relief societies referred to in Article 30.

Article 40

Protected persons may be compelled to work only to the same extent as nationals of the Party to the conflict in whose territory they are.

If protected persons are of enemy nationality, they may only be compelled to do work which is normally necessary to ensure the feeding, sheltering, clothing, transport and health of human beings and which is not directly related to the conduct of military operations.

In the cases mentioned in the two preceding paragraphs, protected persons compelled to work shall have the benefit of the same working conditions and of the same safeguards as national workers, in particular as regards wages, hours of labour, clothing and equipment, previous training and compensation for occupational accidents and diseases.

If the above provisions are infringed, protected persons shall be allowed to exercise their right of complaint in accordance with Article 30.

Article 41

Should the Power in whose hands protected persons may be consider the measures of control mentioned in the present Convention to be inadequate, it may not have recourse to any other measure of control more severe than that of assigned residence or internment, in accordance with the provisions of Articles 42 and 43.

In applying the provisions of Article 39, second paragraph, to the cases of persons required to leave their usual places of residence by virtue of a decision placing them in assigned residence elsewhere, the Detaining Power shall be guided as closely as possible by the standards of welfare set forth in Part III, Section IV of this Convention.

Article 42

The internment or placing in assigned residence of protected persons may be ordered only if the security of the Detaining Power makes it absolutely necessary.

If any person, acting through the representatives of the Protecting Power, voluntarily demands internment, and if his situation renders this step necessary, he shall be interned by the Power in whose hands he may be.

Article 43

Any protected person who has been interned or placed in assigned residence shall be entitled to have such action reconsidered as soon as possible by an appropriate court or administrative board designated by the Detaining Power for that purpose. If the internment or placing in assigned residence is maintained, the court or administrative board shall periodically, and at least twice yearly, give consideration to his or her case, with a view to the favourable amendment of the initial decision, if circumstances permit.

Unless the protected persons concerned object, the Detaining Power shall, as rapidly as possible, give the Protecting Power the names of any protected persons who have been interned or subjected to assigned residence, or who have been released from internment or assigned residence. The decisions of the courts or boards mentioned in the first paragraph of the present Article shall also, subject to the same conditions, be notified as rapidly as possible to the Protecting Power.

Article 44

In applying the measures of control mentioned in the present Convention, the Detaining Power shall not treat as enemy aliens exclusively on the basis of their nationality *de jure* of an enemy State, refugees who do not, in fact, enjoy the protection of any government.

Article 45

Protected persons shall not be transferred to a Power which is not a party to the Convention.

This provision shall in no way constitute an obstacle to the repatriation of protected persons, or to their return to their country of residence after the cessation of hostilities.

Protected persons may be transferred by the Detaining Power only to a Power which is a party to the present Convention and after the Detaining Power has satisfied itself of the willingness and ability of such transferee Power to apply the present Convention. If protected persons are transferred under such circumstances, responsibility for the application of the present Convention rests on the Power accepting them, while they are in its custody. Nevertheless, if that Power falls to carry out the provisions of the present Convention in any important respect, the Power by which the protected persons were transferred shall, upon being so notified by the Protecting Power, take effective measures to correct the situation or shall request the return of the protected persons. Such request must be complied with.

In no circumstances shall a protected person be transferred to a country where he or she may have reason to fear persecution for his or her political opinions or religious beliefs.

The provisions of this Article do not constitute an obstacle to the extradition, in pursuance of extradition treaties concluded before the outbreak of hostilities, of protected persons accused of offences against ordinary criminal law.

Article 46

In so far as they have not been previously withdrawn, restrictive measures taken regarding protected persons shall be cancelled as soon as possible after the close of hostilities.

Restrictive measures affecting their property shall be cancelled, in accordance with the law of the Detaining Power, as soon as possible after the close of hostilities.

SECTION III. OCCUPIED TERRITORIES

Article 47

Protected persons who are in occupied territory shall not be deprived, in any case or in any manner whatsoever, of the benefits of the present Convention by any change introduced, as the result of the occupation of a territory, into the institutions or government of the said territory, nor by any agreement concluded between the authorities of the occupied territories and the Occupying Power, nor by any annexation by the latter of the whole or part of the occupied territory.

Article 48

Protected persons who are not nationals of the Power whose territory is occupied, may avail themselves of the right to leave the territory subject to the provisions of Article 35, and decisions thereon shall be taken according to the procedure which the Occupying Power shall establish in accordance with the said Article.

Article 49

Individual or mass forcible transfers, as well as deportations of protected persons from occupied territory to the territory of the Occupying Power or to that of any other country, occupied or not, are prohibited, regardless of their motive.

Nevertheless, the Occupying Power may undertake total or partial evacuation of a given area if the security of the population or imperative military reasons so demand. Such evacuations may not involve the displacement of protected persons outside the bounds of the occupied territory except when for material reasons it is impossible to avoid such displacement. Persons thus evacuated shall be transferred back to their homes as soon as hostilities in the area in question have ceased.

The Occupying Power undertaking such transfers or evacuations shall ensure, to the greatest practicable extent, that proper accommodation is provided to receive the protected persons, that the removals are effected in satisfactory conditions of hygiene, health, safety and nutrition, and that members of the same family are not separated.

The Protecting Power shall be informed of any transfers and evacuations as soon as they have taken place.

The Occupying Power shall not detain protected persons in an area particularly exposed to the dangers of war unless the security of the population or imperative military reasons so demand.

The Occupying Power shall not deport or transfer parts of its own civilian population into the territory it occupies.

Article 50

The Occupying Power shall, with the cooperation of the national and local authorities, facilitate the proper working of all institutions devoted to the care and education of children.

The Occupying Power shall take all necessary steps to facilitate the identification of children and the registration of their parentage. It may not, in any case, change their personal status, nor enlist them in formations or organizations subordinate to it.

Should the local institutions be inadequate for the purpose, the Occupying Power shall make arrangements for the maintenance and education, if possible by persons of their own nationality, language and religion, of children who are orphaned or separated from their parents as a result of the war and who cannot be adequately cared for by a near relative or friend.

A special section of the Bureau set up in accordance with Article 136 shall be responsible for taking all necessary steps to identify children whose identity is in doubt. Particulars of their parents or other near relatives should always be recorded if available.

The Occupying Power shall not hinder the application of any preferential measures in regard to food, medical care and protection against the effects of war, which may have been adopted prior to the occupation in favour of children under fifteen years, expectant mothers, and mothers of children under seven years.

Article 51

The Occupying Power may not compel protected persons to serve in its armed or auxiliary forces. No pressure or propaganda which aims at securing voluntary enlistment is permitted.

The Occupying Power may not compel protected persons to work unless they are over eighteen years of age, and then only on work which is necessary either for the needs of the army of occupation, or for the public utility services, or for the feeding, sheltering, clothing, transportation or health of the population of the occupied country. Protected persons may not be compelled to undertake any work which would involve them in the obligation of taking part in military operations. The Occupying Power may not compel protected persons to employ forcible means to ensure the security of the installations where they are performing compulsory labour.

The work shall be carried out only in the occupied territory where the persons whose services have been requisitioned are. Every such person shall, so far as possible, be kept in his usual place of employment. Workers shall be paid a fair wage and the work shall be proportionate to their physical and intellectual capacities. The legislation in force in the occupied country concerning working conditions, and safeguards as regards, in particular, such matters as wages, hours of work, equipment, preliminary training and compensation for occupational accidents and diseases, shall be applicable to the protected persons assigned to the work referred to in this Article.

In no case shall requisition of labour lead to a mobilization of workers in an organization of a military or semi-military character.

Article 52

No contract, agreement or regulation shall impair the right of any worker, whether voluntary or not and wherever he may be, to apply to the representatives of the Protecting Power in order to request the said Power's intervention.

All measures aiming at creating unemployment or at restricting the opportunities offered to workers in an occupied territory, in order to induce them to work for the Occupying Power, are prohibited.

Article 53

Any destruction by the Occupying Power of real or personal property belonging individually or collectively to private persons, or to the State, or to other public authorities, or to social or co-operative organizations, is prohibited, except where such destruction is rendered absolutely necessary by military operations.

Article 54

The Occupying Power may not alter the status of public officials or judges in the occupied territories, or in any way apply sanctions to or take any measures of coercion or discrimination against them, should they abstain from fulfilling their functions for reasons of conscience.

This prohibition does not prejudice the application of the second paragraph of Article 51. It does not affect the right of the Occupying Power to remove public officials from their posts.

Article 55

To the fullest extent of the means available to it, the Occupying Power has the duty of ensuring the food and medical supplies of the population; it should, in particular, bring in the necessary foodstuffs, medical stores and other articles if the resources of the occupied territory are inadequate.

The Occupying Power may not requisition foodstuffs, articles or medical supplies available in the occupied territory, except for use by the occupation forces and administration personnel, and then only if the requirements of the civilian population have been taken into account. Subject to the provisions of other international Conventions, the Occupying Power shall make arrangements to ensure that fair value is paid for any requisitioned goods.

The Protecting Power shall, at any time, be at liberty to verify the state of the food and medical supplies in occupied territories, except where temporary restrictions are made necessary by imperative military requirements.

Article 56

To the fullest extent of the means available to it, the Occupying Power has the duty of ensuring and maintaining, with the cooperation of national and local authorities, the medical and hospital establishments and services, public health and hygiene in the occupied territory, with particular reference to the adoption and application of the prophylactic and preventive measures necessary to combat the spread of contagious diseases and epidemics. Medical personnel of all categories shall be allowed to carry out their duties.

If new hospitals are set up in occupied territory and if the competent organs of the occupied State are not operating there, the occupying authorities shall, if necessary, grant them the recognition provided for in Article 18. In similar circumstances, the occupying authorities shall also grant recognition to hospital personnel and transport vehicles under the provisions of Articles 20 and 21.

In adopting measures of health and hygiene and in their implementation, the Occupying Power shall take into consideration the moral and ethical susceptibilities of the population of the occupied territory.

Article 57

The Occupying Power may requisition civilian hospitals only temporarily and only in cases of urgent necessity for the care of military wounded and sick, and then on condition that suitable arrangements are made in due time for the care and treatment of the patients and for the needs of the civilian population for hospital accommodation.

The material and stores of civilian hospitals cannot be requisitioned so long as they are necessary for the needs of the civilian population.

Article 58

The Occupying Power shall permit ministers of religion to give spiritual assistance to the members of their religious communities.

The Occupying Power shall also accept consignments of books and articles required for religious needs and shall facilitate their distribution in occupied territory.

Article 59

If the whole or part of the population of an occupied territory is inadequately supplied, the Occupying Power shall agree to relief schemes on behalf of the said population, and shall facilitate them by all the means at its disposal.

Such schemes, which may be undertaken either by States or by impartial humanitarian organizations such as the International Committee of the Red Cross, shall consist, in particular, of the provision of consignments of foodstuffs, medical supplies and clothing.

All Contracting Parties shall permit the free passage of these consignments and shall guarantee their protection.

A Power granting free passage to consignments on their way to territory occupied by an adverse Party to the conflict shall, however, have the right to search the consignments, to regulate their passage according to prescribed times and routes, and to be reasonably satisfied through the Protecting Power that these consignments are to be used for the relief of the needy population and are not to be used for the benefit of the Occupying Power.

Article 60

Relief consignments shall in no way relieve the Occupying Power of any of its responsibilities under Articles 55, 56 and 59. The Occupying Power shall in no way whatsoever divert relief consignments from the purpose for which they are intended, except in cases of urgent necessity, in the interests of the population of the occupied territory and with the consent of the Protecting Power.

Article 61

The distribution of the relief consignments referred to in the foregoing Articles shall be carried out with the cooperation and under the supervision of the Protecting Power. This duty may also be delegated, by agreement between the Occupying Power and the Protecting Power, to a neutral Power, to the International Committee of the Red Cross or to any other impartial humanitarian body.

Such consignments shall be exempt in occupied territory from all charges, taxes or customs duties unless these are necessary in the interests of the economy of the territory. The Occupying Power shall facilitate the rapid distribution of these consignments.

All Contracting Parties shall endeavour to permit the transit and transport, free of charge, of such relief consignments on their way to occupied territories.

Article 62

Subject to imperative reasons of security, protected persons in occupied territories shall be permitted to receive the individual relief consignments sent to them.

Article 63

Subject to temporary and exceptional measures imposed for urgent reasons of security by the Occupying Power:

(a) recognized National Red Cross (Red Crescent, Red Lion and Sun) Societies shall be able to pursue their activities in accordance with Red Cross Principles, as defined by the International Red Cross Conferences. Other relief societies shall be permitted to continue their humanitarian activities under similar conditions;

(b) the Occupying Power may not require any changes in the personnel or structure of these societies, which would prejudice the aforesaid activities.

The same principles shall apply to the activities and personnel of special organizations of a non-military character, which already exist or which may be established, for the purpose of ensuring the living conditions of the civilian population by the maintenance of the essential public utility services, by the distribution of relief and by the organization of rescues.

Article 64

The penal laws of the occupied territory shall remain in force, with the exception that they may be repealed or suspended by the Occupying Power in cases where they constitute a threat to its security or an obstacle to the application of the present Convention. Subject to the latter consideration and to the necessity for ensuring the effective administration of justice, the tribunals of the occupied territory shall continue to function in respect of all offences covered by the said laws.

The Occupying Power may, however, subject the population of the occupied territory to provisions which are essential to enable the Occupying Power to fulfil its obligations under the present Convention, to maintain the orderly government of the territory, and to ensure the security of the Occupying Power, of the members and property of the occupying forces or administration, and likewise of the establishments and lines of communication used by them.

Article 65

The penal provisions enacted by the Occupying Power shall not come into force before they have been published and brought to the knowledge of the inhabitants in their own language. The effect of these penal provisions shall not be retroactive.

Article 66

In case of a breach of the penal provisions promulgated by it by virtue of the second paragraph of Article 64, the Occupying Power may hand over the accused to its properly constituted, non-political military courts, on condition that the said courts sit in the occupied country. Courts of appeal shall preferably sit in the occupied country.

Article 67

The courts shall apply only those provisions of law which were applicable prior to the offence, and which are in accordance with general principles of law, in particular the principle that the penalty shall be proportionate to the offence. They shall take into consideration the fact that the accused is not a national of the Occupying Power.

Article 68

Protected persons who commit an offence which is solely intended to harm the Occupying Power, but which does not constitute an attempt on the life or limb of members of the occupying forces or administration, nor a grave collective danger, nor seriously damage the property of the occupying forces or administration or the installations used by them, shall be liable to internment or simple imprisonment, provided the duration of such internment or imprisonment is proportionate to the offence committed. Furthermore, internment or imprisonment shall, for such offences, be the only measure adopted for depriving protected persons of liberty. The courts provided for under Article 66 of the present Convention may at their discretion convert a sentence of imprisonment to one of internment for the same period.

The penal provisions promulgated by the Occupying Power in accordance with Articles 64 and 65 may impose the death penalty on a protected person only in cases where the person is guilty of espionage, of serious acts of sabotage against the military installations of the Occupying Power or of intentional offences which have caused the death of one or more persons, provided that such offences were punishable by death under the law of the occupied territory in force before the occupation began.

The death penalty may not be pronounced against a protected person unless the attention of the court has been particularly called to the fact that since the accused is not a national of the Occupying Power, he is not bound to it by any duty of allegiance.

In any case, the death penalty may not be pronounced against a protected person who was under eighteen years of age at the time of the offence.

Article 69

In all cases, the duration of the period during which a protected person accused of an offence is under arrest awaiting trial or punishment shall be deducted from any period of imprisonment awarded.

Article 70

Protected persons shall not be arrested, prosecuted or convicted by the Occupying Power for acts committed or for opinions expressed before the occupation, or during a temporary interruption thereof, with the exception of breaches of the laws and customs of war.

Nationals of the Occupying Power who, before the outbreak of hostilities, have sought refuge in the territory of the occupied State, shall not be arrested, prosecuted, convicted or deported from the occupied territory, except for offences committed after the outbreak of hostilities, or for offences under common law committed before the outbreak of hostilities which, according to the law of the occupied State, would have justified extradition in time of peace.

Article 71

No sentence shall be pronounced by the competent courts of the Occupying Power except after a regular trial.

Accused persons who are prosecuted by the Occupying Power shall be promptly informed, in writing, in a language which they understand, of the particulars of the charges preferred against them, and shall be brought to trial as rapidly as possible. The Protecting Power shall be informed of all proceedings instituted by the Occupying Power against protected persons in respect of charges involving the death penalty or imprisonment for two years or more; it shall be enabled, at any time, to obtain information regarding the state of such proceedings. Furthermore, the Protecting Power shall be entitled, on request, to be furnished with all particulars of these and of any other proceedings instituted by the Occupying Power against protected persons.

The notification to the Protecting Power, as provided for in the second paragraph above, shall be sent immediately, and shall in any case reach the Protecting Power three weeks before the date of the first hearing. Unless, at the opening of the trial, evidence is submitted that the provisions of this Article are fully complied with, the trial shall not proceed. The notification shall include the following particulars:

- (a) description of the accused;
- (b) place of residence or detention;
- (c) specification of the charge or charges (with mention of the penal provisions under which it is brought);
- (d) designation of the court which will hear the case;
- (e) place and date of the first hearing.

Article 72

Accused persons shall have the right to present evidence necessary to their defence and may, in particular, call witnesses. They shall have the right to be assisted by a qualified advocate or counsel of their own choice, who shall be able to visit them freely and shall enjoy the necessary facilities for preparing the defence.

Failing a choice by the accused, the Protecting Power may provide him with an advocate or counsel. When an accused person has to meet a serious charge and the Protecting Power is not functioning, the Occupying Power, subject to the consent of the accused, shall provide an advocate or counsel.

Accused persons shall, unless they freely waive such assistance, be aided by an interpreter, both during preliminary investigation and during the hearing in court. They shall have the right at any time to object to the interpreter and to ask for his replacement.

Article 73

A convicted person shall have the right of appeal provided for by the laws applied by the court. He shall be fully informed of his right to appeal or petition and of the time limit within which he may do so.

The penal procedure provided in the present Section shall apply, as far as it is applicable, to appeals. Where the laws applied by the court make no provision for appeals, the convicted person shall have the right to petition against the finding and sentence to the competent authority of the Occupying Power.

Article 74

Representatives of the Protecting Power shall have the right to attend the trial of any protected person, unless the hearing has, as an exceptional measure, to be held *in camera* in the interests of the security of the Occupying Power, which shall then notify the Protecting Power. A notification in respect of the date and place of trial shall be sent to the Protecting Power.

Any judgment involving a sentence of death, or imprisonment for two years or more, shall be communicated, with the relevant grounds, as rapidly as possible to the Protecting Power. The notification shall contain a reference to the notification made under Article 71, and, in the case of sentences of imprisonment, the name of the place where the sentence is to be served. A record of judgments other than those referred to above shall be kept by the court and shall be open to inspection by representatives of the Protecting Power. Any period allowed for appeal in the case of sentences involving the death penalty, or imprisonment of two years or more, shall not run until notification of judgment has been received by the Protecting Power.

Article 75

In no case shall persons condemned to death be deprived of the right of petition for pardon or reprieve.

No death sentence shall be carried out before the expiration of a period of at least six months from the date of receipt by the Protecting Power of the notification of the final judgment confirming such death sentence, or of an order denying pardon or reprieve.

The six months period of suspension of the death sentence herein prescribed may be reduced in individual cases in circumstances of grave emergency involving an organized threat to the security of the Occupying Power or its forces, provided always that the Protecting Power is notified of such reduction and is given reasonable time and opportunity to make representations to the competent occupying authorities in respect of such death sentences.

Article 76

Protected persons accused of offences shall be detained in the occupied country, and if convicted they shall serve their sentences therein. They shall, if possible, be separated from other detainees and shall enjoy conditions of food and hygiene which will be sufficient to keep them in good health, and which will be at least equal to those obtaining in prisons in the occupied country.

They shall receive the medical attention required by their state of health.

They shall also have the right to receive any spiritual assistance which they may require.

Women shall be confined in separate quarters and shall be under the direct supervision of women.

Proper regard shall be paid to the special treatment due to minors.

Protected persons who are detained shall have the right to be visited by delegates of the Protecting Power and of the International Committee of the Red Cross, in accordance with the provisions of Article 143.

Such persons shall have the right to receive at least one relief parcel monthly.

Article 77

Protected persons who have been accused of offences or convicted by the courts in occupied territory, shall be handed over at the close of occupation, with the relevant records, to the authorities of the liberated territory.

Article 78

If the Occupying Power considers it necessary, for imperative reasons of security, to take safety measures concerning protected persons, it may, at the most, subject them to assigned residence or to internment.

Decisions regarding such assigned residence or internment shall be made according to a regular procedure to be prescribed by the Occupying Power in accordance with the provisions of the present Convention. This procedure shall include the right of appeal for the parties concerned. Appeals shall be decided with the least possible delay. In the event of the decision being upheld, it shall be subject to periodical review, if possible every six months, by a competent body set up by the said Power.

Protected persons made subject to assigned residence and thus required to leave their homes shall enjoy the full benefit of Article 39 of the present Convention.

SECTION IV. REGULATIONS FOR THE TREATMENT OF INTERNEES

CHAPTER I. GENERAL PROVISIONS

Article 79

The Parties to the conflict shall not intern protected persons, except in accordance with the provisions of Articles 41, 42, 43, 68 and 78.

Article 80

Internees shall retain their full civil capacity and shall exercise such attendant rights as may be compatible with their status.

Article 81

Parties to the conflict who intern protected persons shall be bound to provide free of charge for their maintenance, and to grant them also the medical attention required by their state of health.

No deduction from the allowances, salaries or credits due to the internees shall be made for the repayment of these costs.

The Detaining Power shall provide for the support of those dependent on the internees, if such dependents are without adequate means of support or are unable to earn a living.

Article 82

The Detaining Power shall, as far as possible, accommodate the internees according to their nationality, language and customs. Internees who are nationals of the same country shall not be separated merely because they have different languages.

Throughout the duration of their internment, members of the same family, and in particular parents and children, shall be lodged together in the same place of internment, except when separation of a temporary nature is necessitated for reasons of employment or health or for the purposes of

enforcement of the provisions of Chapter IX of the present Section. Internees may request that their children who are left at liberty without parental care shall be interned with them.

Wherever possible, interned members of the same family shall be housed in the same premises and given separate accommodation from other internees, together with facilities for leading a proper family life.

CHAPTER II. PLACES OF INTERNMENT

Article 83

The Detaining Power shall not set up places of internment in areas particularly exposed to the dangers of war.

The Detaining Power shall give the enemy Powers, through the intermediary of the Protecting Powers, all useful information regarding the geographical location of places of internment.

Whenever military considerations permit, internment camps shall be indicated by the letters IC, placed so as to be clearly visible in the daytime from the air. The Powers concerned may, however, agree upon any other system of marking. No place other than an internment camp shall be marked as such.

Article 84

Internees shall be accommodated and administered separately from prisoners of war and from persons deprived of liberty for any other reason.

Article 85

The Detaining Power is bound to take all necessary and possible measures to ensure that protected persons shall, from the outset of their internment, be accommodated in buildings or quarters which afford every possible safeguard as regards hygiene and health, and provide efficient protection against the rigours of the climate and the effects of the war. In no case shall permanent places of internment be situated in unhealthy areas or in districts the climate of which is injurious to the internees. In all cases where the district, in which a protected person is temporarily interned, is in an unhealthy area or has a climate which is harmful to his health, he shall be removed to a more suitable place of internment as rapidly as circumstances permit.

The premises shall be fully protected from dampness, adequately heated and lighted, in particular between dusk and lights out. The sleeping quarters shall be sufficiently spacious and well ventilated, and the internees shall have suitable bedding and sufficient blankets, account being taken of the climate, and the age, sex, and state of health of the internees.

Internees shall have for their use, day and night, sanitary conveniences which conform to the rules of hygiene and are constantly maintained in a state of cleanliness. They shall be provided with sufficient water and soap for their daily personal toilet and for washing their personal laundry; installations and facilities necessary for this purpose shall be granted to them. Showers or baths shall also be available. The necessary time shall be set aside for washing and for cleaning.

Whenever it is necessary, as an exceptional and temporary measure, to accommodate women internees who are not members of a family unit in the same place of internment as men, the provision of separate sleeping quarters and sanitary conveniences for the use of such women internees shall be obligatory.

Article 86

The Detaining Power shall place at the disposal of interned persons, of whatever denomination, premises suitable for the holding of their religious services.

Article 87

Canteens shall be installed in every place of internment, except where other suitable facilities are available. Their purpose shall be to enable internees to make purchases, at prices not higher than

local market prices, of foodstuffs and articles of everyday use, including soap and tobacco, such as would increase their personal well-being and comfort.

Profits made by canteens shall be credited to a welfare fund to be set up for each place of internment, and administered for the benefit of the internees attached to such place of internment. The Internee Committee provided for in Article 102 shall have the right to check the management of the canteen and of the said fund.

When a place of internment is closed down, the balance of the welfare fund shall be transferred to the welfare fund of a place of internment for internees of the same nationality, or, if such a place does not exist, to a central welfare fund which shall be administered for the benefit of all internees remaining in the custody of the Detaining Power. In case of a general release, the said profits shall be kept by the Detaining Power, subject to any agreement to the contrary between the Powers concerned.

Article 88

In all places of internment exposed to air raids and other hazards of war, shelters adequate in number and structure to ensure the necessary protection shall be installed. In case of alarms, the internees shall be free to enter such shelters as quickly as possible, excepting those who remain for the protection of their quarters against the aforesaid hazards. Any protective measures taken in favour of the population shall also apply to them.

All due precautions must be taken in places of internment against the danger of fire.

CHAPTER III. FOOD AND CLOTHING

Article 89

Daily food rations for internees shall be sufficient in quantity, quality and variety to keep internees in a good state of health and prevent the development of nutritional deficiencies. Account shall also be taken of the customary diet of the internees.

Internees shall also be given the means by which they can prepare for themselves any additional food in their possession.

Sufficient drinking water shall be supplied to internees. The use of tobacco shall be permitted.

Internees who work shall receive additional rations in proportion to the kind of labour which they perform.

Expectant and nursing mothers and children under fifteen years of age shall be given additional food, in proportion to their physiological needs.

Article 90

When taken into custody, internees shall be given all facilities to provide themselves with the necessary clothing, footwear and change of underwear, and later on, to procure further supplies if required. Should any internees not have sufficient clothing, account being taken of the climate, and be unable to procure any, it shall be provided free of charge to them by the Detaining Power.

The clothing supplied by the Detaining Power to internees and the outward markings placed on their own clothes shall not be ignominious nor expose them to ridicule.

Workers shall receive suitable working outfits, including protective clothing, whenever the nature of their work so requires.

CHAPTER IV. HYGIENE AND MEDICAL ATTENTION

Article 91

Every place of internment shall have an adequate infirmary, under the direction of a qualified doctor, where internees may have the attention they require, as well as an appropriate diet. Isolation wards shall be set aside for cases of contagious or mental diseases.

Maternity cases and internees suffering from serious diseases, or whose condition requires special treatment, a surgical operation or hospital care, must be admitted to any institution where adequate treatment can be given and shall receive care not inferior to that provided for the general population.

Internees shall, for preference, have the attention of medical personnel of their own nationality.

Internees may not be prevented from presenting themselves to the medical authorities for examination. The medical authorities of the Detaining Power shall, upon request, issue to every internee who has undergone treatment an official certificate showing the nature of his illness or injury, and the duration and nature of the treatment given. A duplicate of this certificate shall be forwarded to the Central Agency provided for in Article 140.

Treatment, including the provision of any apparatus necessary for the maintenance of internees in good health, particularly dentures and other artificial appliances and spectacles, shall be free of charge to the internee.

Article 92

Medical inspections of internees shall be made at least once a month. Their purpose shall be, in particular, to supervise the general state of health, nutrition and cleanliness of internees, and to detect contagious diseases, especially tuberculosis, malaria, and venereal diseases. Such inspections shall include, in particular, the checking of weight of each internee and, at least once a year, radioscopic examination.

CHAPTER V. RELIGIOUS, INTELLECTUAL AND PHYSICAL ACTIVITIES

Article 93

Internees shall enjoy complete latitude in the exercise of their religious duties, including attendance at the services of their faith, on condition that they comply with the disciplinary routine prescribed by the detaining authorities.

Ministers of religion who are interned shall be allowed to minister freely to the members of their community. For this purpose, the Detaining Power shall ensure their equitable allocation amongst the various places of internment in which there are internees speaking the same language and belonging to the same religion. Should such ministers be too few in number, the Detaining Power shall provide them with the necessary facilities, including means of transport, for moving from one place to another, and they shall be authorized to visit any internees who are in hospital. Ministers of religion shall be at liberty to correspond on matters concerning their ministry with the religious authorities in the country of detention and, as far as possible, with the international religious organizations of their faith. Such correspondence shall not be considered as forming a part of the quota mentioned in Article 107. It shall, however, be subject to the provisions of Article 112.

When internees do not have at their disposal the assistance of ministers of their faith, or should these latter be too few in number, the local religious authorities of the same faith may appoint, in agreement with the Detaining Power, a minister of the internees' faith or, if such a course is feasible from a denominational point of view, a minister of similar religion or a qualified layman. The latter shall enjoy the facilities granted to the ministry he has assumed. Persons so appointed shall comply with all regulations laid down by the Detaining Power in the interests of discipline and security.

Article 94

The Detaining Power shall encourage intellectual, educational and recreational pursuits, sports and games amongst internees, whilst leaving them free to take part in them or not. It shall take all practicable measures to ensure the exercise thereof, in particular by providing suitable premises.

All possible facilities shall be granted to internees to continue their studies or to take up new subjects. The education of children and young people shall be ensured; they shall be allowed to attend schools either within the place of internment or outside.

Internees shall be given opportunities for physical exercise, sports and outdoor games. For this purpose, sufficient open spaces shall be set aside in all places of internment. Special playgrounds shall be reserved for children and young people.

Article 95

The Detaining Power shall not employ internees as workers, unless they so desire. Employment which, if undertaken under compulsion by a protected person not in internment, would involve a breach of Articles 40 or 51 of the present Convention, and employment on work which is of a degrading or humiliating character are in any case prohibited.

After a working period of six weeks, internees shall be free to give up work at any moment, subject to eight days' notice.

These provisions constitute no obstacle to the right of the Detaining Power to employ interned doctors, dentists and other medical personnel in their professional capacity on behalf of their fellow internees, or to employ internees for administrative and maintenance work in places of internment and to detail such persons for work in the kitchens or for other domestic tasks, or to require such persons to undertake duties connected with the protection of internees against aerial bombardment or other war risks. No internee may, however, be required to perform tasks for which he is, in the opinion of a medical officer, physically unsuited.

The Detaining Power shall take entire responsibility for all working conditions, for medical attention, for the payment of wages, and for ensuring that all employed internees receive compensation for occupational accidents and diseases. The standards prescribed for the said working conditions and for compensation shall be in accordance with the national laws and regulations, and with the existing practice; they shall in no case be inferior to those obtaining for work of the same nature in the same district. Wages for work done shall be determined on an equitable basis by special agreements between the internees, the Detaining Power, and, if the case arises, employers other than the Detaining Power, due regard being paid to the obligation of the Detaining Power to provide for free maintenance of internees and for the medical attention which their state of health may require. Internees permanently detailed for categories of work mentioned in the third paragraph of this Article shall be paid fair wages by the Detaining Power. The working conditions and the scale of compensation for occupational accidents and diseases to internees, thus detailed, shall not be inferior to those applicable to work of the same nature in the same district.

Article 96

All labour detachments shall remain part of and dependent upon a place of internment. The competent authorities of the Detaining Power and the commandant of a place of internment shall be responsible for the observance in a labour detachment of the provisions of the present Convention. The commandant shall keep an up-to-date list of the labour detachments subordinate to him and shall communicate it to the delegates of the Protecting Power, of the International Committee of the Red Cross and of other humanitarian organizations who may visit the places of internment.

CHAPTER VI. PERSONAL PROPERTY AND FINANCIAL RESOURCES

Article 97

Internees shall be permitted to retain articles of personal use. Monies, cheques, bonds, etc., and valuables in their possession may not be taken from them except in accordance with established procedure. Detailed receipts shall be given therefor.

The amounts shall be paid into the account of every internee as provided for in Article 98. Such amounts may not be converted into any other currency unless legislation in force in the territory in which the owner is interned so requires or the internee gives his consent.

Articles which have above all a personal or sentimental value may not be taken away.

A woman internee shall not be searched except by a woman.

On release or repatriation, internees shall be given all articles, monies or other valuables taken from them during internment and shall receive in currency the balance of any credit to their accounts kept in accordance with Article 98, with the exception of any articles or amounts withheld by the Detaining Power by virtue of its legislation in force. If the property of an internee is so withheld, the owner shall receive a detailed receipt.

Family or identity documents in the possession of internees may not be taken away without a receipt being given. At no time shall internees be left without identity documents. If they have none, they shall be issued with special documents drawn up by the detaining authorities, which will serve as their identity papers until the end of their internment.

Internees may keep on their persons a certain amount of money, in cash or in the shape of purchase coupons, to enable them to make purchases.

Article 98

All internees shall receive regular allowances, sufficient to enable them to purchase goods and articles, such as tobacco, toilet requisites, etc. Such allowances may take the form of credits or purchase coupons.

Furthermore, internees may receive allowances from the Power to which they owe allegiance, the Protecting Powers, the organizations which may assist them, or their families, as well as the income on their property in accordance with the law of the Detaining Power. The amount of allowances granted by the Power to which they owe allegiance shall be the same for each category of internees (infirm, sick, pregnant women, etc.), but may not be allocated by that Power or distributed by the Detaining Power on the basis of discriminations between internees which are prohibited by Article 27 of the present Convention.

The Detaining Power shall open a regular account for every internee, to which shall be credited the allowances named in the present Article, the wages earned and the remittances received, together with such sums taken from him as may be available under the legislation in force in the territory in which he is interned. Internees shall be granted all facilities consistent with the legislation in force in such territory to make remittances to their families and to other dependants. They may draw from their accounts the amounts necessary for their personal expenses, within the limits fixed by the Detaining Power. They shall at all times be afforded reasonable facilities for consulting and obtaining copies of their accounts. A statement of accounts shall be furnished to the Protecting Power on request, and shall accompany the internee in case of transfer.

CHAPTER VII. ADMINISTRATION AND DISCIPLINE

Article 99

Every place of internment shall be put under the authority of a responsible officer, chosen from the regular military forces or the regular civil administration of the Detaining Power. The officer in charge of the place of internment must have in his possession a copy of the present Convention in the official language, or one of the official languages, of his country and shall be responsible for its application. The staff in control of internees shall be instructed in the provisions of the present Convention and of the administrative measures adopted to ensure its application.

The text of the present Convention and the texts of special agreements concluded under the said Convention shall be posted inside the place of internment, in a language which the internees understand, or shall be in the possession of the Internee Committee.

Regulations, orders, notices and publications of every kind shall be communicated to the internees and posted inside the places of internment, in a language which they understand.

Every order and command addressed to internees individually must likewise be given in a language which they understand.

Article 100

The disciplinary regime in places of internment shall be consistent with humanitarian principles, and shall in no circumstances include regulations imposing on internees any physical exertion dangerous to their health or involving physical or moral victimization. Identification by tattooing or imprinting signs or markings on the body, is prohibited.

In particular, prolonged standing and roll-calls, punishment drill, military drill and manoeuvres, or the reduction of food rations, are prohibited.

Article 101

Internees shall have the right to present to the authorities in whose power they are, any petition with regard to the conditions of internment to which they are subjected.

They shall also have the right to apply without restriction through the Internee Committee or, if they consider it necessary, direct to the representatives of the Protecting Power, in order to indicate to them any points on which they may have complaints to make with regard to the conditions of internment.

Such petitions and complaints shall be transmitted forthwith and without alteration, and even if the latter are recognized to be unfounded, they may not occasion any punishment.

Periodic reports on the situation in places of internment and as to the needs of the internees may be sent by the Internee Committees to the representatives of the Protecting Powers.

Article 102

In every place of internment, the internees shall freely elect by secret ballot every six months, the members of a Committee empowered to represent them before the Detaining and the Protecting Powers, the International Committee of the Red Cross and any other organization which may assist them. The members of the Committee shall be eligible for re-election.

Internees so elected shall enter upon their duties after their election has been approved by the detaining authorities. The reasons for any refusals or dismissals shall be communicated to the Protecting Powers concerned.

Article 103

The Internee Committees shall further the physical, spiritual and intellectual well-being of the internees.

In case the internees decide, in particular, to organize a system of mutual assistance amongst themselves, this organization would be within the competence of the Committees in addition to the special duties entrusted to them under other provisions of the present Convention.

Article 104

Members of Internee Committees shall not be required to perform any other work, if the accomplishment of their duties is rendered more difficult thereby.

Members of Internee Committees may appoint from amongst the internees such assistants as they may require. All material facilities shall be granted to them, particularly a certain freedom of movement necessary for the accomplishment of their duties (visits to labour detachments, receipt of supplies, etc.).

All facilities shall likewise be accorded to members of Internee Committees for communication by post and telegraph with the detaining authorities, the Protecting Powers, the International Committee of the Red Cross and their delegates, and with the organizations which give assistance to internees, Committee members in labour detachments shall enjoy similar facilities for communication with their Internee Committee in the principal place of internment. Such communications shall not be limited, nor considered as forming a part of the quota mentioned in Article 107.

Members of Internee Committees who are transferred shall be allowed a reasonable time to acquaint their successors with current affairs.

CHAPTER VIII. RELATIONS WITH THE EXTERIOR

Article 105

Immediately upon interning protected persons, the Detaining Powers shall inform them, the Power to which they owe allegiance and their Protecting Power of the measures taken for executing the provisions of the present Chapter. The Detaining Powers shall likewise inform the Parties concerned of any subsequent modifications of such measures.

Article 106

As soon as he is interned, or at the latest not more than one week after his arrival in a place of internment, and likewise in cases of sickness or transfer to another place of internment or to a hospital, every internee shall be enabled to send direct to his family, on the one hand, and to the Central Agency provided for by Article 140, on the other, an internment card similar, if possible, to the model annexed to the present Convention, informing his relatives of his detention, address and state of health. The said cards shall be forwarded as rapidly as possible and may not be delayed in any way.

Article 107

Internees shall be allowed to send and receive letters and cards. If the Detaining Power deems it necessary to limit the number of letters and cards sent by each internee, the said number shall not be less than two letters and four cards monthly; these shall be drawn up so as to conform as closely as possible to the models annexed to the present Convention. If limitations must be placed on the correspondence addressed to internees, they may be ordered only by the Power to which such internees owe allegiance, possibly at the request of the Detaining Power. Such letters and cards must be conveyed with reasonable despatch; they may not be delayed or retained for disciplinary reasons.

Internees who have been a long time without news, or who find it impossible to receive news from their relatives, or to give them news by the ordinary postal route, as well as those who are at a considerable distance from their homes, shall be allowed to send telegrams, the charges being paid by them in the currency at their disposal. They shall likewise benefit by this provision in cases which are recognized to be urgent.

As a rule, internees' mail shall be written in their own language. The Parties to the conflict may authorize correspondence in other languages.

Article 108

Internees shall be allowed to receive, by post or by any other means, individual parcels or collective shipments containing in particular foodstuffs, clothing, medical supplies, as well as books and objects of a devotional, educational or recreational character which may meet their needs. Such shipments shall in no way free the Detaining Power from the obligations imposed upon it by virtue of the present Convention.

Should military necessity require the quantity of such shipments to be limited, due notice thereof shall be given to the Protecting Power and to the International Committee of the Red Cross, or to any other organization giving assistance to the internees and responsible for the forwarding of such shipments.

The conditions for the sending of individual parcels and collective shipments shall, if necessary, be the subject of special agreements between the Powers concerned, which may in no case delay the receipt by the internees of relief supplies. Parcels of clothing and foodstuffs may not include books. Medical relief supplies shall, as a rule, be sent in collective parcels.

Article 109

In the absence of special agreements between Parties to the conflict regarding the conditions for the receipt and distribution of collective relief shipments, the regulations concerning collective relief which are annexed to the present Convention shall be applied.

The special agreements provided for above shall in no case restrict the right of Internee Committees to take possession of collective relief shipments intended for internees, to undertake their distribution and to dispose of them in the interests of the recipients.

Nor shall such agreements restrict the right of representatives of the Protecting Powers, the International Committee of the Red Cross, or any other organization giving assistance to internees and responsible for the forwarding of collective shipments, to supervise their distribution to the recipients.

Article 110

All relief shipments for internees shall be exempt from import, customs and other dues.

All matter sent by mail, including relief parcels sent by parcel post and remittances of money, addressed from other countries to internees or despatched by them through the post office, either direct or through the Information Bureaux provided for in Article 136 and the Central Information Agency provided for in Article 140, shall be exempt from all postal dues both in the countries of origin and destination and in intermediate countries. To this end, in particular, the exemption provided by the Universal Postal Convention of 1947 and by the agreements of the Universal Postal Union in favour of civilians of enemy nationality detained in camps or civilian prisons, shall be extended to the other interned persons protected by the present Convention. The countries not signatory to the above-mentioned agreements shall be bound to grant freedom from charges in the same circumstances.

The cost of transporting relief shipments which are intended for internees and which, by reason of their weight or any other cause, cannot be sent through the post office, shall be borne by the Detaining Power in all the territories under its control. Other Powers which are Parties to the present Convention shall bear the cost of transport in their respective territories.

Costs connected with the transport of such shipments, which are not covered by the above paragraphs, shall be charged to the senders.

The High Contracting Parties shall endeavour to reduce, so far as possible, the charges for telegrams sent by internees, or addressed to them.

Article 111

Should military operations prevent the Powers concerned from fulfilling their obligation to ensure the conveyance of the mail and relief shipments provided for in Articles 106, 107, 108 and 113, the Protecting Powers concerned, the International Committee of the Red Cross or any other organization duly approved by the Parties to the conflict may undertake the conveyance of such shipments by suitable means (rail, motor vehicles, vessels or aircraft, etc.). For this purpose, the High Contracting Parties shall endeavour to supply them with such transport, and to allow its circulation, especially by granting the necessary safe-conducts.

Such transport may also be used to convey:

(a) correspondence, lists and reports exchanged between the Central Information Agency referred to in Article 140 and the National Bureaux referred to in Article 136;

(b) correspondence and reports relating to internees which the Protecting Powers, the International Committee of the Red Cross or any other organization assisting the internees exchange either with their own delegates or with the Parties to the conflict.

These provisions in no way detract from the right of any Party to the conflict to arrange other means of transport if it should so prefer, nor preclude the granting of safe-conducts, under mutually agreed conditions, to such means of transport.

The costs occasioned by the use of such means of transport shall be borne, in proportion to the importance of the shipments, by the Parties to the conflict whose nationals are benefited thereby.

Article 112

The censoring of correspondence addressed to internees or despatched by them shall be done as quickly as possible.

The examination of consignments intended for internees shall not be carried out under conditions that will expose the goods contained in them to deterioration. It shall be done in the presence of the addressee, or of a fellow-internee duly delegated by him. The delivery to internees of individual or collective consignments shall not be delayed under the pretext of difficulties of censorship.

Any prohibition of correspondence ordered by the Parties to the conflict either for military or political reasons, shall be only temporary and its duration shall be as short as possible.

Article 113

The Detaining Powers shall provide all reasonable facilities for the transmission, through the Protecting Power or the Central Agency provided for in Article 140, or as otherwise required, of wills, powers of attorney, letters of authority, or any other documents intended for internees or despatched by them.

In all cases the Detaining Powers shall facilitate the execution and authentication in due legal form of such documents on behalf of internees, in particular by allowing them to consult a lawyer.

Article 114

The Detaining Power shall afford internees all facilities to enable them to manage their property, provided this is not incompatible with the conditions of internment and the law which is applicable. For this purpose, the said Power may give them permission to leave the place of internment in urgent cases and if circumstances allow.

Article 115

In all cases where an internee is a party to proceedings in any court, the Detaining Power shall, if he so requests, cause the court to be informed of his detention and shall, within legal limits, ensure that all necessary steps are taken to prevent him from being in any way prejudiced, by reason of his internment, as regards the preparation and conduct of his case or as regards the execution of any judgment of the court.

Article 116

Every internee shall be allowed to receive visitors, especially near relatives, at regular intervals and as frequently as possible.

As far as is possible, internees shall be permitted to visit their homes in urgent cases, particularly in cases of death or serious illness of relatives.

CHAPTER IX. PENAL AND DISCIPLINARY SANCTIONS

Article 117

Subject to the provisions of the present Chapter, the laws in force in the territory in which they are detained will continue to apply to internees who commit offences during internment.

If general laws, regulations or orders declare acts committed by internees to be punishable, whereas the same acts are not punishable when committed by persons who are not internees, such acts shall entail disciplinary punishments only.

No internee may be punished more than once for the same act, or on the same count.

Article 118

The courts or authorities shall in passing sentence take as far as possible into account the fact that the defendant is not a national of the Detaining Power. They shall be free to reduce the penalty prescribed for the offence with which the internee is charged and shall not be obliged, to this end, to apply the minimum sentence prescribed.

Imprisonment in premises without daylight, and, in general, all forms of cruelty without exception are forbidden.

Internees who have served disciplinary or judicial sentences shall not be treated differently from other internees.

The duration of preventive detention undergone by an internee shall be deducted from any disciplinary or judicial penalty involving confinement to which he may be sentenced.

Internee Committees shall be informed of all judicial proceedings instituted against internees whom they represent, and of their result.

Article 119

The disciplinary punishments applicable to internees shall be the following:

1) A fine which shall not exceed 50 per cent of the wages which the internee would otherwise receive under the provisions of Article 95 during a period of not more than thirty days.

2) Discontinuance of privileges granted over and above the treatment provided for by the present Convention.

3) Fatigue duties, not exceeding two hours daily, in connection with the maintenance of the place of internment.

4) Confinement.

In no case shall disciplinary penalties be inhuman, brutal or dangerous for the health of internees. Account shall be taken of the internee's age, sex and state of health.

The duration of any single punishment shall in no case exceed a maximum of thirty consecutive days, even if the internee is answerable for several breaches of discipline when his case is dealt with, whether such breaches are connected or not.

Article 120

Internees who are recaptured after having escaped or when attempting to escape, shall be liable only to disciplinary punishment in respect of this act, even if it is a repeated offence.

Article 118, paragraph 3, notwithstanding, internees punished as a result of escape or attempt to escape, may be subjected to special surveillance, on condition that such surveillance does not affect the state of their health, that it is exercised in a place of internment and that it does not entail the abolition of any of the safeguards granted by the present Convention.

Internees who aid and abet an escape, or attempt to escape, shall be liable on this count to disciplinary punishment only.

Article 121

Escape, or attempt to escape, even if it is a repeated offence, shall not be deemed an aggravating circumstance in cases where an internee is prosecuted for offences committed during his escape.

The Parties to the conflict shall ensure that the competent authorities exercise leniency in deciding whether punishment inflicted for an offence shall be of a disciplinary or judicial nature, especially in respect of acts committed in connection with an escape, whether successful or not.

Article 122

Acts which constitute offences against discipline shall be investigated immediately. This rule shall be applied, in particular, in cases of escape or attempt to escape. Recaptured internees shall be handed over to the competent authorities as soon as possible.

In case of offences against discipline, confinement awaiting trial shall be reduced to an absolute minimum for all internees, and shall not exceed fourteen days. Its duration shall in any case be deducted from any sentence of confinement.

The provisions of Articles 124 and 125 shall apply to internees who are in confinement awaiting trial for offences against discipline.

Article 123

Without prejudice to the competence of courts and higher authorities, disciplinary punishment may be ordered only by the commandant of the place of internment, or by a responsible officer or official who replaces him, or to whom he has delegated his disciplinary powers.

Before any disciplinary punishment is awarded, the accused internee shall be given precise information regarding the offences of which he is accused, and given an opportunity of explaining his conduct and of defending himself. He shall be permitted, in particular, to call witnesses and to have recourse, if necessary, to the services of a qualified interpreter. The decision shall be announced in the presence of the accused and of a member of the Internee Committee.

The period elapsing between the time of award of a disciplinary punishment and its execution shall not exceed one month.

When an internee is awarded a further disciplinary punishment, a period of at least three days shall elapse between the execution of any two of the punishments, if the duration of one of these is ten days or more.

A record of disciplinary punishments shall be maintained by the commandant of the place of internment and shall be open to inspection by representatives of the Protecting Power.

Article 124

Internees shall not in any case be transferred to penitentiary establishments (prisons, penitentiaries, convict prisons, etc.) to undergo disciplinary punishment therein.

The premises in which disciplinary punishments are undergone shall conform to sanitary requirements; they shall in particular be provided with adequate bedding. Internees undergoing punishment shall be enabled to keep themselves in a state of cleanliness.

Women internees undergoing disciplinary punishment shall be confined in separate quarters from male internees and shall be under the immediate supervision of women.

Article 125

Internees awarded disciplinary punishment shall be allowed to exercise and to stay in the open air at least two hours daily.

They shall be allowed, if they so request, to be present at the daily medical inspections. They shall receive the attention which their state of health requires and, if necessary, shall be removed to the infirmary of the place of internment or to a hospital.

They shall have permission to read and write, likewise to send and receive letters. Parcels and remittances of money, however, may be withheld from them until the completion of their punishment; such consignments shall meanwhile be entrusted to the Internee Committee, who will hand over to the infirmary the perishable goods contained in the parcels.

No internee given a disciplinary punishment may be deprived of the benefit of the provisions of Articles 107 and 143 of the present Convention.

Article 126

The provisions of Articles 71 to 76 inclusive shall apply, by analogy, to proceedings against internees who are in the national territory of the Detaining Power.

CHAPTER X. TRANSFERS OF INTERNEES**Article 127**

The transfer of internees shall always be effected humanely. As a general rule, it shall be carried out by rail or other means of transport, and under conditions at least equal to those obtaining for the forces of the Detaining Power in their changes of station. If, as an exceptional measure, such removals have to be effected on foot, they may not take place unless the internees are in a fit state of health, and may not in any case expose them to excessive fatigue.

The Detaining Power shall supply internees during transfer with drinking water and food sufficient in quantity, quality and variety to maintain them in good health, and also with the necessary clothing, adequate shelter and the necessary medical attention. The Detaining Power shall take all suitable precautions to ensure their safety during transfer, and shall establish before their departure a complete list of all internees transferred.

Sick, wounded or infirm internees and maternity cases shall not be transferred if the journey would be seriously detrimental to them, unless their safety imperatively so demands.

If the combat zone draws close to a place of internment, the internees in the said place shall not be transferred unless their removal can be carried out in adequate conditions of safety, or unless they are exposed to greater risks by remaining on the spot than by being transferred.

When making decisions regarding the transfer of internees, the Detaining Power shall take their interests into account and, in particular, shall not do anything to increase the difficulties of repatriating them or returning them to their own homes.

Article 128

In the event of transfer, internees shall be officially advised of their departure and of their new postal address. Such notification shall be given in time for them to pack their luggage and inform their next of kin.

They shall be allowed to take with them their personal effects, and the correspondence and parcels which have arrived for them. The weight of such baggage may be limited if the conditions of transfer so require, but in no case to less than twenty-five kilograms per internee.

Mail and parcels addressed to their former place of internment shall be forwarded to them without delay.

The commandant of the place of internment shall take, in agreement with the Internee Committee, any measures needed to ensure the transport of the internees' community property and of the luggage the internees are unable to take with them in consequence of restrictions imposed by virtue of the second paragraph.

CHAPTER XI. DEATHS**Article 129**

The wills of internees shall be received for safekeeping by the responsible authorities; and in the event of the death of an internee his will shall be transmitted without delay to a person whom he has previously designated.

Deaths of internees shall be certified in every case by a doctor, and a death certificate shall be made out, showing the causes of death and the conditions under which it occurred.

An official record of the death, duly registered, shall be drawn up in accordance with the procedure relating thereto in force in the territory where the place of internment is situated, and a duly

certified copy of such record shall be transmitted without delay to the Protecting Power as well as to the Central Agency referred to in Article 140.

Article 130

The detaining authorities shall ensure that internees who die while interned are honourably buried, if possible according to the rites of the religion to which they belonged and that their graves are respected, properly maintained, and marked in such a way that they can always be recognized.

Deceased internees shall be buried in individual graves unless unavoidable circumstances require the use of collective graves. Bodies may be cremated only for imperative reasons of hygiene, on account of the religion of the deceased or in accordance with his expressed wish to this effect. In case of cremation, the fact shall be stated and the reasons given in the death certificate of the deceased. The ashes shall be retained for safekeeping by the detaining authorities and shall be transferred as soon as possible to the next of kin on their request.

As soon as circumstances permit, and not later than the close of hostilities, the Detaining Power shall forward lists of graves of deceased internees to the Powers on whom the deceased internees depended, through the Information Bureaux provided for in Article 136. Such lists shall include all particulars necessary for the identification of the deceased internees, as well as the exact location of their graves.

Article 131

Every death or serious injury of an internee, caused or suspected to have been caused by a sentry, another internee or any other person, as well as any death the cause of which is unknown, shall be immediately followed by an official enquiry by the Detaining Power.

A communication on this subject shall be sent immediately to the Protecting Power. The evidence of any witnesses shall be taken, and a report including such evidence shall be prepared and forwarded to the said Protecting Power.

If the enquiry indicates the guilt of one or more persons, the Detaining Power shall take all necessary steps to ensure the prosecution of the person or persons responsible.

CHAPTER XII. RELEASE, REPATRIATION AND ACCOMMODATION IN NEUTRAL COUNTRIES

Article 132

Each interned person shall be released by the Detaining Power as soon as the reasons which necessitated his internment no longer exist.

The Parties to the conflict shall, moreover, endeavour during the course of hostilities, to conclude agreements for the release, the repatriation, the return to places of residence or the accommodation in a neutral country of certain classes of internees, in particular children, pregnant women and mothers with infants and young children, wounded and sick, and internees who have been detained for a long time.

Article 133

Internment shall cease as soon as possible after the close of hostilities.

Internees in the territory of a Party to the conflict, against whom penal proceedings are pending for offences not exclusively subject to disciplinary penalties, may be detained until the close of such proceedings and, if circumstances require, until the completion of the penalty. The same shall apply to internees who have been previously sentenced to a punishment depriving them of liberty.

By agreement between the Detaining Power and the Powers concerned, committees may be set up after the close of hostilities, or of the occupation of territories, to search for dispersed internees.

Article 134

The High Contracting Parties shall endeavour, upon the close of hostilities or occupation, to ensure the return of all internees to their last place of residence, or to facilitate their repatriation.

Article 135

The Detaining Power shall bear the expense of returning released internees to the places where they were residing when interned, or, if it took them into custody while they were in transit or on the high seas, the cost of completing their journey or of their return to their point of departure.

Where a Detaining Power refuses permission to reside in its territory to a released internee who previously had his permanent domicile therein, such Detaining Power shall pay the cost of the said internee's repatriation. If, however, the internee elects to return to his country on his own responsibility or in obedience to the Government of the Power to which he owes allegiance, the Detaining Power need not pay the expenses of his journey beyond the point of his departure from its territory. The Detaining Power need not pay the costs of repatriation of an internee who was interned at his own request.

If internees are transferred in accordance with Article 45, the transferring and receiving Powers shall agree on the portion of the above costs to be borne by each.

The foregoing shall not prejudice such special agreements as may be concluded between Parties to the conflict concerning the exchange and repatriation of their nationals in enemy hands.

SECTION V. INFORMATION BUREAUX AND CENTRAL AGENCY**Article 136**

Upon the outbreak of a conflict and in all cases of occupation, each of the Parties to the conflict shall establish an official Information Bureau responsible for receiving and transmitting information in respect of the protected persons who are in its power.

Each of the Parties to the conflict shall, within the shortest possible period, give its Bureau information of any measure taken by it concerning any protected persons who are kept in custody for more than two weeks, who are subjected to assigned residence or who are interned. It shall, furthermore, require its various departments concerned with such matters to provide the aforesaid Bureau promptly with information concerning all changes pertaining to these protected persons, as, for example, transfers, releases, repatriations, escapes, admittances to hospitals, births and deaths.

Article 137

Each national Bureau shall immediately forward information concerning protected persons by the most rapid means to the Powers of whom the aforesaid persons are nationals, or to Powers in whose territory they resided, through the intermediary of the Protecting Powers and likewise through the Central Agency provided for in Article 140. The Bureaux shall also reply to all enquiries which may be received regarding protected persons.

Information Bureaux shall transmit information concerning a protected person unless its transmission might be detrimental to the person concerned or to his or her relatives. Even in such a case, the information may not be withheld from the Central Agency which, upon being notified of the circumstances, will take the necessary precautions indicated in Article 140.

All communications in writing made by any Bureau shall be authenticated by a signature or a seal.

Article 138

The information received by the national Bureau and transmitted by it shall be of such a character as to make it possible to identify the protected person exactly and to advise his next of kin quickly. The information in respect of each person shall include at least his surname, first names,

place and date of birth, nationality, last residence and distinguishing characteristics, the first name of the father and the maiden name of the mother, the date, place and nature of the action taken with regard to the individual, the address at which correspondence may be sent to him and the name and address of the person to be informed.

Likewise, information regarding the state of health of internees who are seriously ill or seriously wounded shall be supplied regularly and if possible every week.

Article 139

Each national Information Bureau shall, furthermore, be responsible for collecting all personal valuables left by protected persons mentioned in Article 136, in particular those who have been repatriated or released, or who have escaped or died; it shall forward the said valuables to those concerned, either direct, or, if necessary, through the Central Agency. Such articles shall be sent by the Bureau in sealed packets which shall be accompanied by statements giving clear and full identity particulars of the person to whom the articles belonged, and by a complete list of the contents of the parcel. Detailed records shall be maintained of the receipt and despatch of all such valuables.

Article 140

A Central Information Agency for protected persons, in particular for internees, shall be created in a neutral country. The International Committee of the Red Cross shall, if it deems necessary, propose to the Powers concerned the organization of such an Agency, which may be the same as that provided for in Article 123 of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949.

The function of the Agency shall be to collect all information of the type set forth in Article 136 which it may obtain through official or private channels and to transmit it as rapidly as possible to the countries of origin or of residence of the persons concerned, except in cases where such transmissions might be detrimental to the persons whom the said information concerns, or to their relatives. It shall receive from the Parties to the conflict all reasonable facilities for effecting such transmissions.

The High Contracting Parties, and in particular those whose nationals benefit by the services of the Central Agency, are requested to give the said Agency the financial aid it may require.

The foregoing provisions shall in no way be interpreted as restricting the humanitarian activities of the International Committee of the Red Cross and of the relief Societies described in Article 142.

Article 141

The national Information Bureaux and the Central Information Agency shall enjoy free postage for all mail, likewise the exemptions provided for in Article 110, and further, so far as possible, exemption from telegraphic charges or, at least, greatly reduced rates.

PART IV. EXECUTION OF THE CONVENTION

SECTION I. GENERAL PROVISIONS

Article 142

Subject to the measures which the Detaining Powers may consider essential to ensure their security or to meet any other reasonable need, the representatives of religious organizations, relief societies, or any other organizations assisting the protected persons, shall receive from these Powers, for themselves or their duly accredited agents, all facilities for visiting the protected persons, for distributing relief supplies and material from any source, intended for educational, recreational or religious purposes, or for assisting them in organizing their leisure time within the places of internment. Such societies or organizations may be constituted in the territory of the Detaining Power, or in any other country, or they may have an international character.

The Detaining Power may limit the number of societies and organizations whose delegates are allowed to carry out their activities in its territory and under its supervision, on condition, however, that such limitation shall not hinder the supply of effective and adequate relief to all protected persons.

The special position of the International Committee of the Red Cross in this field shall be recognized and respected at all times.

Article 143

Representatives or delegates of the Protecting Powers shall have permission to go to all places where protected persons are, particularly to places of internment, detention and work.

They shall have access to all premises occupied by protected persons and shall be able to interview the latter without witnesses, personally or through an interpreter.

Such visits may not be prohibited except for reasons of imperative military necessity, and then only as an exceptional and temporary measure. Their duration and frequency shall not be restricted.

Such representatives and delegates shall have full liberty to select the places they wish to visit. The Detaining or Occupying Power, the Protecting Power and when occasion arises the Power of origin of the persons to be visited, may agree that compatriots of the internees shall be permitted to participate in the visits.

The delegates of the International Committee of the Red Cross shall also enjoy the above prerogatives. The appointment of such delegates shall be submitted to the approval of the Power governing the territories where they will carry out their duties.

Article 144

The High Contracting Parties undertake, in time of peace as in time of war, to disseminate the text of the present Convention as widely as possible in their respective countries, and, in particular, to include the study thereof in their programmes of military and, if possible, civil instruction, so that the principles thereof may become known to the entire population.

Any civilian, military, police or other authorities, who in time of war assume responsibilities in respect of protected persons, must possess the text of the Convention and be specially instructed as to its provisions.

Article 145

The High Contracting Parties shall communicate to one another through the Swiss Federal Council and, during hostilities, through the Protecting Powers, the official translations of the present Convention, as well as the laws and regulations which they may adopt to ensure the application thereof.

Article 146

The High Contracting Parties undertake to enact any legislation necessary to provide effective penal sanctions for persons committing, or ordering to be committed, any of the grave breaches of the present Convention defined in the following Article.

Each High Contracting Party shall be under the obligation to search for persons alleged to have committed, or to have ordered to be committed, such grave breaches, and shall bring such persons, regardless of their nationality, before its own courts. It may also, if it prefers, and in accordance with the provisions of its own legislation, hand such persons over for trial to another High Contracting Party concerned, provided such High Contracting Party has made out a *prima facie* case.

Each High Contracting Party shall take measures necessary for the suppression of all acts contrary to the provisions of the present Convention other than the grave breaches defined in the following Article.

In all circumstances, the accused persons shall benefit by safeguards of proper trial and defence, which shall not be less favourable than those provided by Article 105 and those following of the Geneva Convention relative to the Treatment of Prisoners of War of August 12, 1949.

Article 147

Grave breaches to which the preceding Article relates shall be those involving any of the following acts, if committed against persons or property protected by the present Convention: wilful killing, torture or inhuman treatment, including biological experiments, wilfully causing great suffering or serious injury to body or health, unlawful deportation or transfer or unlawful confinement of a protected person, compelling a protected person to serve in the forces of a hostile Power, or wilfully depriving a protected person of the rights of fair and regular trial prescribed in the present Convention, taking of hostages and extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly.

Article 148

No High Contracting Party shall be allowed to absolve itself or any other High Contracting Party of any liability incurred by itself or by another High Contracting Party in respect of breaches referred to in the preceding Article.

Article 149

At the request of a Party to the conflict, an enquiry shall be instituted, in a manner to be decided between the interested Parties, concerning any alleged violation of the Convention.

If agreement has not been reached concerning the procedure for the enquiry, the Parties should agree on the choice of an umpire who will decide upon the procedure to be followed. Once the violation has been established, the Parties to the conflict shall put an end to it and shall repress it with the least possible delay.

SECTION II. FINAL PROVISIONS

Article 150

The present Convention is established in English and in French. Both texts are equally authentic.

The Swiss Federal Council shall arrange for official translations of the Convention to be made in the Russian and Spanish languages.

Article 151

The present Convention, which bears the date of this day, is open to signature until February 12, 1950, in the name of the Powers represented at the Conference which opened at Geneva on April 21, 1949.

Article 152

The present Convention shall be ratified as soon as possible and the ratifications shall be deposited at Berne.

A record shall be drawn up of the deposit of each instrument of ratification and certified copies of this record shall be transmitted by the Swiss Federal Council to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 153

The present Convention shall come into force six months after not less than two instruments of ratification have been deposited.

Thereafter, it shall come into force for each High Contracting Party six months after the deposit of the instrument of ratification.

Article 154

In the relations between the Powers who are bound by the Hague Conventions respecting the Laws and Customs of War on Land, whether that of July 29, 1899, or that of October 18, 1907, and who are parties to the present Convention, this last Convention shall be supplementary to Sections II and III of the Regulations annexed to the above-mentioned Conventions of The Hague.

Article 155

From the date of its coming into force, it shall be open to any Power in whose name the present Convention has not been signed, to accede to this Convention.

Article 156

Accessions shall be notified in writing to the Swiss Federal Council, and shall take effect six months after the date on which they are received.

The Swiss Federal Council shall communicate the accessions to all the Powers in whose name the Convention has been signed, or whose accession has been notified.

Article 157

The situations provided for in Articles 2 and 3 shall give immediate effect to ratifications deposited and accessions notified by the Parties to the conflict before or after the beginning of hostilities or occupation. The Swiss Federal Council shall communicate by the quickest method any ratifications or accessions received from Parties to the conflict.

Article 158

Each of the High Contracting Parties shall be at liberty to denounce the present Convention.

The denunciation shall be notified in writing to the Swiss Federal Council, which shall transmit it to the Governments of all the High Contracting Parties.

The denunciation shall take effect one year after the notification thereof has been made to the Swiss Federal Council. However, a denunciation of which notification has been made at a time when the denouncing Power is involved in a conflict shall not take effect until peace has been concluded, and until after operations connected with the release, repatriation and re-establishment of the persons protected by the present Convention have been terminated.

The denunciation shall have effect only in respect of the denouncing Power. It shall in no way impair the obligations which the Parties to the conflict shall remain bound to fulfil by virtue of the principles of the law of nations, as they result from the usages established among civilized peoples, from the laws of humanity and the dictates of the public conscience.

Article 159

The Swiss Federal Council shall register the present Convention with the Secretariat of the United Nations. The Swiss Federal Council shall also inform the Secretariat of the United Nations of all ratifications, accessions and denunciations received by it with respect to the present Convention.

In witness whereof the undersigned, having deposited their respective full powers, have signed the present Convention.

Done at Geneva this twelfth day of August 1949, in the English and French languages. The original shall be deposited in the Archives of the Swiss Confederation. The Swiss Federal Council shall transmit certified copies thereof to each of the signatory and acceding States.

ANNEX I. DRAFT AGREEMENT RELATING TO HOSPITAL AND SAFETY ZONES AND LOCALITIES

Article 1

Hospital and safety zones shall be strictly reserved for the persons mentioned in Article 23 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949, and in Article 14 of the Geneva Convention relative to the Protection of Civilian Persons in Time of War of August 12, 1949, and for the personnel entrusted with the organization and administration of these zones and localities and with the care of the persons therein assembled.

Nevertheless, persons whose permanent residence is within such zones shall have the right to stay there.

Article 2

No persons residing, in whatever capacity, in a hospital and safety zone shall perform any work, either within or without the zone, directly connected with military operations or the production of war material.

Article 3

The Power establishing a hospital and safety zone shall take all necessary measures to prohibit access to all persons who have no right of residence or entry therein.

Article 4

Hospital and safety zones shall fulfil the following conditions:

- (a) They shall comprise only a small part of the territory governed by the Power which has established them.
- (b) They shall be thinly populated in relation to the possibilities of accommodation.
- (c) They shall be far removed and free from all military objectives, or large industrial or administrative establishments.
- (d) They shall not be situated in areas which, according to every probability, may become important for the conduct of the war.

Article 5

Hospital and safety zones shall be subject to the following obligations:

- (a) The lines of communication and means of transport which they possess shall not be used for the transport of military personnel or material, even in transit.
- (b) They shall in no case be defended by military means.

Article 6

Hospital and safety zones shall be marked by means of oblique red bands on a white ground, placed on the buildings and outer precincts.

Zones reserved exclusively for the wounded and sick may be marked by means of the Red Cross (Red Crescent, Red Lion and Sun) emblem on a white ground.

They may be similarly marked at night by means of appropriate illumination.

Article 7

The Powers shall communicate to all the High Contracting Parties in peacetime or on the outbreak of hostilities, a list of the hospital and safety zones in the territories governed by them. They shall also give notice of any new zones set up during hostilities.

As soon as the adverse Party has received the above-mentioned notification, the zone shall be regularly established.

If, however, the adverse Party considers that the conditions of the present agreement have not been fulfilled, it may refuse to recognize the zone by giving immediate notice thereof to the Party responsible for the said zone, or may make its recognition of such zone dependent upon the institution of the control provided for in Article 8.

Article 8

Any Power having recognized one or several hospital and safety zones instituted by the adverse Party shall be entitled to demand control by one or more Special Commissions, for the purpose of ascertaining if the zones fulfil the conditions and obligations stipulated in the present agreement.

For this purpose, members of the Special Commissions shall at all times have free access to the various zones and may even reside there permanently. They shall be given all facilities for their duties of inspection.

Article 9

Should the Special Commissions note any facts which they consider contrary to the stipulations of the present agreement, they shall at once draw the attention of the Power governing the said zone to these facts, and shall fix a time limit of five days within which the matter should be rectified. They shall duly notify the Power who has recognized the zone.

If, when the time limit has expired, the Power governing the zone has not complied with the warning, the adverse Party may declare that it is no longer bound by the present agreement in respect of the said zone.

Article 10

Any Power setting up one or more hospital and safety zones, and the adverse Parties to whom their existence has been notified, shall nominate or have nominated by the Protecting Powers or by other neutral Powers, persons eligible to be members of the Special Commissions mentioned in Articles 8 and 9.

Article 11

In no circumstances may hospital and safety zones be the object of attack. They shall be protected and respected at all times by the Parties to the conflict.

Article 12

In the case of occupation of a territory, the hospital and safety zones therein shall continue to be respected and utilized as such. Their purpose may, however, be modified by the Occupying Power, on condition that all measures are taken to ensure the safety of the persons accommodated.

Article 13

The present agreement shall also apply to localities which the Powers may utilize for the same purposes as hospital and safety zones.

ANNEX II. DRAFT REGULATIONS CONCERNING COLLECTIVE RELIEF**Article 1**

The Internee Committees shall be allowed to distribute collective relief shipments for which they are responsible, to all internees who are dependent for administration on the said Committee's place of internment, including those internees who are in hospitals, or in prisons or other penitentiary establishments.

Article 2

The distribution of collective relief shipments shall be effected in accordance with the instructions of the donors and with a plan drawn up by the Internee Committees. The issue of medical stores shall, however, be made for preference in agreement with the senior medical officers, and the latter may, in hospitals and infirmaries, waive the said instructions, if the needs of their patients so demand. Within the limits thus defined, the distribution shall always be carried out equitably.

Article 3

Members of Internee Committees shall be allowed to go to the railway stations or other points of arrival of relief supplies near their places of internment so as to enable them to verify the quantity as well as the quality of the goods received and to make out detailed reports thereon for the donors.

Article 4

Internee Committees shall be given the facilities necessary for verifying whether the distribution of collective relief in all sub-divisions and annexes of their places of internment has been carried out in accordance with their instructions.

Article 5

Internee Committees shall be allowed to complete, and to cause to be completed by members of the Internee Committees in labour detachments or by the senior medical officers of infirmaries and hospitals, forms or questionnaires intended for the donors, relating to collective relief supplies (distribution, requirements, quantities, etc.). Such forms and questionnaires, duly completed, shall be forwarded to the donors without delay.

Article 6

In order to secure the regular distribution of collective relief supplies to the internees in their place of internment, and to meet any needs that may arise through the arrival of fresh parties of internees, the Internee Committees shall be allowed to create and maintain sufficient reserve stocks of collective relief. For this purpose, they shall have suitable warehouses at their disposal; each warehouse shall be provided with two locks, the Internee Committee holding the keys of one lock, and the commandant of the place of internment the keys of the other.

Article 7

The High Contracting Parties, and the Detaining Powers in particular, shall, so far as is in any way possible and subject to the regulations governing the food supply of the population, authorize purchases of goods to be made in their territories for the distribution of collective relief to the internees. They shall likewise facilitate the transfer of funds and other financial measures of a technical or administrative nature taken for the purpose of making such purchases.

Article 8

The foregoing provisions shall not constitute an obstacle to the right of internees to receive collective relief before their arrival in a place of internment or in the course of their transfer, nor to the possibility of representatives of the Protecting Power, or of the International Committee of the Red Cross or any other humanitarian organization giving assistance to internees and responsible for forwarding such supplies, ensuring the distribution thereof to the recipients by any other means they may deem suitable.

72. PROTOCOL ADDITIONAL TO THE GENEVA CONVENTIONS OF 12 AUGUST 1949, AND RELATING TO THE PROTECTION OF VICTIMS OF INTERNATIONAL ARMED CONFLICTS (PROTOCOL I)

Done at Geneva on 8 June 1977

Entry into force: 7 December 1978

United Nations, *Treaty Series*, vol. 1125, p. 3; Reg. No. 17512

PREAMBLE

The High Contracting Parties,

Proclaiming their earnest wish to see peace prevail among peoples,

Recalling that every State has the duty, in conformity with the Charter of the United Nations, to refrain in its international relations from the threat or use of force against the sovereignty, territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the United Nations,

Believing it necessary nevertheless to reaffirm and develop the provisions protecting the victims of armed conflicts and to supplement measures intended to reinforce their application,

Expressing their conviction that nothing in this Protocol or in the Geneva Conventions of 12 August 1949 can be construed as legitimizing or authorizing any act of aggression or any other use of force inconsistent with the Charter of the United Nations,

Reaffirming further that the provisions of the Geneva Conventions of 12 August 1949 and of this Protocol must be fully applied in all circumstances to all persons who are protected by those instruments, without any adverse distinction based on the nature or origin of the armed conflict or on the causes espoused by or attributed to the Parties to the conflict,

Have agreed on the following:

PART I. GENERAL PROVISIONS

Article 1. General principles and scope of application

1. The High Contracting Parties undertake to respect and to ensure respect for this Protocol in all circumstances.

2. In cases not covered by this Protocol or by other international agreements, civilians and combatants remain under the protection and authority of the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience.

3. This Protocol, which supplements the Geneva Conventions of 12 August 1949 for the protection of war victims, shall apply in the situations referred to in Article 2 common to those Conventions.

4. The situations referred to in the preceding paragraph include armed conflicts in which peoples are fighting against colonial domination and alien occupation and against racist regimes in the exercise of their right of self-determination, as enshrined in the Charter of the United Nations and the Declaration on Principles of International Law concerning Friendly Relations and Co-operation among States in accordance with the Charter of the United Nations.

Article 2. Definitions

For the purposes of this Protocol:

(a) "First Convention", "Second Convention", "Third Convention" and "Fourth Convention" mean, respectively, the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of 12 August 1949; the Geneva Convention for the Amelioration of the Condition of Wounded, Sick and Shipwrecked Members of Armed Forces

at Sea of 12 August 1949; the Geneva Convention relative to the Treatment of Prisoners of War of 12 August 1949; the Geneva Convention relative to the Protection of Civilian Persons in Time of War of 12 August 1949; “the Conventions” means the four Geneva Conventions of 12 August 1949 for the protection of war victims;

(b) “rules of international law applicable in armed conflict” means the rules applicable in armed conflict set forth in international agreements to which the Parties to the conflict are Parties and the generally recognized principles and rules of international law which are applicable to armed conflict;

(c) “Protecting Power” means a neutral or other State not a Party to the conflict which has been designated by a Party to the conflict and accepted by the adverse Party and has agreed to carry out the functions assigned to a Protecting Power under the Conventions and this Protocol;

(d) “substitute” means an organization acting in place of a Protecting Power in accordance with Article 5.

Article 3. Beginning and end of application

Without prejudice to the provisions which are applicable at all times:

(a) the Conventions and this Protocol shall apply from the beginning of any situation referred to in Article 1 of this Protocol;

(b) the application of the Conventions and of this Protocol shall cease, in the territory of Parties to the conflict, on the general close of military operations and, in the case of occupied territories, on the termination of the occupation, except, in either circumstance, for those persons whose final release, repatriation or re-establishment takes place thereafter. These persons shall continue to benefit from the relevant provisions of the Conventions and of this Protocol until their final release, repatriation or re-establishment.

Article 4. Legal status of the Parties to the conflict

The application of the Conventions and of this Protocol, as well as the conclusion of the agreements provided for therein, shall not affect the legal status of the Parties to the conflict. Neither the occupation of a territory nor the application of the Conventions and this Protocol shall affect the legal status of the territory in question.

Article 5. Appointment of Protecting Powers and of their substitute

1. It is the duty of the Parties to a conflict from the beginning of that conflict to secure the supervision and implementation of the Conventions and of this Protocol by the application of the system of Protecting Powers, including *inter alia* the designation and acceptance of those Powers, in accordance with the following paragraphs. Protecting Powers shall have the duty of safeguarding the interests of the Parties to the conflict.

2. From the beginning of a situation referred to in Article 1, each Party to the conflict shall without delay designate a Protecting Power for the purpose of applying the Conventions and this Protocol and shall, likewise without delay and for the same purpose, permit the activities of a Protecting Power which has been accepted by it as such after designation by the adverse Party.

3. If a Protecting Power has not been designated or accepted from the beginning of a situation referred to in Article 1, the International Committee of the Red Cross, without prejudice to the right of any other impartial humanitarian organization to do likewise, shall offer its good offices to the Parties to the conflict with a view to the designation without delay of a Protecting Power to which the Parties to the conflict consent. For that purpose it may, *inter alia*, ask each Party to provide it with a list of at least five States which that Party considers acceptable to act as Protecting Power on its behalf in relation to an adverse Party, and ask each adverse Party to provide a list of at least five States which it would accept as the Protecting Power of the first Party; these lists shall be communicated

to the Committee within two weeks after the receipt of the request; it shall compare them and seek the agreement of any proposed State named on both lists.

4. If, despite the foregoing, there is no Protecting Power, the Parties to the conflict shall accept without delay an offer which may be made by the International Committee of the Red Cross or by any other organization which offers all guarantees of impartiality and efficacy, after due consultations with the said Parties and taking into account the result of these consultations, to act as a substitute. The functioning of such a substitute is subject to the consent of the Parties to the conflict; every effort shall be made by the Parties to the conflict to facilitate the operations of the substitute in the performance of its tasks under the Conventions and this Protocol.

5. In accordance with Article 4, the designation and acceptance of Protecting Powers for the purpose of applying the Conventions and this Protocol shall not affect the legal status of the Parties to the conflict or of any territory, including occupied territory.

6. The maintenance of diplomatic relations between Parties to the conflict or the entrusting of the protection of a Party's interests and those of its nationals to a third State in accordance with the rules of international law relating to diplomatic relations is no obstacle to the designation of Protecting Powers for the purpose of applying the Conventions and this Protocol.

7. Any subsequent mention in this Protocol of a Protecting Power includes also a substitute.

Article 6. Qualified persons

1. The High Contracting Parties shall, also in peacetime, endeavour, with the assistance of the national Red Cross (Red Crescent, Red Lion and Sun) Societies, to train qualified personnel to facilitate the application of the Conventions and of this Protocol, and in particular the activities of the Protecting Powers.

2. The recruitment and training of such personnel are within domestic jurisdiction.

3. The International Committee of the Red Cross shall hold at the disposal of the High Contracting Parties the lists of persons so trained which the High Contracting Parties may have established and may have transmitted to it for that purpose.

4. The conditions governing the employment of such personnel outside the national territory shall, in each case, be the subject of special agreements between the Parties concerned.

Article 7. Meetings

The depositary of this Protocol shall convene a meeting of the High Contracting Parties, at the request of one or more of the said Parties and upon the approval of the majority of the said Parties, to consider general problems concerning the application of the Conventions and of the Protocol.

PART II. WOUNDED, SICK AND SHIPWRECKED

SECTION I. GENERAL PROTECTION

Article 8. Terminology

For the purposes of this Protocol:

(a) "wounded" and "sick" mean persons, whether military or civilian, who, because of trauma, disease or other physical or mental disorder or disability, are in need of medical assistance or care and who refrain from any act of hostility. These terms also cover maternity cases, new-born babies and other persons who may be in need of immediate medical assistance or care, such as the infirm or expectant mothers, and who refrain from any act of hostility;

(b) "shipwrecked" means persons, whether military or civilian, who are in peril at sea or in other waters as a result of misfortune affecting them or the vessel or aircraft carrying them and who refrain from any act of hostility. These persons, provided that they continue to refrain from any act of hostility, shall continue to be considered shipwrecked during their rescue until they acquire another status under the Conventions or this Protocol;

(c) “medical personnel” means those persons assigned, by a Party to the conflict, exclusively to the medical purposes enumerated under sub-paragraph (e) or to the administration of medical units or to the operation or administration of medical transports. Such assignments may be either permanent or temporary. The term includes:

- (i) medical personnel of a Party to the conflict, whether military or civilian, including those described in the First and Second Conventions, and those assigned to civil defence organizations;
- (ii) medical personnel of national Red Cross (Red Crescent, Red Lion and Sun) Societies and other national voluntary aid societies duly recognized and authorized by a Party to the conflict;
- (iii) medical personnel of medical units or medical transports described in Article 9, paragraph 2;

(d) “religious personnel” means military or civilian persons, such as chaplains, who are exclusively engaged in the work of their ministry and attached:

- (i) to the armed forces of a Party to the conflict;
- (ii) to medical units or medical transports of a Party to the conflict;
- (iii) to medical units or medical transports described in Article 9, paragraph 2; or
- (iv) to civil defence organizations of a Party to the conflict.

The attachment of religious personnel may be either permanent or temporary, and the relevant provisions mentioned under sub-paragraph (k) apply to them;

(e) “medical units” means establishments and other units, whether military or civilian, organized for medical purposes, namely the search for, collection, transportation, diagnosis or treatment, including first-aid treatment, of the wounded, sick and shipwrecked, or for the prevention of disease. The term includes, for example, hospitals and other similar units, blood transfusion centres, preventive medicine centres and institutes, medical depots and the medical and pharmaceutical stores of such units. Medical units may be fixed or mobile, permanent or temporary;

(f) “medical transportation” means the conveyance by land, water or air of the wounded, sick, shipwrecked, medical personnel, religious personnel, medical equipment or medical supplies protected by the Conventions and by this Protocol;

(g) “medical transports” means any means of transportation, whether military or civilian, permanent or temporary, assigned exclusively to medical transportation and under the control of a competent authority of a Party to the conflict;

(h) “medical vehicles” means any medical transports by land;

(i) “medical ships and craft” means any medical transports by water;

(j) “medical aircraft” means any medical transports by air;

(k) “permanent medical personnel”, “permanent medical units” and “permanent medical transports” mean those assigned exclusively to medical purposes for an indeterminate period. “Temporary medical personnel”, “temporary medical units” and “temporary medical transports” mean those devoted exclusively to medical purposes for limited periods during the whole of such periods. Unless otherwise specified, the terms “medical personnel”, “medical units” and “medical transports” cover both permanent and temporary categories;

(l) “distinctive emblem” means the distinctive emblem of the red cross, red crescent or red lion and sun on a white ground when used for the protection of medical units and transports, or medical and religious personnel, equipment or supplies;

(m) “distinctive signal” means any signal or message specified for the identification exclusively of medical units or transports in Chapter III of Annex I to this Protocol.

Article 9. Field of application

1. This Part, the provisions of which are intended to ameliorate the condition of the wounded, sick and shipwrecked, shall apply to all those affected by a situation referred to in Article 1, without any adverse distinction founded on race, colour, sex, language, religion or belief, political or other opinion, national or social origin, wealth, birth or other status, or on any other similar criteria.

2. The relevant provisions of Articles 27 and 32 of the First Convention shall apply to permanent medical units and transports (other than hospital ships, to which Article 25 of the Second Convention applies) and their personnel made available to a Party to the conflict for humanitarian purposes:

- (a) by a neutral or other State which is not a Party to that conflict;
- (b) by a recognized and authorized aid society of such a State;
- (c) by an impartial international humanitarian organization.

Article 10. Protection and care

1. All the wounded, sick and shipwrecked, to whichever Party they belong, shall be respected and protected.

2. In all circumstances they shall be treated humanely and shall receive, to the fullest extent practicable and with the least possible delay, the medical care and attention required by their condition. There shall be no distinction among them founded on any grounds other than medical ones.

Article 11. Protection of persons

1. The physical or mental health and integrity of persons who are in the power of the adverse Party or who are interned, detained or otherwise deprived of liberty as a result of a situation referred to in Article 1 shall not be endangered by any unjustified act or omission. Accordingly, it is prohibited to subject the persons described in this Article to any medical procedure which is not indicated by the state of health of the person concerned and which is not consistent with generally accepted medical standards which would be applied under similar medical circumstances to persons who are nationals of the Party conducting the procedure and who are in no way deprived of liberty.

2. It is, in particular, prohibited to carry out on such persons, even with their consent:

- (a) physical mutilations;
- (b) medical or scientific experiments;
- (c) removal of tissue or organs for transplantation,

except where these acts are justified in conformity with the conditions provided for in paragraph 1.

3. Exceptions to the prohibition in paragraph 2 (c) may be made only in the case of donations of blood for transfusion or of skin for grafting, provided that they are given voluntarily and without any coercion or inducement, and then only for therapeutic purposes, under conditions consistent with generally accepted medical standards and controls designed for the benefit of both the donor and the recipient.

4. Any wilful act or omission which seriously endangers the physical or mental health or integrity of any person who is in the power of a Party other than the one on which he depends and which either violates any of the prohibitions in paragraphs 1 and 2 or fails to comply with the requirements of paragraph 3 shall be a grave breach of this Protocol.

5. The persons described in paragraph 1 have the right to refuse any surgical operation. In case of refusal, medical personnel shall endeavour to obtain a written statement to that effect, signed or acknowledged by the patient.

6. Each Party to the conflict shall keep a medical record for every donation of blood for transfusion or skin for grafting by persons referred to in paragraph 1, if that donation is made under the responsibility of that Party. In addition, each Party to the conflict shall endeavour to keep a record

of all medical procedures undertaken with respect to any person who is interned, detained or otherwise deprived of liberty as a result of a situation referred to in Article 1. These records shall be available at all times for inspection by the Protecting Power.

Article 12. Protection of medical units

1. Medical units shall be respected and protected at all times and shall not be the object of attack.

2. Paragraph 1 shall apply to civilian medical units, provided that they:

- (a) belong to one of the Parties to the conflict;
- (b) are recognized and authorized by the competent authority of one of the Parties to the conflict; or
- (c) are authorized in conformity with Article 9, paragraph 2, of this Protocol or Article 27 of the First Convention.

3. The Parties to the conflict are invited to notify each other of the location of their medical units. The absence of such notification shall not exempt any of the Parties from the obligation to comply with the provisions of paragraph 1.

4. Under no circumstances shall medical units be used in an attempt to shield military objectives from attack. Whenever possible, the Parties to the conflict shall ensure that medical units are so sited that attacks against military objectives do not imperil their safety.

Article 13. Discontinuance of protection of civilian medical units

1. The protection to which civilian medical units are entitled shall not cease unless they are used to commit, outside their humanitarian function, acts harmful to the enemy. Protection may, however, cease only after a warning has been given setting, whenever appropriate, a reasonable time-limit, and after such warning has remained unheeded.

2. The following shall not be considered as acts harmful to the enemy:

- (a) that the personnel of the unit are equipped with light individual weapons for their own defence or for that of the wounded and sick in their charge;
- (b) that the unit is guarded by a picket or by sentries or by an escort;
- (c) that small arms and ammunition taken from the wounded and sick, and not yet handed to the proper service, are found in the units;
- (d) that members of the armed forces or other combatants are in the unit for medical reasons.

Article 14. Limitations on requisition of civilian medical units

1. The Occupying Power has the duty to ensure that the medical needs of the civilian population in occupied territory continue to be satisfied.

2. The occupying Power shall not, therefore, requisition civilian medical units, their equipment, their *matériel* or the services of their personnel, so long as these resources are necessary for the provision of adequate medical services for the civilian population and for the continuing medical care of any wounded and sick already under treatment.

3. Provided that the general rule in paragraph 2 continues to be observed, the occupying Power may requisition the said resources, subject to the following particular conditions:

- (a) that the resources are necessary for the adequate and immediate medical treatment of the wounded and sick members of the armed forces of the Occupying Power or of prisoners of war;
- (b) that the requisition continues only while such necessity exists; and
- (c) that immediate arrangements are made to ensure that the medical needs of the civilian population, as well as those of any wounded and sick under treatment who are affected by the requisition, continue to be satisfied.

Article 15. Protection of civilian medical and religious personnel

1. Civilian medical personnel shall be respected and protected.
2. If needed, all available help shall be afforded to civilian medical personnel in an area where civilian medical services are disrupted by reason of combat activity.
3. The Occupying Power shall afford civilian medical personnel in occupied territories every assistance to enable them to perform, to the best of their ability, their humanitarian functions. The Occupying Power may not require that, in the performance of those functions, such personnel shall give priority to the treatment of any person except on medical grounds. They shall not be compelled to carry out tasks which are not compatible with their humanitarian mission.
4. Civilian medical personnel shall have access to any place where their services are essential, subject to such supervisory and safety measures as the relevant Party to the conflict may deem necessary.
5. Civilian religious personnel shall be respected and protected. The provisions of the Conventions and of this Protocol concerning the protection and identification of medical personnel shall apply equally to such persons.

Article 16. General protection of medical duties

1. Under no circumstances shall any person be punished for carrying out medical activities compatible with medical ethics, regardless of the person benefiting therefrom.
2. Persons engaged in medical activities shall not be compelled to perform acts or to carry out work contrary to the rules of medical ethics or to other medical rules designed for the benefit of the wounded and sick or to the provisions of the Conventions or of this Protocol, or to refrain from performing acts or from carrying out work required by those rules and provisions.
3. No person engaged in medical activities shall be compelled to give to anyone belonging either to an adverse Party, or to his own Party except as required by the law of the latter Party, any information concerning the wounded and sick who are, or who have been, under his care, if such information would, in his opinion, prove harmful to the patients concerned or to their families. Regulations for the compulsory notification of communicable diseases shall, however, be respected.

Article 17. Role of the civilian population and of aid societies

1. The civilian population shall respect the wounded, sick and shipwrecked, even if they belong to the adverse Party, and shall commit no act of violence against them. The civilian population and aid societies, such as national Red Cross (Red Crescent, Red Lion and Sun) Societies, shall be permitted, even on their own initiative, to collect and care for the wounded, sick and shipwrecked, even in invaded or occupied areas. No one shall be harmed, prosecuted, convicted or punished for such humanitarian acts.
2. The Parties to the conflict may appeal to the civilian population and the aid societies referred to in paragraph 1 to collect and care for the wounded, sick and shipwrecked, and to search for the dead and report their location; they shall grant both protection and the necessary facilities to those who respond to this appeal. If the adverse Party gains or regains control of the area, that Party also shall afford the same protection and facilities for so long as they are needed.

Article 18. Identification

1. Each Party to the conflict shall endeavour to ensure that medical and religious personnel and medical units and transports are identifiable.
2. Each Party to the conflict shall also endeavour to adopt and to implement methods and procedures which will make it possible to recognize medical units and transports which use the distinctive emblem and distinctive signals.

3. In occupied territory and in areas where fighting is taking place or is likely to take place, civilian medical personnel and civilian religious personnel should be recognizable by the distinctive emblem and an identity card certifying their status.

4. With the consent of the competent authority, medical units and transports shall be marked by the distinctive emblem. The ships and craft referred to in Article 22 of this Protocol shall be marked in accordance with the provisions of the Second Convention.

5. In addition to the distinctive emblem, a Party to the conflict may, as provided in Chapter III of Annex I to this Protocol, authorize the use of distinctive signals to identify medical units and transports. Exceptionally, in the special cases covered in that Chapter, medical transports may use distinctive signals without displaying the distinctive emblem.

6. The application of the provisions of paragraphs 1 to 5 of this Article is governed by Chapters I to III of Annex I to this Protocol. Signals designated in Chapter III of the Annex for the exclusive use of medical units and transports shall not, except as provided therein, be used for any purpose other than to identify the medical units and transports specified in that Chapter.

7. This Article does not authorize any wider use of the distinctive emblem in peacetime than is prescribed in Article 44 of the First Convention.

8. The provisions of the Conventions and of this Protocol relating to supervision of the use of the distinctive emblem and to the prevention and repression of any misuse thereof shall be applicable to distinctive signals.

Article 19. Neutral and other States not Parties to the conflict

Neutral and other States not Parties to the conflict shall apply the relevant provisions of this Protocol to persons protected by this Part who may be received or interned within their territory, and to any dead of the Parties to that conflict whom they may find.

Article 20. Prohibition of reprisals

Reprisals against the persons and objects protected by this Part are prohibited.

SECTION II. MEDICAL TRANSPORTATION

Article 21. Medical vehicles

Medical vehicles shall be respected and protected in the same way as mobile medical units under the Conventions and this Protocol.

Article 22. Hospital ships and coastal rescue craft

1. The provisions of the Conventions relating to:

- (a) vessels described in Articles 22, 24, 25 and 27 of the Second Convention,
- (b) their lifeboats and small craft,
- (c) their personnel and crews, and
- (d) the wounded, sick and shipwrecked on board,

shall also apply where these vessels carry civilian wounded, sick and shipwrecked who do not belong to any of the categories mentioned in Article 13 of the Second Convention. Such civilians shall not, however, be subject to surrender to any Party which is not their own, or to capture at sea. If they find themselves in the power of a Party to the conflict other than their own, they shall be covered by the Fourth Convention and by this Protocol.

2. The protection provided by the Conventions to vessels described in Article 25 of the Second Convention shall extend to hospital ships made available for humanitarian purposes to a Party to the conflict:

- (a) by a neutral or other State which is not a Party to that conflict; or

(b) by an impartial international humanitarian organization, provided that, in either case, the requirements set out in that Article are complied with.

3. Small craft described in Article 27 of the Second Convention shall be protected even if the notification envisaged by that Article has not been made. The Parties to the conflict are, nevertheless, invited to inform each other of any details of such craft which will facilitate their identification and recognition.

Article 23. Other medical ships and craft

1. Medical ships and craft other than those referred to in Article 22 of this Protocol and Article 38 of the Second Convention shall, whether at sea or in other waters, be respected and protected in the same way as mobile medical units under the Conventions and this Protocol. Since this protection can only be effective if they can be identified and recognized as medical ships or craft, such vessels should be marked with the distinctive emblem and as far as possible comply with the second paragraph of Article 43 of the Second Convention.

2. The ships and craft referred to in paragraph 1 shall remain subject to the laws of war. Any warship on the surface able immediately to enforce its command may order them to stop, order them off, or make them take a certain course, and they shall obey every such command. Such ships and craft may not in any other way be diverted from their medical mission so long as they are needed for the wounded, sick and shipwrecked on board.

3. The protection provided in paragraph 1 shall cease only under the conditions set out in Articles 34 and 35 of the Second Convention. A clear refusal to obey a command given in accordance with paragraph 2 shall be an act harmful to the enemy under Article 34 of the Second Convention.

4. A Party to the conflict may notify any adverse Party as far in advance of sailing as possible of the name, description, expected time of sailing, course and estimated speed of the medical ship or craft, particularly in the case of ships of over 2,000 gross tons, and may provide any other information which would facilitate identification and recognition. The adverse Party shall acknowledge receipt of such information.

5. The provisions of Article 37 of the Second Convention shall apply to medical and religious personnel in such ships and craft.

6. The provisions of the Second Convention shall apply to the wounded, sick and shipwrecked belonging to the categories referred to in Article 13 of the Second Convention and in Article 44 of this Protocol who may be on board such medical ships and craft. Wounded, sick and shipwrecked civilians who do not belong to any of the categories mentioned in Article 13 of the Second Convention shall not be subject, at sea, either to surrender to any Party which is not their own, or to removal from such ships or craft; if they find themselves in the power of a Party to the conflict other than their own, they shall be covered by the Fourth Convention and by this Protocol.

Article 24. Protection of medical aircraft

Medical aircraft shall be respected and protected, subject to the provisions of this Part.

Article 25. Medical aircraft in areas not controlled by an adverse Party

In and over land areas physically controlled by friendly forces, or in and over sea areas not physically controlled by an adverse Party, the respect and protection of medical aircraft of a Party to the conflict is not dependent on any agreement with an adverse Party. For greater safety, however, a Party to the conflict operating its medical aircraft in these areas may notify the adverse Party, as provided in Article 29, in particular when such aircraft are making flights bringing them within range of surface-to-air weapons systems of the adverse Party.

Article 26. Medical aircraft in contact or similar zones

1. In and over those parts of the contact zone which are physically controlled by friendly forces and in and over those areas the physical control of which is not clearly established, protection for medical aircraft can be fully effective only by prior agreement between the competent military authorities of the Parties to the conflict, as provided for in Article 29. Although, in the absence of such an agreement, medical aircraft operate at their own risk, they shall nevertheless be respected after they have been recognized as such.

2. "Contact zone" means any area on land where the forward elements of opposing forces are in contact with each other, especially where they are exposed to direct fire from the ground.

Article 27. Medical aircraft in areas controlled by an adverse Party

1. The medical aircraft of a Party to the conflict shall continue to be protected while flying over land or sea areas physically controlled by an adverse Party, provided that prior agreement to such flights has been obtained from the competent authority of that adverse Party.

2. A medical aircraft which flies over an area physically controlled by an adverse Party without, or in deviation from the terms of, an agreement provided for in paragraph 1, either through navigational error or because of an emergency affecting the safety of the flight, shall make every effort to identify itself and to inform the adverse Party of the circumstances. As soon as such medical aircraft has been recognized by the adverse Party, that Party shall make all reasonable efforts to give the order to land or to alight on water, referred to in Article 30, paragraph 1, or to take other measures to safeguard its own interests, and, in either case, to allow the aircraft time for compliance, before resorting to an attack against the aircraft.

Article 28. Restrictions on operations of medical aircraft

1. The Parties to the conflict are prohibited from using their medical aircraft to attempt to acquire any military advantage over an adverse Party. The presence of medical aircraft shall not be used in an attempt to render military objectives immune from attack.

2. Medical aircraft shall not be used to collect or transmit intelligence data and shall not carry any equipment intended for such purposes. They are prohibited from carrying any persons or cargo not included within the definition in Article 8, sub-paragraph (f). The carrying on board of the personal effects of the occupants or of equipment intended solely to facilitate navigation, communication, or identification shall not be considered as prohibited.

3. Medical aircraft shall not carry any armament except small arms and ammunition taken from the wounded, sick and shipwrecked on board and not yet handed to the proper service, and such light individual weapons as may be necessary to enable the medical personnel on board to defend themselves and the wounded, sick and shipwrecked in their charge.

4. While carrying out the flights referred to in Articles 26 and 27, medical aircraft shall not, except by prior agreement with the adverse Party, be used to search for the wounded, sick and shipwrecked.

Article 29. Notifications and agreements concerning medical aircraft

1. Notifications under Article 25, or requests for prior agreement under Articles 26, 27, 28 (paragraph 4), or 31 shall state the proposed number of medical aircraft, their flight plans and means of identification, and shall be understood to mean that every flight will be carried out in compliance with Article 28.

2. A Party which receives a notification given under Article 25 shall at once acknowledge receipt of such notification.

3. A Party which receives a request for prior agreement under Articles 26, 27, 28 (paragraph 4), or 31 shall, as rapidly as possible, notify the requesting Party:

- (a) that the request is agreed to;

(b) that the request is denied; or

(c) of reasonable alternative proposals to the request. It may also propose a prohibition or restriction of other flights in the area during the time involved. If the Party which submitted the request accepts the alternative proposals, it shall notify the other Party of such acceptance.

4. The Parties shall take the necessary measures to ensure that notifications and agreements can be made rapidly.

5. The Parties shall also take the necessary measures to disseminate rapidly the substance of any such notifications and agreements to the military units concerned and shall instruct those units regarding the means of identification that will be used by the medical aircraft in question.

Article 30. Landing and inspection of medical aircraft

1. Medical aircraft flying over areas which are physically controlled by an adverse Party, or over areas the physical control of which is not clearly established, may be ordered to land or to alight on water, as appropriate, to permit inspection in accordance with the following paragraphs. Medical aircraft shall obey any such order.

2. If such an aircraft lands or alights on water, whether ordered to do so or for other reasons, it may be subjected to inspection solely to determine the matters referred to in paragraphs 3 and 4. Any such inspection shall be commenced without delay and shall be conducted expeditiously. The inspecting Party shall not require the wounded and sick to be removed from the aircraft unless their removal is essential for the inspection. That Party shall in any event ensure that the condition of the wounded and sick is not adversely affected by the inspection or by the removal.

3. If the inspection discloses that the aircraft:

(a) is a medical aircraft within the meaning of Article 8, sub-paragraph (j),

(b) is not in violation of the conditions prescribed in Article 28, and

(c) has not flown without or in breach of a prior agreement where such agreement is required, the aircraft and those of its occupants who belong to the adverse Party or to a neutral or other State not a Party to the conflict shall be authorized to continue the flight without delay.

4. If the inspection discloses that the aircraft:

(a) is not a medical aircraft within the meaning of Article 8, sub-paragraph (j),

(b) is in violation of the conditions prescribed in Article 28, or

(c) has flown without or in breach of a prior agreement where such agreement is required, the aircraft may be seized. Its occupants shall be treated in conformity with the relevant provisions of the Conventions and of this Protocol. Any aircraft seized which had been assigned as a permanent medical aircraft may be used thereafter only as a medical aircraft.

Article 31. Neutral or other States not Parties to the conflict

1. Except by prior agreement, medical aircraft shall not fly over or land in the territory of a neutral or other State not a Party to the conflict. However, with such an agreement, they shall be respected throughout their flight and also for the duration of any calls in the territory. Nevertheless they shall obey any summons to land or to alight on water, as appropriate.

2. Should a medical aircraft, in the absence of an agreement or in deviation from the terms of an agreement, fly over the territory of a neutral or other State not a Party to the conflict, either through navigational error or because of an emergency affecting the safety of the flight, it shall make every effort to give notice of the flight and to identify itself. As soon as such medical aircraft is recognized, that State shall make all reasonable efforts to give the order to land or to alight on water referred to in Article 30, paragraph 1, or to take other measures to safeguard its own interests, and, in either case, to allow the aircraft time for compliance, before resorting to an attack against the aircraft.

3. If a medical aircraft, either by agreement or in the circumstances mentioned in paragraph 2, lands or alights on water in the territory of a neutral or other State not Party to the conflict, whether ordered to do so or for other reasons, the aircraft shall be subject to inspection for the purposes of determining whether it is in fact a medical aircraft. The inspection shall be commenced without delay and shall be conducted expeditiously. The inspecting Party shall not require the wounded and sick of the Party operating the aircraft to be removed from it unless their removal is essential for the inspection. The inspecting Party shall in any event ensure that the condition of the wounded and sick is not adversely affected by the inspection or the removal. If the inspection discloses that the aircraft is in fact a medical aircraft, the aircraft with its occupants, other than those who must be detained in accordance with the rules of international law applicable in armed conflict, shall be allowed to resume its flight, and reasonable facilities shall be given for the continuation of the flight. If the inspection discloses that the aircraft is not a medical aircraft, it shall be seized and the occupants treated in accordance with paragraph 4.

4. The wounded, sick and shipwrecked disembarked, otherwise than temporarily, from a medical aircraft with the consent of the local authorities in the territory of a neutral or other State not a Party to the conflict shall, unless agreed otherwise between that State and the Parties to the conflict, be detained by that State where so required by the rules of international law applicable in armed conflict, in such a manner that they cannot again take part in the hostilities. The cost of hospital treatment and internment shall be borne by the State to which those persons belong.

5. Neutral or other States not Parties to the conflict shall apply any conditions and restrictions on the passage of medical aircraft over, or on the landing of medical aircraft in, their territory equally to all Parties to the conflict.

SECTION III. MISSING AND DEAD PERSONS

Article 32. General principle

In the implementation of this Section, the activities of the High Contracting Parties, of the Parties to the conflict and of the international humanitarian organizations mentioned in the Conventions and in this Protocol shall be prompted mainly by the right of families to know the fate of their relatives.

Article 33. Missing persons

1. As soon as circumstances permit, and at the latest from the end of active hostilities, each Party to the conflict shall search for the persons who have been reported missing by an adverse Party. Such adverse Party shall transmit all relevant information concerning such persons in order to facilitate such searches.

2. In order to facilitate the gathering of information pursuant to the preceding paragraph, each Party to the conflict shall, with respect to persons who would not receive more favourable consideration under the Conventions and this Protocol:

(a) record the information specified in Article 138 of the Fourth Convention in respect of such persons who have been detained, imprisoned or otherwise held in captivity for more than two weeks as a result of hostilities or occupation, or who have died during any period of detention;

(b) to the fullest extent possible, facilitate and, if need be, carry out the search for and the recording of information concerning such persons if they have died in other circumstances as a result of hostilities or occupation.

3. Information concerning persons reported missing pursuant to paragraph 1 and requests for such information shall be transmitted either directly or through the Protecting Power or the Central Tracing Agency of the International Committee of the Red Cross or national Red Cross (Red Crescent, Red Lion and Sun) Societies. Where the information is not transmitted through the International Committee of the Red Cross and its Central Tracing Agency, each Party to the conflict shall ensure that such information is also supplied to the Central Tracing Agency.

4. The Parties to the conflict shall endeavour to agree on arrangements for teams to search for, identify and recover the dead from battlefield areas, including arrangements, if appropriate, for such teams to be accompanied by personnel of the adverse Party while carrying out these missions in areas controlled by the adverse Party. Personnel of such teams shall be respected and protected while exclusively carrying out these duties.

Article 34. Remains of deceased

1. The remains of persons who have died for reasons related to occupation or in detention resulting from occupation or hostilities and those of persons not nationals of the country in which they have died as a result of hostilities shall be respected, and the gravesites of all such persons shall be respected, maintained and marked as provided for in Article 130 of the Fourth Convention, where their remains or gravesites would not receive more favourable consideration under the Conventions and this Protocol.

2. As soon as circumstances and the relations between the adverse Parties permit, the High Contracting Parties in whose territories graves and, as the case may be, other locations of the remains of persons who have died as a result of hostilities or during occupation or in detention are situated, shall conclude agreements in order:

(a) to facilitate access to the gravesites by relatives of the deceased and by representatives of official graves registration services and to regulate the practical arrangements for such access;

(b) to protect and maintain such gravesites permanently;

(c) to facilitate the return of the remains of the deceased and of personal effects to the home country upon its request or, unless that country objects, upon the request of the next of kin.

3. In the absence of the agreements provided for in paragraph 2 (b) or (c) and if the home country of such deceased is not willing to arrange at its expense for the maintenance of such gravesites, the High Contracting Party in whose territory the gravesites are situated may offer to facilitate the return of the remains of the deceased to the home country. Where such an offer has not been accepted the High Contracting Party may, after the expiry of five years from the date of the offer and upon due notice to the home country, adopt the arrangements laid down in its own laws relating to cemeteries and graves.

4. A High Contracting Party in whose territory the gravesites referred to in this Article are situated shall be permitted to exhume the remains only:

(a) in accordance with paragraphs 2 (c) and 3, or

(b) where exhumation is a matter of overriding public necessity, including cases of medical and investigative necessity, in which case the High Contracting Party shall at all times respect the remains, and shall give notice to the home country of its intention to exhume the remains together with details of the intended place of reinterment.

PART III. METHODS AND MEANS OF WARFARE COMBATANT AND PRISONER-OF-WAR STATUS

SECTION I. METHODS AND MEANS OF WARFARE

Article 35. Basic rules

1. In any armed conflict, the right of the Parties to the conflict to choose methods or means of warfare is not unlimited.

2. It is prohibited to employ weapons, projectiles and material and methods of warfare of a nature to cause superfluous injury or unnecessary suffering.

3. It is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment.

Article 36. New weapons

In the study, development, acquisition or adoption of a new weapon, means or method of warfare, a High Contracting Party is under an obligation to determine whether its employment would, in some or all circumstances, be prohibited by this Protocol or by any other rule of international law applicable to the High Contracting Party.

Article 37. Prohibition of perfidy

1. It is prohibited to kill, injure or capture an adversary by resort to perfidy. Acts inviting the confidence of an adversary to lead him to believe that he is entitled to, or is obliged to accord, protection under the rules of international law applicable in armed conflict, with intent to betray that confidence, shall constitute perfidy. The following acts are examples of perfidy:

- (a) the feigning of an intent to negotiate under a flag of truce or of a surrender;
- (b) the feigning of an incapacitation by wounds or sickness;
- (c) the feigning of civilian, non-combatant status; and
- (d) the feigning of protected status by the use of signs, emblems or uniforms of the United Nations or of neutral or other States not Parties to the conflict.

2. Ruses of war are not prohibited. Such ruses are acts which are intended to mislead an adversary or to induce him to act recklessly but which infringe no rule of international law applicable in armed conflict and which are not perfidious because they do not invite the confidence of an adversary with respect to protection under that law. The following are examples of such ruses: the use of camouflage, decoys, mock operations and misinformation.

Article 38. Recognized emblems

1. It is prohibited to make improper use of the distinctive emblem of the red cross, red crescent or red lion and sun or of other emblems, signs or signals provided for by the Conventions or by this Protocol. It is also prohibited to misuse deliberately in an armed conflict other internationally recognized protective emblems, signs or signals, including the flag of truce, and the protective emblem of cultural property.

2. It is prohibited to make use of the distinctive emblem of the United Nations, except as authorized by that Organization.

Article 39. Emblems of nationality

1. It is prohibited to make use in an armed conflict of the flags or military emblems, insignia or uniforms of neutral or other States not Parties to the conflict.

2. It is prohibited to make use of the flags or military emblems, insignia or uniforms of adverse Parties while engaging in attacks or in order to shield, favour, protect or impede military operations.

3. Nothing in this Article or in Article 37, paragraph 1 (d), shall affect the existing generally recognized rules of international law applicable to espionage or to the use of flags in the conduct of armed conflict at sea.

Article 40. Quarter

It is prohibited to order that there shall be no survivors, to threaten an adversary therewith or to conduct hostilities on this basis.

Article 41. Safeguard of an enemy *hors de combat*

1. A person who is recognized or who, in the circumstances, should be recognized to be *hors de combat* shall not be made the object of attack.

2. A person is *hors de combat* if:

(a) he is in the power of an adverse Party;

(b) he clearly expresses an intention to surrender; or

(c) he has been rendered unconscious or is otherwise incapacitated by wounds or sickness, and therefore is incapable of defending himself;

provided that in any of these cases he abstains from any hostile act and does not attempt to escape.

3. When persons entitled to protection as prisoners of war have fallen into the power of an adverse Party under unusual conditions of combat which prevent their evacuation as provided for in Part III, Section I, of the Third Convention, they shall be released and all feasible precautions shall be taken to ensure their safety.

Article 42. Occupants of aircraft

1. No person parachuting from an aircraft in distress shall be made the object of attack during his descent.

2. Upon reaching the ground in territory controlled by an adverse Party, a person who has parachuted from an aircraft in distress shall be given an opportunity to surrender before being made the object of attack, unless it is apparent that he is engaging in a hostile act.

3. Airborne troops are not protected by this Article.

SECTION II. COMBATANT AND PRISONER-OF-WAR STATUS

Article 43. Armed forces

1. The armed forces of a Party to a conflict consist of all organized armed forces, groups and units which are under a command responsible to that Party for the conduct of its subordinates, even if that Party is represented by a government or an authority not recognized by an adverse Party. Such armed forces shall be subject to an internal disciplinary system which, *inter alia*, shall enforce compliance with the rules of international law applicable in armed conflict.

2. Members of the armed forces of a Party to a conflict (other than medical personnel and chaplains covered by Article 33 of the Third Convention) are combatants, that is to say, they have the right to participate directly in hostilities.

3. Whenever a Party to a conflict incorporates a paramilitary or armed law enforcement agency into its armed forces it shall so notify the other Parties to the conflict.

Article 44. Combatants and prisoners of war

1. Any combatant, as defined in Article 43, who falls into the power of an adverse Party shall be a prisoner of war.

2. While all combatants are obliged to comply with the rules of international law applicable in armed conflict, violations of these rules shall not deprive a combatant of his right to be a combatant or, if he falls into the power of an adverse Party, of his right to be a prisoner of war, except as provided in paragraphs 3 and 4.

3. In order to promote the protection of the civilian population from the effects of hostilities, combatants are obliged to distinguish themselves from the civilian population while they are engaged in an attack or in a military operation preparatory to an attack. Recognizing, however, that there are situations in armed conflicts where, owing to the nature of the hostilities an armed combatant cannot so distinguish himself, he shall retain his status as a combatant, provided that, in such situations, he carries his arms openly:

- (a) during each military engagement, and
- (b) during such time as he is visible to the adversary while he is engaged in a military deployment preceding the launching of an attack in which he is to participate.

Acts which comply with the requirements of this paragraph shall not be considered as perfidious within the meaning of Article 37, paragraph 1 (c).

4. A combatant who falls into the power of an adverse Party while failing to meet the requirements set forth in the second sentence of paragraph 3 shall forfeit his right to be a prisoner of war, but he shall, nevertheless, be given protections equivalent in all respects to those accorded to prisoners of war by the Third Convention and by this Protocol. This protection includes protections equivalent to those accorded to prisoners of war by the Third Convention in the case where such a person is tried and punished for any offences he has committed.

5. Any combatant who falls into the power of an adverse Party while not engaged in an attack or in a military operation preparatory to an attack shall not forfeit his rights to be a combatant and a prisoner of war by virtue of his prior activities.

6. This Article is without prejudice to the right of any person to be a prisoner of war pursuant to Article 4 of the Third Convention.

7. This Article is not intended to change the generally accepted practice of States with respect to the wearing of the uniform by combatants assigned to the regular, uniformed armed units of a Party to the conflict.

8. In addition to the categories of persons mentioned in Article 13 of the First and Second Conventions, all members of the armed forces of a Party to the conflict, as defined in Article 43 of this Protocol, shall be entitled to protection under those Conventions if they are wounded or sick or, in the case of the Second Convention, shipwrecked at sea or in other waters.

Article 45. Protection of persons who have taken part in hostilities

1. A person who takes part in hostilities and falls into the power of an adverse Party shall be presumed to be a prisoner of war, and therefore shall be protected by the Third Convention, if he claims the status of prisoner of war, or if he appears to be entitled to such status, or if the Party on which he depends claims such status on his behalf by notification to the detaining Power or to the Protecting Power. Should any doubt arise as to whether any such person is entitled to the status of prisoner of war, he shall continue to have such status and, therefore, to be protected by the Third Convention and this Protocol until such time as his status has been determined by a competent tribunal.

2. If a person who has fallen into the power of an adverse Party is not held as a prisoner of war and is to be tried by that Party for an offence arising out of the hostilities, he shall have the right to assert his entitlement to prisoner-of-war status before a judicial tribunal and to have that question adjudicated. Whenever possible under the applicable procedure, this adjudication shall occur before the trial for the offence. The representatives of the Protecting Power shall be entitled to attend the proceedings in which that question is adjudicated, unless, exceptionally, the proceedings are held *in camera* in the interest of State security. In such a case the detaining Power shall advise the Protecting Power accordingly.

3. Any person who has taken part in hostilities, who is not entitled to prisoner-of-war status and who does not benefit from more favourable treatment in accordance with the Fourth Convention shall have the right at all times to the protection of Article 75 of this Protocol. In occupied territory, any such person, unless he is held as a spy, shall also be entitled, notwithstanding Article 5 of the Fourth Convention, to his rights of communication under that Convention.

Article 46. Spies

1. Notwithstanding any other provision of the Conventions or of this Protocol, any member of the armed forces of a Party to the conflict who falls into the power of an adverse Party while engaging in espionage shall not have the right to the status of prisoner of war and may be treated as a spy.

2. A member of the armed forces of a Party to the conflict who, on behalf of that Party and in territory controlled by an adverse Party, gathers or attempts to gather information shall not be considered as engaging in espionage if, while so acting, he is in the uniform of his armed forces.

3. A member of the armed forces of a Party to the conflict who is a resident of territory occupied by an adverse Party and who, on behalf of the Party on which he depends, gathers or attempts to gather information of military value within that territory shall not be considered as engaging in espionage unless he does so through an act of false pretences or deliberately in a clandestine manner. Moreover, such a resident shall not lose his right to the status of prisoner of war and may not be treated as a spy unless he is captured while engaging in espionage.

4. A member of the armed forces of a Party to the conflict who is not a resident of territory occupied by an adverse Party and who has engaged in espionage in that territory shall not lose his right to the status of prisoner of war and may not be treated as a spy unless he is captured before he has rejoined the armed forces to which he belongs.

Article 47. Mercenaries

1. A mercenary shall not have the right to be a combatant or a prisoner of war.

2. A mercenary is any person who:

- (a) is specially recruited locally or abroad in order to fight in an armed conflict;
- (b) does, in fact, take a direct part in the hostilities;
- (c) is motivated to take part in the hostilities essentially by the desire for private gain and, in fact, is promised, by or on behalf of a Party to the conflict, material compensation substantially in excess of that promised or paid to combatants of similar ranks and functions in the armed forces of that Party;
- (d) is neither a national of a Party to the conflict nor a resident of territory controlled by a Party to the conflict;
- (e) is not a member of the armed forces of a Party to the conflict; and
- (f) has not been sent by a State which is not a Party to the conflict on official duty as a member of its armed forces.

PART IV. CIVILIAN POPULATION

SECTION I. GENERAL PROTECTION AGAINST EFFECTS OF HOSTILITIES

CHAPTER I. BASIC RULE AND FIELD OF APPLICATION

Article 48. Basic rule

In order to ensure respect for and protection of the civilian population and civilian objects, the Parties to the conflict shall at all times distinguish between the civilian population and combatants and between civilian objects and military objectives and accordingly shall direct their operations only against military objectives.

Article 49. Definition of attacks and scope of application

1. "Attacks" means acts of violence against the adversary, whether in offence or in defence.
2. The provisions of this Protocol with respect to attacks apply to all attacks in whatever territory conducted, including the national territory belonging to a Party to the conflict but under the control of an adverse Party.
3. The provisions of this Section apply to any land, air or sea warfare which may affect the civilian population, individual civilians or civilian objects on land. They further apply to all attacks from the sea or from the air against objectives on land but do not otherwise affect the rules of international law applicable in armed conflict at sea or in the air.

4. The provisions of this Section are additional to the rules concerning humanitarian protection contained in the Fourth Convention, particularly in Part II thereof, and in other international agreements binding upon the High Contracting Parties, as well as to other rules of international law relating to the protection of civilians and civilian objects on land, at sea or in the air against the effects of hostilities.

CHAPTER II. CIVILIANS AND CIVILIAN POPULATION

Article 50. Definition of civilians and civilian population

1. A civilian is any person who does not belong to one of the categories of persons referred to in Article 4 A 1), 2), 3) and 6) of the Third Convention and in Article 43 of this Protocol. In case of doubt whether a person is a civilian, that person shall be considered to be a civilian.

2. The civilian population comprises all persons who are civilians.

3. The presence within the civilian population of individuals who do not come within the definition of civilians does not deprive the population of its civilian character.

Article 51. Protection of the civilian population

1. The civilian population and individual civilians shall enjoy general protection against dangers arising from military operations. To give effect to this protection, the following rules, which are additional to other applicable rules of international law, shall be observed in all circumstances.

2. The civilian population as such, as well as individual civilians, shall not be the object of attack. Acts or threats of violence the primary purpose of which is to spread terror among the civilian population are prohibited.

3. Civilians shall enjoy the protection afforded by this Section, unless and for such time as they take a direct part in hostilities.

4. Indiscriminate attacks are prohibited. Indiscriminate attacks are:

- (a) those which are not directed at a specific military objective;
- (b) those which employ a method or means of combat which cannot be directed at a specific military objective; or
- (c) those which employ a method or means of combat the effects of which cannot be limited as required by this Protocol;

and consequently, in each such case, are of a nature to strike military objectives and civilians or civilian objects without distinction.

5. Among others, the following types of attacks are to be considered as indiscriminate:

- (a) an attack by bombardment by any methods or means which treats as a single military objective a number of clearly separated and distinct military objectives located in a city, town, village or other area containing a similar concentration of civilians or civilian objects; and
- (b) an attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.

6. Attacks against the civilian population or civilians by way of reprisals are prohibited.

7. The presence or movements of the civilian population or individual civilians shall not be used to render certain points or areas immune from military operations, in particular in attempts to shield military objectives from attacks or to shield, favour or impede military operations. The Parties to the conflict shall not direct the movement of the civilian population or individual civilians in order to attempt to shield military objectives from attacks or to shield military operations.

8. Any violation of these prohibitions shall not release the Parties to the conflict from their legal obligations with respect to the civilian population and civilians, including the obligation to take the precautionary measures provided for in Article 57.

CHAPTER III. CIVILIAN OBJECTS

Article 52. General protection of civilian objects

1. Civilian objects shall not be the object of attack or of reprisals. Civilian objects are all objects which are not military objectives as defined in paragraph 2.

2. Attacks shall be limited strictly to military objectives. In so far as objects are concerned, military objectives are limited to those objects which by their nature, location, purpose or use make an effective contribution to military action and whose total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.

3. In case of doubt whether an object which is normally dedicated to civilian purposes, such as a place of worship, a house or other dwelling or a school, is being used to make an effective contribution to military action, it shall be presumed not to be so used.

Article 53. Protection of cultural objects and of places of worship

Without prejudice to the provisions of the Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict of 14 May 1954, and of other relevant international instruments, it is prohibited:

- (a) to commit any acts of hostility directed against the historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples;
- (b) to use such objects in support of the military effort;
- (c) to make such objects the object of reprisals.

Article 54. Protection of objects indispensable to the survival of the civilian population

1. Starvation of civilians as a method of warfare is prohibited.

2. It is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works, for the specific purpose of denying them for their sustenance value to the civilian population or to the adverse Party, whatever the motive, whether in order to starve out civilians, to cause them to move away, or for any other motive.

3. The prohibitions in paragraph 2 shall not apply to such of the objects covered by it as are used by an adverse Party:

- (a) as sustenance solely for the members of its armed forces; or
- (b) if not as sustenance, then in direct support of military action, provided, however, that in no event shall actions against these objects be taken which may be expected to leave the civilian population with such inadequate food or water as to cause its starvation or force its movement.

4. These objects shall not be made the object of reprisals.

5. In recognition of the vital requirements of any Party to the conflict in the defence of its national territory against invasion, derogation from the prohibitions contained in paragraph 2 may be made by a Party to the conflict within such territory under its own control where required by imperative military necessity.

Article 55. Protection of the natural environment

1. Care shall be taken in warfare to protect the natural environment against widespread, long-term and severe damage. This protection includes a prohibition of the use of methods or means of warfare which are intended or may be expected to cause such damage to the natural environment and thereby to prejudice the health or survival of the population.

2. Attacks against the natural environment by way of reprisals are prohibited.

Article 56. Protection of works and installations containing dangerous forces

1. Works or installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, shall not be made the object of attack, even where these objects are military objectives, if such attack may cause the release of dangerous forces and consequent severe losses among the civilian population. Other military objectives located at or in the vicinity of these works or installations shall not be made the object of attack if such attack may cause the release of dangerous forces from the works or installations and consequent severe losses among the civilian population.

2. The special protection against attack provided by paragraph 1 shall cease:

(a) for a dam or a dyke only if it is used for other than its normal function and in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support;

(b) for a nuclear electrical generating station only if it provides electric power in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support;

(c) for other military objectives located at or in the vicinity of these works or installations only if they are used in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support.

3. In all cases, the civilian population and individual civilians shall remain entitled to all the protection accorded them by international law, including the protection of the precautionary measures provided for in Article 57. If the protection ceases and any of the works, installations or military objectives mentioned in paragraph 1 is attacked, all practical precautions shall be taken to avoid the release of the dangerous forces.

4. It is prohibited to make any of the works, installations or military objectives mentioned in paragraph 1 the object of reprisals.

5. The Parties to the conflict shall endeavour to avoid locating any military objectives in the vicinity of the works or installations mentioned in paragraph 1. Nevertheless, installations erected for the sole purpose of defending the protected works or installations from attack are permissible and shall not themselves be made the object of attack, provided that they are not used in hostilities except for defensive actions necessary to respond to attacks against the protected works or installations and that their armament is limited to weapons capable only of repelling hostile action against the protected works or installations.

6. The High Contracting Parties and the Parties to the conflict are urged to conclude further agreements among themselves to provide additional protection for objects containing dangerous forces.

7. In order to facilitate the identification of the objects protected by this Article, the Parties to the conflict may mark them with a special sign consisting of a group of three bright orange circles placed on the same axis, as specified in Article 16 of Annex 1 to this Protocol. The absence of such marking in no way relieves any Party to the conflict of its obligations under this Article.

CHAPTER IV. PRECAUTIONARY MEASURES

Article 57. Precautions in attack

1. In the conduct of military operations, constant care shall be taken to spare the civilian population, civilians and civilian objects.

2. With respect to attacks, the following precautions shall be taken:

(a) those who plan or decide upon an attack shall:

(i) do everything feasible to verify that the objectives to be attacked are neither civilians nor civilian objects and are not subject to special protection but are military

objectives within the meaning of paragraph 2 of Article 52 and that it is not prohibited by the provisions of this Protocol to attack them;

- (ii) take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental loss of civilian life, injury to civilians and damage to civilian objects;
- (iii) refrain from deciding to launch any attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated;

(b) an attack shall be cancelled or suspended if it becomes apparent that the objective is not a military one or is subject to special protection or that the attack may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated;

(c) effective advance warning shall be given of attacks which may affect the civilian population, unless circumstances do not permit.

3. When a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that the attack on which may be expected to cause the least danger to civilian lives and to civilian objects.

4. In the conduct of military operations at sea or in the air, each Party to the conflict shall, in conformity with its rights and duties under the rules of international law applicable in armed conflict, take all reasonable precautions to avoid losses of civilian lives and damage to civilian objects.

5. No provision of this Article may be construed as authorizing any attacks against the civilian population, civilians or civilian objects.

Article 58. Precautions against the effects of attacks

The Parties to the conflict shall, to the maximum extent feasible:

- (a) without prejudice to Article 49 of the Fourth Convention, endeavour to remove the civilian population, individual civilians and civilian objects under their control from the vicinity of military objectives;
- (b) avoid locating military objectives within or near densely populated areas;
- (c) take the other necessary precautions to protect the civilian population, individual civilians and civilian objects under their control against the dangers resulting from military operations.

CHAPTER V. LOCALITIES AND ZONES UNDER SPECIAL PROTECTION

Article 59. Non-defended localities

1. It is prohibited for the Parties to the conflict to attack, by any means whatsoever, non-defended localities.

2. The appropriate authorities of a Party to the conflict may declare as a non-defended locality any inhabited place near or in a zone where armed forces are in contact which is open for occupation by an adverse Party. Such a locality shall fulfil the following conditions:

- (a) all combatants, as well as mobile weapons and mobile military equipment, must have been evacuated;
- (b) no hostile use shall be made of fixed military installations or establishments;
- (c) no acts of hostility shall be committed by the authorities or by the population; and
- (d) no activities in support of military operations shall be undertaken.

3. The presence, in this locality, of persons specially protected under the Conventions and this Protocol, and of police forces retained for the sole purpose of maintaining law and order, is not contrary to the conditions laid down in paragraph 2.

4. The declaration made under paragraph 2 shall be addressed to the adverse Party and shall define and describe, as precisely as possible, the limits of the non-defended locality. The Party to the conflict to which the declaration is addressed shall acknowledge its receipt and shall treat the locality as a non-defended locality unless the conditions laid down in paragraph 2 are not in fact fulfilled, in which event it shall immediately so inform the Party making the declaration. Even if the conditions laid down in paragraph 2 are not fulfilled, the locality shall continue to enjoy the protection provided by the other provisions of this Protocol and the other rules of international law applicable in armed conflict.

5. The Parties to the conflict may agree on the establishment of non-defended localities even if such localities do not fulfil the conditions laid down in paragraph 2. The agreement should define and describe, as precisely as possible, the limits of the non-defended locality; if necessary, it may lay down the methods of supervision.

6. The Party which is in control of a locality governed by such an agreement shall mark it, so far as possible, by such signs as may be agreed upon with the other Party, which shall be displayed where they are clearly visible, especially on its perimeter and limits and on highways.

7. A locality loses its status as a non-defended locality when it ceases to fulfil the conditions laid down in paragraph 2 or in the agreement referred to in paragraph 5. In such an eventuality, the locality shall continue to enjoy the protection provided by the other provisions of this Protocol and the other rules of international law applicable in armed conflict.

Article 60. Demilitarized zones

1. It is prohibited for the Parties to the conflict to extend their military operations to zones on which they have conferred by agreement the status of demilitarized zone, if such extension is contrary to the terms of this agreement.

2. The agreement shall be an express agreement, may be concluded verbally or in writing, either directly or through a Protecting Power or any impartial humanitarian organization, and may consist of reciprocal and concordant declarations. The agreement may be concluded in peacetime, as well as after the outbreak of hostilities, and should define and describe, as precisely as possible, the limits of the demilitarized zone and, if necessary, lay down the methods of supervision.

3. The subject of such an agreement shall normally be any zone which fulfils the following conditions:

- (a) all combatants, as well as mobile weapons and mobile military equipment, must have been evacuated;
- (b) no hostile use shall be made of fixed military installations or establishments;
- (c) no acts of hostility shall be committed by the authorities or by the population; and
- (d) any activity linked to the military effort must have ceased.

The Parties to the conflict shall agree upon the interpretation to be given to the condition laid down in sub-paragraph (d) and upon persons to be admitted to the demilitarized zone other than those mentioned in paragraph 4.

4. The presence, in this zone, of persons specially protected under the Conventions and this Protocol, and of police forces retained for the sole purpose of maintaining law and order, is not contrary to the conditions laid down in paragraph 3.

5. The Party which is in control of such a zone shall mark it, so far as possible, by such signs as may be agreed upon with the other Party, which shall be displayed where they are clearly visible, especially on its perimeter and limits and on highways.

6. If the fighting draws near to a demilitarized zone, and if the Parties to the conflict have so agreed, none of them may use the zone for purposes related to the conduct of military operations or unilaterally revoke its status.

7. If one of the Parties to the conflict commits a material breach of the provisions of paragraphs 3 or 6, the other Party shall be released from its obligations under the agreement conferring upon the zone the status of demilitarized zone. In such an eventuality, the zone loses its status but shall continue to enjoy the protection provided by the other provisions of this Protocol and the other rules of international law applicable in armed conflict.

CHAPTER VI. CIVIL DEFENCE

Article 61. Definitions and scope

For the purposes of this Protocol:

(a) “civil defence” means the performance of some or all of the undermentioned humanitarian tasks intended to protect the civilian population against the dangers, and to help it to recover from the immediate effects, of hostilities or disasters and also to provide the conditions necessary for its survival. These tasks are:

- (i) warning;
- (ii) evacuation;
- (iii) management of shelters;
- (iv) management of blackout measures;
- (v) rescue;
- (vi) medical services, including first aid, and religious assistance;
- (vii) fire-fighting;
- (viii) detection and marking of danger areas;
- (ix) decontamination and similar protective measures;
- (x) provision of emergency accommodation and supplies;
- (xi) emergency assistance in the restoration and maintenance of order in distressed areas;
- (xii) emergency repair of indispensable public utilities;
- (xiii) emergency disposal of the dead;
- (xiv) assistance in the preservation of objects essential for survival;
- (xv) complementary activities necessary to carry out any of the tasks mentioned above, including, but not limited to, planning and organization;

(b) “civil defence organizations” means those establishments and other units which are organized or authorized by the competent authorities of a Party to the conflict to perform any of the tasks mentioned under sub-paragraph (a), and which are assigned and devoted exclusively to such tasks;

(c) “personnel” of civil defence organizations means those persons assigned by a Party to the conflict exclusively to the performance of the tasks mentioned under sub-paragraph (a), including personnel assigned by the competent authority of that Party exclusively to the administration of these organizations;

(d) “*matériel*” of civil defence organizations means equipment, supplies and transports used by these organizations for the performance of the tasks mentioned under sub-paragraph (a).

Article 62. General protection

1. Civilian civil defence organizations and their personnel shall be respected and protected, subject to the provisions of this Protocol, particularly the provisions of this Section. They shall be entitled to perform their civil defence tasks except in case of imperative military necessity.

2. The provisions of paragraph 1 shall also apply to civilians who, although not members of civilian civil defence organizations, respond to an appeal from the competent authorities and perform civil defence tasks under their control.

3. Buildings and *materiel* used for civil defence purposes and shelters provided for the civilian population are covered by Article 52. Objects used for civil defence purposes may not be destroyed or diverted from their proper use except by the Party to which they belong.

Article 63. Civil defence in occupied territories

1. In occupied territories, civilian civil defence organizations shall receive from the authorities the facilities necessary for the performance of their tasks. In no circumstances shall their personnel be compelled to perform activities which would interfere with the proper performance of these tasks. The Occupying Power shall not change the structure or personnel of such organizations in any way which might jeopardize the efficient performance of their mission. These organizations shall not be required to give priority to the nationals or interests of that Power.

2. The Occupying Power shall not compel, coerce or induce civilian civil defence organizations to perform their tasks in any manner prejudicial to the interests of the civilian population.

3. The Occupying Power may disarm civil defence personnel for reasons of security.

4. The Occupying Power shall neither divert from their proper use nor requisition buildings or *matériel* belonging to or used by civil defence organizations if such diversion or requisition would be harmful to the civilian population.

5. Provided that the general rule in paragraph 4 continues to be observed, the Occupying Power may requisition or divert these resources, subject to the following particular conditions:

- (a) that the buildings or *matériel* are necessary for other needs of the civilian population; and
- (b) that the requisition or diversion continues only while such necessity exists.

6. The Occupying Power shall neither divert nor requisition shelters provided for the use of the civilian population or needed by such population.

Article 64. Civilian civil defence organizations of neutral or other States not Parties to the conflict and international co-ordinating organizations

1. Articles 62, 63, 65 and 66 shall also apply to the personnel and *materiel* of civilian civil defence organizations of neutral or other States not Parties to the conflict which perform civil defence tasks mentioned in Article 61 in the territory of a Party to the conflict, with the consent and under the control of that Party. Notification of such assistance shall be given as soon as possible to any adverse Party concerned. In no circumstances shall this activity be deemed to be an interference in the conflict. This activity should, however, be performed with due regard to the security interests of the Parties to the conflict concerned.

2. The Parties to the conflict receiving the assistance referred to in paragraph 1 and the High Contracting Parties granting it should facilitate international coordination of such civil defence actions when appropriate. In such cases the relevant international organizations are covered by the provisions of this Chapter.

3. In occupied territories, the Occupying Power may only exclude or restrict the activities of civilian civil defence organizations of neutral or other States not Parties to the conflict and of international co-ordinating organizations if it can ensure the adequate performance of civil defence tasks from its own resources or those of the occupied territory.

Article 65. Cessation of protection

1. The protection to which civilian civil defence organizations, their personnel, buildings, shelters and *materiel* are entitled shall not cease unless they commit or are used to commit, outside their proper tasks, acts harmful to the enemy. Protection may, however, cease only after a warning

has been given setting, whenever appropriate, a reasonable time-limit, and after such warning has remained unheeded.

2. The following shall not be considered as acts harmful to the enemy:

- (a) that civil defence tasks are carried out under the direction or control of military authorities;
- (b) that civilian civil defence personnel co-operate with military personnel in the performance of civil defence tasks, or that some military personnel are attached to civilian civil defence organizations;
- (c) that the performance of civil defence tasks may incidentally benefit military victims, particularly those who are *hors de combat*.

3. It shall also not be considered as an act harmful to the enemy that civilian civil defence personnel bear light individual weapons for the purpose of maintaining order or for self-defence. However, in areas where land fighting is taking place or is likely to take place, the Parties to the conflict shall undertake the appropriate measures to limit these weapons to handguns, such as pistols or revolvers, in order to assist in distinguishing between civil defence personnel and combatants. Although civil defence personnel bear other light individual weapons in such areas, they shall nevertheless be respected and protected as soon as they have been recognized as such.

4. The formation of civilian civil defence organizations along military lines, and compulsory service in them, shall also not deprive them of the protection conferred by this Chapter.

Article 66. Identification

1. Each Party to the conflict shall endeavour to ensure that its civil defence organizations, their personnel, buildings and *matériel*, are identifiable while they are exclusively devoted to the performance of civil defence tasks. Shelters provided for the civilian population should be similarly identifiable.

2. Each Party to the conflict shall also endeavour to adopt and implement methods and procedures which will make it possible to recognize civilian shelters as well as civil defence personnel, buildings and *matériel* on which the international distinctive sign of civil defence is displayed.

3. In occupied territories and in areas where fighting is taking place or is likely to take place, civilian civil defence personnel should be recognizable by the international distinctive sign of civil defence and by an identity card certifying their status.

4. The international distinctive sign of civil defence is an equilateral blue triangle on an orange ground when used for the protection of civil defence organizations, their personnel, buildings and *matériel* and for civilian shelters.

5. In addition to the distinctive sign, Parties to the conflict may agree upon the use of distinctive signals for civil defence identification purposes.

6. The application of the provisions of paragraphs 1 to 4 is governed by Chapter V of Annex 1 to this Protocol.

7. In time of peace, the sign described in paragraph 4 may, with the consent of the competent national authorities, be used for civil defence identification purposes.

8. The High Contracting Parties and the Parties to the conflict shall take the measures necessary to supervise the display of the international distinctive sign of civil defence and to prevent and repress any misuse thereof.

9. The identification of civil defence medical and religious personnel, medical units and medical transports is also governed by Article 18.

Article 67. Members of the armed forces and military units assigned to civil defence organizations

1. Members of the armed forces and military units assigned to civil defence organizations shall be respected and protected, provided that:

- (a) such personnel and such units are permanently assigned and exclusively devoted to the performance of any of the tasks mentioned in Article 61;
- (b) if so assigned, such personnel do not perform any other military duties during the conflict;
- (c) such personnel are clearly distinguishable from the other members of the armed forces by prominently displaying the international distinctive sign of civil defence, which shall be as large as appropriate, and such personnel are provided with the identity card referred to in Chapter V of Annex 1 to this Protocol certifying their status;
- (d) such personnel and such units are equipped only with light individual weapons for the purpose of maintaining order or for self-defence. The provisions of Article 65, paragraph 3 shall also apply in this case;
- (e) such personnel do not participate directly in hostilities, and do not commit, or are not used to commit, outside their civil defence tasks, acts harmful to the adverse Party;
- (f) such personnel and such units perform their civil defence tasks only within the national territory of their Party.

The non-observance of the conditions stated in (e) above by any member of the armed forces who is bound by the conditions prescribed in (a) and (b) above is prohibited.

2. Military personnel serving within civil defence organizations shall, if they fall into the power of an adverse Party, be prisoners of war. In occupied territory they may, but only in the interest of the civilian population of that territory, be employed on civil defence tasks in so far as the need arises, provided however that, if such work is dangerous, they volunteer for such tasks.

3. The buildings and major items of equipment and transports of military units assigned to civil defence organizations shall be clearly marked with the international distinctive sign of civil defence. This distinctive sign shall be as large as appropriate.

4. The *matériel* and buildings of military units permanently assigned to civil defence organizations and exclusively devoted to the performance of civil defence tasks shall, if they fall into the hands of an adverse Party, remain subject to the laws of war. They may not be diverted from their civil defence purpose so long as they are required for the performance of civil defence tasks, except in case of imperative military necessity, unless previous arrangements have been made for adequate provision for the needs of the civilian population.

SECTION II. RELIEF IN FAVOUR OF THE CIVILIAN POPULATION

Article 68. Field of application

The provisions of this Section apply to the civilian population as defined in this Protocol and are supplementary to Articles 23, 55, 59, 60, 61 and 62 and other relevant provisions of the Fourth Convention.

Article 69. Basic needs in occupied territories

1. In addition to the duties specified in Article 55 of the Fourth Convention concerning food and medical supplies, the Occupying Power shall, to the fullest extent of the means available to it and without any adverse distinction, also ensure the provision of clothing, bedding, means of shelter, other supplies essential to the survival of the civilian population of the occupied territory and objects necessary for religious worship.

2. Relief actions for the benefit of the civilian population of occupied territories are governed by Articles 59, 60, 61, 62, 108, 109, 110 and 111 of the Fourth Convention, and by Article 71 of this Protocol, and shall be implemented without delay.

Article 70. Relief actions

1. If the civilian population of any territory under the control of a Party to the conflict, other than occupied territory, is not adequately provided with the supplies mentioned in Article 69, relief

actions which are humanitarian and impartial in character and conducted without any adverse distinction shall be undertaken, subject to the agreement of the Parties concerned in such relief actions. Offers of such relief shall not be regarded as interference in the armed conflict or as unfriendly acts. In the distribution of relief consignments, priority shall be given to those persons, such as children, expectant mothers, maternity cases and nursing mothers, who, under the Fourth Convention or under this Protocol, are to be accorded privileged treatment or special protection.

2. The Parties to the conflict and each High Contracting Party shall allow and facilitate rapid and unimpeded passage of all relief consignments, equipment and personnel provided in accordance with this Section, even if such assistance is destined for the civilian population of the adverse Party.

3. The Parties to the conflict and each High Contracting Party which allow the passage of relief consignments, equipment and personnel in accordance with paragraph 2:

(a) shall have the right to prescribe the technical arrangements, including search, under which such passage is permitted;

(b) may make such permission conditional on the distribution of this assistance being made under the local supervision of a Protecting Power;

(c) shall, in no way whatsoever, divert relief consignments from the purpose for which they are intended nor delay their forwarding, except in cases of urgent necessity in the interest of the civilian population concerned.

4. The Parties to the conflict shall protect relief consignments and facilitate their rapid distribution.

5. The Parties to the conflict and each High Contracting Party concerned shall encourage and facilitate effective international co-ordination of the relief actions referred to in paragraph 1.

Article 71. Personnel participating in relief actions

1. Where necessary, relief personnel may form part of the assistance provided in any relief action, in particular for the transportation and distribution of relief consignments; the participation of such personnel shall be subject to the approval of the Party in whose territory they will carry out their duties.

2. Such personnel shall be respected and protected.

3. Each Party in receipt of relief consignments shall, to the fullest extent practicable, assist the relief personnel referred to in paragraph 1 in carrying out their relief mission. Only in case of imperative military necessity may the activities of the relief personnel be limited or their movements temporarily restricted.

4. Under no circumstances may relief personnel exceed the terms of their mission under this Protocol. In particular they shall take account of the security requirements of the Party in whose territory they are carrying out their duties. The mission of any of the personnel who do not respect these conditions may be terminated.

SECTION III. TREATMENT OF PERSONS IN THE POWER OF A PARTY TO THE CONFLICT

CHAPTER I. FIELD OF APPLICATION AND PROTECTION OF PERSONS AND OBJECTS

Article 72. Field of application

The provisions of this Section are additional to the rules concerning humanitarian protection of civilians and civilian objects in the power of a Party to the conflict contained in the Fourth Convention, particularly Parts I and III thereof, as well as to other applicable rules of international law relating to the protection of fundamental human rights during international armed conflict.

Article 73. Refugees and stateless persons

Persons who, before the beginning of hostilities, were considered as stateless persons or refugees under the relevant international instruments accepted by the Parties concerned or under the national legislation of the State of refuge or State of residence shall be protected persons within the meaning of Parts I and III of the Fourth Convention, in all circumstances and without any adverse distinction.

Article 74. Reunion of dispersed families

The High Contracting Parties and the Parties to the conflict shall facilitate in every possible way the reunion of families dispersed as a result of armed conflicts and shall encourage in particular the work of the humanitarian organizations engaged in this task in accordance with the provisions of the Conventions and of this Protocol and in conformity with their respective security regulations.

Article 75. Fundamental guarantees

1. In so far as they are affected by a situation referred to in Article 1 of this Protocol, persons who are in the power of a Party to the conflict and who do not benefit from more favourable treatment under the Conventions or under this Protocol shall be treated humanely in all circumstances and shall enjoy, as a minimum, the protection provided by this Article without any adverse distinction based upon race, colour, sex, language, religion or belief, political or other opinion, national or social origin, wealth, birth or other status, or on any other similar criteria. Each Party shall respect the person, honour, convictions and religious practices of all such persons.

2. The following acts are and shall remain prohibited at any time and in any place whatsoever, whether committed by civilian or by military agents:

- (a) violence to the life, health, or physical or mental well-being of persons, in particular:
 - (i) murder;
 - (ii) torture of all kinds, whether physical or mental;
 - (iii) corporal punishment; and
 - (iv) mutilation;
- (b) outrages upon personal dignity, in particular humiliating and degrading treatment, enforced prostitution and any form of indecent assault;
- (c) the taking of hostages;
- (d) collective punishments; and
- (e) threats to commit any of the foregoing acts.

3. Any person arrested, detained or interned for actions related to the armed conflict shall be informed promptly, in a language he understands, of the reasons why these measures have been taken. Except in cases of arrest or detention for penal offences, such persons shall be released with the minimum delay possible and in any event as soon as the circumstances justifying the arrest, detention or internment have ceased to exist.

4. No sentence may be passed and no penalty may be executed on a person found guilty of a penal offence related to the armed conflict except pursuant to a conviction pronounced by an impartial and regularly constituted court respecting the generally recognized principles of regular judicial procedure, which include the following:

- (a) the procedure shall provide for an accused to be informed without delay of the particulars of the offence alleged against him and shall afford the accused before and during his trial all necessary rights and means of defence;
- (b) no one shall be convicted of an offence except on the basis of individual penal responsibility;

(c) no one shall be accused or convicted of a criminal offence on account of any act or omission which did not constitute a criminal offence under the national or international law to which he was subject at the time when it was committed; nor shall a heavier penalty be imposed than that which was applicable at the time when the criminal offence was committed; if, after the commission of the offence, provision is made by law for the imposition of a lighter penalty, the offender shall benefit thereby;

(d) anyone charged with an offence is presumed innocent until proved guilty according to law;

(e) anyone charged with an offence shall have the right to be tried in his presence;

(f) no one shall be compelled to testify against himself or to confess guilt;

(g) anyone charged with an offence shall have the right to examine, or have examined, the witnesses against him and to obtain the attendance and examination of witnesses on his behalf under the same conditions as witnesses against him;

(h) no one shall be prosecuted or punished by the same Party for an offence in respect of which a final judgement acquitting or convicting that person has been previously pronounced under the same law and judicial procedure;

(i) anyone prosecuted for an offence shall have the right to have the judgement pronounced publicly; and

(j) a convicted person shall be advised on conviction of his judicial and other remedies and of the time-limits within which they may be exercised.

5. Women whose liberty has been restricted for reasons related to the armed conflict shall be held in quarters separated from men's quarters. They shall be under the immediate supervision of women. Nevertheless, in cases where families are detained or interned, they shall, whenever possible, be held in the same place and accommodated as family units.

6. Persons who are arrested, detained or interned for reasons related to the armed conflict shall enjoy the protection provided by this Article until final release, repatriation or re-establishment, even after the end of the armed conflict.

7. In order to avoid any doubt concerning the prosecution and trial of persons accused of war crimes or crimes against humanity, the following principles shall apply:

(a) persons who are accused of such crimes should be submitted for the purpose of prosecution and trial in accordance with the applicable rules of international law; and

(b) any such persons who do not benefit from more favourable treatment under the Conventions or this Protocol shall be accorded the treatment provided by this Article, whether or not the crimes of which they are accused constitute grave breaches of the Conventions or of this Protocol.

8. No provision of this Article may be construed as limiting or infringing any other more favourable provision granting greater protection, under any applicable rules of international law, to persons covered by paragraph 1.

CHAPTER II. MEASURES IN FAVOUR OF WOMEN AND CHILDREN

Article 76. Protection of women

1. Women shall be the object of special respect and shall be protected in particular against rape, forced prostitution and any other form of indecent assault.

2. Pregnant women and mothers having dependent infants who are arrested, detained or interned for reasons related to the armed conflict, shall have their cases considered with the utmost priority.

3. To the maximum extent feasible, the Parties to the conflict shall endeavour to avoid the pronouncement of the death penalty on pregnant women or mothers having dependent infants, for an offence related to the armed conflict. The death penalty for such offences shall not be executed on such women.

Article 77. Protection of children

1. Children shall be the object of special respect and shall be protected against any form of indecent assault. The Parties to the conflict shall provide them with the care and aid they require, whether because of their age or for any other reason.

2. The Parties to the conflict shall take all feasible measures in order that children who have not attained the age of fifteen years do not take a direct part in hostilities and, in particular, they shall refrain from recruiting them into their armed forces. In recruiting among those persons who have attained the age of fifteen years but who have not attained the age of eighteen years, the Parties to the conflict shall endeavour to give priority to those who are oldest.

3. If, in exceptional cases, despite the provisions of paragraph 2, children who have not attained the age of fifteen years take a direct part in hostilities and fall into the power of an adverse Party, they shall continue to benefit from the special protection accorded by this Article, whether or not they are prisoners of war.

4. If arrested, detained or interned for reasons related to the armed conflict, children shall be held in quarters separate from the quarters of adults, except where families are accommodated as family units as provided in Article 75, paragraph 5.

5. The death penalty for an offence related to the armed conflict shall not be executed on persons who had not attained the age of eighteen years at the time the offence was committed.

Article 78. Evacuation of children

1. No Party to the conflict shall arrange for the evacuation of children, other than its own nationals, to a foreign country except for a temporary evacuation where compelling reasons of the health or medical treatment of the children or, except in occupied territory, their safety, so require. Where the parents or legal guardians can be found, their written consent to such evacuation is required. If these persons cannot be found, the written consent to such evacuation of the persons who by law or custom are primarily responsible for the care of the children is required. Any such evacuation shall be supervised by the Protecting Power in agreement with the Parties concerned, namely, the Party arranging for the evacuation, the Party receiving the children and any Parties whose nationals are being evacuated. In each case, all Parties to the conflict shall take all feasible precautions to avoid endangering the evacuation.

2. Whenever an evacuation occurs pursuant to paragraph 1, each child's education, including his religious and moral education as his parents desire, shall be provided while he is away with the greatest possible continuity.

3. With a view to facilitating the return to their families and country of children evacuated pursuant to this Article, the authorities of the Party arranging for the evacuation and, as appropriate, the authorities of the receiving country shall establish for each child a card with photographs, which they shall send to the Central Tracing Agency of the International Committee of the Red Cross. Each card shall bear, whenever possible, and whenever it involves no risk of harm to the child, the following information:

- (a) surname(s) of the child;
- (b) the child's first name(s);
- (c) the child's sex;
- (d) the place and date of birth (or, if that date is not known, the approximate age);

- (s) should the child die before his return, the date, place and circumstances of death and place of interment.

CHAPTER III. JOURNALISTS

Article 79. Measures of protection for journalists

1. Journalists engaged in dangerous professional missions in areas of armed conflict shall be considered as civilians within the meaning of Article 50, paragraph 1.

2. They shall be protected as such under the Conventions and this Protocol, provided that they take no action adversely affecting their status as civilians, and without prejudice to the right of war correspondents accredited to the armed forces to the status provided for in Article 4 A 4) of the Third Convention.

3. They may obtain an identity card similar to the model in Annex II of this Protocol. This card, which shall be issued by the government of the State of which the journalist is a national or in whose territory he resides or in which the news medium employing him is located, shall attest to his status as a journalist.

PART V. EXECUTION OF THE CONVENTIONS AND OF THIS PROTOCOL

SECTION I. GENERAL PROVISIONS

Article 80. Measures for execution

1. The High Contracting Parties and the Parties to the conflict shall without delay take all necessary measures for the execution of their obligations under the Conventions and this Protocol.

Article 81. Activities of the Red Cross and other humanitarian organizations

1. The Parties to the conflict shall grant to the International Committee of the Red Cross all facilities within their power so as to enable it to carry out the humanitarian functions assigned to it by the Conventions and this Protocol in order to ensure protection and assistance to the victims of conflicts; the International Committee of the Red Cross may also carry out any other humanitarian activities in favour of these victims, subject to the consent of the Parties to the conflict concerned.

2. The Parties to the conflict shall grant to their respective Red Cross (Red Crescent, Red Lion and Sun) organizations the facilities necessary for carrying out their humanitarian activities in favour of the victims of the conflict, in accordance with the provisions of the Conventions and this Protocol and the Fundamental Principles of the Red Cross as formulated by the International Conferences of the Red Cross.

3. The High Contracting Parties and the Parties to the conflict shall facilitate in every possible way the assistance which Red Cross (Red Crescent, Red Lion and Sun) organizations and the League

of Red Cross Societies* extend to the victims of conflicts in accordance with the provisions of the Conventions and this Protocol and with the Fundamental Principles of the Red Cross as formulated by the International Conferences of the Red Cross.

4. The High Contracting Parties and the Parties to the conflict shall, as far as possible, make facilities similar to those mentioned in paragraphs 2 and 3 available to the other humanitarian organizations referred to in the Conventions and this Protocol which are duly authorized by the respective Parties to the conflict and which perform their humanitarian activities in accordance with the provisions of the Conventions and this Protocol.

Article 82. Legal advisers in armed forces

The High Contracting Parties at all times, and the Parties to the conflict in time of armed conflict, shall ensure that legal advisers are available, when necessary, to advise military commanders at the appropriate level on the application of the Conventions and this Protocol and on the appropriate instruction to be given to the armed forces on this subject.

Article 83. Dissemination

1. The High Contracting Parties undertake, in time of peace as in time of armed conflict, to disseminate the Conventions and this Protocol as widely as possible in their respective countries and, in particular, to include the study thereof in their programmes of military instruction and to encourage the study thereof by the civilian population, so that those instruments may become known to the armed forces and to the civilian population.

2. Any military or civilian authorities who, in time of armed conflict, assume responsibilities in respect of the application of the Conventions and this Protocol shall be fully acquainted with the text thereof.

Article 84. Rules of application

The High Contracting Parties shall communicate to one another, as soon as possible, through the depositary and, as appropriate, through the Protecting Powers, their official translations of this Protocol, as well as the laws and regulations which they may adopt to ensure its application.

SECTION II. REPRESSION OF BREACHES OF THE CONVENTIONS AND OF THIS PROTOCOL

Article 85. Repression of breaches of this Protocol

1. The provisions of the Conventions relating to the repression of breaches and grave breaches, supplemented by this Section, shall apply to the repression of breaches and grave breaches of this Protocol.

2. Acts described as grave breaches in the Conventions are grave breaches of this Protocol if committed against persons in the power of an adverse Party protected by Articles 44, 45 and 73 of this Protocol, or against the wounded, sick and shipwrecked of the adverse Party who are protected by this Protocol, or against those medical or religious personnel, medical units or medical transports which are under the control of the adverse Party and are protected by this Protocol.

3. In addition to the grave breaches defined in Article 11, the following acts shall be regarded as grave breaches of this Protocol, when committed wilfully, in violation of the relevant provisions of this Protocol, and causing death or serious injury to body or health:

- (a) making the civilian population or individual civilians the object of attack;

(c) launching an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects, as defined in Article 57, paragraph 2 (a) (iii);

(d) making non-defended localities and demilitarized zones the object of attack;

(e) making a person the object of attack in the knowledge that he is *hors de combat*;

(f) the perfidious use, in violation of Article 37, of the distinctive emblem of the red cross, red crescent or red lion and sun or of other protective signs recognized by the Conventions or this Protocol.

4. In addition to the grave breaches defined in the preceding paragraphs and in the Conventions, the following shall be regarded as grave breaches of this Protocol, when committed wilfully and in violation of the Conventions or the Protocol:

1. The High Contracting Parties and the Parties to the conflict shall repress grave breaches, and take measures necessary to suppress all other breaches, of the Conventions or of this Protocol which result from a failure to act when under a duty to do so.

2. The fact that a breach of the Conventions or of this Protocol was committed by a subordinate does not absolve his superiors from penal or disciplinary responsibility, as the case may be, if they knew, or had information which should have enabled them to conclude in the circumstances at the time, that he was committing or was going to commit such a breach and if they did not take all feasible measures within their power to prevent or repress the breach.

Article 87. Duty of commanders

1. The High Contracting Parties and the Parties to the conflict shall require military commanders, with respect to members of the armed forces under their command and other persons under their control, to prevent and, where necessary, to suppress and report to competent authorities breaches of the Conventions and of this Protocol.

2. In order to prevent and suppress breaches, High Contracting Parties and Parties to the conflict shall require that, commensurate with their level of responsibility, commanders ensure

2. Subject to the rights and obligations established in the Conventions and in Article 85, paragraph 1, of this Protocol, and when circumstances permit, the High Contracting Parties shall co-operate in the matter of extradition. They shall give due consideration to the request of the State in whose territory the alleged offence has occurred.

3. The law of the High Contracting Party requested shall apply in all cases. The provisions of the preceding paragraphs shall not, however, affect the obligations arising from the provisions of any other treaty of a bilateral or multilateral nature which governs or will govern the whole or part of the subject of mutual assistance in criminal matters.

Article 89. Co-operation

In situations of serious violations of the Conventions or of this Protocol, the High Contracting Parties undertake to act, jointly or individually, in co-operation with the United Nations and in conformity with the United Nations Charter.

Article 90. International Fact-Finding Commission

1. (a) An International Fact-Finding Commission (hereinafter referred to as “the Commission”) consisting of fifteen members of high moral standing and acknowledged impartiality shall be established.

(b) When not less than twenty High Contracting Parties have agreed to accept the competence of the Commission pursuant to paragraph 2, the depositary shall then, and at intervals of five years thereafter, convene a meeting of representatives of those High Contracting Parties for the purpose of electing the members of the Commission. At the meeting, the representatives shall elect the members of the Commission by secret ballot from a list of persons to which each of those High Contracting Parties may nominate one person.

(c) The members of the Commission shall serve in their personal capacity and shall hold office until the election of new members at the ensuing meeting.

(d) At the election, the High Contracting Parties shall ensure that the persons to be elected to the Commission individually possess the qualifications required and that, in the Commission as a whole, equitable geographical representation is assured.

(e) In the case of a casual vacancy, the Commission itself shall fill the vacancy, having due regard to the provisions of the preceding sub-paragraphs.

(f) The depositary shall make available to the Commission the necessary administrative facilities for the performance of its functions.

2. (a) The High Contracting Parties may at the time of signing, ratifying or acceding to the Protocol, or at any other subsequent time, declare that they recognize *ipso facto* and without special agreement, in relation to any other High Contracting Party accepting the same obligation, the competence of the Commission to enquire into allegations by such other Party, as authorized by this Article.

(b) The declarations referred to above shall be deposited with the depositary, which shall transmit copies thereof to the High Contracting Parties.

(c) The Commission shall be competent to:

- (i) enquire into any facts alleged to be a grave breach as defined in the Conventions and this Protocol or other serious violation of the Conventions or of this Protocol;
- (ii) facilitate, through its good offices, the restoration of an attitude of respect for the Conventions and this Protocol.

(d) In other situations, the Commission shall institute an enquiry at the request of a Party to the conflict only with the consent of the other Party or Parties concerned.

(e) Subject to the foregoing provisions of this paragraph, the provisions of Article 52 of the First Convention, Article 53 of the Second Convention, Article 132 of the Third Convention and Article 149 of the Fourth Convention shall continue to apply to any alleged violation of the Conventions and shall extend to any alleged violation of this Protocol.

3. (a) Unless otherwise agreed by the Parties concerned, all enquiries shall be undertaken by a Chamber consisting of seven members appointed as follows:

- (i) five members of the Commission, not nationals of any Party to the conflict, appointed by the President of the Commission on the basis of equitable representation of the geographical areas, after consultation with the Parties to the conflict;
- (ii) two *ad hoc* members, not nationals of any Party to the conflict, one to be appointed by each side.

(b) Upon receipt of the request for an enquiry, the President of the Commission shall specify an appropriate time-limit for setting up a Chamber. If any *ad hoc* member has not been appointed within the time-limit, the President shall immediately appoint such additional member or members of the Commission as may be necessary to complete the membership of the Chamber.

4. (a) The Chamber set up under paragraph 3 to undertake an enquiry shall invite the Parties to the conflict to assist it and to present evidence. The Chamber may also seek such other evidence as it deems appropriate and may carry out an investigation of the situation *in loco*.

(b) All evidence shall be fully disclosed to the Parties, which shall have the right to comment on it to the Commission.

(c) Each Party shall have the right to challenge such evidence.

5. (a) The Commission shall submit to the Parties a report on the findings of fact of the Chamber, with such recommendations as it may deem appropriate.

(b) If the Chamber is unable to secure sufficient evidence for factual and impartial findings, the Commission shall state the reasons for that inability.

(c) The Commission shall not report its findings publicly, unless all the Parties to the conflict have requested the Commission to do so.

6. The Commission shall establish its own rules, including rules for the presidency of the Commission and the presidency of the Chamber. Those rules shall ensure that the functions of the President of the Commission are exercised at all times and that, in the case of an enquiry, they are exercised by a person who is not a national of a Party to the conflict.

7. The administrative expenses of the Commission shall be met by contributions from the High Contracting Parties which made declarations under paragraph 2, and by voluntary contributions. The Party or Parties to the conflict requesting an enquiry shall advance the necessary funds for expenses incurred by a Chamber and shall be reimbursed by the Party or Parties against which the allegations are made to the extent of fifty per cent of the costs of the Chamber. Where there are counter-allegations before the Chamber each side shall advance fifty per cent of the necessary funds.

Article 91. Responsibility

A Party to the conflict which violates the provisions of the Conventions or of this Protocol shall, if the case demands, be liable to pay compensation. It shall be responsible for all acts committed by persons forming part of its armed forces.

Article 95. Entry into force

1. This Protocol shall enter into force six months after two instruments of ratification or accession have been deposited.

2. For each Party to the Conventions thereafter ratifying or acceding to this Protocol, it shall enter into force six months after the deposit by such Party of its instrument of ratification or accession.

Article 96. Treaty relations upon entry into force of this Protocol

1. When the Parties to the Conventions are also Parties to this Protocol, the Conventions shall apply as supplemented by this Protocol.

2. When one of the Parties to the conflict is not bound by this Protocol, the Parties to the Protocol shall remain bound by it in their mutual relations. They shall furthermore be bound by this Protocol in relation to each of the Parties which are not bound by it, if the latter accepts and applies the provisions thereof.

3. The authority representing a people engaged against a High Contracting Party in an armed conflict of the type referred to in Article 1, paragraph 4, may undertake to apply the Conventions and this Protocol in relation to that conflict by means of a unilateral declaration addressed to the depositary. Such declaration shall, upon its receipt by the depositary, have in relation to that conflict the following effects:

(a) the Conventions and this Protocol are brought into force for the said authority as a Party to the conflict with immediate effect;

(b) the said authority assumes the same rights and obligations as those which have been assumed by a High Contracting Party to the Conventions and this Protocol; and

Not later than four years after the entry into force of this Protocol and thereafter at intervals of not less than four years, the International Committee of the Red Cross shall consult the High Contracting Parties concerning Annex 1 to this Protocol and, if it considers it necessary, may propose a meeting of technical experts to review Annex 1 and to propose such amendments to it as may appear to be desirable. Unless, within six months of the communication of a proposal for such a meeting to the High Contracting Parties, one third of them object, the International Committee of the Red Cross shall convene the meeting, inviting also observers of appropriate international organizations. Such a meeting shall also be convened by the International Committee of the Red Cross at any time at the request of one third of the High Contracting Parties.

2. The depositary shall convene a conference of the High Contracting Parties and the Parties to the Conventions to consider amendments proposed by the meeting of technical experts if, after that meeting, the International Committee of the Red Cross or one third of the High Contracting Parties so request.

3. Amendments to Annex 1 may be adopted at such a conference by a two-thirds majority of the High Contracting Parties present and voting.

4. The depositary shall communicate any amendment so adopted to the High Contracting Parties and to the Parties to the Conventions. The amendment shall be considered to have been accepted at the end of a period of one year after it has been so communicated, unless within that period a declaration of nonacceptance of the amendment has been communicated to the depositary by not less than one third of the High Contracting Parties.

5. An amendment considered to have been accepted in accordance with paragraph 4 shall enter into force three months after its acceptance for all High Contracting Parties other than those which have made a declaration of nonacceptance in accordance with that paragraph. Any Party making such a declaration may at any time withdraw it and the amendment shall then enter into force for that Party three months thereafter.

6. The depositary shall notify the High Contracting Parties and the Parties to the Conventions of the entry into force of any amendment, of the Parties bound thereby, of the date of its entry into force in relation to each Party, of declarations of non-acceptance made in accordance with paragraph 4, and of withdrawals of such declarations.

Article 99. Denunciation

1. In case a High Contracting Party should denounce this Protocol, the denunciation shall only take effect one year after receipt of the instrument of denunciation. If, however, on the expiry of that year the denouncing Party is engaged in one of the situations referred to in Article 1, the denunciation shall not take effect before the end of the armed conflict or occupation and not, in any case, before operations connected with the final release, repatriation or re-establishment of the persons protected by the Conventions or this Protocol have been terminated.

2. The denunciation shall be notified in writing to the depositary, which shall transmit it to all the High Contracting Parties.

3. The denunciation shall have effect only in respect of the denouncing Party.

4. Any denunciation under paragraph 1 shall not affect the obligations already incurred, by reason of the armed conflict, under this Protocol by such denouncing Party in respect of any act committed before this denunciation becomes effective.

3. The competent authorities may, subject to the relevant provisions of the Geneva Conventions and the Protocol, at all times regulate the use, display, illumination and detectability of the distinctive emblems and signals.

4. The High Contracting Parties and in particular the Parties to the conflict are invited at all times to agree upon additional or other signals, means or systems which enhance the possibility of identification and take full advantage of technological developments in this field.

The Parties to the conflict may be guided by the single-language model shown in Figure 1. At the outbreak of hostilities, they shall transmit to each other a specimen of the model they are using, if such model differs from that shown in Figure 1. The identity card shall be made out, if possible, in duplicate, one copy being kept by the issuing authority, which should maintain control of the cards which it has issued.

3. In no circumstances may permanent civilian medical and religious personnel be deprived of their identity cards. In the event of the loss of a card, they shall be entitled to obtain a duplicate copy.

Article 3. Identity card for temporary civilian medical and religious personnel

1. The identity card for temporary civilian medical and religious personnel should, whenever possible, be similar to that provided for in Article 2 of these Regulations. The Parties to the conflict may be guided by the model shown in Figure 1.

2. When circumstances preclude the provision to temporary civilian medical and religious personnel of identity cards similar to those described in Article 2 of these Regulations, the said personnel may be provided with a certificate signed by the competent authority certifying that the person to whom it is issued is assigned to duty as temporary personnel and stating, if possible, the duration of such assignment and his right to wear the distinctive emblem. CHAPTER II. THE DISTINCTIVE EMBLEM

Article 4. Shape

The distinctive emblem (red on a white ground) shall be as large as appropriate under the circumstances. For the shapes of the cross, the crescent or the lion and sun, the High Contracting Parties may be guided by the models shown in Figure 2.

Figure 2: Distinctive emblems in red on a white ground.

Article 5. Use

1. The distinctive emblem shall, whenever possible, be displayed on a flat surface, on flags or in any other way appropriate to the lay of the land, so that it is visible from as many directions and from as far away as possible, and in particular from the air.

2. At night or when visibility is reduced, the distinctive emblem may be lighted or illuminated.

3. The distinctive emblem may be made of materials which make it recognizable by technical means of detection. The red part should be painted on top of black primer paint in order to facilitate its identification, in particular by infrared instruments.

4. Medical and religious personnel carrying out their duties in the battlefield area shall, as far as possible, wear headgear and clothing bearing the distinctive emblem.

CHAPTER III. DISTINCTIVE SIGNALS

Article 6. Use

1. All distinctive signals specified in this Chapter may be used by medical units or transports.

2. These signals, at the exclusive disposal of medical units and transports, shall not be used for any other purpose, the use of the light signal being reserved (see paragraph 3 below).

3. In the absence of a special agreement between the Parties to the conflict reserving the use of flashing blue lights for the identification of medical vehicles, ships and craft, the use of such signals for other vehicles, ships and craft is not prohibited.

4. Temporary medical aircraft which cannot, either for lack of time or because of their characteristics, be marked with the distinctive emblem, may use the distinctive signals authorized in this Chapter.

Article 7. Light signal

1. The light signal, consisting of a flashing blue light as defined in the Airworthiness Technical Manual of the International Civil Aviation Organization (ICAO) Doc. 9051, is established for the use of medical aircraft to signal their identity. No other aircraft shall use this signal. Medical aircraft using the flashing blue light should exhibit such lights as may be necessary to make the light signal visible from as many directions as possible.

2. In accordance with the provisions of Chapter XIV, para. 4 of the International Maritime Organization (IMO) International Code of Signals, vessels protected by the Geneva Conventions of 1949 and the Protocol should exhibit one or more flashing blue lights visible from any direction.

3. Medical vehicles should exhibit one or more flashing blue lights visible from as far away as possible. The High Contracting Parties and, in particular, the Parties to the conflict which use lights of other colours should give notification of this.

4. The recommended blue colour is obtained when its chromaticity is within the boundaries of the International Commission on Illumination (ICI) chromaticity diagram defined by the following equations:

green boundary $y = 0.065 + 0.805x$

white boundary $y = 0.400 - x$

purple boundary $x = 0.133 + 0.600y$

The recommended flashing rate of the blue light is between sixty and one hundred flashes per minute.

Article 8. Radio signal

1. The radio signal shall consist of the urgency signal and the distinctive signal as described in the International Telecommunication Union (ITU) Radio Regulations (RR Articles 40 and N 40).

2. The radio message preceded by the urgency and distinctive signals mentioned in paragraph 1 shall be transmitted in English at appropriate intervals on a frequency or frequencies specified for this purpose in the Radio Regulations, and shall convey the following data relating to the medical transports concerned:

- a) call sign or other recognized means of identification;
- b) position;
- c) number and type of vehicles;
- d) intended route;
- e) estimated time en route and of departure and arrival, as appropriate;
- f) any other information, such as flight altitude, guarded radio frequencies, languages used and secondary surveillance radar modes and codes.

3. In order to facilitate the communications referred to in paragraphs 1 and 2, as well as the communications referred to in Articles 22, 23 and 25 to 31 of the Protocol, the High Contracting Parties, the Parties to a conflict, or one of the Parties to a conflict, acting in agreement or alone, may designate, in accordance with the Table of Frequency Allocations in the Radio Regulations annexed to the International Telecommunication Convention, and publish selected national frequencies to be used by them for such communications. The International Telecommunication Union shall be notified of these frequencies in accordance with procedures approved by a World Administrative Radio Conference.

Article 9. Electronic identification

1. The Secondary Surveillance Radar (SSR) system, as specified in Annex 10 to the Chicago Convention on International Civil Aviation of 7 December 1944, as amended from time to time, may be used to identify and to follow the course of medical aircraft. The SSR mode and code to be reserved for the exclusive use of medical aircraft shall be established by the High Contracting Parties, the Parties to a conflict, or one of the Parties to a conflict, acting in agreement or alone, in accordance with procedures to be recommended by the International Civil Aviation Organization.

2. Protected medical transports may, for their identification and location, use standard aeronautical radar transponders and/or maritime search and rescue radar transponders. It should be possible for protected medical transports to be identified by other vessels or aircraft equipped with secondary surveillance radar by means of a code transmitted by a radar transponder, e.g. in mode 3/A, fitted on the medical transports.

The code transmitted by the medical transport transponder should be assigned to that transport by the competent authorities and notified to all the Parties to the conflict.

3. It should be possible for medical transports to be identified by submarines by the appropriate underwater acoustic signals transmitted by the medical transports.

The underwater acoustic signal shall consist of the call sign (or any other recognized means of identification of medical transport) of the ship preceded by the single group YYY transmitted in morse on an appropriate acoustic frequency, e.g. 5kHz.

Parties to a conflict wishing to use the underwater acoustic identification signal described above shall inform the Parties concerned of the signal as soon as possible, and shall, when notifying the use of their hospital ships, confirm the frequency to be employed.

4. Parties to a conflict may, by special agreement between them, establish for their use a similar electronic system for the identification of medical vehicles, and medical ships and craft.

CHAPTER IV. COMMUNICATIONS

Article 10. Radiocommunications

1. The urgency signal and the distinctive signal provided for in Article 8 may precede appropriate radiocommunications by medical units and transports in the application of the procedures carried out under Articles 22, 23 and 25 to 31 of the Protocol.

2. The medical transports referred to in Articles 40 (Section II, No. 3209) and N 40 (Section III, No. 3214) of the ITU Radio Regulations may also transmit their communications by satellite systems, in accordance with the provisions of Articles 37, N 37 and 59 of the ITU Radio Regulations for the Mobile-Satellite Services.

Article 11. Use of international codes

Medical units and transports may also use the codes and signals laid down by the International Telecommunication Union, the International Civil Aviation Organization and the International Maritime Organization. These codes and signals shall be used in accordance with the standards, practices and procedures established by these Organizations.

Article 12. Other means of communication

When two-way radiocommunication is not possible, the signals provided for in the International Code of Signals adopted by the International Maritime Organization or in the appropriate Annex to the Chicago Convention on International Civil Aviation of 7 December 1944, as amended from time to time, may be used.

Article 13. Flight plans

The agreements and notifications relating to flight plans provided for in Article 29 of the Protocol shall as far as possible be formulated in accordance with procedures laid down by the International Civil Aviation Organization.

Article 14. Signals and procedures for the interception of medical aircraft

If an intercepting aircraft is used to verify the identity of a medical aircraft in flight or to require it to land in accordance with Articles 30 and 31 of the Protocol, the standard visual and radio interception procedures prescribed by Annex 2 to the Chicago Convention on International Civil Aviation of 7 December 1944, as amended from time to time, should be used by the intercepting and the medical aircraft.

CHAPTER V. CIVIL DEFENCE**Article 15. Identity card**

1. The identity card of the civil defence personnel provided for in Article 66, paragraph 3, of the Protocol is governed by the relevant provisions of Article 2 of these Regulations.
2. The identity card for civil defence personnel may follow the model shown in Figure 3.
3. If civil defence personnel are permitted to carry light individual weapons, an entry to that effect should be made on the card mentioned

Figure 4: Blue triangle on an orange ground

2. It is recommended that:

- a) if the blue triangle is on a flag or armlet or tabard, the ground to the triangle be the orange flag, armlet or tabard;
- b) one of the angles of the triangle be pointed vertically upwards;
- c) no angle of the triangle touch the edge of the orange ground.

3. The international distinctive sign shall be as large as appropriate under the circumstances. The distinctive sign shall, whenever possible, be displayed on flat surfaces or on flags visible from as many directions and from as far away as possible. Subject to the instructions of the competent authority, civil defence personnel shall, as far as possible, wear headgear and clothing bearing the international distinctive sign. At night or when visibility is reduced, the sign may be lighted or illuminated; it may also be made of materials rendering it recognizable by technical means of detection.

CHAPTER VI. WORKS AND INSTALLATIONS CONTAINING DANGEROUS FORCES

Article 17. International special sign

1. The international special sign for works and installations containing dangerous forces, as provided for in Article 56, paragraph 7, of the Protocol, shall be a group of three bright orange circles of equal size, placed on the same axis, the distance between each circle being one radius, in accordance with Figure 5 illustrated below.

2. The sign shall be as large as appropriate under the circumstances. When displayed over an extended surface it may be repeated as often as appropriate under the circumstances. It shall, whenever possible, be displayed on flat surfaces or on flags so as to be visible from as many directions and from as far away as possible.

3. On a flag, the distance between the outer limits of the sign and the adjacent sides of the flag shall be one radius of a circle. The flag shall be rectangular and shall have a white ground.

73. PROTOCOL ADDITIONAL TO THE GENEVA CONVENTIONS OF 12 AUGUST 1949, AND RELATING TO THE PROTECTION OF VICTIMS OF NON-INTERNATIONAL ARMED CONFLICTS (PROTOCOL II)

Done at Geneva on 8 June 1977

Entry into force: 7 December 1978

United Nations, *Treaty Series*, vol. 1125, p. 609; Reg. No. 17513

Preamble

The High Contracting Parties,

Recalling that the humanitarian principles enshrined in Article 3 common to the Geneva Conventions of 12 August 1949, constitute the foundation of respect for the human person in cases of armed conflict not of an international character,

Recalling furthermore that international instruments relating to human rights offer a basic protection to the human person,

Emphasizing the need to ensure a better protection for the victims of those armed conflicts,

Recalling that, in cases not covered by the law in force, the human person remains under the protection of the principles of humanity and the dictates of the public conscience,

Have agreed on the following:

PART I. SCOPE OF THIS PROTOCOL

Article 1. Material field of application

1. This Protocol, which develops and supplements Article 3 common to the Geneva Conventions of 12 August 1949 without modifying its existing conditions of applications, shall apply to all armed conflicts which are not covered by Article 1 of the Protocol Additional to the Geneva Conventions of 12 August 1949, and relating to the Protection of Victims of International Armed Conflicts (Protocol I) and which take place in the territory of a High Contracting Party between its armed forces and dissident armed forces or other organized armed groups which, under responsible command, exercise such control over a part of its territory as to enable them to carry out sustained and concerted military operations and to implement this Protocol.

2. This Protocol shall not apply to situations of internal disturbances and tensions, such as riots, isolated and sporadic acts of violence and other acts of a similar nature, as not being armed conflicts.

Article 2. Personal field of application

1. This Protocol shall be applied without any adverse distinction founded on race, colour, sex, language, religion or belief, political or other opinion, national or social origin, wealth, birth or other status, or on any other similar criteria (hereinafter referred to as "adverse distinction") to all persons affected by an armed conflict as defined in Article 1.

2. At the end of the armed conflict, all the persons who have been deprived of their liberty or whose liberty has been restricted for reasons related to such conflict, as well as those deprived of their liberty or whose liberty is restricted after the conflict for the same reasons, shall enjoy the protection of Articles 5 and 6 until the end of such deprivation or restriction of liberty.

Article 3. Non-intervention

1. Nothing in this Protocol shall be invoked for the purpose of affecting the sovereignty of a State or the responsibility of the government, by all legitimate means, to maintain or re-establish law and order in the State or to defend the national unity and territorial integrity of the State.

2. Nothing in this Protocol shall be invoked as a justification for intervening, directly or indirectly, for any reason whatever, in the armed conflict or in the internal or external affairs of the High Contracting Party in the territory of which that conflict occurs.

PART II. HUMANE TREATMENT

Article 4. Fundamental guarantees

1. All persons who do not take a direct part or who have ceased to take part in hostilities, whether or not their liberty has been restricted, are entitled to respect for their person, honour and convictions and religious practices. They shall in all circumstances be treated humanely, without any adverse distinction. It is prohibited to order that there shall be no survivors.

2. Without prejudice to the generality of the foregoing, the following acts against the persons referred to in paragraph 1 are and shall remain prohibited at any time and in any place whatsoever:

- (a) violence to the life, health and physical or mental well-being of persons, in particular murder as well as cruel treatment such as torture, mutilation or any form of corporal punishment;
- (b) collective punishments;
- (c) taking of hostages;
- (d) acts of terrorism;
- (e) outrages upon personal dignity, in particular humiliating and degrading treatment, rape, enforced prostitution and any form of indecent assault;
- (f) slavery and the slave trade in all their forms;
- (g) pillage;
- (h) threats to commit any of the foregoing acts.

3. Children shall be provided with the care and aid they require, and in particular:

- (a) they shall receive an education, including religious and moral education, in keeping with the wishes of their parents, or in the absence of parents, of those responsible for their care;
- (b) all appropriate steps shall be taken to facilitate the reunion of families temporarily separated;
- (c) children who have not attained the age of fifteen years shall neither be recruited in the armed forces or groups nor allowed to take part in hostilities;
- (d) the special protection provided by this Article to children who have not attained the age of fifteen years shall remain applicable to them if they take a direct part in hostilities despite the provisions of sub-paragraph (c) and are captured;
- (e) measures shall be taken, if necessary, and whenever possible with the consent of their parents or persons who by law or custom are primarily responsible for their care, to remove children temporarily from the area in which hostilities are taking place to a safer area within the country and ensure that they are accompanied by persons responsible for their safety and well-being.

Article 5. Persons whose liberty has been restricted

1. In addition to the provisions of Article 4, the following provisions shall be respected as a minimum with regard to persons deprived of their liberty for reasons related to the armed conflict, whether they are interned or detained:

- (a) the wounded and the sick shall be treated in accordance with Article 7;
- (b) the persons referred to in this paragraph shall, to the same extent as the local civilian population, be provided with food and drinking water and be afforded safeguards as regards health and hygiene and protection against the rigours of the climate and the dangers of the armed conflict;
- (c) they shall be allowed to receive individual or collective relief;

(d) they shall be allowed to practise their religion and, if requested and appropriate, to receive spiritual assistance from persons, such as chaplains, performing religious functions;

(e) they shall, if made to work, have the benefit of working conditions and safeguards similar to those enjoyed by the local civilian population.

2. Those who are responsible for the internment or detention of the persons referred to in paragraph 1 shall also, within the limits of their capabilities, respect the following provisions relating to such persons:

(a) except when men and women of a family are accommodated together, women shall be held in quarters separated from those of men and shall be under the immediate supervision of women;

(b) they shall be allowed to send and receive letters and cards, the number of which may be limited by competent authority if it deems necessary;

(c) places of internment and detention shall not be located close to the combat zone. The persons referred to in paragraph 1 shall be evacuated when the places where they are interned or detained become particularly exposed to danger arising out of the armed conflict, if their evacuation can be carried out under adequate conditions of safety;

(d) they shall have the benefit of medical examinations;

(e) their physical or mental health and integrity shall not be endangered by any unjustified act or omission. Accordingly, it is prohibited to subject the persons described in this Article to any medical procedure which is not indicated by the state of health of the person concerned, and which is not consistent with the generally accepted medical standards applied to free persons under similar medical circumstances.

3. Persons who are not covered by paragraph 1 but whose liberty has been restricted in any way whatsoever for reasons related to the armed conflict shall be treated humanely in accordance with Article 4 and with paragraphs 1 (a), (c) and (d), and 2 (b) of this Article.

4. If it is decided to release persons deprived of their liberty, necessary measures to ensure their safety shall be taken by those so deciding.

Article 6. Penal prosecutions

1. This Article applies to the prosecution and punishment of criminal offences related to the armed conflict.

2. No sentence shall be passed and no penalty shall be executed on a person found guilty of an offence except pursuant to a conviction pronounced by a court offering the essential guarantees of independence and impartiality. In particular:

(a) the procedure shall provide for an accused to be informed without delay of the particulars of the offence alleged against him and shall afford the accused before and during his trial all necessary rights and means of defence;

(b) no one shall be convicted of an offence except on the basis of individual penal responsibility;

(c) no one shall be held guilty of any criminal offence on account of any act or omission which did not constitute a criminal offence, under the law, at the time when it was committed; nor shall a heavier penalty be imposed than that which was applicable at the time when the criminal offence was committed; if, after the commission of the offence, provision is made by law for the imposition of a lighter penalty, the offender shall benefit thereby;

(d) anyone charged with an offence is presumed innocent until proved guilty according to law;

(e) anyone charged with an offence shall have the right to be tried in his presence;

(f) no one shall be compelled to testify against himself or to confess guilt.

3. A convicted person shall be advised on conviction of his judicial and other remedies and of the time-limits within which they may be exercised.

4. The death penalty shall not be pronounced on persons who were under the age of eighteen years at the time of the offence and shall not be carried out on pregnant women or mothers of young children.

5. At the end of hostilities, the authorities in power shall endeavour to grant the broadest possible amnesty to persons who have participated in the armed conflict, or those deprived of their liberty for reasons related to the armed conflict, whether they are interned or detained.

PART III. WOUNDED, SICK AND SHIPWRECKED

Article 7. Protection and care

1. All the wounded, sick and shipwrecked, whether or not they have taken part in the armed conflict, shall be respected and protected.

2. In all circumstances they shall be treated humanely and shall receive, to the fullest extent practicable and with the least possible delay, the medical care and attention required by their condition. There shall be no distinction among them founded on any grounds other than medical ones.

Article 8. Search

Whenever circumstances permit, and particularly after an engagement, all possible measures shall be taken, without delay, to search for and collect the wounded, sick and shipwrecked, to protect them against pillage and ill-treatment, to ensure their adequate care, and to search for the dead, prevent their being despoiled, and decently dispose of them.

Article 9. Protection of medical and religious personnel

1. Medical and religious personnel shall be respected and protected and shall be granted all available help for the performance of their duties. They shall not be compelled to carry out tasks which are not compatible with their humanitarian mission.

2. In the performance of their duties medical personnel may not be required to give priority to any person except on medical grounds.

Article 10. General protection of medical duties

1. Under no circumstances shall any person be punished for having carried out medical activities compatible with medical ethics, regardless of the person benefiting therefrom.

2. Persons engaged in medical activities shall neither be compelled to perform acts or to carry out work contrary to, nor be compelled to refrain from acts required by, the rules of medical ethics or other rules designed for the benefit of the wounded and sick, or this Protocol.

3. The professional obligations of persons engaged in medical activities regarding information which they may acquire concerning the wounded and sick under their care shall, subject to national law, be respected.

4. Subject to national law, no person engaged in medical activities may be penalized in any way for refusing or failing to give information concerning the wounded and sick who are, or who have been, under his care.

Article 11. Protection of medical units and transports

1. Medical units and transports shall be respected and protected at all times and shall not be the object of attack.

2. The protection to which medical units and transports are entitled shall not cease unless they are used to commit hostile acts, outside their humanitarian function. Protection may, however,

cease only after a warning has been given setting, whenever appropriate, a reasonable time-limit, and after such warning has remained unheeded.

Article 12. The distinctive emblem

Under the direction of the competent authority concerned, the distinctive emblem of the red cross, red crescent or red lion and sun on a white ground shall be displayed by medical and religious personnel and medical units, and on medical transports. It shall be respected in all circumstances. It shall not be used improperly.

PART IV. CIVILIAN POPULATION

Article 13. Protection of the civilian population

1. The civilian population and individual civilians shall enjoy general protection against the dangers arising from military operations. To give effect to this protection, the following rules shall be observed in all circumstances.

2. The civilian population as such, as well as individual civilians, shall not be the object of attack. Acts or threats of violence the primary purpose of which is to spread terror among the civilian population are prohibited.

3. Civilians shall enjoy the protection afforded by this Part, unless and for such time as they take a direct part in hostilities.

Article 14. Protection of objects indispensable to the survival of the civilian population

Starvation of civilians as a method of combat is prohibited. It is therefore prohibited to attack, destroy, remove or render useless, for that purpose, objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works.

Article 15. Protection of works and installations containing dangerous forces

Works or installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, shall not be made the object of attack, even where these objects are military objectives, if such attack may cause the release of dangerous forces and consequent severe losses among the civilian population.

Article 16. Protection of cultural objects and of places of worship

Without prejudice to the provisions of the Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict of 14 May 1954, it is prohibited to commit any acts of hostility directed against historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples, and to use them in support of the military effort.

Article 17. Prohibition of forced movement of civilians

1. The displacement of the civilian population shall not be ordered for reasons related to the conflict unless the security of the civilians involved or imperative military reasons so demand. Should such displacements have to be carried out, all possible measures shall be taken in order that the civilian population may be received under satisfactory conditions of shelter, hygiene, health, safety and nutrition.

2. Civilians shall not be compelled to leave their own territory for reasons connected with the conflict.

Article 18. Relief societies and relief actions

1. Relief societies located in the territory of the High Contracting Party, such as Red Cross (Red Crescent, Red Lion and Sun) organizations, may offer their services for the performance of their traditional functions in relation to the victims of the armed conflict. The civilian population may, even on its own initiative, offer to collect and care for the wounded, sick and shipwrecked.

2. If the civilian population is suffering undue hardship owing to a lack of the supplies essential for its survival, such as foodstuffs and medical supplies, relief actions for the civilian population which are of an exclusively humanitarian and impartial nature and which are conducted without any adverse distinction shall be undertaken subject to the consent of the High Contracting Party concerned.

United Nations, *Treaty Series*, vol. 2404, p. 261; Reg. No. 43425

PREAMBLE

The High Contracting Parties,

(PP1) *Reaffirming* the provisions of the Geneva Conventions of 12 August 1949 (in particular Articles 26, 38, 42 and 44 of the First Geneva Convention) and, where applicable, their Additional Protocols of 8 June 1977 (in particular Articles 18 and 38 of Additional Protocol I and Article 12 of Additional Protocol II), concerning the use of distinctive emblems,

(PP2) *Desiring* to supplement the aforementioned provisions so as to enhance their protective value and universal character,

(PP3) *Noting* that this Protocol is without prejudice to the recognized right of High Contracting Parties to continue to use the emblems they are using in conformity with their obligations under the Geneva Conventions and, where applicable, the Protocols additional thereto,

(PP4) *Recalling* that the obligation to respect persons and objects protected by the Geneva Conventions and the Protocols additional thereto derives from their protected status under international law and is not dependent on use of the distinctive emblems, signs or signals,

(PP5) Stressing that the distinctive emblems are not intended to have any religious, ethnic, racial, regional or political significance,

(PP6) *Emphasizing* the importance of ensuring full respect for the obligations relating to the distinctive emblems recognized in the Geneva Conventions, and, where applicable, the Protocols additional thereto,

(PP7) *Recalling* that Article 44 of the First Geneva Convention makes the distinction between the protective use and the indicative use of the distinctive emblems,

(PP8) *Recalling* further that National Societies undertaking activities on the territory of another State must ensure that the emblems they intend to use within the framework of such activities may be used in the country where the activity takes place and in the country or countries of transit,

(PP9) *Recognizing* the difficulties that certain States and National Societies may have with the use of the existing distinctive emblems,

(PP10) *Noting* the determination of the International Committee of the Red Cross, the International Federation of Red Cross and Red Crescent Societies and the International Red Cross and Red Crescent Movement to retain their current names and emblems,

Have agreed on the following:

Article 1. Respect for and scope of application of this Protocol

1. The High Contracting Parties undertake to respect and to ensure respect for this Protocol in all circumstances.

2. This Protocol reaffirms and supplements the provisions of the four Geneva Conventions of 12 August 1949 ("the Geneva Conventions") and, where applicable, of their two Additional Protocols of 8 June 1977 ("the 1977 Additional Protocols") relating to the distinctive emblems, namely the red cross, the red crescent and the red lion and sun, and shall apply in the same situations as those referred to in these provisions.

Article 2. Distinctive emblems

1. This Protocol recognizes an additional distinctive emblem in addition to, and for the same purposes as, the distinctive emblems of the Geneva Conventions. The distinctive emblems shall enjoy equal status.

2. This additional distinctive emblem, composed of a red frame in the shape of a square on edge on a white ground, shall conform to the illustration in the Annex to this Protocol. This distinctive emblem is referred to in this Protocol as the "third Protocol emblem".

3. The conditions for use of and respect for the third Protocol emblem are identical to those for the distinctive emblems established by the Geneva Conventions and, where applicable, the 1977 Additional Protocols.

4. The medical services and religious personnel of armed forces of High Contracting Parties may, without prejudice to their current emblems, make temporary use of any distinctive emblem referred to in paragraph 1 of this Article where this may enhance protection.

Article 3. Indicative use of the third Protocol emblem

1. National Societies of those High Contracting Parties which decide to use the third Protocol emblem may, in using the emblem in conformity with relevant national legislation, choose to incorporate within it, for indicative purposes:

(a) a distinctive emblem recognized by the Geneva Conventions or a combination of these emblems; or

(b) another emblem which has been in effective use by a High Contracting Party and was the subject of a communication to the other High Contracting Parties and the International Committee of the Red Cross through the depositary prior to the adoption of this Protocol.

Incorporation shall conform to the illustration in the Annex to this Protocol.

2. A National Society which chooses to incorporate within the third Protocol emblem another emblem in accordance with paragraph 1 above, may, in conformity with national legislation, use the designation of that emblem and display it within its national territory.

3. National Societies may, in accordance with national legislation and in exceptional circumstances and to facilitate their work, make temporary use of the distinctive emblem referred to in Article 2 of this Protocol.

4. This Article does not affect the legal status of the distinctive emblems recognized in the Geneva Conventions and in this Protocol, nor does it affect the legal status of any particular emblem when incorporated for indicative purposes in accordance with paragraph 1 of this Article.

Article 4. International Committee of the Red Cross and International Federation of Red Cross and Red Crescent Societies

The International Committee of the Red Cross and the International Federation of Red Cross and Red Crescent Societies, and their duly authorized personnel, may use, in exceptional circumstances and to facilitate their work, the distinctive emblem referred to in Article 2 of this Protocol.

Article 5. Missions under United Nations auspices

The medical services and religious personnel participating in operations under the auspices of the United Nations may, with the agreement of participating States, use one of the distinctive emblems mentioned in Articles 1 and 2.

Article 6. Prevention and repression of misuse

1. The provisions of the Geneva Conventions and, where applicable, the 1977 Additional Protocols, governing prevention and repression of misuse of the distinctive emblems shall apply equally to the third Protocol emblem. In particular, the High Contracting Parties shall take measures necessary for the prevention and repression, at all times, of any misuse of the distinctive emblems mentioned in Articles 1 and 2 and their designations, including the perfidious use and the use of any sign or designation constituting an imitation thereof.

2. Notwithstanding paragraph 1 above, High Contracting Parties may permit prior users of the third Protocol emblem, or of any sign constituting an imitation thereof, to continue such use, provided that the said use shall not be such as would appear, in time of armed conflict, to confer the protection of the Geneva Conventions and, where applicable, the 1977 Additional Protocols, and provided that the rights to such use were acquired before the adoption of this Protocol.

Article 7. Dissemination

The High Contracting Parties undertake, in time of peace as in time of armed conflict, to disseminate this Protocol as widely as possible in their respective countries and, in particular, to include the study thereof in their programmes of military instruction and to encourage the study thereof by the civilian population, so that this instrument may become known to the armed forces and to the civilian population.

Article 8. Signature

This Protocol shall be open for signature by the Parties to the Geneva Conventions on the day of its adoption and will remain open for a period of twelve months.

Article 9. Ratification

This Protocol shall be ratified as soon as possible. The instruments of ratification shall be deposited with the Swiss Federal Council, depositary of the Geneva Conventions and the 1977 Additional Protocols.

Article 10. Accession

This Protocol shall be open for accession by any Party to the Geneva Conventions which has not signed it. The instruments of accession shall be deposited with the depositary.

Article 11. Entry into force

1. This Protocol shall enter into force six months after two instruments of ratification or accession have been deposited.

2. For each Party to the Geneva Conventions thereafter ratifying or acceding to this Protocol, it shall enter into force six months after the deposit by such Party of its instrument of ratification or accession.

Article 12. Treaty relations upon entry into force of this Protocol

1. When the Parties to the Geneva Conventions are also Parties to this Protocol, the Conventions shall apply as supplemented by this Protocol.

2. When one of the Parties to the conflict is not bound by this Protocol, the Parties to the Protocol shall remain bound by it in their mutual relations. They shall furthermore be bound by this Protocol in relation to each of the Parties which are not bound by it, if the latter accepts and applies the provisions thereof.

Article 13. Amendment

1. Any High Contracting Party may propose amendments to this Protocol. The text of any proposed amendment shall be communicated to the depositary, which shall decide, after consultation with all the High Contracting Parties, the International Committee of the Red Cross and the International Federation of Red Cross and Red Crescent Societies, whether a conference should be convened to consider the proposed amendment.

2. The depositary shall invite to that conference all the High Contracting Parties as well as the Parties to the Geneva Conventions, whether or not they are signatories of this Protocol.

Article 14. Denunciation

1. In case a High Contracting Party should denounce this Protocol, the denunciation shall only take effect one year after receipt of the instrument of denunciation. If, however, on the expiry of that year the denouncing Party is engaged in a situation of armed conflict or occupation, the denunciation shall not take effect before the end of the armed conflict or occupation.

2. The denunciation shall be notified in writing to the depositary, which shall transmit it to all the High Contracting Parties.

3. The denunciation shall have effect only in respect of the denouncing Party.

4. Any denunciation under paragraph 1 shall not affect the obligations already incurred, by reason of the armed conflict or occupation, under this Protocol by such denouncing Party in respect of any act committed before this denunciation becomes effective.

Article 15. Notifications

The depositary shall inform the High Contracting Parties as well as the Parties to the Geneva Conventions, whether or not they are signatories of this Protocol, of:

75. CONVENTION ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF CERTAIN CONVENTIONAL WEAPONS WHICH MAY BE DEEMED TO BE EXCESSIVELY INJURIOUS OR TO HAVE INDISCRIMINATE EFFECTS

Done at Geneva on 10 October 1980

Entry into force: 2 December 1983

United Nations, *Treaty Series*, vol. 1342, p. 137; Reg. No. 22495

The High Contracting Parties,

Recalling that every State has the duty, in conformity with the Charter of the United Nations, to refrain in its international relations from the threat or use of force against the sovereignty, territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the United Nations,

Further recalling the general principle of the protection of the civilian population against the effects of hostilities,

Basing themselves on the principle of international law that the right of the parties to an armed conflict to choose methods or means of warfare is not unlimited, and on the principle that prohibits the employment in armed conflicts of weapons, projectiles and material and methods of warfare of a nature to cause superfluous injury or unnecessary suffering,

Also recalling that it is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment,

Confirming their determination that in cases not covered by this Convention and its annexed Protocols or by other international agreements, the civilian population and the combatants shall at all times remain under the protection and authority of the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience,

Desiring to contribute to international détente, the ending of the arms race and the building of confidence among States, and hence to the realization of the aspiration of all peoples to live in peace,

Recognizing the importance of pursuing every effort which may contribute to progress towards general and complete disarmament under strict and effective international control,

Reaffirming the need to continue the codification and progressive development of the rules of international law applicable in armed conflict,

Wishing to prohibit or restrict further the use of certain conventional weapons and believing that the positive results achieved in this area may facilitate the main talks on disarmament with a view to putting an end to the production, stockpiling and proliferation of such weapons,

Emphasizing the desirability that all States become parties to this Convention and its annexed Protocols, especially the militarily significant States,

Bearing in mind that the General Assembly of the United Nations and the United Nations Disarmament Commission may decide to examine the question of a possible broadening of the scope of the prohibitions and restrictions contained in this Convention and its annexed Protocols,

Further bearing in mind that the Committee on Disarmament may decide to consider the question of adopting further measures to prohibit or restrict the use of certain conventional weapons,

Have agreed as follows:

Article 1. Scope of application

This Convention and its annexed Protocols shall apply in the situations referred to in Article 2 common to the Geneva Conventions of 12 August 1949 for the Protection of War Victims, including any situation described in paragraph 4 of Article 1 of Additional Protocol I to these Conventions.

Article 2. Relations with other international agreements

Nothing in this Convention or its annexed Protocols shall be interpreted as detracting from other obligations imposed upon the High Contracting Parties by international humanitarian law applicable in armed conflict.

Article 3. Signature

This Convention shall be open for signature by all States at United Nations Headquarters in New York for a period of twelve months from 10 April 1981.

Article 4. Ratification, acceptance, approval or accession

2. The instruments of ratification, acceptance, approval or accession shall be deposited with the Depositary.

3. Expressions of consent to be bound by any of the Protocols annexed to this Convention shall be optional for each State, provided that at the time of the deposit of its instrument of ratification, acceptance or approval of this Convention or of accession thereto, that State shall notify the Depositary of its consent to be bound by any two or more of these Protocols.

4. At any time after the deposit of its instrument of ratification, acceptance or approval of this Convention or of accession thereto, a State may notify the Depositary of its consent to be bound by any annexed Protocol by which it is not already bound.

2. For any State which deposits its instrument of ratification, acceptance, approval or accession after the date of the deposit of the twentieth instrument of ratification, acceptance, approval or accession, this Convention shall enter into force six months after the date on which that State has deposited its instrument of ratification, acceptance, approval or accession.

3. Each of the Protocols annexed to this Convention shall enter into force six months after the date by which twenty States have notified their consent to be bound by it in accordance with paragraph 3 or 4 of Article 4 of this Convention.

4. For any State which notifies its consent to be bound by a Protocol annexed to this Convention after the date by which twenty States have notified their consent to be bound by it, the Protocol shall enter into force six months after the date on which that State has notified its consent so to be bound.

Article 6. Dissemination

The High Contracting Parties undertake, in time of peace as in time of armed conflict, to disseminate this Convention and those of its annexed Protocols by which they are bound as widely as possible in their respective countries and, in particular, to include the study thereof in their programmes of military instruction, so that those instruments may become known to their armed forces.

Article 7. Treaty relations upon entry into force of this Convention

1. When one of the parties to a conflict is not bound by an annexed Protocol, the parties bound by this Convention and that annexed Protocol shall remain bound by them in their mutual relations.

2. Any High Contracting Party shall be bound by this Convention and any Protocol annexed thereto which is in force for it, in any situation contemplated by Article 1, in relation to any State

which is not a party to this Convention or bound by the relevant annexed Protocol, if the latter accepts and applies this Convention or the relevant Protocol, and so notifies the Depositary.

3. The Depositary shall immediately inform the High Contracting Parties concerned of any notification received under paragraph 2 of this Article.

4. This Convention, and the annexed Protocols by which a High Contracting Party is bound, shall apply with respect to an armed conflict against that High Contracting Party of the type referred to in Article 1, paragraph 4, of Additional Protocol I to the Geneva Convention of 12 August 1949 for the Protection of War Victims:

(a) Where the High Contracting Party is also a party to Additional Protocol I and an authority referred to in Article 96, paragraph 3, of that Protocol has undertaken to apply the Geneva Conventions and Additional Protocol I in accordance with Article 96, paragraph 3, of the said Protocol, and undertakes to apply this Convention and the relevant annexed Protocols in relation to that conflict; or

Such an acceptance and application shall have in relation to that conflict the following effects:

- (i) The Geneva Conventions and this Convention and its relevant annexed Protocols are brought into force for the parties to the conflict with immediate effect;
- (ii) The said authority assumes the same rights and obligations as those which have been assumed by a High Contracting Party to the Geneva Conventions, this Convention and its relevant annexed Protocols; and

The High Contracting Party and the authority may also agree to accept and apply the obligations of Additional Protocol I to the Geneva Conventions on a reciprocal basis.

Article 8. Review and amendments

1. (a) At any time after the entry into force of this Convention any High Contracting Party may propose amendments to this Convention or any annexed Protocol by which it is bound. If a majority, that shall not be less than eighteen of the High Contracting Parties so agree, he shall promptly convene a conference to which all High Contracting Parties shall be invited. States not parties to this Convention shall be invited to the conference as observers.

(b) Such a conference may agree upon amendments which shall be adopted and shall enter into force in the same manner as this Convention and the annexed Protocols, provided that amendments to this Convention may be adopted only by the High Contracting Parties and that amendments to a specific annexed Protocol may be adopted only by the High Contracting Parties which are bound by that Protocol.

3. (a) If, after a period of ten years following the entry into force of this Convention, no conference has been convened in accordance with subparagraph 1 (a) or 2 (a) of this Article, any High Contracting Party may request the Depositary to convene a conference to which all High Contracting Parties shall be invited to review the scope and operation of this Convention and the Protocols annexed thereto and to consider any proposal for amendments of this Convention or of the existing Protocols. States not parties to this Convention shall be invited as observers to the conference. The conference may agree upon amendments which shall be adopted and enter into force in accordance with subparagraph 1 (b) above.

Article 9. Denunciation

1. Any High Contracting Party may denounce this Convention or any of its annexed Protocols by so notifying the Depositary.

2. Any such denunciation shall only take effect one year after receipt by the Depositary of the notification of denunciation. If, however, on the expiry of that year the denouncing High Contracting Party is engaged in one of the situations referred to in Article 1, the Party shall continue to be bound by the obligations of this Convention and of the relevant annexed Protocols until the end of the armed conflict or occupation and, in any case, until the termination of operations connected with the final release, repatriation or re-establishment of the persons protected by the rules of international law applicable in armed conflict, and in the case of any annexed Protocol containing provisions concerning situations in which peace-keeping, observation or similar functions are performed by United Nations forces or missions in the area concerned, until the termination of those functions.

3. Any denunciation of this Convention shall be considered as also applying to all annexed Protocols by which the denouncing High Contracting Party is bound.

4. Any denunciation shall have effect only in respect of the denouncing High Contracting Party.

5. Any denunciation shall not affect the obligations already incurred, by reason of an armed conflict, under this Convention and its annexed Protocols by such denouncing High Contracting Party in respect of any act committed before this denunciation becomes effective.

75.(b) PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES, BOOBY-TRAPS AND OTHER DEVICES (PROTOCOL II)

Done at Geneva on 10 October 1980

Article 1. Material scope of application

This Protocol relates to the use on land of the mines, booby-traps and other devices defined herein, including mines laid to interdict beaches, waterway crossings or river crossings, but does not apply to the use of anti-ship mines at sea or in inland waterways.

Article 2. Definitions

For the purpose of this Protocol;

1. "Mine" means any munition placed under, on or near the ground or other surface area and designed to be detonated or exploded by the presence, proximity or contact of a person or vehicle, and "remotely delivered mine" means any mine so defined delivered by artillery, rocket, mortar or similar means or dropped from an aircraft.

2. "Booby-trap" means any device or material which is designed, constructed or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act.

3. "Other devices" means manually-emplaced munitions and devices designed to kill, injure or damage and which are actuated by remote control or automatically after a lapse of time.

4. "Military objective" means, so far as objects are concerned, any object which by its nature, location, purpose or use makes an effective contribution to military action and whose total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.

5. "Civilian objects" are all objects which are not military objectives as defined in paragraph 4.

6. "Recording" means a physical, administrative and technical operation designed to obtain, for the purpose of registration in the official records, all available information facilitating the location of minefields, mines and booby-traps.

Article 3. General restrictions on the use of mines, booby-traps and other devices

- (a) Mines;
- (b) Booby-traps; and

2. It is prohibited in all circumstances to direct weapons to which this Article applies, either in offence, defence or by way of reprisals, against the civilian population as such or against individual civilians.

3. The indiscriminate use of weapons to which this Article applies is prohibited. Indiscriminate use is any placement of such weapons:

- (a) Which is not on, or directed against, a military objective; or
- (b) Which employs a method or means of delivery which cannot be directed at a specific military objective; or
- (c) Which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.

4. All feasible precautions shall be taken to protect civilians from the effects of weapons to which this Article applies. Feasible precautions are those precautions which are practicable or practically possible taking into account all circumstances ruling at the time, including humanitarian and military considerations.

Article 4. Restrictions on the use of mines other than remotely delivered mines, booby-traps and other devices in populated areas

1. This Article applies to:

- (a) Mines other than remotely delivered mines;
- (b) Booby-traps; and
- (c) Other devices.

2. It is prohibited to use weapons to which this Article applies in any city, town, village or other area containing a similar concentration of civilians in which combat between ground forces is not taking place or does not appear to be imminent, unless either:

- (a) They are placed on or in the close vicinity of a military objective belonging to or under the control of an adverse party; or
- (b) Measures are taken to protect civilians from their effects, for example, the posting of warning signs, the posting of sentries, the issue of warnings or the provision of fences.

Article 5. Restrictions on the use of remotely delivered mines

1. The use of remotely delivered mines is prohibited unless such mines are only used within an area which is itself a military objective or which contains military objectives, and unless:

(a) Their location can be accurately recorded in accordance with Article 7(1) (a); or

(b) An effective neutralizing mechanism is used on each such mine, that is to say, a self-actuating mechanism which is designed to render a mine harmless or cause it to destroy itself when it is anticipated that the mine will no longer serve the military purpose for which it was placed in position, or a remotely-controlled mechanism which is designed to render harmless or destroy a mine when the mine no longer serves the military purpose for which it was placed in position.

2. Effective advance warning shall be given of any delivery or dropping of remotely delivered mines which may affect the civilian population, unless circumstances do not permit.

Article 6. Prohibition on the use of certain booby-traps

1. Without prejudice to the rules of international law applicable in armed conflict relating to treachery and perfidy, it is prohibited in all circumstances to use;

(a) Any booby-trap in the form of an apparently harmless portable object which is specifically designed and constructed to contain explosive material and to detonate when it is disturbed or approached, or

(b) Booby-traps which are in any way attached to or associated with:

(i) Internationally recognized protective emblems, signs or signals;

(ii) Sick, wounded or dead persons;

(iii) Burial or cremation sites or graves;

(x) Animals or their carcasses.

2. It is prohibited in all circumstances to use any booby-trap which is designed to cause superfluous injury or unnecessary suffering.

Article 7. Recording and publication of the location of minefields, mines and booby-traps

1. The parties to a conflict shall record the location of;

(a) All pre-planned minefields laid by them; and

(b) All areas in which they have made large-scale and pre-planned use of booby-traps.

2. The parties shall endeavour to ensure the recording of the location of all other minefields, mines and booby-traps which they have laid or placed in position.

3. All such records shall be retained by the parties who shall:

(a) Immediately after the cessation of active hostilities:

(i) Take all necessary and appropriate measures, including the use of such records, to protect civilians from the effects of minefields, mines and booby-traps; and either

(ii) In cases where the forces of neither party are in the territory of the adverse party, make available to each other and to the Secretary-General of the United Nations

all information in their possession concerning the location of minefields, mines and booby-traps in the territory of the adverse party; or

- (iii) Once complete withdrawal of the forces of the parties from the territory of the adverse party has taken place, make available to the adverse party and to the Secretary-General of the United Nations all information in their possession concerning the location of minefields, mines and booby-traps in the territory of the adverse party;

(b) When a United Nations force or mission performs functions in any area, make available to the authority mentioned in Article 8 such information as is required by that Article;

(c) Whenever possible, by mutual agreement, provide for the release of information concerning the location of minefields, mines and booby-traps, particularly in agreements governing the cessation of hostilities.

Article 8. Protection of United Nations forces and missions from the effects of minefields, mines and booby-traps

1. When a United Nations force or mission performs functions of peace-keeping, observation or similar functions in any area, each party to the conflict shall, if requested by the head of the United Nations force or mission in that area, as far as it is able:

- (a) Remove or render harmless all mines or booby-traps in that area;
- (b) Take such measures as may be necessary to protect the force or mission from the effects of minefields, mines and booby-traps while carrying out its duties; and
- (c) Make available to the head of the United Nations force or mission in that area, all information in the party's possession concerning the location of minefields, mines and booby-traps in that area.

2. When a United Nations fact-finding mission performs functions in any area, any party to the conflict concerned shall provide protection to that mission except where, because of the size of such mission, it cannot adequately provide such protection. In that case it shall make available to the head of the mission the information in its possession concerning the location of minefields, mines and booby-traps in that area.

Article 9. International co-operation in the removal of minefields, mines and booby-traps

After the cessation of active hostilities, the parties shall endeavour to reach agreement, both among themselves and, where appropriate, with other States and with international organizations, on the provision of information and technical and material assistance — including, in appropriate circumstances, joint operations — necessary to remove or otherwise render ineffective minefields, mines and booby-traps placed in position during the conflict.

TECHNICAL ANNEX TO THE PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES, BOOBY-TRAPS AND OTHER DEVICES (PROTOCOL II)

Guidelines on Recording

Whenever an obligation for the recording of the location of minefields, mines and booby-traps arises under the Protocol, the following guidelines shall be taken into account.

- 1. With regard to pre-planned minefields and large-scale and pre-planned use of booby-traps:
 - (a) Maps, diagrams or other records should be made in such a way as to indicate the extent of the minefield or booby-trapped area; and
 - (b) The location of the minefield or booby-trapped area should be specified by relation to the co-ordinates of a single reference point and by the estimated dimensions of the area containing mines and booby-traps in relation to that single reference point.

- 2. With regard to other minefields, mines and booby-traps laid or placed in position:

In so far as possible, the relevant information specified in paragraph 1 above should be recorded so as to enable the areas containing minefields, mines and booby-traps to be identified.

75.(c) PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF INCENDIARY WEAPONS (PROTOCOL III)

Done at Geneva on 10 October 1980

(a) Incendiary weapons can take the form of, for example, flame throwers, fougasses, shells, rockets, grenades, mines, bombs and other containers of incendiary substances.

(b) Incendiary weapons do not include:

- (i) Munitions which may have incidental incendiary effects, such as illuminants, tracers, smoke or signalling systems;
- (ii) Munitions designed to combine penetration, blast or fragmentation effects with an additional incendiary effect, such as armour-piercing projectiles, fragmentation shells, explosive bombs and similar combined-effects munitions in which the incendiary effect is not specifically designed to cause burn injury to persons, but to be used against military objectives, such as armoured vehicles, aircraft and installations or facilities.

2. "Concentration of civilians" means any concentration of civilians, be it permanent or temporary, such as in inhabited parts of cities, or inhabited towns or villages, or as in camps or columns of refugees or evacuees, or groups of nomads.

3. 4. "Civilian objects" are all objects which are not military objectives as defined in paragraph 3.

5. "Feasible precautions" are those precautions which are practicable or practically possible taking into account all circumstances ruling at the time, including humanitarian and military considerations.

Article 2. Protection of civilians and civilian objects

1. It is prohibited in all circumstances to make the civilian population as such, individual civilians or civilian objects the object of attack by incendiary weapons.

2. It is prohibited in all circumstances to make any military objective located within a concentration of civilians the object of attack by air-delivered incendiary weapons.

3. It is further prohibited to make any military objective located within a concentration of civilians the object of attack by means of incendiary weapons other than air-delivered incendiary weapons, except when such military objective is clearly separated from the concentration of civilians and all feasible precautions are taken with a view to limiting the incendiary effects to the military

objective and to avoiding, and in any event to minimizing, incidental loss of civilian life, injury to civilians and damage to civilian objects.

4. It is prohibited to make forests or other kinds of plant cover the object of attack by incendiary weapons except when such natural elements are used to cover, conceal or camouflage combatants or other military objectives, or are themselves military objectives.

7. “Civilian objects” are all objects which are not military objectives as defined in paragraph 6 of this Article.

8. “Minefield” is a defined area in which mines have been emplaced and “mined area” is an area which is dangerous due to the presence of mines. “Phoney minefield” means an area free of mines that simulates a minefield. The term “minefield” includes phoney mine fields.

Article 3. General restrictions on the use of mines, booby-traps and other devices

1. This Article applies to:

- (a) Mines;
- (b) Booby-traps; and
- (c) Other devices.

2. Each High Contracting Party or party to a conflict is, in accordance with the provisions of this Protocol, responsible for all mines, booby-traps, and other devices employed by it and undertakes to clear, remove, destroy or maintain them as specified in Article 10 of this Protocol.

3. It is prohibited in all circumstances to use any mine, booby-trap or other device which is designed or of a nature to cause superfluous injury or unnecessary suffering.

4. Weapons to which this Article applies shall strictly comply with the standards and limitations specified in the Technical Annex with respect to each particular category.

5. It is prohibited to use mines, booby-traps or other devices which employ a mechanism or device specifically designed to detonate the munition by the presence of commonly available mine detectors as a result of their magnetic or other non-contact influence during normal use in detection operations.

6. It is prohibited to use a self-deactivating mine equipped with an anti-handling device that is designed in such a manner that the anti-handling device is capable of functioning after the mine has ceased to be capable of functioning.

7. It is prohibited in all circumstances to direct weapons to which this Article applies, either in offence, defence or by way of reprisals, against the civilian population as such or against individual civilians or civilian objects.

8. The indiscriminate use of weapons to which this Article applies is prohibited. Indiscriminate use is any placement of such weapons:

(a) Which is not on, or directed against, a military objective. In case of doubt as to whether an object which is normally dedicated to civilian purposes, such as a place of worship, a house or other dwelling or a school, is being used to make an effective contribution to military action, it shall be presumed not to be so used;

(b) Which employs a method or means of delivery which cannot be directed at a specific military objective; or

(c) Which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.

9. Several clearly separated and distinct military objectives located in a city, town, village or other area containing a similar concentration of civilians or civilian objects are not to be treated as a single military objective.

10. All feasible precautions shall be taken to protect civilians from the effects of weapons to which this Article applies. Feasible precautions are those precautions which are practicable or practically possible taking into account all circumstances ruling at the time, including humanitarian and military considerations. These circumstances include, but are not limited to:

(a) The short- and long-term effect of mines upon the local civilian population, for the duration of the mine field;

(b) Possible measures to protect civilians (for example, fencing, signs, warning and monitoring);

(c) The availability and feasibility of using alternatives; and

(d) The short- and long-term military requirements for a minefield.

11. Effective advance warning shall be given of any emplacement of mines, booby-traps and other devices which may affect the civilian population, unless circumstances do not permit.

Article 4. Restrictions on the use of anti-personnel mines

It is prohibited to use anti-personnel mines which are not detectable, as specified in paragraph 2 of the Technical Annex.

Article 5. Restrictions on the use of anti-personnel mines other than remotely-delivered mines

1. This Article applies to anti-personnel mines other than remotely-delivered mines.

2. It is prohibited to use weapons to which this Article applies which are not in compliance with the provisions on self-destruction and self-deactivation in the Technical Annex, unless:

(a) Such weapons are placed within a perimeter-marked area which is monitored by military personnel and protected by fencing or other means, to ensure the effective exclusion of civilians from the area. The marking must be of a distinct and durable character and must at least be visible to a person who is about to enter the perimeter-marked area; and

(b) Such weapons are cleared before the area is abandoned, unless the area is turned over to the forces of another State which accept responsibility for the maintenance of the protections required by this Article and the subsequent clearance of those weapons.

3. A party to a conflict is relieved from further compliance with the provisions of subparagraphs 2 (a) and 2 (b) of this Article only if such compliance is not feasible due to forcible loss of control of the area as a result of enemy military action, including situations where direct enemy military action makes it impossible to comply. If that party regains control of the area, it shall resume compliance with the provisions of subparagraphs 2 (a) and 2 (b) of this Article.

4. If the forces of a party to a conflict gain control of an area in which weapons to which this Article applies have been laid, such forces shall, to the maximum extent feasible, maintain and, if necessary, establish the protections required by this Article until such weapons have been cleared.

5. All feasible measures shall be taken to prevent the unauthorized removal, defacement, destruction or concealment of any device, system or material used to establish the perimeter of a perimeter-marked area.

6. Weapons to which this Article applies which propel fragments in a horizontal arc of less than 90 degrees and which are placed on or above the ground may be used without the measures provided for in subparagraph 2 (a) of this Article for a maximum period of 72 hours, if:

(a) They are located in immediate proximity to the military unit that emplaced them; and

(b) The area is monitored by military personnel to ensure the effective exclusion of civilians.

Article 6. Restrictions on the use of remotely-delivered mines

1. It is prohibited to use remotely-delivered mines unless they are recorded in accordance with subparagraph 1(b) of the Technical Annex.

2. It is prohibited to use remotely-delivered anti-personnel mines which are not in compliance with the provisions on self-destruction and self-deactivation in the Technical Annex.

3. It is prohibited to use remotely-delivered mines other than anti-personnel mines, unless, to the extent feasible, they are equipped with an effective self-destruction or self-neutralization mechanism and have a back-up self-deactivation feature, which is designed so that the mine will no longer function as a mine when the mine no longer serves the military purpose for which it was placed in position.

4. Effective advance warning shall be given of any delivery or dropping of remotely delivered mines which may affect the civilian population, unless circumstances do not permit.

Article 7. Prohibitions on the use of booby-traps and other devices

1. Without prejudice to the rules of international law applicable in armed conflict relating to treachery and perfidy, it is prohibited in all circumstances to use booby-traps and other devices which are in any way attached to or associated with:

- (a) They are placed on or in the close vicinity of a military objective; or
- (b) Measures are taken to protect civilians from their effects, for example, the posting of warning sentries, the issuing of warnings or the provision of fences.

Article 8. Transfers

1. In order to promote the purposes of this Protocol, each High Contracting Party:

- (a) Undertakes not to transfer any mine the use of which is prohibited by this Protocol;
- (b) Undertakes not to transfer any mine to any recipient other than a State or a State agency authorized to receive such transfers;
- (c) Undertakes to exercise restraint in the transfer of any mine the use of which is restricted by this Protocol. In particular, each High Contracting Party undertakes not to transfer any anti-personnel mines to States which are not bound by this Protocol, unless the recipient State agrees to apply this Protocol; and
- (d) Undertakes to ensure that any transfer in accordance with this Article takes place in full compliance, by both the transferring and the recipient State, with the relevant provisions of this Protocol and the applicable norms of international humanitarian law.

2. In the event that a High Contracting Party declares that it will defer compliance with specific provisions on the use of certain mines, as provided for in the Technical Annex, subparagraph 1 (a) of this Article shall however apply to such mines.

3. All High Contracting Parties, pending the entry into force of this Protocol, will refrain from any actions which would be inconsistent with subparagraph 1 (a) of this Article.

2. All such records shall be retained by the parties to a conflict, who shall, without delay after the cessation of active hostilities, take all necessary and appropriate measures, including the use of such information, to protect civilians from the effects of minefields, mined areas, mines, booby-traps and other devices in areas under their control.

At the same time, they shall also make available to the other party or parties to the conflict and to the Secretary-General of the United Nations all such information in their possession concerning minefields, mined areas, mines, booby-traps and other devices laid by them in areas no longer under their control; provided, however, subject to reciprocity, where the forces of a party to a conflict are in the territory of an adverse party, either party may withhold such information from the Secretary-General and the other party, to the extent that security interests require such withholding, until neither party is in the territory of the other. In the latter case, the information withheld shall be disclosed as soon as those security interests permit. Wherever possible, the parties to the conflict shall seek, by mutual agreement, to provide for the release of such information at the earliest possible time in a manner consistent with the security interests of each party.

3. This Article is without prejudice to the provisions of Articles 10 and 12 of this Protocol.

Article 10. Removal of mine fields, mined areas, mines, booby-traps and other devices and international cooperation

1. Each High Contracting Party undertakes to facilitate and shall have the right to participate in the fullest possible exchange of equipment, material and scientific and technological information concerning the implementation of this Protocol and means of mine clearance. In particular, High Contracting Parties shall not impose undue restrictions on the provision of mine clearance equipment and related technological information for humanitarian purposes.

2. Each High Contracting Party undertakes to provide information to the database on mine clearance established within the United Nations System, especially information concerning various means and technologies of mine clearance, and lists of experts, expert agencies or national points of contact on mine clearance.

3. Each High Contracting Party in a position to do so shall provide assistance for mine clearance through the United Nations System, other international bodies or on a bilateral basis, or contribute to the United Nations Voluntary Trust Fund for Assistance in Mine Clearance.

4. Requests by High Contracting Parties for assistance, substantiated by relevant information, may be submitted to the United Nations, to other appropriate bodies or to other States. These requests may be submitted to the Secretary-General of the United Nations, who shall transmit them to all High Contracting Parties and to relevant international organizations.

5. In the case of requests to the United Nations, the Secretary-General of the United Nations, within the resources available to the Secretary-General of the United Nations, may take appropriate steps to assess the situation and, in cooperation with the requesting High Contracting Party, determine the appropriate provision of assistance in mine clearance or implementation of the Protocol. The Secretary-General may also report to High Contracting Parties on any such assessment as well as on the type and scope of assistance required.

6. Without prejudice to their constitutional and other legal provisions, the High Contracting Parties undertake to cooperate and transfer technology to facilitate the implementation of the relevant prohibitions and restrictions set out in this Protocol.

7. Each High Contracting Party has the right to seek and receive technical assistance, where appropriate, from another High Contracting Party on specific relevant technology, other than weapons technology, as necessary and feasible, with a view to reducing any period of deferral for which provision is made in the Technical Annex.

TECHNICAL ANNEX

This Technical Annex contains suggested best practice for achieving the objectives contained in Articles 4, 5 and 9 of this Protocol. This Technical Annex will be implemented by High Contracting Parties on a voluntary basis.

1. Recording, storage and release of information for Unexploded Ordnance (UXO) and Abandoned Explosive Ordnance (AXO)

(a) Recording of information: Regarding explosive ordnance which may have become UXO a State should endeavour to record the following information as accurately as possible:

- (i) the location of areas targeted using explosive ordnance;
- (ii) the approximate number of explosive ordnance used in the areas under (i);
- (iii) the type and nature of explosive ordnance used in areas under (i);
- (iv) the general location of known and probable UXO;

Where a State has been obliged to abandon explosive ordnance in the course of operations, it should endeavour to leave AXO in a safe and secure manner and record information on this ordnance as follows:

- (v) the location of AXO;
- (vi) the approximate amount of AXO at each specific site;
- (vii) the types of AXO at each specific site.

(b) Storage of information: Where a State has recorded information in accordance with paragraph (a), it should be stored in such a manner as to allow for its retrieval and subsequent release in accordance with paragraph (c).

(c) Release of information: Information recorded and stored by a State in accordance with paragraphs (a) and (b) should, taking into account the security interests and other obligations of the State providing the information, be released in accordance with the following provisions:

- (i) Content:

On UXO the released information should contain details on:

- (1) the general location of known and probable UXO;
- (2) the types and approximate number of explosive ordnance used in the targeted areas;
- (3) the method of identifying the explosive ordnance including colour, size and shape and other relevant markings;
- (4) the method for safe disposal of the explosive ordnance.

On AXO the released information should contain details on:

- (5) the location of the AXO;
- (6) the approximate number of AXO at each specific site;
- (7) the types of AXO at each specific site;
- (8) the method of identifying the AXO, including colour, size and shape;
- (9) information on type and methods of packing for AXO;
- (10) state of readiness;
- (11) the location and nature of any booby-traps known to be present in the area of AXO.

- (ii) Recipient: The information should be released to the party or parties in control of the affected territory and to those persons or institutions that the releasing State is satisfied are, or will be, involved in UXO or AXO clearance in the affected area, in the education of the civilian population on the risks of UXO or AXO.

- (iii) Mechanism: A State should, where feasible, make use of those mechanisms established internationally or locally for the release of information, such as through UNMAS, IMSMA, and other expert agencies, as considered appropriate by the releasing State.
- (iv) Timing: The information should be released as soon as possible, taking into account such matters as any ongoing military and humanitarian operations in the affected areas, the availability and reliability of information and relevant security issues.

2. Warnings, risk education, marking, fencing and monitoring

Key terms

(a) Warnings are the punctual provision of cautionary information to the civilian population, intended to minimise risks caused by explosive remnants of war in affected territories.

(b) Risk education to the civilian population should consist of risk education programmes to facilitate information exchange between affected communities, government authorities and humanitarian organisations so that affected communities are informed about the threat from explosive remnants of war. Risk education programmes are usually a long term activity.

Best practice elements of warnings and risk education

(c) All programmes of warnings and risk education should, where possible, take into account prevailing national and international standards, including the International Mine Action Standards.

(d) Warnings and risk education should be provided to the affected civilian population which comprises civilians living in or around areas containing explosive remnants of war and civilians who transit such areas.

(e) Warnings should be given, as soon as possible, depending on the context and the information available. A risk education programme should replace a warnings programme as soon as possible. Warnings and risk education always should be provided to the affected communities at the earliest possible time.

(f) Parties to a conflict should employ third parties such as international organisations and non-governmental organisations when they do not have the resources and skills to deliver efficient risk education.

(g) Parties to a conflict should, if possible, provide additional resources for warnings and risk education. Such items might include: provision of logistical support, production of risk education materials, financial support and general cartographic information.

Marking, fencing, and monitoring of an explosive remnants of war affected area

(h) When possible, at any time during the course of a conflict and thereafter, where explosive remnants of war exist the parties to a conflict should, at the earliest possible time and to the maximum extent possible, ensure that areas containing explosive remnants of war are marked, fenced and monitored so as to ensure the effective exclusion of civilians, in accordance with the following provisions.

(i) Warning signs based on methods of marking recognised by the affected community should be utilised in the marking of suspected hazardous areas. Signs and other hazardous area boundary markers should as far as possible be visible, legible, durable and resistant to environmental effects and should clearly identify which side of the marked boundary is considered to be within the explosive remnants of war affected area and which side is considered to be safe.

(j) An appropriate structure should be put in place with responsibility for the monitoring and maintenance of permanent and temporary marking systems, integrated with national and local risk education programmes.

3. Generic preventive measures

States producing or procuring explosive ordnance should to the extent possible and as appropriate endeavour to ensure that the following measures are implemented and respected during the life-cycle of explosive ordnance.

(a) Munitions manufacturing management

- (i) Production processes should be designed to achieve the greatest reliability of munitions.
- (ii) Production processes should be subject to certified quality control measures.
- (iii) During the production of explosive ordnance, certified quality assurance standards that are internationally recognised should be applied.
- (iv) Acceptance testing should be conducted through live-fire testing over a range of conditions or through other validated procedures.
- (v) High reliability standards should be required in the course of explosive ordnance transactions and transfers.

(b) Munitions management

In order to ensure the best possible long-term reliability of explosive ordnance, States are encouraged to apply best practice norms and operating procedures with respect to its storage, transport, field storage, and handling in accordance with the following guidance.

- (i) Explosive ordnance, where necessary, should be stored in secure facilities or appropriate containers that protect the explosive ordnance and its components in a controlled atmosphere, if necessary.
- (ii) A state should transport explosive ordnance to and from production facilities, storage facilities and the field in a manner that minimises damage to the explosive ordnance.
- (iii) Appropriate containers and controlled environments, where necessary, should be used by a State when stockpiling and transporting explosive ordnance.
- (iv) The risk of explosions in stockpiles should be minimised by the use of appropriate stockpile arrangements.
- (v) States should apply appropriate explosive ordnance logging, tracking and testing procedures, which should include information on the date of manufacture of each number, lot or batch of explosive ordnance, and information on where the explosive ordnance has been, under what conditions it has been stored, and to what environmental factors it has been exposed.
- (vi) Periodically, stockpiled explosive ordnance should undergo, where appropriate, live-firing testing to ensure that munitions function as desired.
- (vii) Sub-assemblies of stockpiled explosive ordnance should, where appropriate, undergo laboratory testing to ensure that munitions function as desired.
- (viii) Where necessary, appropriate action, including adjustment to the expected shelf-life of ordnance, should be taken as a result of information acquired by logging, tracking and testing procedures, in order to maintain the reliability of stockpiled explosive ordnance.

(c) Training

The proper training of all personnel involved in the handling, transporting and use of explosive ordnance is an important factor in seeking to ensure its reliable operation as intended. States should therefore adopt and maintain suitable training programmes to ensure that personnel are properly trained with regard to the munitions with which they will be required to deal.

(d) Transfer

A State planning to transfer explosive ordnance to another State that did not previously possess that type of explosive ordnance should endeavour to ensure that the receiving State has the capability to store, maintain and use that explosive ordnance correctly.

(e) Future production

A State should examine ways and means of improving the reliability of explosive ordnance that it intends to produce or procure, with a view to achieving the highest possible reliability.

CHAPTER I. CONTROL

Article 1. International list of persons

On the entry into force of the Convention, the Director-General of the United Nations Educational, Scientific and Cultural Organization shall compile an international list consisting of all persons nominated by the High Contracting Parties as qualified to carry out the functions of Commissioner-General for Cultural Property. On the initiative of the Director-General of the United Nations Educational, Scientific and Cultural Organization, this list shall be periodically revised on the basis of requests formulated by the High Contracting Parties.

Article 2. Organization of control

As soon as any High Contracting Party is engaged in an armed conflict to which Article 18 of the Convention applies :

- (a) It shall appoint a representative for cultural property situated in its territory; if it is in occupation of another territory, it shall appoint a special representative for cultural property situated in that territory;
- (b) The Protecting Power acting for each of the Parties in conflict with such High Contracting Party shall appoint delegates accredited to the latter in conformity with Article 3 below;
- (c) A Commissioner-General for Cultural Property shall be appointed to such High Contracting Party in accordance with Article 4.

Article 3. Appointment of delegates of Protecting Powers

The Protecting Power shall appoint its delegates from among the members of its diplomatic or consular staff or, with the approval of the Party to which they will be accredited, from among other persons.

Article 4. Appointment of Commissioner-General

1. The Commissioner-General for Cultural Property shall be chosen from the international list of persons by joint agreement between the Party to which he will be accredited and the Protecting Powers acting on behalf of the opposing Parties.

2. Should the Parties fail to reach agreement within three weeks from the beginning of their discussions on this point, they shall request the President of the International Court of Justice to appoint the Commissioner-General, who shall not take up his duties until the Party to which he is accredited has approved his appointment.

Article 5. Functions of delegates

The delegates of the Protecting Powers shall take note of violations of the Convention, investigate, with the approval of the Party to which they are accredited, the circumstances in which they have occurred, make representations locally to secure their cessation and, if necessary, notify the Commissioner-General of such violations. They shall keep him informed of their activities.

Article 6. Functions of the Commissioner-General

1. The Commissioner-General for Cultural Property shall deal with all matters referred to him in connexion with the application of the Convention, in conjunction with the representative of the Party to which he is accredited and with the delegates concerned.

2. He shall have powers of decision and appointment in the cases specified in the present Regulations.

3. With the agreement of the Party to which he is accredited, he shall have the right to order an investigation or to conduct it himself.

4. He shall make any representations to the Parties to the conflict or to their Protecting Powers which he deems useful for the application of the Convention.

5. He shall draw up such reports as may be necessary on the application of the Convention and communicate them to the Parties concerned and to their Protecting Powers. He shall send copies to the Director-General of the United Nations Educational, Scientific and Cultural Organization, who may make use only of their technical contents.

6. If there is no Protecting Power, the Commissioner-General shall exercise the functions of the Protecting Power as laid down in Articles 21 and 22 of the Convention.

Article 7. Inspectors and experts

1. Whenever the Commissioner-General for Cultural Property considers it necessary, either at the request of the delegates concerned or after consultation with them, he shall propose, for the approval of the Party to which he is accredited, an inspector of cultural property to be charged with a specific mission. An inspector shall be responsible only to the Commissioner-General.

2. The Commissioner-General, delegates and inspectors may have recourse to the services of experts, who will also be proposed for the approval of the Party mentioned in the preceding paragraph.

Article 8. Discharge of the mission of control

The Commissioners-General for Cultural Property, delegates of the Protecting Powers, inspectors and experts shall in no case exceed their mandates. In particular, they shall take account of the security needs of the High Contracting Party to which they are accredited and shall in all circumstances act in accordance with the requirements of the military situation as communicated to them by that High Contracting Party.

Article 9. Substitutes for Protecting Powers

If a Party to the conflict does not benefit or ceases to benefit from the activities of a Protecting Power, a neutral State may be asked to undertake those functions of a Protecting Power which concern the appointment of a Commissioner-General for Cultural Property in accordance with the procedure laid down in Article 4 above. The Commissioner-General thus appointed shall, if need be, entrust to inspectors the functions of delegates of Protecting Powers as specified in the present Regulations.

Article 10. Expenses

The remuneration and expenses of the Commissioner-General for Cultural Property, inspectors and experts shall be met by the Party to which they are accredited. Remuneration and expenses of delegates of the Protecting Powers shall be subject to agreement between those Powers and the States whose interests they are safeguarding.

CHAPTER II. SPECIAL PROTECTION

Article 11. Improvised refuges

1. If, during an armed conflict, any High Contracting Party is induced by unforeseen circumstances to set up an improvised refuge and desires that it should be placed under special protection, it shall communicate this fact forthwith to the Commissioner-General accredited to that Party.

2. If the Commissioner-General considers that such a measure is justified by the circumstances and by the importance of the cultural property sheltered in this improvised refuge, he may authorize the High Contracting Party to display on such refuge the distinctive emblem defined in Article 16 of the Convention. He shall communicate his decision without delay to the delegates of the Protecting Powers who are concerned, each of whom may, within a time-limit of 30 days, order the immediate withdrawal of the emblem.

3. As soon as such delegates have signified their agreement or if the time-limit of 30 days has passed without any of the delegates concerned having made an objection, and if, in the view of the Commissioner-General, the refuge fulfils the conditions laid down in Article 8 of the Convention, the Commissioner-General shall request the Director-General of the United Nations Educational, Scientific and Cultural Organization to enter the refuge in the Register of Cultural Property under Special Protection.

Article 12. International Register of Cultural Property under Special Protection

1. An "International Register of Cultural Property under Special Protection" shall be prepared.
2. The Director-General of the United Nations Educational, Scientific and Cultural Organization shall maintain this Register. He shall furnish copies to the Secretary-General of the United Nations and to the High Contracting Parties.
3. The Register shall be divided into sections, each in the name of a High Contracting Party. Each section shall be sub-divided into three paragraphs, headed: Refuges, Centres containing Monuments, Other Immovable Cultural Property. The Director-General shall determine what details each section shall contain.

Article 13. Requests for registration

1. Any High Contracting Party may submit to the Director-General of the United Nations Educational, Scientific and Cultural Organization an application for the entry in the Register of certain refuges, centres containing monuments or other immovable cultural property situated within its territory. Such application shall contain a description of the location of such property and shall certify that the property complies with the provisions of Article 8 of the Convention.

2. In the event of occupation, the Occupying Power shall be competent to make such application.

3. The Director-General of the United Nations Educational, Scientific and Cultural Organization shall, without delay, send copies of applications for registration to each of the High Contracting Parties.

Article 14. Objections

1. Any High Contracting Party may, by letter addressed to the Director-General of the United Nations Educational, Scientific and Cultural Organization, lodge an objection to the registration of cultural property. This letter must be received by him within four months of the day on which he sent a copy of the application for registration.

2. Such objection shall state the reasons giving rise to it, the only valid grounds being that:

(a) the property is not cultural property;

(b) the property does not comply with the conditions mentioned in Article 8 of the Convention.

3. The Director-General shall send a copy of the letter of objection to the High Contracting Parties without delay. He shall, if necessary, seek the advice of the International Committee on Monuments, Artistic and Historical Sites and Archaeological Excavations and also, if he thinks fit, of any other competent organization or person.

4. The Director-General, or the High Contracting Party requesting registration, may make whatever representations they deem necessary to the High Contracting Parties which lodged the objection, with a view to causing the objection to be withdrawn.

5. If a High Contracting Party which has made an application for registration in time of peace becomes involved in an armed conflict before the entry has been made, the cultural property concerned shall at once be provisionally entered in the Register, by the Director-General, pending the confirmation, withdrawal or cancellation of any objection that may be, or may have been, made.

6. If, within a period of six months from the date of receipt of the letter of objection, the Director-General has not received from the High Contracting Party lodging the objection a communication stating that it has been withdrawn, the High Contracting Party applying for registration may request arbitration in accordance with the procedure in the following paragraph.

7. The request for arbitration shall not be made more than one year after the date of receipt by the Director-General of the letter of objection. Each of the two Parties to the dispute shall appoint an arbitrator. When more than one objection has been lodged against an application for registration, the High Contracting Parties which have lodged the objections shall, by common consent, appoint a single arbitrator. These two arbitrators shall select a chief arbitrator from the international list mentioned in Article 1 of the present Regulations. If such arbitrators cannot agree upon their choice, they shall ask the President of the International Court of Justice to appoint a chief arbitrator who need not necessarily be chosen from the international list. The arbitral tribunal thus constituted shall fix its own procedure. There shall be no appeal from its decisions.

8. Each of the High Contracting Parties may declare, whenever a dispute to which it is a Party arises, that it does not wish to apply the arbitration procedure provided for in the preceding paragraph. In such cases, the objection to an application for registration shall be submitted by the Director-General to the High Contracting Parties. The objection will be confirmed only if the High Contracting Parties so decide by a two-third majority of the High Contracting Parties voting. The vote shall be taken by correspondence, unless the Director-General of the United Nations Educational, Scientific and Cultural Organization deems it essential to convene a meeting under the powers conferred upon him by Article 27 of the Convention. If the Director-General decides to proceed with the vote by correspondence, he shall invite the High Contracting Parties to transmit their votes by sealed letter within six months from the day on which they were invited to do so.

Article 15. Registration

1. The Director-General of the United Nations Educational, Scientific and Cultural Organization shall cause to be entered in the Register, under a serial number, each item of property for which

application for registration is made, provided that he has not received an objection within the time-limit prescribed in paragraph 1 of Article 14.

2. If an objection has been lodged, and without prejudice to the provision of paragraph 5 of Article 14, the Director-General shall enter property in the Register only if the objection has been withdrawn or has failed to be confirmed following the procedures laid down in either paragraph 7 or paragraph 8 of Article 14.

3. Whenever paragraph 3 of Article 11 applies, the Director-General shall enter property in the Register if so requested by the Commissioner-General for Cultural Property.

4. The Director-General shall send without delay to the Secretary-General of the United Nations, to the High Contracting Parties, and, at the request of the Party applying for registration, to all other States referred to in Articles 30 and 32 of the Convention, a certified copy of each entry in the Register. Entries shall become effective thirty days after despatch of such copies.

Article 16. Cancellation

1. The Director-General of the United Nations Educational, Scientific and Cultural Organization shall cause the registration of any property to be cancelled:

(a) at the request of the High Contracting Party within whose territory the cultural property is situated;

(b) if the High Contracting Party which requested registration has denounced the Convention, and when that denunciation has taken effect;

(c) in the special case provided for in Article 14, paragraph 5, when an objection has been confirmed following the procedures mentioned either in paragraph 7 or in paragraph 8 of Article 14.

2. The Director-General shall send without delay, to the Secretary-General of the United Nations and to all States which received a copy of the entry in the Register, a certified copy of its cancellation. Cancellation shall take effect thirty days after the despatch of such copies.

CHAPTER III. TRANSPORT OF CULTURAL PROPERTY

Article 17. Procedure to obtain immunity

1. The request mentioned in paragraph 1 of Article 12 of the Convention shall be addressed to the Commissioner-General for Cultural Property. It shall mention the reasons on which it is based and specify the approximate number and the importance of the objects to be transferred, their present location, the location now envisaged, the means of transport to be used, the route to be followed, the date proposed for the transfer, and any other relevant information.

2. If the Commissioner-General, after taking such opinions as he deems fit, considers that such transfer is justified, he shall consult those delegates of the Protecting Powers who are concerned, on the measures proposed for carrying it out. Following such consultation, he shall notify the Parties to the conflict concerned of the transfer, including in such notification all useful information.

3. The Commissioner-General shall appoint one or more inspectors, who shall satisfy themselves that only the property stated in the request is to be transferred and that the transport is to be by the approved methods and bears the distinctive emblem. The inspector or inspectors shall accompany the property to its destination.

Article 18. Transport abroad

Where the transfer under special protection is to the territory of another country, it shall be governed not only by Article 12 of the Convention and by Article 17 of the present Regulations, but by the following further provisions:

(a) while the cultural property remains on the territory of another State, that State shall be its depositary and shall extend to it as great a measure of care as that which it bestows upon its own cultural property of comparable importance;

(b) the depositary State shall return the property only on the cessation of the conflict; such return shall be effected within six months from the date on which it was requested;

(c) during the various transfer operations, and while it remains on the territory of another State, the cultural property shall be exempt from confiscation and may not be disposed of either by the depositor or by the depositary. Nevertheless, when the safety of the property requires it, the depositary may, with the assent of the depositor, have the property transported to the territory of a third country, under the conditions laid down in the present article;

(d) the request for special protection shall indicate that the State to whose territory the property is to be transferred accepts the provisions of the present Article.

Article 19. Occupied Territory

Whenever a High Contracting Party occupying territory of another High Contracting Party transfers cultural property to a refuge situated elsewhere in that territory, without being able to follow the procedure provided for in Article 17 of the Regulations, the transfer in question shall not be regarded as misappropriation within the meaning of Article 4 of the Convention, provided that the Commissioner-General for Cultural Property certifies in writing, after having consulted the usual custodians, that such transfer was rendered necessary by circumstances.

CHAPTER IV. THE DISTINCTIVE EMBLEM

Article 20. Affixing of the emblem

1. The placing of the distinctive emblem and its degree of visibility shall be left to the discretion of the competent authorities of each High Contracting Party. It may be displayed on flags or armlets; it may be painted on an object or represented in any other appropriate form.

2. However, without prejudice to any possible fuller markings, the emblem shall, in the event of armed conflict and in the cases mentioned in Articles 12 and 13 of the Convention, be placed on the vehicles of transport so as to be clearly visible in daylight from the air as well as from the ground.

The emblem shall be visible from the ground:

(a) at regular intervals sufficient to indicate clearly the perimeter of a centre containing monuments under special protection;

(b) at the entrance to other immovable cultural property under special protection.

Article 21. Identification of persons

1. The persons mentioned in Article 17, paragraph 2 (b) and (c) of the Convention may wear an armlet bearing the distinctive emblem, issued and stamped by the competent authorities.

2. Such persons shall carry a special identity card bearing the distinctive emblem. This card shall mention at least the surname and first names, the date of birth, the title or rank, and the function of the holder. The card shall bear the photograph of the holder as well as his signature or his fingerprints, or both. It shall bear the embossed stamp of the competent authorities.

3. Each High Contracting Party shall make out its own type of identity card, guided by the model annexed, by way of example, to the present Regulations. The High Contracting Parties shall transmit to each other a specimen of the model they are using. Identity cards shall be made out, if possible, at least in duplicate, one copy being kept by the issuing Power.

4. The said persons may not, without legitimate reason, be deprived of their identity card or of the right to wear the armlet.

10. (a) The present Protocol shall enter into force three months after five instruments of ratification have been deposited.

(b) Thereafter, it shall enter into force, for each High Contracting Party, three months after the deposit of its instrument of ratification or accession.

(c) The situations referred to in Articles 18 and 19 of the Convention for the Protection of Cultural Property in the Event of Armed Conflict, signed at The Hague on 14 May, 1954, shall give immediate effect to ratifications and accessions deposited by the Parties to the conflict either before or after the beginning of hostilities or occupation. (b) The denunciation shall be notified by an instrument in writing, deposited with the Director-General of the United Nations Educational, Scientific and Cultural Organization.

(c) The denunciation shall take effect one year after receipt of the instrument of denunciation. However, if, on the expiry of this period, the denouncing Party is involved in an armed conflict, the denunciation shall not take effect until the end of hostilities, or until the operations of repatriating cultural property are completed, whichever is the later.

14.  - ii. there is no feasible alternative available to obtain a similar military advantage to that offered by directing an act of hostility against that objective;
- b. a waiver on the basis of imperative military necessity pursuant to Article 4 paragraph 2 of the Convention may only be invoked to use cultural property for purposes which are likely to expose

it to destruction or damage when and for as long as no choice is possible between such use of the cultural property and another feasible method for obtaining a similar military advantage;

c. the decision to invoke imperative military necessity shall only be taken by an officer commanding a force the equivalent of a battalion in size or larger, or a force smaller in size where circumstances do not permit otherwise;

d. in case of an attack based on a decision taken in accordance with sub-paragraph (a), an effective advance warning shall be given whenever circumstances permit.

Article 7. Precautions in attack

Without prejudice to other precautions required by international humanitarian law in the conduct of military operations, each Party to the conflict shall:

a. do everything feasible to verify that the objectives to be attacked are not cultural property protected under Article 4 of the Convention;

b. take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental damage to cultural property protected under Article 4 of the Convention;

c. refrain from deciding to launch any attack which may be expected to cause incidental damage to cultural property protected under Article 4 of the Convention which would be excessive in relation to the concrete and direct military advantage anticipated; and

d. cancel or suspend an attack if it becomes apparent:

- i. that the objective is cultural property protected under Article 4 of the Convention;
- ii. that the attack may be expected to cause incidental damage to cultural property protected under Article 4 of the Convention which would be excessive in relation to the concrete and direct military advantage anticipated.

Article 8. Precautions against the effects of hostilities

The Parties to the conflict shall, to the maximum extent feasible:

a. remove movable cultural property from the vicinity of military objectives or provide for adequate in situ protection;

b. avoid locating military objectives near cultural property.

c. any alteration to, or change of use of, cultural property which is intended to conceal or destroy cultural, historical or scientific evidence.

2. Any archaeological excavation of, alteration to, or change of use of, cultural property in occupied territory shall, unless circumstances do not permit, be carried out in close co-operation with the competent national authorities of the occupied territory.

CHAPTER 3. ENHANCED PROTECTION

Article 10. Enhanced protection

Cultural property may be placed under enhanced protection provided that it meets the following three conditions:

- a. it is cultural heritage of the greatest importance for humanity;
- b. it is protected by adequate domestic legal and administrative measures recognising its exceptional cultural and historic value and ensuring the highest level of protection;
- c. it is not used for military purposes or to shield military sites and a declaration has been made by the Party which has control over the cultural property, confirming that it will not be so used.

Article 11. The granting of enhanced protection

1. Each Party should submit to the Committee a list of cultural property for which it intends to request the granting of enhanced protection.

2. The Party which has jurisdiction or control over the cultural property may request that it be included in the List to be established in accordance with Article 27 sub-paragraph 1(b). This request shall include all necessary information related to the criteria mentioned in Article 10. The Committee may invite a Party to request that cultural property be included in the List.

3. Other Parties, the International Committee of the Blue Shield and other non-governmental organisations with relevant expertise may recommend specific cultural property to the Committee. In such cases, the Committee may decide to invite a Party to request inclusion of that cultural property in the List.

4. Neither the request for inclusion of cultural property situated in a territory, sovereignty or jurisdiction over which is claimed by more than one State, nor its inclusion, shall in any way prejudice the rights of the parties to the dispute.

5. Upon receipt of a request for inclusion in the List, the Committee shall inform all Parties of the request. Parties may submit representations regarding such a request to the Committee within sixty days. These representations shall be made only on the basis of the criteria mentioned in Article 10. They shall be specific and related to facts. The Committee shall consider the representations, providing the Party requesting inclusion with a reasonable opportunity to respond before taking the decision. When such representations are before the Committee, decisions for inclusion in the List shall be taken, notwithstanding Article 26, by a majority of four-fifths of its members present and voting.

6. In deciding upon a request, the Committee should ask the advice of governmental and non-governmental organisations, as well as of individual experts.

7. A decision to grant or deny enhanced protection may only be made on the basis of the criteria mentioned in Article 10.

8. In exceptional cases, when the Committee has concluded that the Party requesting inclusion of cultural property in the List cannot fulfil the criteria of Article 10 sub-paragraph (b), the Committee may decide to grant enhanced protection, provided that the requesting Party submits a request for international assistance under Article 32.

9. Upon the outbreak of hostilities, a Party to the conflict may request, on an emergency basis, enhanced protection of cultural property under its jurisdiction or control by communicating this request to the Committee. The Committee shall transmit this request immediately to all Parties to the conflict. In such cases the Committee will consider representations from the Parties concerned on an expedited basis. The decision to grant provisional enhanced protection shall be taken as soon as possible and, notwithstanding Article 26, by a majority of four-fifths of its members present and voting. Provisional enhanced protection may be granted by the Committee pending the outcome of the regular procedure for the granting of enhanced protection, provided that the provisions of Article 10 sub-paragraphs (a) and (c) are met.

10. Enhanced protection shall be granted to cultural property by the Committee from the moment of its entry in the List.

11. The Director-General shall, without delay, send to the Secretary-General of the United Nations and to all Parties notification of any decision of the Committee to include cultural property on the List.

Article 12. Immunity of cultural property under enhanced protection

The Parties to a conflict shall ensure the immunity of cultural property under enhanced protection by refraining from making such property the object of attack or from any use of the property or its immediate surroundings in support of military action.

Article 13. Loss of enhanced protection

1. Cultural property under enhanced protection shall only lose such protection:
 - a. if such protection is suspended or cancelled in accordance with Article 14; or
 - b. if, and for as long as, the property has, by its use, become a military objective.
2. In the circumstances of sub-paragraph 1(b), such property may only be the object of attack if:
 - a. the attack is the only feasible means of terminating the use of the property referred to in sub-paragraph 1(b);
 - b. all feasible precautions are taken in the choice of means and methods of attack, with a view to terminating such use and avoiding, or in any event minimising, damage to the cultural property;
 - c. unless circumstances do not permit, due to requirements of immediate self-defence:
 - i. the attack is ordered at the highest operational level of command;
 - ii. effective advance warning is issued to the opposing forces requiring the termination of the use referred to in sub-paragraph 1(b); and
 - iii. Reasonable time is given to the opposing forces to redress the situation.

Article 14. Suspension and cancellation of enhanced protection

1. Where cultural property no longer meets any one of the criteria in Article 10 of this Protocol, the Committee may suspend its enhanced protection status or cancel that status by removing that cultural property from the List.

2. In the case of a serious violation of Article 12 in relation to cultural property under enhanced protection arising from its use in support of military action, the Committee may suspend its enhanced protection status. Where such violations are continuous, the Committee may exceptionally cancel the enhanced protection status by removing the cultural property from the List.

3. The Director-General shall, without delay, send to the Secretary-General of the United Nations and to all Parties to this Protocol notification of any decision of the Committee to suspend or cancel the enhanced protection of cultural property.

4. Before taking such a decision, the Committee shall afford an opportunity to the Parties to make their views known.

CHAPTER 4. CRIMINAL RESPONSIBILITY AND JURISDICTION

d. making cultural property protected under the Convention and this Protocol the object of attack;

e. theft, pillage or misappropriation of, or acts of vandalism directed against cultural property protected under the Convention.

2. Each Party shall adopt such measures as may be necessary to establish as criminal offences under its domestic law the offences set forth in this Article and to make such offences punishable by appropriate penalties. When doing so, Parties shall comply with general principles of law and international law, including the rules extending individual criminal responsibility to persons other than those who directly commit the act.

Article 16. Jurisdiction

1. Without prejudice to paragraph 2, each Party shall take the necessary legislative measures to establish its jurisdiction over offences set forth in Article 15 in the following cases:

a. when such an offence is committed in the territory of that State;

b. when the alleged offender is a national of that State;

c. in the case of offences set forth in Article 15 sub-paragraphs (a) to (c), when the alleged offender is present in its territory.

2. With respect to the exercise of jurisdiction and without prejudice to Article 28 of the Convention:

a. this Protocol does not preclude the incurring of individual criminal responsibility or the exercise of jurisdiction under national and international law that may be applicable, or affect the exercise of jurisdiction under customary international law;

b. except in so far as a State which is not Party to this Protocol may accept and apply its provisions in accordance with Article 3 paragraph 2, members of the armed forces and nationals of a State which is not Party to this Protocol, except for those nationals serving in the armed forces of a State which is a Party to this Protocol, do not incur individual criminal responsibility by virtue of this Protocol, nor does this Protocol impose an obligation to establish jurisdiction over such persons or to extradite them.

Article 17. Prosecution

1. The Party in whose territory the alleged offender of an offence set forth in Article 15 sub-paragraphs 1 (a) to (c) is found to be present shall, if it does not extradite that person, submit, without exception whatsoever and without undue delay, the case to its competent authorities, for the purpose of prosecution, through proceedings in accordance with its domestic law or with, if applicable, the relevant rules of international law.

2. Without prejudice to, if applicable, the relevant rules of international law, any person regarding whom proceedings are being carried out in connection with the Convention or this Protocol shall be guaranteed fair treatment and a fair trial in accordance with domestic law and international law at all stages of the proceedings, and in no cases shall be provided guarantees less favorable to such person than those provided by international law.

Article 18. Extradition

1. The offences set forth in Article 15 sub-paragraphs 1 (a) to (c) shall be deemed to be included as extraditable offences in any extradition treaty existing between any of the Parties before the entry into force of this Protocol. Parties undertake to include such offences in every extradition treaty to be subsequently concluded between them.

2. When a Party which makes extradition conditional on the existence of a treaty receives a request for extradition from another Party with which it has no extradition treaty, the requested Party may, at its option, consider the present Protocol as the legal basis for extradition in respect of offences as set forth in Article 15 sub-paragraphs 1 (a) to (c).

3. Parties which do not make extradition conditional on the existence of a treaty shall recognise the offences set forth in Article 15 sub-paragraphs 1 (a) to (c) as extraditable offences between them, subject to the conditions provided by the law of the requested Party.

4. If necessary, offences set forth in Article 15 sub-paragraphs 1 (a) to (c) shall be treated, for the purposes of extradition between Parties, as if they had been committed not only in the place in which they occurred but also in the territory of the Parties that have established jurisdiction in accordance with Article 16 paragraph 1.

Article 19. Mutual legal assistance

1. Parties shall afford one another the greatest measure of assistance in connection with investigations or criminal or extradition proceedings brought in respect of the offences set forth in Article 15, including assistance in obtaining evidence at their disposal necessary for the proceedings.

2. Parties shall carry out their obligations under paragraph 1 in conformity with any treaties or other arrangements on mutual legal assistance that may exist between them. In the absence of such treaties or arrangements, Parties shall afford one another assistance in accordance with their domestic law.

Article 20. Grounds for refusal

1. For the purpose of extradition, offences set forth in Article 15 sub-paragraphs 1 (a) to (c), and for the purpose of mutual legal assistance, offences set forth in Article 15 shall not be regarded as political offences nor as offences connected with political offences nor as offences inspired by political motives. Accordingly, a request for extradition or for mutual legal assistance based on such offences may not be refused on the sole ground that it concerns a political offence or an offence connected with a political offence or an offence inspired by political motives.

2. Nothing in this Protocol shall be interpreted as imposing an obligation to extradite or to afford mutual legal assistance if the requested Party has substantial grounds for believing that the request for extradition for offences set forth in Article 15 sub-paragraphs 1 (a) to (c) or for mutual legal assistance with respect to offences set forth in Article 15 has been made for the purpose of prosecuting or punishing a person on account of that person's race, religion, nationality, ethnic origin or political opinion or that compliance with the request would cause prejudice to that person's position for any of these reasons.

Article 21. Measures regarding other violations

Without prejudice to Article 28 of the Convention, each Party shall adopt such legislative, administrative or disciplinary measures as may be necessary to suppress the following acts when committed intentionally:

- a. any use of cultural property in violation of the Convention or this Protocol;

4. Nothing in this Protocol shall prejudice the primary jurisdiction of a Party in whose territory an armed conflict not of an international character occurs over the violations set forth in Article 15.

5. Nothing in this Protocol shall be invoked as a justification for intervening, directly or indirectly, for any reason whatever, in the armed conflict or in the internal or external affairs of the Party in the territory of which that conflict occurs.

77. UNESCO DECLARATION CONCERNING THE INTENTIONAL DESTRUCTION OF CULTURAL HERITAGE

UNESCO General Conference resolution 32 C/33 of 17 October 2003

The General Conference of the United Nations Educational, Scientific and Cultural Organization meeting in Paris at its thirty-second session in 2003,

Recalling the tragic destruction of the Buddhas of Bamiyan that affected the international community as a whole,

Expressing serious concern about the growing number of acts of intentional destruction of cultural heritage,

Referring to Article I(2)(c) of the Constitution of UNESCO that entrusts UNESCO with the task of maintaining, increasing and diffusing knowledge by “assuring the conservation and protection of the world’s inheritance of books, works of art and monuments of history and science, and recommending to the nations concerned the necessary international conventions”,

Recalling the principles of all UNESCO’s conventions, recommendations, declarations and charters for the protection of cultural heritage,

Mindful that cultural heritage is an important component of the cultural identity of communities, groups and individuals, and of social cohesion, so that its intentional destruction may have adverse consequences on human dignity and human rights,

Reiterating one of the fundamental principles of the Preamble of the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict providing that “damage to cultural property belonging to any people whatsoever means damage to the cultural heritage of all mankind, since each people makes its contribution to the culture of the world”,

Recalling the principles concerning the protection of cultural heritage in the event of armed conflict established in the 1899 and 1907 Hague Conventions and, in particular, in Articles 27 and 56 of the Regulations of the 1907 Fourth Hague Convention, as well as other subsequent agreements,

Mindful of the development of rules of customary international law as also affirmed by the relevant case-law, related to the protection of cultural heritage in peacetime as well as in the event of armed conflict,

Also recalling Articles 8(2)(b)(ix) and 8(2)(e)(iv) of the Rome Statute of the International Criminal Court, and, as appropriate, Article 3(d) of the Statute of the International Criminal Tribunal for the former Yugoslavia, related to the intentional destruction of cultural heritage,

Reaffirming that issues not fully covered by the present Declaration and other international instruments concerning cultural heritage will continue to be governed by the principles of international law, the principles of humanity and the dictates of public conscience,

Adopts and solemnly proclaims the present Declaration:

I - Recognition of the importance of cultural heritage

The international community recognizes the importance of the protection of cultural heritage and reaffirms its commitment to fight against its intentional destruction in any form so that such cultural heritage may be transmitted to the succeeding generations.

II - Scope

1. The present Declaration addresses intentional destruction of cultural heritage including cultural heritage linked to a natural site.

2. For the purposes of this Declaration “intentional destruction” means an act intended to destroy in whole or in part cultural heritage, thus compromising its integrity, in a manner which constitutes a violation of international law or an unjustifiable offence to the principles of humanity and dictates of public conscience, in the latter case in so far as such acts are not already governed by fundamental principles of international law.

III - Measures to combat intentional destruction of cultural heritage

1. States should take all appropriate measures to prevent, avoid, stop and suppress acts of intentional destruction of cultural heritage, wherever such heritage is located.

2. States should adopt the appropriate legislative, administrative, educational and technical measures, within the framework of their economic resources, to protect cultural heritage and should revise them periodically with a view to adapting them to the evolution of national and international cultural heritage protection standards.

3. States should endeavour, by all appropriate means, to ensure respect for cultural heritage in society, particularly through educational, awareness-raising and information programmes.

4. States should:

(a) become parties to the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict and its two 1954 and 1999 Protocols and the Additional Protocols I and II to the four 1949 Geneva Conventions, if they have not yet done so;

(b) promote the elaboration and the adoption of legal instruments providing a higher standard of protection of cultural heritage, and

(c) promote a coordinated application of existing and future instruments relevant to the protection of cultural heritage.

IV - Protection of cultural heritage when conducting peacetime activities

80. INTERNATIONAL CONVENTION ON THE SUPPRESSION AND PUNISHMENT OF THE CRIME OF APARTHEID

Done at New York on 30 November 1973

Entry into force: 18 July 1976

United Nations, *Treaty Series*, vol. 1015, p. 243; Reg. No. 14861

The States Parties to the present Convention,

Recalling the provisions of the Charter of the United Nations, in which all Members pledged themselves to take joint and separate action in co-operation with the Organization for the achievement of universal respect for, and observance of, human rights and fundamental freedoms for all without distinction as to race, sex, language or religion,

Considering the Universal Declaration of Human Rights, which states that all human beings are born free and equal in dignity and rights and that everyone is entitled to all the rights and freedoms set forth in the Declaration, without distinction of any kind, such as race, colour or national origin,

Considering the Declaration on the Granting of Independence to Colonial Countries and Peoples, in which the General Assembly stated that the process of liberation is irresistible and irreversible and that, in the interests of human dignity, progress and justice, an end must be put to colonialism and all practices of segregation and discrimination associated therewith,

Observing that, in accordance with the International Convention on the Elimination of All Forms of Racial Discrimination, States particularly condemn racial segregation and *apartheid* and undertake to prevent, prohibit and eradicate all practices of this nature in territories under their jurisdiction,

Observing that, in the Convention on the Prevention and Punishment of the Crime of Genocide, certain acts which may also be qualified as acts of *apartheid* constitute a crime under international law,

Observing that, in the Convention on the non-applicability of statutory limitations to war crimes and crimes against humanity, "inhuman acts resulting from the policy of *apartheid*" are qualified as crimes against humanity,

Observing that the General Assembly of the United Nations has adopted a number of resolutions in which the policies and practices of *apartheid* are condemned as a crime against humanity,

Observing that the Security Council has emphasized that *apartheid* and its continued intensification and expansion seriously disturb and threaten international peace and security,

Convinced that an International Convention on the Suppression and Punishment of the Crime of *Apartheid* would make it possible to take more effective measures at the international and national levels with a view to the suppression and punishment of the crime of *apartheid*,

Have agreed as follows:

Article I

1. The States Parties to the present Convention declare that *apartheid* is a crime against humanity and that inhuman acts resulting from the policies and practices of *apartheid* and similar policies and practices of racial segregation and discrimination, as defined in article II of the Convention, are crimes violating the principles of international law, in particular the purposes and principles of the Charter of the United Nations, and constituting a serious threat to international peace and security.

2. The States Parties to the present Convention declare criminal those organizations, institutions and individuals committing the crime of *apartheid*.

Article II

For the purpose of the present Convention, the term “the crime of *apartheid*”, which shall include similar policies and practices of racial segregation and discrimination as practised in southern Africa, shall apply to the following inhuman acts committed for the purpose of establishing and maintaining domination by one racial group of persons over any other racial group of persons and systematically oppressing them:

(a) denial to a member or members of a racial group or groups of the right to life and liberty of person:

- (i) by murder of members of a racial group or groups;
- (ii) by the infliction upon the members of a racial group or groups of serious bodily or mental harm, by the infringement of their freedom or dignity, or by subjecting them to torture or to cruel, inhuman or degrading treatment or punishment;
- (iii) by arbitrary arrest and illegal imprisonment of the members of a racial group or groups;

(b) deliberate imposition on a racial group or groups of living conditions calculated to cause its or their physical destruction in whole or in part;

(c) any legislative measures and other measures calculated to prevent a racial group or groups from participation in the political, social, economic and cultural life of the country and the deliberate creation of conditions preventing the full development of such a group or groups, in particular by denying to members of a racial group or groups basic human rights and freedoms, including the right to work, the right to form recognized trade unions, the right to education, the right to leave and to return to their country, the right to a nationality, the right to freedom of movement and residence, the right to freedom of opinion and expression, and the right to freedom of peaceful assembly and association;

(d) any measures, including legislative measures, designed to divide the population along racial lines by the creation of separate reserves and ghettos for the members of a racial group or groups, the prohibition of mixed marriages among members of various racial groups, the expropriation of landed property belonging to a racial group or groups or to members thereof;

(e) exploitation of the labour of the members of a racial group or groups, in particular by submitting them to forced labour;

(f) persecution of organizations and persons, by depriving them of fundamental rights and freedoms, because they oppose *apartheid*.

Article III

International criminal responsibility shall apply, irrespective of the motive involved, to individuals, members of organizations and institutions and representatives of the State, whether residing in the territory of the State in which the acts are perpetrated or in some other State, whenever they:

(a) commit, participate in, directly incite or conspire in the commission of the acts mentioned in article II of the present Convention;

(b) directly abet, encourage or co-operate in the commission of the crime of *apartheid*.

Article IV

The State Parties to the present Convention undertake:

(a) to adopt any legislative or other measures necessary to suppress as well as to prevent any encouragement of the crime of *apartheid* and similar segregationist policies or their manifestations and to punish persons guilty of that crime;

(b) to adopt legislative, judicial and administrative measures to prosecute, bring to trial and punish in accordance with their jurisdiction persons responsible for, or accused of, the acts defined in article II of the present Convention, whether or not such persons reside in the territory of the State

in which the acts are committed or are nationals of that State or of some other State or are stateless persons.

Article V

Persons charged with the acts enumerated in article II of the present Convention may be tried by a competent tribunal of any State Party to the Convention which may acquire jurisdiction over the person of the accused or by an international penal tribunal having jurisdiction with respect to those States Parties which shall have accepted its jurisdiction.

Article VI

The States Parties to the present Convention undertake to accept and carry out in accordance with the Charter of the United Nations the decisions taken by the Security Council aimed at the prevention, suppression and punishment of the crime of *apartheid*, and to co-operate in the implementation of decisions adopted by other competent organs of the United Nations with a view to achieving the purposes of the Convention.

Article VII

1. The States Parties to the present Convention undertake to submit periodic reports to the group established under article IX on the legislative, judicial, administrative or other measures that they have adopted and that give effect to the provisions of the Convention.

2. Copies of the reports shall be transmitted through the Secretary-General of the United Nations to the Special Committee on *Apartheid*.

Article VIII

Any State Party to the present Convention may call upon any competent organ of the United Nations to take such action under the Charter of the United Nations as it considers appropriate for the prevention and suppression of the crime of *apartheid*.

Article IX

1. The Chairman of the Commission on Human Rights shall appoint a group consisting of three members of the Commission on Human Rights, who are also representatives of States Parties to the present Convention, to consider reports submitted by States Parties in accordance with article VII.

2. If, among the members of the Commission on Human Rights, there are no representatives of States Parties to the present Convention or if there are fewer than three such representatives, the Secretary-General of the United Nations shall, after consulting all States Parties to the Convention, designate a representative of the State Party or representatives of the States Parties which are not members of the Commission on Human Rights to take part in the work of the group established in accordance with paragraph 1 of this article, until such time as representatives of the States Parties to the Convention are elected to the Commission on Human Rights.

(b) to prepare, on the basis of reports from competent organs of the United Nations and periodic reports from States Parties to the present Convention, a list of individuals, organizations, institutions and representatives of States which are alleged to be responsible for the crimes enumerated in article II of the Convention, as well as those against whom legal proceedings have been undertaken by States Parties to the Convention;

(c) to request information from the competent United Nations organs concerning measures taken by the authorities responsible for the administration of Trust and Non-Self-Governing Territories, and all other Territories to which General Assembly resolution 1514 (XV) of 14 December 1960 applies, with regard to such individuals alleged to be responsible for crimes under article II of the Convention who are believed to be under their territorial and administrative jurisdiction.

2. The States Parties to the present Convention undertake in such cases to grant extradition in accordance with their legislation and with the treaties in force.

Statute of limitations

82. CONVENTION ON THE NON-APPLICABILITY OF STATUTORY LIMITATIONS TO WAR CRIMES AND CRIMES AGAINST HUMANITY

Done at New York on 26 November 1968

Entry into force: 11 November 1970

United Nations, *Treaty Series*, vol. 754, p. 73; Reg. No. 10823

Preamble

The States Parties to the present Convention,

Recalling resolutions of the General Assembly of the United Nations 3 (I) of 13 February 1946 and 170 (II) of 31 October 1947 on the extradition and punishment of war criminals, resolution 95 (I) of 11 December 1946 affirming the principles of international law recognized by the Charter of the International Military Tribunal, Nürnberg, and the judgement of the Tribunal, and resolutions 2184 (XXI) of 12 December 1966 and 2202 (XXI) of 16 December 1966 which expressly condemned as crimes against humanity the violation of the economic and political rights of the indigenous population on the one hand and the policies of *apartheid* on the other,

Recalling resolutions of the Economic and Social Council of the United Nations 1074 D (XXXIX) of 28 July 1965 and 1158 (XLI) of 5 August 1966 on the punishment of war criminals and of persons who have committed crimes against humanity,

Noting that none of the solemn declarations, instruments or conventions relating to the prosecution and punishment of war crimes and crimes against humanity made provision for a period of limitation,

Considering that war crimes and crimes against humanity are among the gravest crimes in international law,

Convinced that the effective punishment of war crimes and crimes against humanity is an important element in the prevention of such crimes, the protection of human rights and fundamental freedoms, the encouragement of confidence, the furtherance of co-operation among peoples and the promotion of international peace and security,

Noting that the application to war crimes and crimes against humanity of the rules of municipal law relating to the period of limitation for ordinary crimes is a matter of serious concern to world public opinion, since it prevents the prosecution and punishment of persons responsible for those crimes,

Recognizing that it is necessary and timely to affirm in international law, through this Convention, the principle that there is no period of limitation for war crimes and crimes against humanity, and to secure its universal application,

Have agreed as follows:

Article I

No statutory limitation shall apply to the following crimes, irrespective of the date of their commission:

(a) War crimes as they are defined in the Charter of the International Military Tribunal, Nürnberg, of 8 August 1945 and confirmed by resolutions 3 (I) of 13 February 1946 and 95 (I) of 11 December 1946 of the General Assembly of the United Nations, particularly the “grave breaches” enumerated in the Geneva Conventions of 12 August 1949 for the protection of war victims;

(b) Crimes against humanity whether committed in time of war or in time of peace as they are defined in the Charter of the International Military Tribunal, Nürnberg, of 8 August 1945 and

confirmed by resolutions 3 (I) of 13 February 1946 and 95 (I) of 11 December 1946 of the General Assembly of the United Nations, eviction by armed attack or occupation and inhuman acts resulting from the policy of *apartheid*, and the crime of genocide as defined in the 1948 Convention on the Prevention and Punishment of the Crime of Genocide, even if such acts do not constitute a violation of the domestic law of the country in which they were committed.

Article II

If any of the crimes mentioned in article I is committed, the provisions of this Convention shall apply to representatives of the State authority and private individuals who, as principals or accomplices, participate in or who directly incite others to the commission of any of those crimes, or who conspire to commit them, irrespective of the degree of completion, and to representatives of the State authority who tolerate their commission.

Article IV

The States Parties to the present Convention undertake to adopt, in accordance with their respective constitutional processes, any legislative or other measures necessary to ensure that statutory or other limitations shall not apply to the prosecution and punishment of the crimes referred to in articles I and II of this Convention and that, where they exist, such limitations shall be abolished.

Article V

This Convention shall, until 31 December 1969, be open for signature by any State Member of the United Nations or member of any of its specialized agencies or of the International Atomic Energy Agency, by any State Party to the Statute of the International Court of Justice, and by any other State which has been invited by the General Assembly of the United Nations to become a Party to this Convention.

2. The General Assembly of the United Nations shall decide upon the steps, if any, to be taken in respect of such a request.

Article X

1. This Convention shall be deposited with the Secretary-General of the United Nations.

2. The Secretary-General of the United Nations shall transmit certified copies of this Convention to all States referred to in article V.

United Nations, *Treaty Series*, vol. 2163, p. 75; Reg. No. 37789

The States Parties to the present Convention

Reaffirming the purposes and principles enshrined in the Charter of the United Nations and in the Declaration on the Principles of International Law concerning Friendly Relations and Co-operation among States in accordance with the Charter of the United Nations,

Expressing concern at new unlawful international activities linking drug traffickers and mercenaries in the perpetration of violent actions which undermine the constitutional order of States,

3. The present Convention does not exclude any criminal jurisdiction exercised in accordance with national law.

Article 10

1. Upon being satisfied that the circumstances so warrant, any State Party in whose territory the alleged offender is present shall, in accordance with its laws, take him into custody or take such other measures to ensure his presence for such time as is necessary to enable any criminal or extradition proceedings to be instituted. Extradition shall be subject to the other conditions provided by the law of the requested State.

3. States Parties which do not make extradition conditional on the existence of a treaty shall recognize those offences as extraditable offences between themselves, subject to the conditions provided by the law of the requested State.

4. The offences shall be treated, for the purpose of extradition between States Parties, as if they had been committed not only in the place in which they occurred but also in the territories of the States required to establish their jurisdiction in accordance with article 9 of the present Convention.

Mutual legal assistance and extradition

85. MODEL TREATY ON EXTRADITION

General Assembly resolution 45/116 of 14 December 1990, annex

The _____ and the _____

Desirous of making more effective the co-operation of the two countries in the control of crime by concluding a treaty on extradition,

Have agreed as follows:

Article 1. Obligation to extradite

Each Party agrees to extradite to the other, upon request and subject to the provisions of the present Treaty, any person who is wanted in the requesting State for prosecution for an extraditable offence or for the imposition or enforcement of a sentence in respect of such an offence.**Article 2. Extraditable offences**

1. For the purposes of the present Treaty, extraditable offences are offences that are punishable under the laws of both Parties by imprisonment or other deprivation of liberty for a maximum period of at least [one/two] year(s), or by a more severe penalty. Where the request for extradition relates to a person who is wanted for the enforcement of a sentence of imprisonment or other deprivation of liberty imposed for such an offence, extradition shall be granted only if a period of at least [four/six] months of such sentence remains to be served.

2. In determining whether an offence is an offence punishable under the laws of both Parties, it shall not matter whether:

(a) The laws of the Parties place the acts or omissions constituting the offence within the same category of offence or denominate the offence by the same terminology;

(b) Under the laws of the Parties the constituent elements of the offence differ, it being understood that the totality of the acts or omissions as presented by the requesting State shall be taken into account.

3. Where extradition of a person is sought for an offence against a law relating to taxation, customs duties, exchange control or other revenue matters, extradition may not be refused on the ground that the law of the requested State does not impose the same kind of tax or duty or does not contain a tax, customs duty or exchange regulation of the same kind as the law of the requesting State.

4. If the request for extradition includes several separate offences each of which is punishable under the laws of both Parties, but some of which do not fulfil the other conditions set out in paragraph 1 of the present article, the requested Party may grant extradition for the latter offences provided that the person is to be extradited for at least one extraditable offence.

Article 3. Mandatory grounds for refusal

Extradition shall not be granted in any of the following circumstances:

(a) If the offence for which extradition is requested is regarded by the requested State as an offence of a political nature;

(b) If the requested State has substantial grounds for believing that the request for extradition has been made for the purpose of prosecuting or punishing a person on account of that person's race, religion, nationality, ethnic origin, political opinions, sex or status, or that that person's position may be prejudiced for any of those reasons;

(c) If the offence for which extradition is requested is an offence under military law, which is not also an offence under ordinary criminal law;

(d) If there has been a final judgement rendered against the person in the requested State in respect of the offence for which the person's extradition is requested;

(e) If the person whose extradition is requested has, under the law of either Party, become immune from prosecution or punishment for any reason, including lapse of time or amnesty;

(f) If the person whose extradition is requested has been or would be subjected in the requesting State to torture or cruel, inhuman or degrading treatment or punishment or if that person has not received or would not receive the minimum guarantees in criminal proceedings as contained in the International Covenant on Civil and Political Rights, article 14;

(g) If the judgement of the requesting State has been rendered *in absentia*, the convicted person has not had sufficient notice of the trial or the opportunity to arrange for his or her defence and he has not had or will not have the opportunity to have the case retried in his or her presence.

Article 4. Optional grounds for refusal

Extradition may be refused in any of the following circumstances:

(a) If the person whose extradition is requested is a national of the requested State. Where extradition is refused on this ground, the requested State shall, if the other State so requests, submit the case to its competent authorities with a view to taking appropriate action against the person in respect of the offence for which extradition had been requested;

(b) If the competent authorities of the requested State have decided either not to institute or to terminate proceedings against the person for the offence in respect of which extradition is requested;

(c) If a prosecution in respect of the offence for which extradition is requested is pending in the requested State against the person whose extradition is requested;

(d) If the offence for which extradition is requested carries the death penalty under the law of the requesting State, unless that State gives such assurance as the requested State considers sufficient that the death penalty will not be imposed or, if imposed, will not be carried out;

(e) If the offence for which extradition is requested has been committed outside the territory of either Party and the law of the requested State does not provide for jurisdiction over such an offence committed outside its territory in comparable circumstances;

(f) If the offence for which extradition is requested is regarded under the law of the requested State as having been committed in whole or in part within that State. Where extradition is refused on this ground, the requested State shall, if the other State so requests, submit the case to its competent authorities with a view to taking appropriate action against the person for the offence for which extradition had been requested;

(g) If the person whose extradition is requested has been sentenced or would be liable to be tried or sentenced in the requesting State by an extraordinary or *ad hoc* court or tribunal;

(h) If the requested State, while also taking into account the nature of the offence and the interests of the requesting State, considers that, in the circumstances of the case, the extradition of that person would be incompatible with humanitarian considerations in view of age, health or other personal circumstances of that person.

Article 5. Channels of communication and required documents

1. A request for extradition shall be made in writing. The request, supporting documents and subsequent communications shall be transmitted through the diplomatic channel, directly between the ministries of justice or any other authorities designated by the Parties.

2. A request for extradition shall be accompanied by the following:

(a) In all cases.

(i) As accurate a description as possible of the person sought, together with any other information that may help to establish that person's identity, nationality and location;

- (ii) The text of the relevant provision of the law creating the offence or, where necessary, a statement of the law relevant to the offence and a statement of the penalty that can be imposed for the offence;
 - (b) If the person is accused of an offence, by a warrant issued by a court or other competent judicial authority for the arrest of the person or a certified copy of that warrant, a statement of the offence for which extradition is requested and a description of the acts or omissions constituting the alleged offence, including an indication of the time and place of its commission;
 - (c) If the person has been convicted of an offence, by a statement of the offence for which extradition is requested and a description of the acts or omissions constituting the offence and by the original or certified copy of the judgement or any other document setting out the conviction and the sentence imposed, the fact that the sentence is enforceable, and the extent to which the sentence remains to be served;
 - (d) If the person has been convicted of an offence in his or her absence, in addition to the documents set out in paragraph 2 (c) of the present article, by a statement as to the legal means available to the person to prepare his or her defence or to have the case retried in his or her presence;
 - (e) If the person has been convicted of an offence but no sentence has been imposed, by a statement of the offence for which extradition is requested and a description of the acts or omissions constituting the offence and by a document setting out the conviction and a statement affirming that there is an intention to impose a sentence.
3. The documents submitted in support of a request for extradition shall be accompanied by a translation into the language of the requested State or in another language acceptable to that State.

Article 6. Simplified extradition procedure

The requested State, if not precluded by its law, may grant extradition after receipt of a request for provisional arrest, provided that the person sought explicitly consents before a competent authority.

Article 7. Certification and authentication

Except as provided by the present Treaty, a request for extradition and the documents in support thereof, as well as documents or other material supplied in response to such a request, shall not require certification or authentication.

Article 8. Additional information

If the requested State considers that the information provided in support of a request for extradition is not sufficient, it may request that additional information be furnished within such reasonable time as it specifies.

Article 9. Provisional arrest

1. In case of urgency the requesting State may apply for the provisional arrest of the person sought pending the presentation of the request for extradition. The application shall be transmitted by means of the facilities of the International Criminal Police Organization, by post or telegraph or by any other means affording a record in writing.

2. The application shall contain a description of the person sought, a statement that extradition is to be requested, a statement of the existence of one of the documents mentioned in paragraph 2 of article 5 of the present Treaty, authorizing the apprehension of the person, a statement of the punishment that can be or has been imposed for the offence, including the time left to be served and a concise statement of the facts of the case, and a statement of the location, where known, of the person.

3. The requested State shall decide on the application in accordance with its law and communicate its decision to the requesting State without delay.

4. The person arrested upon such an application shall be set at liberty upon the expiration of [40] days from the date of arrest if a request for extradition, supported by the relevant documents

specified in paragraph 2 of article 5 of the present Treaty, has not been received. The present paragraph does not preclude the possibility of conditional release of the person prior to the expiration of the [40] days.

5. The release of the person pursuant to paragraph 4 of the present article shall not prevent rearrest and institution of proceedings with a view to extraditing the person sought if the request and supporting documents are subsequently received.

Article 10. Decision on the request

1. The requested State shall deal with the request for extradition pursuant to procedures provided by its own law, and shall promptly communicate its decision to the requesting State.

2. Reasons shall be given for any complete or partial refusal of the request.

Article 11. Surrender of the person

1. Upon being informed that extradition has been granted, the Parties shall, without undue delay, arrange for the surrender of the person sought and the requested State shall inform the requesting State of the length of time for which the person sought was detained with a view to surrender.

2. The person shall be removed from the territory of the requested State within such reasonable period as the requested State specifies and, if the person is not removed within that period, the requested State may release the person and may refuse to extradite that person for the same offence.

3. If circumstances beyond its control prevent a Party from surrendering or removing the person to be extradited, it shall notify the other Party. The two Parties shall mutually decide upon a new date of surrender, and the provisions of paragraph 2 of the present article shall apply.

Article 12. Postponed or conditional surrender

1. The requested State may, after making its decision on the request for extradition, postpone the surrender of a person sought, in order to proceed against that person, or, if that person has already been convicted, in order to enforce a sentence imposed for an offence other than that for which extradition is sought. In such a case the requested State shall advise the requesting State accordingly.

2. The requested State may, instead of postponing surrender, temporarily surrender the person sought to the requesting State in accordance with conditions to be determined between the Parties.

Article 13. Surrender of property

1. To the extent permitted under the law of the requested State and subject to the rights of third parties, which shall be duly respected, all property found in the requested State that has been acquired as a result of the offence or that may be required as evidence shall, if the requesting State so requests, be surrendered if extradition is granted.

2. The said property may, if the requesting State so requests, be surrendered to the requesting State even if the extradition agreed to cannot be carried out.

3. When the said property is liable to seizure or confiscation in the requested State, it may retain it or temporarily hand it over.

4. Where the law of the requested State or the protection of the rights of third parties so require, any property so surrendered shall be returned to the requested State free of charge after the completion of the proceedings, if that State so requests.

Article 14. Rule of speciality

1. A person extradited under the present Treaty shall not be proceeded against, sentenced, detained, re-extradited to a third State, or subjected to any other restriction of personal liberty in the territory of the requesting State for any offence committed before surrender other than:

- (a) An offence for which extradition was granted;
- (b) Any other offence in respect of which the requested State consents. Consent shall be given if the offence for which it is requested is itself subject to extradition in accordance with the present Treaty.

2. A request for the consent of the requested State under the present article shall be accompanied by the documents mentioned in paragraph 2 of article 5 of the present Treaty and a legal record of any statement made by the extradited person with respect to the offence.

3. Paragraph 1 of the present article shall not apply if the person has had an opportunity to leave the requesting State and has not done so within [30/45] days of final discharge in respect of the offence for which that person was extradited or if the person has voluntarily returned to the territory of the requesting State after leaving it.

Article 15. Transit

1. Where a person is to be extradited to a Party from a third State through the territory of the other Party, the Party to which the person is to be extradited shall request the other Party to permit the transit of that person through its territory. This does not apply where air transport is used and no landing in the territory of the other Party is scheduled.

2. Upon receipt of such a request, which shall contain relevant information, the requested State shall deal with this request pursuant to procedures provided by its own law. The requested State shall grant the request expeditiously unless its essential interests would be prejudiced thereby.

3. The State of transit shall ensure that legal provisions exist that would enable detaining the person in custody during transit.

4. In the event of an unscheduled landing, the Party to be requested to permit transit may, at the request of the escorting officer, hold the person in custody for [48] hours, pending receipt of the transit request to be made in accordance with paragraph 1 of the present article.

Article 16. Concurrent requests

If a Party receives requests for extradition for the same person from both the other Party and a third State it shall, at its discretion, determine to which of those States the person is to be extradited.

Article 17. Costs

1. The requested State shall meet the cost of any proceedings in its jurisdiction arising out of a request for extradition.

2. The requested State shall also bear the costs incurred in its territory in connection with the seizure and handing over of property, or the arrest and detention of the person whose extradition is sought.

3. The requesting State shall bear the costs incurred in conveying the person from the territory of the requested State, including transit costs.

Article 18. Final provisions

1. The present Treaty is subject to [ratification, acceptance or approval]. The instruments of [ratification, acceptance or approval] shall be exchanged as soon as possible.

2. The present Treaty shall enter into force on the thirtieth day after the day on which the instruments of [ratification, acceptance or approval] are exchanged.

3. The present Treaty shall apply to requests made after its entry into force, even if the relevant acts or omissions occurred prior to that date.

4. Either Contracting Party may denounce the present Treaty by giving notice in writing to the other Party. Such denunciation shall take effect six months following the date on which such notice is received by the other Party.

In witness whereof the undersigned, being duly authorized thereto by their respective Governments, have signed the present Treaty.

(f) The act is an offence under military law, which is not also an offence under ordinary criminal law.

2. Assistance shall not be refused solely on the ground of secrecy of banks and similar financial institutions.

3. The requested State may postpone the execution of the request if its immediate execution would interfere with an ongoing investigation or prosecution in the requested State.

4. Before refusing a request or postponing its execution, the requested State shall consider whether assistance may be granted subject to certain conditions. If the requesting State accepts assistance subject to these conditions, it shall comply with them.

5. Reasons shall be given for any refusal or postponement of mutual assistance.

The requesting State shall not, without the consent of the requested State, use or transfer information or evidence provided by the requested State for investigations or proceedings other than those stated in the request. However, in cases where the charge is altered, the material provided may be used in so far as the offence, as charged, is an offence in respect of which mutual assistance could be provided under the present Treaty.

Article 9. Protection of confidentiality

Upon request:

(a) The requested State shall use its best endeavours to keep confidential the request for assistance, its contents and its supporting documents as well as the fact of granting of such assistance. If the request cannot be executed without breaching confidentiality, the requested State shall so inform the requesting State, which shall then determine whether the request should nevertheless be executed;

International Criminal Tribunal for the former Yugoslavia

87. UNITED NATIONS SECURITY COUNCIL RESOLUTION 827 (1993)

Adopted by the Security Council at its 3217th meeting on 25 May 1993

The Security Council,

Reaffirming its resolution 713 (1991) of 25 September 1991 and all subsequent relevant resolutions,

Having considered the report of the Secretary-General (S/25704 and Add.1) pursuant to paragraph 2 of resolution 808 (1993),

Expressing once again its grave alarm at continuing reports of widespread and flagrant violations of international humanitarian law occurring within the territory of the former Yugoslavia, and especially in the Republic of Bosnia and Herzegovina, including reports of mass killings, massive, organized and systematic detention and rape of women, and the continuance of the practice of "ethnic cleansing", including for the acquisition and the holding of territory,

Determining that this situation continues to constitute a threat to international peace and security,

Determined to put an end to such crimes and to take effective measures to bring to justice the persons who are responsible for them,

Convinced that in the particular circumstances of the former Yugoslavia the establishment as an ad hoc measure by the Council of an international tribunal and the prosecution of persons responsible for serious violations of international humanitarian law would enable this aim to be achieved and would contribute to the restoration and maintenance of peace,

Believing that the establishment of an international tribunal and the prosecution of persons responsible for the above-mentioned violations of international humanitarian law will contribute to ensuring that such violations are halted and effectively redressed,

Noting in this regard the recommendation by the Co-Chairmen of the Steering Committee of the International Conference on the Former Yugoslavia for the establishment of such a tribunal (S/25221),

Reaffirming in this regard its decision in resolution 808 (1993) that an international tribunal shall be established for the prosecution of persons responsible for serious violations of international humanitarian law committed in the territory of the former Yugoslavia since 1991,

Considering that, pending the appointment of the Prosecutor of the International Tribunal, the Commission of Experts established pursuant to resolution 780 (1992) should continue on an urgent basis the collection of information relating to evidence of grave breaches of the Geneva Conventions and other violations of international humanitarian law as proposed in its interim report (S/25274),

Acting under Chapter VII of the Charter of the United Nations,

1. Approves the report of the Secretary-General;

2. Decides hereby to establish an international tribunal for the sole purpose of prosecuting persons responsible for serious violations of international humanitarian law committed in the territory of the former Yugoslavia between 1 January 1991 and a date to be determined by the Security Council upon the restoration of peace and to this end to adopt the Statute of the International Tribunal annexed to the above-mentioned report;

3. Requests the Secretary-General to submit to the judges of the International Tribunal, upon their election, any suggestions received from States for the rules of procedure and evidence called for in Article 15 of the Statute of the International Tribunal;

4. Decides that all States shall cooperate fully with the International Tribunal and its organs in accordance with the present resolution and the Statute of the International Tribunal and that consequently all States shall take any measures necessary under their domestic law to implement the provisions of the present resolution and the Statute, including the obligation of States to comply with requests for assistance or orders issued by a Trial Chamber under Article 29 of the Statute;

5. Urges States and intergovernmental and non-governmental organizations to contribute funds, equipment and services to the International Tribunal, including the offer of expert personnel;

6. Decides that the determination of the seat of the International Tribunal is subject to the conclusion of appropriate arrangements between the United Nations and the Netherlands acceptable to the Council, and that the International Tribunal may sit elsewhere when it considers it necessary for the efficient exercise of its functions;

7. Decides also that the work of the International Tribunal shall be carried out without prejudice to the right of the victims to seek, through appropriate means, compensation for damages incurred as a result of violations of international humanitarian law;

8. Requests the Secretary-General to implement urgently the present resolution and in particular to make practical arrangements for the effective functioning of the International Tribunal at the earliest time and to report periodically to the Council;

9. Decides to remain actively seized of the matter.

3. The fact that any of the acts referred to in articles 2 to 5 of the present Statute was committed by a subordinate does not relieve his superior of criminal responsibility if he knew or had reason to know that the subordinate was about to commit such acts or had done so and the superior failed to take the necessary and reasonable measures to prevent such acts or to punish the perpetrators thereof.

3. In considering the penalty to be imposed on a person convicted of a crime under the present Statute, the International Tribunal shall take into account the extent to which any penalty imposed by a national court on the same person for the same act has already been served.

Article 11. Organization of the International Tribunal

The International Tribunal shall consist of the following organs:

- (a) the Chambers, comprising three Trial Chambers and an Appeals Chamber;
- (b) the Prosecutor; and

3. Seven of the permanent judges shall be members of the Appeals Chamber. The Appeals Chamber shall, for each appeal, be composed of five of its members.

4. A person who for the purposes of membership of the Chambers of the International Tribunal could be regarded as a national of more than one State shall be deemed to be a national of the State in which that person ordinarily exercises civil and political rights.

5. The Secretary-General may, at the request of the President of the International Tribunal appoint, from among the *ad litem* judges elected in accordance with Article 13 *ter*, reserve judges to be present at each stage of a trial to which they have been appointed and to replace a judge if that judge is unable to continue sitting.

6. Without prejudice to paragraph 2 above, in the event that exceptional circumstances require for a permanent judge in a section of a Trial Chamber to be replaced resulting in a section solely comprised of *ad litem* judges, that section may continue to hear the case, notwithstanding that its composition no longer includes a permanent judge.

Article 13. Qualifications of judges

The permanent and *ad litem* judges shall be persons of high moral character, impartiality and integrity who possess the qualifications required in their respective countries for appointment to the highest judicial offices. International Criminal Tribunal for Rwanda**89. SECURITY COUNCIL RESOLUTION 955 (1994)**

Adopted by the Security Council at its 3453rd meeting on 8 November 1994

The Security Council,

Reaffirming all its previous resolutions on the situation in Rwanda,

Having considered the reports of the Secretary-General pursuant to paragraph 3 of resolution 935 (1994) of 1 July 1994 (S/1994/879 and S/1994/906), and having taken note of the reports of the Special Rapporteur for Rwanda of the United Nations Commission on Human Rights (S/1994/1157, annex I and annex II),

Expressing appreciation for the work of the Commission of Experts established pursuant to resolution 935 (1994), in particular its preliminary report on violations of international humanitarian law in Rwanda transmitted by the Secretary-General's letter of 1 October 1994 (S/1994/1125),

Expressing once again its grave concern at the reports indicating that genocide and other systematic, widespread and flagrant violations of international humanitarian law have been committed in Rwanda,

Determining that this situation continues to constitute a threat to international peace and security,

Determined to put an end to such crimes and to take effective measures to bring to justice the persons who are responsible for them,

Convinced that in the particular circumstances of Rwanda, the prosecution of persons responsible for serious violations of international humanitarian law would enable this aim to be achieved and would contribute to the process of national reconciliation and to the restoration and maintenance of peace,

Believing that the establishment of an international tribunal for the prosecution of persons responsible for genocide and the other above-mentioned violations of international humanitarian law will contribute to ensuring that such violations are halted and effectively redressed,

Stressing also the need for international cooperation to strengthen the courts and judicial system of Rwanda, having regard in particular to the necessity for those courts to deal with large numbers of suspects,

Considering that the Commission of Experts established pursuant to resolution 935 (1994) should continue on an urgent basis the collection of information relating to evidence of grave violations of international humanitarian law committed in the territory of Rwanda and should submit its final report to the Secretary-General by 30 November 1994,

Acting under Chapter VII of the Charter of the United Nations,

1. Decides hereby, having received the request of the Government of Rwanda (S/1994/1115), to establish an international tribunal for the sole purpose of prosecuting persons responsible for

genocide and other serious violations of international humanitarian law committed in the territory of Rwanda and Rwandan citizens responsible for genocide and other such violations committed in the territory of neighbouring States, between 1 January 1994 and 31 December 1994 and to this end to adopt the Statute of the International Criminal Tribunal for Rwanda annexed hereto;

2. Decides that all States shall cooperate fully with the International Tribunal and its organs in accordance with the present resolution and the Statute of the International Tribunal and that consequently all States shall take any measures necessary under their domestic law to implement the provisions of the present resolution and the Statute, including the obligation of States to comply with requests for assistance or orders issued by a Trial Chamber under Article 28 of the Statute, and requests States to keep the Secretary-General informed of such measures;

3. Considers that the Government of Rwanda should be notified prior to the taking of decisions under articles 26 and 27 of the Statute;

4. Urges States and intergovernmental and non-governmental organizations to contribute funds, equipment and services to the International Tribunal, including the offer of expert personnel;

5. Requests the Secretary-General to implement this resolution urgently and in particular to make practical arrangements for the effective functioning of the International Tribunal, including recommendations to the Council as to possible locations for the seat of the International Tribunal at the earliest time and to report periodically to the Council;

6. Decides that the seat of the International Tribunal shall be determined by the Council having regard to considerations of justice and fairness as well as administrative efficiency, including access to witnesses, and economy, and subject to the conclusion of appropriate arrangements between the United Nations and the State of the seat, acceptable to the Council, having regard to the fact that the International Tribunal may meet away from its seat when it considers it necessary for the efficient exercise of its functions; and decides that an office will be established and proceedings will be conducted in Rwanda, where feasible and appropriate, subject to the conclusion of similar appropriate arrangements;

7. Decides to consider increasing the number of judges and Trial Chambers of the International Tribunal if it becomes necessary;

8. Decides to remain actively seized of the matter.

1. When a situation has been referred to the Court pursuant to article 13 (a) and the Prosecutor has determined that there would be a reasonable basis to commence an investigation, or the Prosecutor initiates an investigation pursuant to articles 13 (c) and 15, the Prosecutor shall notify all States Parties and those States which, taking into account the information available, would normally exercise jurisdiction over the crimes concerned. The Prosecutor may notify such States on a confidential basis and, where the Prosecutor believes it necessary to protect persons, prevent destruction of evidence or prevent the absconding of persons, may limit the scope of the information provided to States.

2. Within one month of receipt of that notification, a State may inform the Court that it is investigating or has investigated its nationals or others within its jurisdiction with respect to criminal acts which may constitute crimes referred to in article 5 and which relate to the information provided in the notification to States. At the request of that State, the Prosecutor shall defer to the State's investigation of those persons unless the Pre-Trial Chamber, on the application of the Prosecutor, decides to authorize the investigation.

3. The Prosecutor's deferral to a State's investigation shall be open to review by the Prosecutor six months after the date of deferral or at any time when there has been a significant change of circumstances based on the State's unwillingness or inability genuinely to carry out the investigation.

7. A State which has challenged a ruling of the Pre-Trial Chamber under this article may challenge the admissibility of a case under article 19 on the grounds of additional significant facts or significant change of circumstances.

Article 19. Challenges to the jurisdiction of the Court or the admissibility of a case

Decisions with respect to jurisdiction or admissibility may be appealed to the Appeals Chamber in accordance with article 82.

7. If a challenge is made by a State referred to in paragraph 2 (b) or (c), the Prosecutor shall suspend the investigation until such time as the Court makes a determination in accordance with article 17.

If the Prosecutor, having regard to the matters referred to in article 17, defers an investigation, the Prosecutor may request that the relevant State make available to the Prosecutor information on the proceedings. - (a) The information available to the Prosecutor provides a reasonable basis to believe that a crime within the jurisdiction of the Court has been or is being committed;
- (b) The case is or would be admissible under article 17; and
- (c) Taking into account the gravity of the crime and the interests of victims, there are nonetheless substantial reasons to believe that an investigation would not serve the interests of justice.

If the Prosecutor determines that there is no reasonable basis to proceed and his or her determination is based solely on subparagraph (c) above, he or she shall inform the Pre-Trial Chamber.

2. If, upon investigation, the Prosecutor concludes that there is not a sufficient basis for a prosecution because:

- (a) There is not a sufficient legal or factual basis to seek a warrant or summons under article 58;

(c) A prosecution is not in the interests of justice, taking into account all the circumstances, including the gravity of the crime, the interests of victims and the age or infirmity of the alleged perpetrator, and his or her role in the alleged crime;

the Prosecutor shall inform the Pre-Trial Chamber and the State making a referral under article 14 or the Security Council in a case under article 13, paragraph (b), of his or her conclusion and the reasons for the conclusion.

3. (a) At the request of the State making a referral under article 14 or the Security Council under article 13, paragraph (b), the Pre-Trial Chamber may review a decision of the Prosecutor under paragraph 1 or 2 not to proceed and may request the Prosecutor to reconsider that decision.

(e) Agree not to disclose, at any stage of the proceedings, documents or information that the Prosecutor obtains on the condition of confidentiality and solely for the purpose of generating new evidence, unless the provider of the information consents; and

(f) Take necessary measures, or request that necessary measures be taken, to ensure the confidentiality of information, the protection of any person or the preservation of evidence.

Article 55. Rights of persons during an investigation

1. In respect of an investigation under this Statute, a person:

- (a) Shall not be compelled to incriminate himself or herself or to confess guilt;
- (b) Shall not be subjected to any form of coercion, duress or threat, to torture or to any other form of cruel, inhuman or degrading treatment or punishment;
- (c) Shall, if questioned in a language other than a language the person fully understands and speaks, have, free of any cost, the assistance of a competent interpreter and such translations as are necessary to meet the requirements of fairness; and
- (d) Shall not be subjected to arbitrary arrest or detention, and shall not be deprived of his or her liberty except on such grounds and in accordance with such procedures as are established in this Statute.

2. Where there are grounds to believe that a person has committed a crime within the jurisdiction of the Court and that person is about to be questioned either by the Prosecutor, or by national authorities pursuant to a request made under Part 9, that person shall also have the following rights of which he or she shall be informed prior to being questioned:

- (a) To be informed, prior to being questioned, that there are grounds to believe that he or she has committed a crime within the jurisdiction of the Court;
- (b) To remain silent, without such silence being a consideration in the determination of guilt or innocence;
- (c) To have legal assistance of the person's choosing, or, if the person does not have legal assistance, to have legal assistance assigned to him or her, in any case where the interests of justice so require, and without payment by the person in any such case if the person does not have sufficient means to pay for it; and
- (d) To be questioned in the presence of counsel unless the person has voluntarily waived his or her right to counsel.

Article 56. Role of the Pre-Trial Chamber in relation to a unique investigative opportunity

(b) In that case, the Pre-Trial Chamber may, upon request of the Prosecutor, take such measures as may be necessary to ensure the efficiency and integrity of the proceedings and, in particular, to protect the rights of the defence.

(c) Unless the Pre-Trial Chamber orders otherwise, the Prosecutor shall provide the relevant information to the person who has been arrested or appeared in response to a summons in connection with the investigation referred to in subparagraph (a), in order that he or she may be heard on the matter.

2. The measures referred to in paragraph 1 (b) may include:

- (a) Making recommendations or orders regarding procedures to be followed;
- (b) Directing that a record be made of the proceedings;
- (c) Appointing an expert to assist;

- (e) Naming one of its members or, if necessary, another available judge of the Pre-Trial or Trial Division to observe and make recommendations or orders regarding the collection and preservation of evidence and the questioning of persons;

(f) Taking such other action as may be necessary to collect or preserve evidence.

3. (a) Where the Prosecutor has not sought measures pursuant to this article but the Pre-Trial Chamber considers that such measures are required to preserve evidence that it deems would be essential for the defence at trial, it shall consult with the Prosecutor as to whether there is good reason for the Prosecutor's failure to request the measures. If upon consultation, the Pre-Trial Chamber concludes that the Prosecutor's failure to request such measures is unjustified, the Pre-Trial Chamber may take such measures on its own initiative.

(b) A decision of the Pre-Trial Chamber to act on its own initiative under this paragraph may be appealed by the Prosecutor. The appeal shall be heard on an expedited basis.

4. The admissibility of evidence preserved or collected for trial pursuant to this article, or the record thereof, shall be governed at trial by article 69, and given such weight as determined by the Trial Chamber.

(b) In all other cases, a single judge of the Pre-Trial Chamber may exercise the functions provided for in this Statute, unless otherwise provided for in the Rules of Procedure and Evidence or by a majority of the Pre-Trial Chamber.

3. In addition to its other functions under this Statute, the Pre-Trial Chamber may:

(a) At the request of the Prosecutor, issue such orders and warrants as may be required for the purposes of an investigation;

(b) Upon the request of a person who has been arrested or has appeared pursuant to a summons under article 58, issue such orders, including measures such as those described in article 56, or seek such cooperation pursuant to Part 9 as may be necessary to assist the person in the preparation of his or her defence;

(c) Where necessary, provide for the protection and privacy of victims and witnesses, the preservation of evidence, the protection of persons who have been arrested or appeared in response to a summons, and the protection of national security information;

(d) Authorize the Prosecutor to take specific investigative steps within the territory of a State Party without having secured the cooperation of that State under Part 9 if, whenever possible having regard to the views of the State concerned, the Pre-Trial Chamber has determined in that case that the State is clearly unable to execute a request for cooperation due to the unavailability of any authority or any component of its judicial system competent to execute the request for cooperation under Part 9;

(e) Where a warrant of arrest or a summons has been issued under article 58, and having due regard to the strength of the evidence and the rights of the parties concerned, as provided for in this Statute and the Rules of Procedure and Evidence, seek the cooperation of States pursuant to article 93, paragraph 1 (k), to take protective measures for the purpose of forfeiture, in particular for the ultimate benefit of victims.

Article 58. Issuance by the Pre-Trial Chamber of a warrant of arrest or a summons to appear

1. At any time after the initiation of an investigation, the Pre-Trial Chamber shall, on the application of the Prosecutor, issue a warrant of arrest of a person if, having examined the application and the evidence or other information submitted by the Prosecutor, it is satisfied that:

(a) There are reasonable grounds to believe that the person has committed a crime within the jurisdiction of the Court; and

- (b) The arrest of the person appears necessary:
 - (i) To ensure the person's appearance at trial;
 - (ii) To ensure that the person does not obstruct or endanger the investigation or the court proceedings; or
 - (iii) Where applicable, to prevent the person from continuing with the commission of that crime or a related crime which is within the jurisdiction of the Court and which arises out of the same circumstances.
 - 2. The application of the Prosecutor shall contain:
 - (a) The name of the person and any other relevant identifying information;
 - (b) A specific reference to the crimes within the jurisdiction of the Court which the person is alleged to have committed;
 - (c) A concise statement of the facts which are alleged to constitute those crimes;

 - (e) The reason why the Prosecutor believes that the arrest of the person is necessary.
 - 3. The warrant of arrest shall contain:
 - (a) The name of the person and any other relevant identifying information;

 - 4. The warrant of arrest shall remain in effect until otherwise ordered by the Court.
 - 5. On the basis of the warrant of arrest, the Court may request the provisional arrest or the arrest and surrender of the person under Part 9.
 - 6. The Prosecutor may request the Pre-Trial Chamber to amend the warrant of arrest by modifying or adding to the crimes specified therein. The Pre-Trial Chamber shall so amend the warrant if it is satisfied that there are reasonable grounds to believe that the person committed the modified or additional crimes.
 - 7. As an alternative to seeking a warrant of arrest, the Prosecutor may submit an application requesting that the Pre-Trial Chamber issue a summons for the person to appear. If the Pre-Trial Chamber is satisfied that there are reasonable grounds to believe that the person committed the crime alleged and that a summons is sufficient to ensure the person's appearance, it shall issue the summons, with or without conditions restricting liberty (other than detention) if provided for by national law, for the person to appear. The summons shall contain:
 - (a) The name of the person and any other relevant identifying information;
 - (b) The specified date on which the person is to appear;
 - (c) A specific reference to the crimes within the jurisdiction of the Court which the person is alleged to have committed; and
 - (d) A concise statement of the facts which are alleged to constitute the crime.
- The summons shall be served on the person.

Article 59. Arrest proceedings in the custodial State

1. A State Party which has received a request for provisional arrest or for arrest and surrender shall immediately take steps to arrest the person in question in accordance with its laws and the provisions of Part 9.
2. A person arrested shall be brought promptly before the competent judicial authority in the custodial State which shall determine, in accordance with the law of that State, that:

- (a) The warrant applies to that person;
- (b) The person has been arrested in accordance with the proper process; and
- (c) The person's rights have been respected.

3. The person arrested shall have the right to apply to the competent authority in the custodial State for interim release pending surrender.

4. In reaching a decision on any such application, the competent authority in the custodial State shall consider whether, given the gravity of the alleged crimes, there are urgent and exceptional circumstances to justify interim release and whether necessary safeguards exist to ensure that the custodial State can fulfil its duty to surrender the person to the Court. It shall not be open to the competent authority of the custodial State to consider whether the warrant of arrest was properly issued in accordance with article 58, paragraph 1 (a) and (b).

5. The Pre-Trial Chamber shall be notified of any request for interim release and shall make recommendations to the competent authority in the custodial State. The competent authority in the custodial State shall give full consideration to such recommendations, including any recommendations on measures to prevent the escape of the person, before rendering its decision.

6. If the person is granted interim release, the Pre-Trial Chamber may request periodic reports on the status of the interim release.

7. Once ordered to be surrendered by the custodial State, the person shall be delivered to the Court as soon as possible.

1. Upon the surrender of the person to the Court, or the person's appearance before the Court voluntarily or pursuant to a summons, the Pre-Trial Chamber shall satisfy itself that the person has been informed of the crimes which he or she is alleged to have committed, and of his or her rights under this Statute, including the right to apply for interim release pending trial.

2. A person subject to a warrant of arrest may apply for interim release pending trial. If the Pre-Trial Chamber is satisfied that the conditions set forth in article 58, paragraph 1, are met, the person shall continue to be detained. If it is not so satisfied, the Pre-Trial Chamber shall release the person, with or without conditions.

3. The Pre-Trial Chamber shall periodically review its ruling on the release or detention of the person, and may do so at any time on the request of the Prosecutor or the person. Upon such review, it may modify its ruling as to detention, release or conditions of release, if it is satisfied that changed circumstances so require.

4. The Pre-Trial Chamber shall ensure that a person is not detained for an unreasonable period prior to trial due to inexcusable delay by the Prosecutor. If such delay occurs, the Court shall consider releasing the person, with or without conditions.

5. If necessary, the Pre-Trial Chamber may issue a warrant of arrest to secure the presence of a person who has been released.

Article 61. Confirmation of the charges before trial

1. Subject to the provisions of paragraph 2, within a reasonable time after the person's surrender or voluntary appearance before the Court, the Pre-Trial Chamber shall hold a hearing to confirm the charges on which the Prosecutor intends to seek trial. The hearing shall be held in the presence of the Prosecutor and the person charged, as well as his or her counsel.

2. The Pre-Trial Chamber may, upon request of the Prosecutor or on its own motion, hold a hearing in the absence of the person charged to confirm the charges on which the Prosecutor intends to seek trial when the person has:

- (a) Waived his or her right to be present; or

(b) Fled or cannot be found and all reasonable steps have been taken to secure his or her appearance before the Court and to inform the person of the charges and that a hearing to confirm those charges will be held.

3. Within a reasonable time before the hearing, the person shall:

(a) Be provided with a copy of the document containing the charges on which the Prosecutor intends to bring the person to trial; and

(b) Be informed of the evidence on which the Prosecutor intends to rely at the hearing.

The Pre-Trial Chamber may issue orders regarding the disclosure of information for the purposes of the hearing.

4. Before the hearing, the Prosecutor may continue the investigation and may amend or withdraw any charges. The person shall be given reasonable notice before the hearing of any amendment to or withdrawal of charges. In case of a withdrawal of charges, the Prosecutor shall notify the Pre-Trial Chamber of the reasons for the withdrawal.

5. At the hearing, the Prosecutor shall support each charge with sufficient evidence to establish substantial grounds to believe that the person committed the crime charged. The Prosecutor may rely on documentary or summary evidence and need not call the witnesses expected to testify at the trial.

6. At the hearing, the person may:

(a) Object to the charges;

(b) Challenge the evidence presented by the Prosecutor; and

(c) Present evidence.

7. The Pre-Trial Chamber shall, on the basis of the hearing, determine whether there is sufficient evidence to establish substantial grounds to believe that the person committed each of the crimes charged. Based on its determination, the Pre-Trial Chamber shall:

(a) Confirm those charges in relation to which it has determined that there is sufficient evidence, and commit the person to a Trial Chamber for trial on the charges as confirmed;

(b) Decline to confirm those charges in relation to which it has determined that there is insufficient evidence;

(c) Adjourn the hearing and request the Prosecutor to consider:

(i) Providing further evidence or conducting further investigation with respect to a particular charge; or

(ii) Amending a charge because the evidence submitted appears to establish a different crime within the jurisdiction of the Court.

8. Where the Pre-Trial Chamber declines to confirm a charge, the Prosecutor shall not be precluded from subsequently requesting its confirmation if the request is supported by additional evidence.

9. After the charges are confirmed and before the trial has begun, the Prosecutor may, with the permission of the Pre-Trial Chamber and after notice to the accused, amend the charges. If the Prosecutor seeks to add additional charges or to substitute more serious charges, a hearing under this article to confirm those charges must be held. After commencement of the trial, the Prosecutor may, with the permission of the Trial Chamber, withdraw the charges.

10. Any warrant previously issued shall cease to have effect with respect to any charges which have not been confirmed by the Pre-Trial Chamber or which have been withdrawn by the Prosecutor.

11. Once the charges have been confirmed in accordance with this article, the Presidency shall constitute a Trial Chamber which, subject to paragraph 9 and to article 64, paragraph 4, shall be

responsible for the conduct of subsequent proceedings and may exercise any function of the Pre-Trial Chamber that is relevant and capable of application in those proceedings.

Such measures shall be taken only in exceptional circumstances after other reasonable alternatives have proved inadequate, and only for such duration as is strictly required.

Article 64. Functions and powers of the Trial Chamber

1. The functions and powers of the Trial Chamber set out in this article shall be exercised in accordance with this Statute and the Rules of Procedure and Evidence.

2. The Trial Chamber shall ensure that a trial is fair and expeditious and is conducted with full respect for the rights of the accused and due regard for the protection of victims and witnesses.

8. (a) At the commencement of the trial, the Trial Chamber shall have read to the accused the charges previously confirmed by the Pre-Trial Chamber. The Trial Chamber shall satisfy itself that

the accused understands the nature of the charges. It shall afford him or her the opportunity to make an admission of guilt in accordance with article 65 or to plead not guilty.

(b) At the trial, the presiding judge may give directions for the conduct of proceedings, including to ensure that they are conducted in a fair and impartial manner. Subject to any directions of the presiding judge, the parties may submit evidence in accordance with the provisions of this Statute.

9. The Trial Chamber shall have, *inter alia*, the power on application of a party or on its own motion to:

- (c) The admission of guilt is supported by the facts of the case that are contained in:
 - (i) The charges brought by the Prosecutor and admitted by the accused;
 - (ii) Any materials presented by the Prosecutor which supplement the charges and which the accused accepts; and
 - (iii) Any other evidence, such as the testimony of witnesses, presented by the Prosecutor or the accused.

2. Where the Trial Chamber is satisfied that the matters referred to in paragraph 1 are established, it shall consider the admission of guilt, together with any additional evidence presented, as establishing all the essential facts that are required to prove the crime to which the admission of guilt relates, and may convict the accused of that crime.

3. Where the Trial Chamber is not satisfied that the matters referred to in paragraph 1 are established, it shall consider the admission of guilt as not having been made, in which case it shall order that the trial be continued under the ordinary trial procedures provided by this Statute and may remit the case to another Trial Chamber.

4. Where the Trial Chamber is of the opinion that a more complete presentation of the facts of the case is required in the interests of justice, in particular the interests of the victims, the Trial Chamber may:

- (a) Request the Prosecutor to present additional evidence, including the testimony of witnesses; or
- (b) Order that the trial be continued under the ordinary trial procedures provided by this Statute, in which case it shall consider the admission of guilt as not having been made and may remit the case to another Trial Chamber.

5. Any discussions between the Prosecutor and the defence regarding modification of the charges, the admission of guilt or the penalty to be imposed shall not be binding on the Court.

Article 66. Presumption of innocence

Article 67. Rights of the accused

1. In the determination of any charge, the accused shall be entitled to a public hearing, having regard to the provisions of this Statute, to a fair hearing conducted impartially, and to the following minimum guarantees, in full equality:

- (a) To be informed promptly and in detail of the nature, cause and content of the charge, in a language which the accused fully understands and speaks;
- (b) To have adequate time and facilities for the preparation of the defence and to communicate freely with counsel of the accused's choosing in confidence;
- (c) To be tried without undue delay;
- (d) Subject to article 63, paragraph 2, to be present at the trial, to conduct the defence in person or through legal assistance of the accused's choosing, to be informed, if the accused does not have legal assistance, of this right and to have legal assistance assigned by the Court in any case where the interests of justice so require, and without payment if the accused lacks sufficient means to pay for it;
- (e) To examine, or have examined, the witnesses against him or her and to obtain the attendance and examination of witnesses on his or her behalf under the same conditions as witnesses against him or her. The accused shall also be entitled to raise defences and to present other evidence admissible under this Statute;
- (f) To have, free of any cost, the assistance of a competent interpreter and such translations as are necessary to meet the requirements of fairness, if any of the proceedings or documents presented to the Court are not in a language which the accused fully understands and speaks;
- (g) Not to be compelled to testify or to confess guilt and to remain silent, without such silence being a consideration in the determination of guilt or innocence;
- (h) To make an unsworn oral or written statement in his or her defence; and
- (i) Not to have imposed on him or her any reversal of the burden of proof or any onus of rebuttal.

2. In addition to any other disclosure provided for in this Statute, the Prosecutor shall, as soon as practicable, disclose to the defence evidence in the Prosecutor's possession or control which he or she believes shows or tends to show the innocence of the accused, or to mitigate the guilt of the accused, or which may affect the credibility of prosecution evidence. In case of doubt as to the application of this paragraph, the Court shall decide.

Article 68. Protection of the victims and witnesses and their participation in the proceedings

1. The Court shall take appropriate measures to protect the safety, physical and psychological well-being, dignity and privacy of victims and witnesses. In so doing, the Court shall have regard to all relevant factors, including age, gender as defined in article 7, paragraph 3, and health, and the nature of the crime, in particular, but not limited to, where the crime involves sexual or gender violence or violence against children. The Prosecutor shall take such measures particularly during the investigation and prosecution of such crimes. These measures shall not be prejudicial to or inconsistent with the rights of the accused and a fair and impartial trial.

2. As an exception to the principle of public hearings provided for in article 67, the Chambers of the Court may, to protect victims and witnesses or an accused, conduct any part of the proceedings in camera or allow the presentation of evidence by electronic or other special means. In particular, such measures shall be implemented in the case of a victim of sexual violence or a child who is a

victim or a witness, unless otherwise ordered by the Court, having regard to all the circumstances, particularly the views of the victim or witness.

3. Where the personal interests of the victims are affected, the Court shall permit their views and concerns to be presented and considered at stages of the proceedings determined to be appropriate by the Court and in a manner which is not prejudicial to or inconsistent with the rights of the accused and a fair and impartial trial. Such views and concerns may be presented by the legal representatives of the victims where the Court considers it appropriate, in accordance with the Rules of Procedure and Evidence.

4. The Victims and Witnesses Unit may advise the Prosecutor and the Court on appropriate protective measures, security arrangements, counselling and assistance as referred to in article 43, paragraph 6.

5. Where the disclosure of evidence or information pursuant to this Statute may lead to the grave endangerment of the security of a witness or his or her family, the Prosecutor may, for the purposes of any proceedings conducted prior to the commencement of the trial, withhold such evidence or information and instead submit a summary thereof. Such measures shall be exercised in a manner which is not prejudicial to or inconsistent with the rights of the accused and a fair and impartial trial.

6. A State may make an application for necessary measures to be taken in respect of the protection of its servants or agents and the protection of confidential or sensitive information.

Article 69. Evidence

1. Before testifying, each witness shall, in accordance with the Rules of Procedure and Evidence, give an undertaking as to the truthfulness of the evidence to be given by that witness.

2. The testimony of a witness at trial shall be given in person, except to the extent provided by the measures set forth in article 68 or in the Rules of Procedure and Evidence. The Court may also permit the giving of *viva voce* (oral) or recorded testimony of a witness by means of video or audio technology, as well as the introduction of documents or written transcripts, subject to this Statute and in accordance with the Rules of Procedure and Evidence. These measures shall not be prejudicial to or inconsistent with the rights of the accused.

3. The parties may submit evidence relevant to the case, in accordance with article 64. The Court shall have the authority to request the submission of all evidence that it considers necessary for the determination of the truth.

4. The Court may rule on the relevance or admissibility of any evidence, taking into account, *inter alia*, the probative value of the evidence and any prejudice that such evidence may cause to a fair trial or to a fair evaluation of the testimony of a witness, in accordance with the Rules of Procedure and Evidence.

5. The Court shall respect and observe privileges on confidentiality as provided for in the Rules of Procedure and Evidence.

6. The Court shall not require proof of facts of common knowledge but may take judicial notice of them.

7. Evidence obtained by means of a violation of this Statute or internationally recognized human rights shall not be admissible if:

- (a) The violation casts substantial doubt on the reliability of the evidence; or
- (b) The admission of the evidence would be antithetical to and would seriously damage the integrity of the proceedings.

8. When deciding on the relevance or admissibility of evidence collected by a State, the Court shall not rule on the application of the State's national law.

Article 70. Offences against the administration of justice

1. The Court shall have jurisdiction over the following offences against its administration of justice when committed intentionally:

- (a) Giving false testimony when under an obligation pursuant to article 69, paragraph 1, to tell the truth;
- (b) Presenting evidence that the party knows is false or forged;
- (c) Corruptly influencing a witness, obstructing or interfering with the attendance or testimony of a witness, retaliating against a witness for giving testimony or destroying, tampering with or interfering with the collection of evidence;
- (d) Impeding, intimidating or corruptly influencing an official of the Court for the purpose of forcing or persuading the official not to perform, or to perform improperly, his or her duties;
- (e) Retaliating against an official of the Court on account of duties performed by that or another official;
- (f) Soliciting or accepting a bribe as an official of the Court in connection with his or her official duties.

2. The principles and procedures governing the Court's exercise of jurisdiction over offences under this article shall be those provided for in the Rules of Procedure and Evidence. The conditions for providing international cooperation to the Court with respect to its proceedings under this article shall be governed by the domestic laws of the requested State.

3. In the event of conviction, the Court may impose a term of imprisonment not exceeding five years, or a fine in accordance with the Rules of Procedure and Evidence, or both.

4. (a) Each State Party shall extend its criminal laws penalizing offences against the integrity of its own investigative or judicial process to offences against the administration of justice referred to in this article, committed on its territory, or by one of its nationals;

(b) Upon request by the Court, whenever it deems it proper, the State Party shall submit the case to its competent authorities for the purpose of prosecution. Those authorities shall treat such cases with diligence and devote sufficient resources to enable them to be conducted effectively.

Article 71. Sanctions for misconduct before the Court

1. The Court may sanction persons present before it who commit misconduct, including disruption of its proceedings or deliberate refusal to comply with its directions, by administrative measures other than imprisonment, such as temporary or permanent removal from the courtroom, a fine or other similar measures provided for in the Rules of Procedure and Evidence.

2. The procedures governing the imposition of the measures set forth in paragraph 1 shall be those provided for in the Rules of Procedure and Evidence.

Article 72. Protection of national security information

1. This article applies in any case where the disclosure of the information or documents of a State would, in the opinion of that State, prejudice its national security interests. Such cases include those falling within the scope of article 56, paragraphs 2 and 3, article 61, paragraph 3, article 64, paragraph 3, article 67, paragraph 2, article 68, paragraph 6, article 87, paragraph 6 and article 93, as well as cases arising at any other stage of the proceedings where such disclosure may be at issue.

2. This article shall also apply when a person who has been requested to give information or evidence has refused to do so or has referred the matter to the State on the ground that disclosure would prejudice the national security interests of a State and the State concerned confirms that it is of the opinion that disclosure would prejudice its national security interests.

3. Nothing in this article shall prejudice the requirements of confidentiality applicable under article 54, paragraph 3 (e) and (f), or the application of article 73.

4. If a State learns that information or documents of the State are being, or are likely to be, disclosed at any stage of the proceedings, and it is of the opinion that disclosure would prejudice its national security interests, that State shall have the right to intervene in order to obtain resolution of the issue in accordance with this article.

5. If, in the opinion of a State, disclosure of information would prejudice its national security interests, all reasonable steps will be taken by the State, acting in conjunction with the Prosecutor, the defence or the Pre-Trial Chamber or Trial Chamber, as the case may be, to seek to resolve the matter by cooperative means. Such steps may include:

- (a) Modification or clarification of the request;
- (b) A determination by the Court regarding the relevance of the information or evidence sought, or a determination as to whether the evidence, though relevant, could be or has been obtained from a source other than the requested State;
- (c) Obtaining the information or evidence from a different source or in a different form; or
- (d) Agreement on conditions under which the assistance could be provided including, among other things, providing summaries or redactions, limitations on disclosure, use of in camera or *ex parte* proceedings, or other protective measures permissible under the Statute and the Rules of Procedure and Evidence.

6. Once all reasonable steps have been taken to resolve the matter through cooperative means, and if the State considers that there are no means or conditions under which the information or documents could be provided or disclosed without prejudice to its national security interests, it shall so notify the Prosecutor or the Court of the specific reasons for its decision, unless a specific description of the reasons would itself necessarily result in such prejudice to the State's national security interests.

7. Thereafter, if the Court determines that the evidence is relevant and necessary for the establishment of the guilt or innocence of the accused, the Court may undertake the following actions:

(a) Where disclosure of the information or document is sought pursuant to a request for cooperation under Part 9 or the circumstances described in paragraph 2, and the State has invoked the ground for refusal referred to in article 93, paragraph 4:

- (i) The Court may, before making any conclusion referred to in subparagraph 7 (a) (ii), request further consultations for the purpose of considering the State's representations, which may include, as appropriate, hearings in camera and *ex parte*;
- (ii) If the Court concludes that, by invoking the ground for refusal under article 93, paragraph 4, in the circumstances of the case, the requested State is not acting in accordance with its obligations under this Statute, the Court may refer the matter in accordance with article 87, paragraph 7, specifying the reasons for its conclusion; and
- (iii) The Court may make such inference in the trial of the accused as to the existence or non-existence of a fact, as may be appropriate in the circumstances; or

(b) In all other circumstances:

- (i) Order disclosure; or
- (ii) To the extent it does not order disclosure, make such inference in the trial of the accused as to the existence or non-existence of a fact, as may be appropriate in the circumstances.

Article 73. Third-party information or documents

If a State Party is requested by the Court to provide a document or information in its custody, possession or control, which was disclosed to it in confidence by a State, intergovernmental organization or international organization, it shall seek the consent of the originator to disclose that document or information. If the originator is a State Party, it shall either consent to disclosure of the

information or document or undertake to resolve the issue of disclosure with the Court, subject to the provisions of article 72. If the originator is not a State Party and refuses to consent to disclosure, the requested State shall inform the Court that it is unable to provide the document or information because of a pre-existing obligation of confidentiality to the originator.

Article 74. Requirements for the decision

1. All the judges of the Trial Chamber shall be present at each stage of the trial and throughout their deliberations. The Presidency may, on a case-by-case basis, designate, as available, one or more alternate judges to be present at each stage of the trial and to replace a member of the Trial Chamber if that member is unable to continue attending.

2. The Trial Chamber's decision shall be based on its evaluation of the evidence and the entire proceedings. The decision shall not exceed the facts and circumstances described in the charges and any amendments to the charges. The Court may base its decision only on evidence submitted and discussed before it at the trial.

3. The judges shall attempt to achieve unanimity in their decision, failing which the decision shall be taken by a majority of the judges.

4. The deliberations of the Trial Chamber shall remain secret.

5. The decision shall be in writing and shall contain a full and reasoned statement of the Trial Chamber's findings on the evidence and conclusions. The Trial Chamber shall issue one decision. When there is no unanimity, the Trial Chamber's decision shall contain the views of the majority and the minority. The decision or a summary thereof shall be delivered in open court.

Article 75. Reparations to victims

1. The Court shall establish principles relating to reparations to, or in respect of, victims, including restitution, compensation and rehabilitation. On this basis, in its decision the Court may, either upon request or on its own motion in exceptional circumstances, determine the scope and extent of any damage, loss and injury to, or in respect of, victims and will state the principles on which it is acting.

2. The Court may make an order directly against a convicted person specifying appropriate reparations to, or in respect of, victims, including restitution, compensation and rehabilitation.

Where appropriate, the Court may order that the award for reparations be made through the Trust Fund provided for in article 79.

3. Before making an order under this article, the Court may invite and shall take account of representations from or on behalf of the convicted person, victims, other interested persons or interested States.

4. In exercising its power under this article, the Court may, after a person is convicted of a crime within the jurisdiction of the Court, determine whether, in order to give effect to an order which it may make under this article, it is necessary to seek measures under article 93, paragraph 1.

5. A State Party shall give effect to a decision under this article as if the provisions of article 109 were applicable to this article.

6. Nothing in this article shall be interpreted as prejudicing the rights of victims under national or international law.

Article 76. Sentencing

1. In the event of a conviction, the Trial Chamber shall consider the appropriate sentence to be imposed and shall take into account the evidence presented and submissions made during the trial that are relevant to the sentence.

2. Except where article 65 applies and before the completion of the trial, the Trial Chamber may on its own motion and shall, at the request of the Prosecutor or the accused, hold a further

hearing to hear any additional evidence or submissions relevant to the sentence, in accordance with the Rules of Procedure and Evidence.

3. Where paragraph 2 applies, any representations under article 75 shall be heard during the further hearing referred to in paragraph 2 and, if necessary, during any additional hearing.

4. The sentence shall be pronounced in public and, wherever possible, in the presence of the accused.

PART 7. PENALTIES

Article 77. Applicable penalties

1. Subject to article 110, the Court may impose one of the following penalties on a person convicted of a crime referred to in article 5 of this Statute:

(a) Imprisonment for a specified number of years, which may not exceed a maximum of 30 years; or

(b) A term of life imprisonment when justified by the extreme gravity of the crime and the individual circumstances of the convicted person.

2. In addition to imprisonment, the Court may order:

(a) A fine under the criteria provided for in the Rules of Procedure and Evidence;

(b) A forfeiture of proceeds, property and assets derived directly or indirectly from that crime, without prejudice to the rights of bona fide third parties.

Article 78. Determination of the sentence

1. In determining the sentence, the Court shall, in accordance with the Rules of Procedure and Evidence, take into account such factors as the gravity of the crime and the individual circumstances of the convicted person.

2. In imposing a sentence of imprisonment, the Court shall deduct the time, if any, previously spent in detention in accordance with an order of the Court. The Court may deduct any time otherwise spent in detention in connection with conduct underlying the crime.

3. When a person has been convicted of more than one crime, the Court shall pronounce a sentence for each crime and a joint sentence specifying the total period of imprisonment. This period shall be no less than the highest individual sentence pronounced and shall not exceed 30 years imprisonment or a sentence of life imprisonment in conformity with article 77, paragraph 1 (b).

Article 79. Trust Fund

1. A Trust Fund shall be established by decision of the Assembly of States Parties for the benefit of victims of crimes within the jurisdiction of the Court, and of the families of such victims.

2. The Court may order money and other property collected through fines or forfeiture to be transferred, by order of the Court, to the Trust Fund.

3. The Trust Fund shall be managed according to criteria to be determined by the Assembly of States Parties.

Article 80. Non-prejudice to national application of penalties and national laws

Nothing in this Part affects the application by States of penalties prescribed by their national law, nor the law of States which do not provide for penalties prescribed in this Part.

PART 8. APPEAL AND REVISION

Article 81. Appeal against decision of acquittal or conviction or against sentence

1. A decision under article 74 may be appealed in accordance with the Rules of Procedure and Evidence as follows:

- (a) The Prosecutor may make an appeal on any of the following grounds:
 - (i) Procedural error,
 - (ii) Error of fact, or
 - (iii) Error of law;
- (b) The convicted person, or the Prosecutor on that person's behalf, may make an appeal on any of the following grounds:
 - (i) Procedural error,
 - (ii) Error of fact,
 - (iii) Error of law, or
 - (iv) Any other ground that affects the fairness or reliability of the proceedings or decision.

2. (a) A sentence may be appealed, in accordance with the Rules of Procedure and Evidence, by the Prosecutor or the convicted person on the ground of disproportion between the crime and the sentence;

(b) If on an appeal against sentence the Court considers that there are grounds on which the conviction might be set aside, wholly or in part, it may invite the Prosecutor and the convicted person to submit grounds under article 81, paragraph 1 (a) or (b), and may render a decision on conviction in accordance with article 83;

(c) The same procedure applies when the Court, on an appeal against conviction only, considers that there are grounds to reduce the sentence under paragraph 2 (a).

3. (a) Unless the Trial Chamber orders otherwise, a convicted person shall remain in custody pending an appeal;

(b) When a convicted person's time in custody exceeds the sentence of imprisonment imposed, that person shall be released, except that if the Prosecutor is also appealing, the release may be subject to the conditions under subparagraph (c) below;

(c) In case of an acquittal, the accused shall be released immediately, subject to the following:

- (i) Under exceptional circumstances, and having regard, *inter alia*, to the concrete risk of flight, the seriousness of the offence charged and the probability of success on appeal, the Trial Chamber, at the request of the Prosecutor, may maintain the detention of the person pending appeal;
- (ii) A decision by the Trial Chamber under subparagraph (c) (i) may be appealed in accordance with the Rules of Procedure and Evidence.

4. Subject to the provisions of paragraph 3 (a) and (b), execution of the decision or sentence shall be suspended during the period allowed for appeal and for the duration of the appeal proceedings.

Article 82. Appeal against other decisions

1. Either party may appeal any of the following decisions in accordance with the Rules of Procedure and Evidence:

- (a) A decision with respect to jurisdiction or admissibility;
- (b) A decision granting or denying release of the person being investigated or prosecuted;
- (c) A decision of the Pre-Trial Chamber to act on its own initiative under article 56, paragraph 3;
- (d) A decision that involves an issue that would significantly affect the fair and expeditious conduct of the proceedings or the outcome of the trial, and for which, in the opinion of the Pre-Trial or Trial Chamber, an immediate resolution by the Appeals Chamber may materially advance the proceedings.

2. A decision of the Pre-Trial Chamber under article 57, paragraph 3 (d), may be appealed against by the State concerned or by the Prosecutor, with the leave of the Pre-Trial Chamber. The appeal shall be heard on an expedited basis.

3. An appeal shall not of itself have suspensive effect unless the Appeals Chamber so orders, upon request, in accordance with the Rules of Procedure and Evidence.

4. A legal representative of the victims, the convicted person or a bona fide owner of property adversely affected by an order under article 75 may appeal against the order for reparations, as provided in the Rules of Procedure and Evidence.

Article 83. Proceedings on appeal

1. For the purposes of proceedings under article 81 and this article, the Appeals Chamber shall have all the powers of the Trial Chamber.

2. If the Appeals Chamber finds that the proceedings appealed from were unfair in a way that affected the reliability of the decision or sentence, or that the decision or sentence appealed from was materially affected by error of fact or law or procedural error, it may:

- (a) Reverse or amend the decision or sentence; or
- (b) Order a new trial before a different Trial Chamber.

For these purposes, the Appeals Chamber may remand a factual issue to the original Trial Chamber for it to determine the issue and to report back accordingly, or may itself call evidence to determine the issue. When the decision or sentence has been appealed only by the person convicted, or the Prosecutor on that person's behalf, it cannot be amended to his or her detriment.

3. If in an appeal against sentence the Appeals Chamber finds that the sentence is disproportionate to the crime, it may vary the sentence in accordance with Part 7.

4. The judgement of the Appeals Chamber shall be taken by a majority of the judges and shall be delivered in open court. The judgement shall state the reasons on which it is based. When there is no unanimity, the judgement of the Appeals Chamber shall contain the views of the majority and the minority, but a judge may deliver a separate or dissenting opinion on a question of law.

5. The Appeals Chamber may deliver its judgement in the absence of the person acquitted or convicted.

Article 84. Revision of conviction or sentence

1. The convicted person or, after death, spouses, children, parents or one person alive at the time of the accused's death who has been given express written instructions from the accused to bring such a claim, or the Prosecutor on the person's behalf, may apply to the Appeals Chamber to revise the final judgement of conviction or sentence on the grounds that:

- (a) New evidence has been discovered that:
 - (i) Was not available at the time of trial, and such unavailability was not wholly or partially attributable to the party making application; and
 - (ii) Is sufficiently important that had it been proved at trial it would have been likely to have resulted in a different verdict;

(b) It has been newly discovered that decisive evidence, taken into account at trial and upon which the conviction depends, was false, forged or falsified;

(c) One or more of the judges who participated in conviction or confirmation of the charges has committed, in that case, an act of serious misconduct or serious breach of duty of sufficient gravity to justify the removal of that judge or those judges from office under article 46.

2. The Appeals Chamber shall reject the application if it considers it to be unfounded. If it determines that the application is meritorious, it may, as appropriate:

- (a) Reconvene the original Trial Chamber;

- (b) Constitute a new Trial Chamber; or
- (c) Retain jurisdiction over the matter,

with a view to, after hearing the parties in the manner set forth in the Rules of Procedure and Evidence, arriving at a determination on whether the judgement should be revised.

Article 85. Compensation to an arrested or convicted person

1. Anyone who has been the victim of unlawful arrest or detention shall have an enforceable right to compensation.

2. When a person has by a final decision been convicted of a criminal offence, and when subsequently his or her conviction has been reversed on the ground that a new or newly discovered fact shows conclusively that there has been a miscarriage of justice, the person who has suffered punishment as a result of such conviction shall be compensated according to law, unless it is proved that the non-disclosure of the unknown fact in time is wholly or partly attributable to him or her.

3. In exceptional circumstances, where the Court finds conclusive facts showing that there has been a grave and manifest miscarriage of justice, it may in its discretion award compensation, according to the criteria provided in the Rules of Procedure and Evidence, to a person who has been released from detention following a final decision of acquittal or a termination of the proceedings for that reason.

PART 9. INTERNATIONAL COOPERATION AND JUDICIAL ASSISTANCE

Article 86. General obligation to cooperate

States Parties shall, in accordance with the provisions of this Statute, cooperate fully with the Court in its investigation and prosecution of crimes within the jurisdiction of the Court.

Article 87. Requests for cooperation: general provisions

1. (a) The Court shall have the authority to make requests to States Parties for cooperation. The requests shall be transmitted through the diplomatic channel or any other appropriate channel as may be designated by each State Party upon ratification, acceptance, approval or accession.

Subsequent changes to the designation shall be made by each State Party in accordance with the Rules of Procedure and Evidence.

(b) When appropriate, without prejudice to the provisions of subparagraph (a), requests may also be transmitted through the International Criminal Police Organization or any appropriate regional organization.

2. Requests for cooperation and any documents supporting the request shall either be in or be accompanied by a translation into an official language of the requested State or one of the working languages of the Court, in accordance with the choice made by that State upon ratification, acceptance, approval or accession.

Subsequent changes to this choice shall be made in accordance with the Rules of Procedure and Evidence.

3. The requested State shall keep confidential a request for cooperation and any documents supporting the request, except to the extent that the disclosure is necessary for execution of the request.

4. In relation to any request for assistance presented under this Part, the Court may take such measures, including measures related to the protection of information, as may be necessary to ensure the safety or physical or psychological well-being of any victims, potential witnesses and their families. The Court may request that any information that is made available under this Part shall be provided and handled in a manner that protects the safety and physical or psychological well-being of any victims, potential witnesses and their families.

5. (a) The Court may invite any State not party to this Statute to provide assistance under this Part on the basis of an ad hoc arrangement, an agreement with such State or any other appropriate basis.

(b) Where a State not party to this Statute, which has entered into an ad hoc arrangement or an agreement with the Court, fails to cooperate with requests pursuant to any such arrangement or agreement, the Court may so inform the Assembly of States Parties or, where the Security Council referred the matter to the Court, the Security Council.

6. The Court may ask any intergovernmental organization to provide information or documents. The Court may also ask for other forms of cooperation and assistance which may be agreed upon with such an organization and which are in accordance with its competence or mandate.

7. Where a State Party fails to comply with a request to cooperate by the Court contrary to the provisions of this Statute, thereby preventing the Court from exercising its functions and powers under this Statute, the Court may make a finding to that effect and refer the matter to the Assembly of States Parties or, where the Security Council referred the matter to the Court, to the Security Council.

Article 88. Availability of procedures under national law

States Parties shall ensure that there are procedures available under their national law for all of the forms of cooperation which are specified under this Part.

Article 89. Surrender of persons to the Court

1. The Court may transmit a request for the arrest and surrender of a person, together with the material supporting the request outlined in article 91, to any State on the territory of which that person may be found and shall request the cooperation of that State in the arrest and surrender of such a person. States Parties shall, in accordance with the provisions of this Part and the procedure under their national law, comply with requests for arrest and surrender.

2. Where the person sought for surrender brings a challenge before a national court on the basis of the principle of *ne bis in idem* as provided in article 20, the requested State shall immediately consult with the Court to determine if there has been a relevant ruling on admissibility. If the case is admissible, the requested State shall proceed with the execution of the request. If an admissibility ruling is pending, the requested State may postpone the execution of the request for surrender of the person until the Court makes a determination on admissibility.

3. (a) A State Party shall authorize, in accordance with its national procedural law, transportation through its territory of a person being surrendered to the Court by another State, except where transit through that State would impede or delay the surrender.

(b) A request by the Court for transit shall be transmitted in accordance with article 87. The request for transit shall contain:

- (i) A description of the person being transported;
- (ii) A brief statement of the facts of the case and their legal characterization; and
- (iii) The warrant for arrest and surrender;

(c) A person being transported shall be detained in custody during the period of transit;

(d) No authorization is required if the person is transported by air and no landing is scheduled on the territory of the transit State;

(e) If an unscheduled landing occurs on the territory of the transit State, that State may require a request for transit from the Court as provided for in subparagraph (b). The transit State shall detain the person being transported until the request for transit is received and the transit is effected, provided that detention for purposes of this subparagraph may not be extended beyond 96 hours from the unscheduled landing unless the request is received within that time.

4. If the person sought is being proceeded against or is serving a sentence in the requested State for a crime different from that for which surrender to the Court is sought, the requested State, after making its decision to grant the request, shall consult with the Court.

Article 90. Competing requests

1. A State Party which receives a request from the Court for the surrender of a person under article 89 shall, if it also receives a request from any other State for the extradition of the same person for the same conduct which forms the basis of the crime for which the Court seeks the person's surrender, notify the Court and the requesting State of that fact.

2. Where the requesting State is a State Party, the requested State shall give priority to the request from the Court if:

(a) The Court has, pursuant to article 18 or 19, made a determination that the case in respect of which surrender is sought is admissible and that determination takes into account the investigation or prosecution conducted by the requesting State in respect of its request for extradition; or

(b) The Court makes the determination described in subparagraph (a) pursuant to the requested State's notification under paragraph 1.

3. Where a determination under paragraph 2 (a) has not been made, the requested State may, at its discretion, pending the determination of the Court under paragraph 2 (b), proceed to deal with the request for extradition from the requesting State but shall not extradite the person until the Court has determined that the case is inadmissible. The Court's determination shall be made on an expedited basis.

4. If the requesting State is a State not Party to this Statute the requested State, if it is not under an international obligation to extradite the person to the requesting State, shall give priority to the request for surrender from the Court, if the Court has determined that the case is admissible.

5. Where a case under paragraph 4 has not been determined to be admissible by the Court, the requested State may, at its discretion, proceed to deal with the request for extradition from the requesting State.

6. In cases where paragraph 4 applies except that the requested State is under an existing international obligation to extradite the person to the requesting State not Party to this Statute, the requested State shall determine whether to surrender the person to the Court or extradite the person to the requesting State. In making its decision, the requested State shall consider all the relevant factors, including but not limited to:

(a) The respective dates of the requests;

(b) The interests of the requesting State including, where relevant, whether the crime was committed in its territory and the nationality of the victims and of the person sought; and

(c) The possibility of subsequent surrender between the Court and the requesting State.

7. Where a State Party which receives a request from the Court for the surrender of a person also receives a request from any State for the extradition of the same person for conduct other than that which constitutes the crime for which the Court seeks the person's surrender:

(a) The requested State shall, if it is not under an existing international obligation to extradite the person to the requesting State, give priority to the request from the Court;

(b) The requested State shall, if it is under an existing international obligation to extradite the person to the requesting State, determine whether to surrender the person to the Court or to extradite the person to the requesting State. In making its decision, the requested State shall consider all the relevant factors, including but not limited to those set out in paragraph 6, but shall give special consideration to the relative nature and gravity of the conduct in question.

8. Where pursuant to a notification under this article, the Court has determined a case to be inadmissible, and subsequently extradition to the requesting State is refused, the requested State shall notify the Court of this decision.

Article 91. Contents of request for arrest and surrender

1. A request for arrest and surrender shall be made in writing. In urgent cases, a request may be made by any medium capable of delivering a written record, provided that the request shall be confirmed through the channel provided for in article 87, paragraph 1 (a).

2. In the case of a request for the arrest and surrender of a person for whom a warrant of arrest has been issued by the Pre-Trial Chamber under article 58, the request shall contain or be supported by:

- (a) Information describing the person sought, sufficient to identify the person, and information as to that person's probable location;
- (b) A copy of the warrant of arrest; and
- (c) Such documents, statements or information as may be necessary to meet the requirements for the surrender process in the requested State, except that those requirements should not be more burdensome than those applicable to requests for extradition pursuant to treaties or arrangements between the requested State and other States and should, if possible, be less burdensome, taking into account the distinct nature of the Court.

3. In the case of a request for the arrest and surrender of a person already convicted, the request shall contain or be supported by:

- (a) A copy of any warrant of arrest for that person;
- (b) A copy of the judgement of conviction;
- (c) Information to demonstrate that the person sought is the one referred to in the judgement of conviction; and
- (d) If the person sought has been sentenced, a copy of the sentence imposed and, in the case of a sentence for imprisonment, a statement of any time already served and the time remaining to be served.

4. Upon the request of the Court, a State Party shall consult with the Court, either generally or with respect to a specific matter, regarding any requirements under its national law that may apply under paragraph 2 (c). During the consultations, the State Party shall advise the Court of the specific requirements of its national law.

Article 92. Provisional arrest

1. In urgent cases, the Court may request the provisional arrest of the person sought, pending presentation of the request for surrender and the documents supporting the request as specified in article 91.

2. The request for provisional arrest shall be made by any medium capable of delivering a written record and shall contain:

- (a) Information describing the person sought, sufficient to identify the person, and information as to that person's probable location;
- (b) A concise statement of the crimes for which the person's arrest is sought and of the facts which are alleged to constitute those crimes, including, where possible, the date and location of the crime;
- (c) A statement of the existence of a warrant of arrest or a judgement of conviction against the person sought; and
- (d) A statement that a request for surrender of the person sought will follow.

3. A person who is provisionally arrested may be released from custody if the requested State has not received the request for surrender and the documents supporting the request as specified in article 91 within the time limits specified in the Rules of Procedure and Evidence. However, the person may consent to surrender before the expiration of this period if permitted by the law of the

requested State. In such a case, the requested State shall proceed to surrender the person to the Court as soon as possible.

4. The fact that the person sought has been released from custody pursuant to paragraph 3 shall not prejudice the subsequent arrest and surrender of that person if the request for surrender and the documents supporting the request are delivered at a later date.

Article 93. Other forms of cooperation

1. States Parties shall, in accordance with the provisions of this Part and under procedures of national law, comply with requests by the Court to provide the following assistance in relation to investigations or prosecutions:

- (a) The identification and whereabouts of persons or the location of items;
- (b) The taking of evidence, including testimony under oath, and the production of evidence, including expert opinions and reports necessary to the Court;
- (c) The questioning of any person being investigated or prosecuted;
- (d) The service of documents, including judicial documents;
- (e) Facilitating the voluntary appearance of persons as witnesses or experts before the Court;

- (k) The identification, tracing and freezing or seizure of proceeds, property and assets and instrumentalities of crimes for the purpose of eventual forfeiture, without prejudice to the rights of bona fide third parties; and
- (l) Any other type of assistance which is not prohibited by the law of the requested State, with a view to facilitating the investigation and prosecution of crimes within the jurisdiction of the Court.

2. The Court shall have the authority to provide an assurance to a witness or an expert appearing before the Court that he or she will not be prosecuted, detained or subjected to any restriction of personal freedom by the Court in respect of any act or omission that preceded the departure of that person from the requested State.

3. Where execution of a particular measure of assistance detailed in a request presented under paragraph 1, is prohibited in the requested State on the basis of an existing fundamental legal principle of general application, the requested State shall promptly consult with the Court to try to resolve the matter. In the consultations, consideration should be given to whether the assistance can be rendered in another manner or subject to conditions. If after consultations the matter cannot be resolved, the Court shall modify the request as necessary.

4. In accordance with article 72, a State Party may deny a request for assistance, in whole or in part, only if the request concerns the production of any documents or disclosure of evidence which relates to its national security.

5. Before denying a request for assistance under paragraph 1 (l), the requested State shall consider whether the assistance can be provided subject to specified conditions, or whether the assistance can be provided at a later date or in an alternative manner, provided that if the Court or the Prosecutor accepts the assistance subject to conditions, the Court or the Prosecutor shall abide by them.

6. If a request for assistance is denied, the requested State Party shall promptly inform the Court or the Prosecutor of the reasons for such denial.

7. (a) The Court may request the temporary transfer of a person in custody for purposes of identification or for obtaining testimony or other assistance. The person may be transferred if the following conditions are fulfilled:

- (i) The person freely gives his or her informed consent to the transfer; and
- (ii) The requested State agrees to the transfer, subject to such conditions as that State and the Court may agree.

(b) The person being transferred shall remain in custody. When the purposes of the transfer have been fulfilled, the Court shall return the person without delay to the requested State.

8. (a) The Court shall ensure the confidentiality of documents and information, except as required for the investigation and proceedings described in the request.

(b) The requested State may, when necessary, transmit documents or information to the Prosecutor on a confidential basis. The Prosecutor may then use them solely for the purpose of generating new evidence.

(c) The requested State may, on its own motion or at the request of the Prosecutor, subsequently consent to the disclosure of such documents or information. They may then be used as evidence pursuant to the provisions of Parts 5 and 6 and in accordance with the Rules of Procedure and Evidence.

- 9. (a) (i) In the event that a State Party receives competing requests, other than for surrender or extradition, from the Court and from another State pursuant to an international obligation, the State Party shall endeavour, in consultation with the Court and the other State, to meet both requests, if necessary by postponing or attaching conditions to one or the other request.

- (ii) Failing that, competing requests shall be resolved in accordance with the principles established in article 90.

(b) Where, however, the request from the Court concerns information, property or persons which are subject to the control of a third State or an international organization by virtue of an international agreement, the requested States shall so inform the Court and the Court shall direct its request to the third State or international organization.

10. (a) The Court may, upon request, cooperate with and provide assistance to a State Party conducting an investigation into or trial in respect of conduct which constitutes a crime within the jurisdiction of the Court or which constitutes a serious crime under the national law of the requesting State.

- (b) (i) The assistance provided under subparagraph (a) shall include, *inter alia*:

- a. The transmission of statements, documents or other types of evidence obtained in the course of an investigation or a trial conducted by the Court; and
- b. The questioning of any person detained by order of the Court;

- (ii) In the case of assistance under subparagraph (b) (i) a:

- a. If the documents or other types of evidence have been obtained with the assistance of a State, such transmission shall require the consent of that State;
- b. If the statements, documents or other types of evidence have been provided by a witness or expert, such transmission shall be subject to the provisions of article 68.

(c) The Court may, under the conditions set out in this paragraph, grant a request for assistance under this paragraph from a State which is not a Party to this Statute.

Article 94. Postponement of execution of a request in respect of ongoing investigation or prosecution

1. If the immediate execution of a request would interfere with an ongoing investigation or prosecution of a case different from that to which the request relates, the requested State may postpone the execution of the request for a period of time agreed upon with the Court. However, the postponement shall be no longer than is necessary to complete the relevant investigation or prosecution in the requested State. Before making a decision to postpone, the requested State should consider whether the assistance may be immediately provided subject to certain conditions.

2. If a decision to postpone is taken pursuant to paragraph 1, the Prosecutor may, however, seek measures to preserve evidence, pursuant to article 93, paragraph 1 (j).

Article 95. Postponement of execution of a request in respect of an admissibility challenge

Where there is an admissibility challenge under consideration by the Court pursuant to article 18 or 19, the requested State may postpone the execution of a request under this Part pending a determination by the Court, unless the Court has specifically ordered that the Prosecutor may pursue the collection of such evidence pursuant to article 18 or 19.

Article 96. Contents of request for other forms of assistance under article 93

1. A request for other forms of assistance referred to in article 93 shall be made in writing. In urgent cases, a request may be made by any medium capable of delivering a written record, provided that the request shall be confirmed through the channel provided for in article 87, paragraph 1 (a).

2. The request shall, as applicable, contain or be supported by the following:

- (a) A concise statement of the purpose of the request and the assistance sought, including the legal basis and the grounds for the request;
- (b) As much detailed information as possible about the location or identification of any person or place that must be found or identified in order for the assistance sought to be provided;
- (c) A concise statement of the essential facts underlying the request;
- (d) The reasons for and details of any procedure or requirement to be followed;
- (e) Such information as may be required under the law of the requested State in order to execute the request; and
- (f) Any other information relevant in order for the assistance sought to be provided.

3. Upon the request of the Court, a State Party shall consult with the Court, either generally or with respect to a specific matter, regarding any requirements under its national law that may apply under paragraph 2 (e). During the consultations, the State Party shall advise the Court of the specific requirements of its national law.

4. The provisions of this article shall, where applicable, also apply in respect of a request for assistance made to the Court.

Article 97. Consultations

Where a State Party receives a request under this Part in relation to which it identifies problems which may impede or prevent the execution of the request, that State shall consult with the Court without delay in order to resolve the matter. Such problems may include, *inter alia*:

- (a) Insufficient information to execute the request;
- (b) In the case of a request for surrender, the fact that despite best efforts, the person sought cannot be located or that the investigation conducted has determined that the person in the requested State is clearly not the person named in the warrant; or

(c) The fact that execution of the request in its current form would require the requested State to breach a pre-existing treaty obligation undertaken with respect to another State.

Article 98. Cooperation with respect to waiver of immunity and consent to surrender

1. The Court may not proceed with a request for surrender or assistance which would require the requested State to act inconsistently with its obligations under international law with respect to the State or diplomatic immunity of a person or property of a third State, unless the Court can first obtain the cooperation of that third State for the waiver of the immunity.

2. The Court may not proceed with a request for surrender which would require the requested State to act inconsistently with its obligations under international agreements pursuant to which the consent of a sending State is required to surrender a person of that State to the Court, unless the Court can first obtain the cooperation of the sending State for the giving of consent for the surrender.

Article 99. Execution of requests under articles 93 and 96

1. Requests for assistance shall be executed in accordance with the relevant procedure under the law of the requested State and, unless prohibited by such law, in the manner specified in the request, including following any procedure outlined therein or permitting persons specified in the request to be present at and assist in the execution process.

2. In the case of an urgent request, the documents or evidence produced in response shall, at the request of the Court, be sent urgently.

3. Replies from the requested State shall be transmitted in their original language and form.

4. Without prejudice to other articles in this Part, where it is necessary for the successful execution of a request which can be executed without any compulsory measures, including specifically the interview of or taking evidence from a person on a voluntary basis, including doing so without the presence of the authorities of the requested State Party if it is essential for the request to be executed, and the examination without modification of a public site or other public place, the Prosecutor may execute such request directly on the territory of a State as follows:

(a) When the State Party requested is a State on the territory of which the crime is alleged to have been committed, and there has been a determination of admissibility pursuant to article 18 or 19, the Prosecutor may directly execute such request following all possible consultations with the requested State Party;

(b) In other cases, the Prosecutor may execute such request following consultations with the requested State Party and subject to any reasonable conditions or concerns raised by that State Party. Where the requested State Party identifies problems with the execution of a request pursuant to this subparagraph it shall, without delay, consult with the Court to resolve the matter.

5. Provisions allowing a person heard or examined by the Court under article 72 to invoke restrictions designed to prevent disclosure of confidential information connected with national security shall also apply to the execution of requests for assistance under this article.

Article 100. Costs

1. The ordinary costs for execution of requests in the territory of the requested State shall be borne by that State, except for the following, which shall be borne by the Court:

(a) Costs associated with the travel and security of witnesses and experts or the transfer under article 93 of persons in custody;

(b) Costs of translation, interpretation and transcription;

(c) Travel and subsistence costs of the judges, the Prosecutor, the Deputy Prosecutors, the Registrar, the Deputy Registrar and staff of any organ of the Court;

(d) Costs of any expert opinion or report requested by the Court;

(e) Costs associated with the transport of a person being surrendered to the Court by a custodial State; and

(f) Following consultations, any extraordinary costs that may result from the execution of a request.

2. The provisions of paragraph 1 shall, as appropriate, apply to requests from States Parties to the Court. In that case, the Court shall bear the ordinary costs of execution.

Article 101. Rule of speciality

1. A person surrendered to the Court under this Statute shall not be proceeded against, punished or detained for any conduct committed prior to surrender, other than the conduct or course of conduct which forms the basis of the crimes for which that person has been surrendered.

2. The Court may request a waiver of the requirements of paragraph 1 from the State which surrendered the person to the Court and, if necessary, the Court shall provide additional information in accordance with article 91. States Parties shall have the authority to provide a waiver to the Court and should endeavour to do so.

Article 102. Use of terms

For the purposes of this Statute:

(a) “surrender” means the delivering up of a person by a State to the Court, pursuant to this Statute.

(b) “extradition” means the delivering up of a person by one State to another as provided by treaty, convention or national legislation.

PART 10. ENFORCEMENT

Article 103. Role of States in enforcement of sentences of imprisonment

1. (a) A sentence of imprisonment shall be served in a State designated by the Court from a list of States which have indicated to the Court their willingness to accept sentenced persons.

(b) At the time of declaring its willingness to accept sentenced persons, a State may attach conditions to its acceptance as agreed by the Court and in accordance with this Part.

(c) A State designated in a particular case shall promptly inform the Court whether it accepts the Court’s designation.

2. (a) The State of enforcement shall notify the Court of any circumstances, including the exercise of any conditions agreed under paragraph 1, which could materially affect the terms or extent of the imprisonment. The Court shall be given at least 45 days’ notice of any such known or foreseeable circumstances. During this period, the State of enforcement shall take no action that might prejudice its obligations under article 110.

(b) Where the Court cannot agree to the circumstances referred to in subparagraph (a), it shall notify the State of enforcement and proceed in accordance with article 104, paragraph 1.

3. In exercising its discretion to make a designation under paragraph 1, the Court shall take into account the following:

(a) The principle that States Parties should share the responsibility for enforcing sentences of imprisonment, in accordance with principles of equitable distribution, as provided in the Rules of Procedure and Evidence;

(b) The application of widely accepted international treaty standards governing the treatment of prisoners;

(c) The views of the sentenced person;

(d) The nationality of the sentenced person;

(e) Such other factors regarding the circumstances of the crime or the person sentenced, or the effective enforcement of the sentence, as may be appropriate in designating the State of enforcement.

4. If no State is designated under paragraph 1, the sentence of imprisonment shall be served in a prison facility made available by the host State, in accordance with the conditions set out in the headquarters agreement referred to in article 3, paragraph 2. In such a case, the costs arising out of the enforcement of a sentence of imprisonment shall be borne by the Court.

Article 104. Change in designation of State of enforcement

1. The Court may, at any time, decide to transfer a sentenced person to a prison of another State.

2. A sentenced person may, at any time, apply to the Court to be transferred from the State of enforcement.

Article 105. Enforcement of the sentence

1. Subject to conditions which a State may have specified in accordance with article 103, paragraph 1 (b), the sentence of imprisonment shall be binding on the States Parties, which shall in no case modify it.

2. The Court alone shall have the right to decide any application for appeal and revision. The State of enforcement shall not impede the making of any such application by a sentenced person.

Article 106. Supervision of enforcement of sentences and conditions of imprisonment

1. The enforcement of a sentence of imprisonment shall be subject to the supervision of the Court and shall be consistent with widely accepted international treaty standards governing treatment of prisoners.

2. The conditions of imprisonment shall be governed by the law of the State of enforcement and shall be consistent with widely accepted international treaty standards governing treatment of prisoners; in no case shall such conditions be more or less favourable than those available to prisoners convicted of similar offences in the State of enforcement.

3. Communications between a sentenced person and the Court shall be unimpeded and confidential.

Article 107. Transfer of the person upon completion of sentence

1. Following completion of the sentence, a person who is not a national of the State of enforcement may, in accordance with the law of the State of enforcement, be transferred to a State which is obliged to receive him or her, or to another State which agrees to receive him or her, taking into account any wishes of the person to be transferred to that State, unless the State of enforcement authorizes the person to remain in its territory.

2. If no State bears the costs arising out of transferring the person to another State pursuant to paragraph 1, such costs shall be borne by the Court.

3. Subject to the provisions of article 108, the State of enforcement may also, in accordance with its national law, extradite or otherwise surrender the person to a State which has requested the extradition or surrender of the person for purposes of trial or enforcement of a sentence.

Article 108. Limitation on the prosecution or punishment of other offences

1. A sentenced person in the custody of the State of enforcement shall not be subject to prosecution or punishment or to extradition to a third State for any conduct engaged in prior to that person's delivery to the State of enforcement, unless such prosecution, punishment or extradition has been approved by the Court at the request of the State of enforcement.

2. The Court shall decide the matter after having heard the views of the sentenced person.

3. Paragraph 1 shall cease to apply if the sentenced person remains voluntarily for more than 30 days in the territory of the State of enforcement after having served the full sentence imposed by the Court, or returns to the territory of that State after having left it.

Article 109. Enforcement of fines and forfeiture measures

1. States Parties shall give effect to fines or forfeitures ordered by the Court under Part 7, without prejudice to the rights of bona fide third parties, and in accordance with the procedure of their national law.

2. If a State Party is unable to give effect to an order for forfeiture, it shall take measures to recover the value of the proceeds, property or assets ordered by the Court to be forfeited, without prejudice to the rights of bona fide third parties.

3. Property, or the proceeds of the sale of real property or, where appropriate, the sale of other property, which is obtained by a State Party as a result of its enforcement of a judgement of the Court shall be transferred to the Court.

Article 110. Review by the Court concerning reduction of sentence

1. The State of enforcement shall not release the person before expiry of the sentence pronounced by the Court.

2. The Court alone shall have the right to decide any reduction of sentence, and shall rule on the matter after having heard the person.

3. When the person has served two thirds of the sentence, or 25 years in the case of life imprisonment, the Court shall review the sentence to determine whether it should be reduced. Such a review shall not be conducted before that time.

4. In its review under paragraph 3, the Court may reduce the sentence if it finds that one or more of the following factors are present:

(a) The early and continuing willingness of the person to cooperate with the Court in its investigations and prosecutions;

(b) The voluntary assistance of the person in enabling the enforcement of the judgements and orders of the Court in other cases, and in particular providing assistance in locating assets subject to orders of fine, forfeiture or reparation which may be used for the benefit of victims; or

(c) Other factors establishing a clear and significant change of circumstances sufficient to justify the reduction of sentence, as provided in the Rules of Procedure and Evidence.

5. If the Court determines in its initial review under paragraph 3 that it is not appropriate to reduce the sentence, it shall thereafter review the question of reduction of sentence at such intervals and applying such criteria as provided for in the Rules of Procedure and Evidence.

Article 111. Escape

If a convicted person escapes from custody and flees the State of enforcement, that State may, after consultation with the Court, request the person's surrender from the State in which the person is located pursuant to existing bilateral or multilateral arrangements, or may request that the Court seek the person's surrender, in accordance with Part 9. It may direct that the person be delivered to the State in which he or she was serving the sentence or to another State designated by the Court.

Except as otherwise specified in this Statute, special sessions shall be convened by the Bureau on its own initiative or at the request of one third of the States Parties.

7. Each State Party shall have one vote. Every effort shall be made to reach decisions by consensus in the Assembly and in the Bureau. If consensus cannot be reached, except as otherwise provided in the Statute:

(b) Decisions on matters of procedure shall be taken by a simple majority of States Parties present and voting.

8. A State Party which is in arrears in the payment of its financial contributions towards the costs of the Court shall have no vote in the Assembly and in the Bureau if the amount of its arrears equals or exceeds the amount of the contributions due from it for the preceding two full years. The Assembly may, nevertheless, permit such a State Party to vote in the Assembly and in the Bureau if it is satisfied that the failure to pay is due to conditions beyond the control of the State Party.

9. The Assembly shall adopt its own rules of procedure.

10. The official and working languages of the Assembly shall be those of the General Assembly of the United Nations.

PART 12. FINANCING

The Assembly may deal with the proposal directly or convene a Review Conference if the issue involved so warrants.

3. The adoption of an amendment at a meeting of the Assembly of States Parties or at a Review Conference on which consensus cannot be reached shall require a two-thirds majority of States Parties.

6. If an amendment has been accepted by seven-eighths of States Parties in accordance with paragraph 4, any State Party which has not accepted the amendment may withdraw from this Statute with immediate effect, notwithstanding article 127, paragraph 1, but subject to article 127, paragraph 2, by giving notice no later than one year after the entry into force of such amendment.

7. The Secretary-General of the United Nations shall circulate to all States Parties any amendment adopted at a meeting of the Assembly of States Parties or at a Review Conference.

2. Amendments under this article on which consensus cannot be reached shall be adopted by the Assembly of States Parties or by a Review Conference, by a two-thirds majority of States Parties. Such amendments shall enter into force for all States Parties six months after their adoption by the Assembly or, as the case may be, by the Conference.

Article 123. Review of the Statute

A declaration under this article may be withdrawn at any time. The provisions of this article shall be reviewed at the Review Conference convened in accordance with article 123, paragraph 1.

93. ELEMENTS OF CRIMES

Official Records of the Assembly of States Parties to the Rome Statute of the International Criminal Court, First session, New York, 3-10 September 2002 (United Nations publication, Sales No. E.03.V.2 and corrigendum), part II.B. and Official Records of the Review Conference of the Rome Statute of the International Criminal Court, Kampala, 31 May - 11 June 2010 (International Criminal Court publication, RC/11)

General introduction

1. Pursuant to article 9, the following Elements of Crimes shall assist the Court in the interpretation and application of articles 6, 7 and 8, consistent with the Statute. The provisions of the Statute, including article 21 and the general principles set out in Part 3, are applicable to the Elements of Crimes.

2. As stated in article 30, unless otherwise provided, a person shall be criminally responsible and liable for punishment for a crime within the jurisdiction of the Court only if the material elements are committed with intent and knowledge. Where no reference is made in the Elements of Crimes to a mental element for any particular conduct, consequence or circumstance listed, it is understood that the relevant mental element, i.e., intent, knowledge or both, set out in article 30 applies. Exceptions to the article 30 standard, based on the Statute, including applicable law under its relevant provisions, are indicated below.

3. Existence of intent and knowledge can be inferred from relevant facts and circumstances.

4. With respect to mental elements associated with elements involving value judgement, such as those using the terms “inhumane” or “severe”, it is not necessary that the perpetrator personally completed a particular value judgement, unless otherwise indicated.

5. Grounds for excluding criminal responsibility or the absence thereof are generally not specified in the elements of crimes listed under each crime.¹

6. The requirement of “unlawfulness” found in the Statute or in other parts of international law, in particular international humanitarian law, is generally not specified in the elements of crimes.

7. The elements of crimes are generally structured in accordance with the following principles:

(a) As the elements of crimes focus on the conduct, consequences and circumstances associated with each crime, they are generally listed in that order;

(b) When required, a particular mental element is listed after the affected conduct, consequence or circumstance;

(c) Contextual circumstances are listed last.

8. As used in the Elements of Crimes, the term “perpetrator” is neutral as to guilt or innocence. The elements, including the appropriate mental elements, apply, *mutatis mutandis*, to all those whose criminal responsibility may fall under articles 25 and 28 of the Statute.

9. A particular conduct may constitute one or more crimes.

10. The use of short titles for the crimes has no legal effect.

Article 6. Genocide

Introduction

With respect to the last element listed for each crime:

(a) The term “in the context of” would include the initial acts in an emerging pattern;

(b) The term “manifest” is an objective qualification;

¹ This paragraph is without prejudice to the obligation of the Prosecutor under article 54, paragraph 1, of the Statute.

(c) Notwithstanding the normal requirement for a mental element provided for in article 30, and recognizing that knowledge of the circumstances will usually be addressed in proving genocidal intent, the appropriate requirement, if any, for a mental element regarding this circumstance will need to be decided by the Court on a case-by-case basis.

Article 6 (a). Genocide by killing

Elements

1. The perpetrator killed² one or more persons.
2. Such person or persons belonged to a particular national, ethnical, racial or religious group.

Article 6 (d). Genocide by imposing measures intended to prevent births

Elements

1. The perpetrator imposed certain measures upon one or more persons.
2. Such person or persons belonged to a particular national, ethnical, racial or religious group.

² The term “killed” is interchangeable with the term “caused death”.

³ This conduct may include, but is not necessarily restricted to, acts of torture, rape, sexual violence or inhuman or degrading treatment.

⁴ The term “conditions of life” may include, but is not necessarily restricted to, deliberate deprivation of resources indispensable for survival, such as food or medical services, or systematic expulsion from homes.

Article 7. Crimes against humanity

Introduction

1. Since article 7 pertains to international criminal law, its provisions, consistent with article 22, must be strictly construed, taking into account that crimes against humanity as defined in article 7 are among the most serious crimes of concern to the international community as a whole, warrant and entail individual criminal responsibility, and require conduct which is impermissible under generally applicable international law, as recognized by the principal legal systems of the world.

2. The last two elements for each crime against humanity describe the context in which the conduct must take place. These elements clarify the requisite participation in and knowledge of a widespread or systematic attack against a civilian population. However, the last element should not be interpreted as requiring proof that the perpetrator had knowledge of all characteristics of the attack or the precise details of the plan or policy of the State or organization. In the case of an emerging widespread or systematic attack against a civilian population, the intent clause of the last element indicates that this mental element is satisfied if the perpetrator intended to further such an attack.

3. “Attack directed against a civilian population” in these context elements is understood to mean a course of conduct involving the multiple commission of acts referred to in article 7, paragraph 1, of the Statute against any civilian population, pursuant to or in furtherance of a State or organizational policy to commit such attack. The acts need not constitute a military attack. It is understood that “policy to commit such attack” requires that the State or organization actively promote or encourage such an attack against a civilian population.⁶

⁵ The term “forcibly” is not restricted to physical force, but may include threat of force or coercion, such as that caused by fear of violence, duress, detention, psychological oppression or abuse of power, against such person or persons or another person, or by taking advantage of a coercive environment.

⁶ A policy which has a civilian population as the object of the attack would be implemented by State or organizational action. Such a policy may, in exceptional circumstances, be implemented by a deliberate failure to take action, which is consciously aimed at encouraging such attack. The existence of such a policy cannot be inferred solely from the absence of governmental or organizational action.

Article 7 (1) (a). Crime against humanity of murder**Elements**

1. The perpetrator killed⁷ one or more persons.
2. The conduct was committed as part of a widespread or systematic attack directed against a civilian population.

⁸ The conduct could be committed by different methods of killing, either directly or indirectly.

⁹ The infliction of such conditions could include the deprivation of access to food and medicine.

¹⁰ The term “as part of” would include the initial conduct in a mass killing.

¹¹ It is understood that such deprivation of liberty may, in some circumstances, include exacting forced labour or otherwise reducing a person to a servile status as defined in the Supplementary Convention on the Abolition of Slavery, the Slave Trade, and Institutions and Practices Similar to Slavery of 1956. It is also understood that the conduct described in this element includes trafficking in persons, in particular women and children.

5. The perpetrator knew that the conduct was part of or intended the conduct to be part of a widespread or systematic attack directed against a civilian population.

¹² The term “forcibly” is not restricted to physical force, but may include threat of force or coercion, such as that caused by fear of violence, duress, detention, psychological oppression or abuse of power against such person or persons or another person, or by taking advantage of a coercive environment.

¹³ “Deported or forcibly transferred” is interchangeable with “forcibly displaced”.

¹⁴ It is understood that no specific purpose need be proved for this crime.

Article 7 (1) (g)-1. Crime against humanity of rape**Elements**

1. The perpetrator invaded¹⁵ the body of a person by conduct resulting in penetration, however slight, of any part of the body of the victim or of the perpetrator with a sexual organ, or of the anal or genital opening of the victim with any object or any other part of the body.

2. The invasion was committed by force, or by threat of force or coercion, such as that caused by fear of violence, duress, detention, psychological oppression or abuse of power, against such person or another person, or by taking advantage of a coercive environment, or the invasion was committed against a person incapable of giving genuine consent.¹⁶

2. The perpetrator or another person obtained or expected to obtain pecuniary or other advantage in exchange for or in connection with the acts of a sexual nature.

¹⁵ The concept of "invasion" is intended to be broad enough to be gender-neutral.

¹⁶ It is understood that a person may be incapable of giving genuine consent if affected by natural, induced or age-related incapacity. This footnote also applies to the corresponding elements of article 7 (1) (g)-3, 5 and 6.

¹⁷ Given the complex nature of this crime, it is recognized that its commission could involve more than one perpetrator as a part of a common criminal purpose.

¹⁸ It is understood that such deprivation of liberty may, in some circumstances, include exacting forced labour or otherwise reducing a person to a servile status as defined in the Supplementary Convention on the Abolition of Slavery, the Slave Trade, and Institutions and Practices Similar to Slavery of 1956. It is also understood that the conduct described in this element includes trafficking in persons, in particular women and children.

²¹ This requirement is without prejudice to paragraph 6 of the General Introduction to the Elements of Crimes.

²³ Given the complex nature of this crime, it is recognized that its commission will normally involve more than one perpetrator as a part of a common criminal purpose.

²⁴ This crime falls under the jurisdiction of the Court only if the attack referred to in elements 7 and 8 occurs after the entry into force of the Statute.

²⁵ The word “detained” would include a perpetrator who maintained an existing detention.

4. Such arrest, detention or abduction was carried out by, or with the authorization, support or acquiescence of, a State or a political organization.

96. CONVENTION ON THE PROHIBITION OF THE DEVELOPMENT, PRODUCTION AND STOCKPILING OF BACTERIOLOGICAL (BIOLOGICAL) AND TOXIN WEAPONS AND ON THEIR DESTRUCTION

Done at London, Moscow, Washington on 10 April 1972

Entry into force: 26 March 1975

United Nations, *Treaty Series*, vol. 1015, p. 163; Reg. No. 14860

The States Parties to this Convention,

Determined to act with a view to achieving effective progress towards general and complete disarmament, including the prohibition and elimination of all types of weapons of mass destruction, and convinced that the prohibition of the development, production and stockpiling of chemical and bacteriological (biological) weapons and their elimination, through effective measures, will facilitate the achievement of general and complete disarmament under strict and effective international control,

Recognising the important significance of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925, and conscious also of the contribution which the said Protocol has already made and continues to make, to mitigating the horrors of war,

Reaffirming their adherence to the principles and objectives of that Protocol and calling upon all States to comply strictly with them,

Recalling that the General Assembly of the United Nations has repeatedly condemned all actions contrary to the principles and objectives of the Geneva Protocol of 17 June 1925,

Desiring to contribute to the strengthening of confidence between peoples and the general improvement of the international atmosphere,

Desiring also to contribute to the realisation of the purposes and principles of the Charter of the United Nations,

Convinced of the importance and urgency of eliminating from the arsenals of States, through effective measures, such dangerous weapons of mass destruction as those using chemical or bacteriological (biological) agents,

Recognising that an agreement on the prohibition of bacteriological (biological) and toxin weapons represents a first possible step towards the achievement of agreement on effective measures also for the prohibition of the development, production and stockpiling of chemical weapons, and determined to continue negotiations to that end,

Determined, for the sake of all mankind, to exclude completely the possibility of bacteriological (biological) agents and toxins being used as weapons,

Convinced that such use would be repugnant to the conscience of mankind and that no effort should be spared to minimise this risk,

Have agreed as follows:

Article I

Each State Party to this Convention undertakes never in any circumstances to develop, produce, stockpile or otherwise acquire or retain:

- (1) microbial or other biological agents, or toxins whatever their origin or method of production, of types and in quantities that have no justification for prophylactic, protective or other peaceful purposes;
- (2) weapons, equipment or means of delivery designed to use such agents or toxins for hostile purposes or in armed conflict.

Article II

Each State Party to this Convention undertakes to destroy, or to divert to peaceful purposes, as soon as possible but not later than nine months after the entry into force of the Convention, all agents, toxins, weapons, equipment and means of delivery specified in Article I of the Convention, which are in its possession or under its jurisdiction or control. In implementing the provisions of this Article all necessary safety precautions shall be observed to protect populations and the environment.

Article III

Each State Party to this Convention undertakes not to transfer to any recipient whatsoever, directly or indirectly, and not in any way to assist, encourage, or induce any State, group of States or international organisations to manufacture or otherwise acquire any of the agents, toxins, weapons, equipment or means of delivery specified in Article I of the Convention.

Article IV

Each State Party to this Convention shall, in accordance with its constitutional processes, take any necessary measures to prohibit and prevent the development, production, stockpiling, acquisition or retention of the agents, toxins, weapons, equipment and means of delivery specified in Article I of the Convention, within the territory of such State, under its jurisdiction or under its control anywhere.

The Security Council shall inform the States Parties to the Convention of the results of the investigation.

Article IX

Each State Party to this Convention affirms the recognised objective of effective prohibition of chemical weapons and, to this end, undertakes to continue negotiations in good faith with a view to reaching early agreement on effective measures for the prohibition of their development, production and stockpiling and for their destruction, and on appropriate measures concerning equipment and means of delivery specifically designed for the production or use of chemical agents for weapons purposes.

Article X

(1) The States Parties to this Convention undertake to facilitate, and have the right to participate in, the fullest possible exchange of equipment, materials and scientific and technological information for the use of bacteriological (biological) agents and toxins for peaceful purposes. Parties to the Convention in a position to do so shall also co-operate in contributing individually or together with other States or international organisations to the further development and application of scientific discoveries in the field of bacteriology (biology) for the prevention of disease, or for other peaceful purposes.

(2) This Convention shall be implemented in a manner designed to avoid hampering the economic or technological development of States Parties to the Convention or international co-operation in the field of peaceful bacteriological (biological) activities, including the international exchange of bacteriological (biological) agents and toxins and equipment for the processing, use or production of bacteriological (biological) agents and toxins for peaceful purposes in accordance with the provisions of the Convention.

Article XI

Any State Party may propose amendments to this Convention. Amendments shall enter into force for each State Party accepting the amendments upon their acceptance by a majority of the States Parties to the Convention and thereafter for each remaining State Party on the date of acceptance by it.

Article XII

Five years after the entry into force of this Convention, or earlier if it is requested by a majority of Parties to the Convention by submitting a proposal to this effect to the Depositary Governments, a conference of States Parties to the Convention shall be held at Geneva, Switzerland, to review the operation of the Convention, with a view to assuring that the purposes of the preamble and the provisions of the Convention, including the provisions concerning negotiations on chemical weapons, are being realised. Such review shall take into account any new scientific and technological developments relevant to the Convention.

Article XIII

(1) This Convention shall be of unlimited duration.

(2) Each State Party to this Convention shall in exercising its national sovereignty have the right to withdraw from the Convention if it decides that extraordinary events, related to the subject matter of the Convention, have jeopardised the supreme interests of its country. - (c) Any equipment specifically designed for use directly in connection with the employment of munitions and devices specified in subparagraph (b).

2. "Toxic Chemical" means:

Any chemical which through its chemical action on life processes can cause death, temporary incapacitation or permanent harm to humans or animals. This includes all such chemicals, regardless of their origin or of their method of production, and regardless of whether they are produced in facilities, in munitions or elsewhere.

(For the purpose of implementing this Convention, toxic chemicals which have been identified for the application of verification measures are listed in Schedules contained in the Annex on Chemicals.)

3. "Precursor" means:

Any chemical reactant which takes part at any stage in the production by whatever method of a toxic chemical. This includes any key component of a binary or multicomponent chemical system.

4. “Key Component of Binary or Multicomponent Chemical Systems” (hereinafter referred to as “key component”) means:

The precursor which plays the most important role in determining the toxic properties of the final product and reacts rapidly with other chemicals in the binary or multicomponent system.

5. “Old Chemical Weapons” means:

(a) Chemical weapons which were produced before 1925; or

(b) Chemical weapons produced in the period between 1925 and 1946 that have deteriorated to such extent that they can no longer be used as chemical weapons.

Chemical weapons, including old chemical weapons, abandoned by a State after 1 January 1925 on the territory of another State without the consent of the latter.

7. “Riot Control Agent” means:

Any chemical not listed in a Schedule, which can produce rapidly in humans sensory irritation or disabling physical effects which disappear within a short time following termination of exposure.

8. “Chemical Weapons Production Facility”:

(a) Means any equipment, as well as any building housing such equipment, that was designed, constructed or used at any time since 1 January 1946:

(i) As part of the stage in the production of chemicals (“final technological stage”) where the material flows would contain, when the equipment is in operation:

(1) Any chemical listed in Schedule 1 in the Annex on Chemicals; or

(2) Any other chemical that has no use, above 1 tonne per year on the territory of a State Party or in any other place under the jurisdiction or control of a State Party, for purposes not prohibited under this Convention, but can be used for chemical weapons purposes;

or

(ii) For filling chemical weapons, including, *inter alia*, the filling of chemicals listed in Schedule 1 into munitions, devices or bulk storage containers; the filling of chemicals into containers that form part of assembled binary munitions and devices or into chemical submunitions that form part of assembled unitary munitions and devices, and the loading of the containers and chemical submunitions into the respective munitions and devices;

(b) Does not mean:

(i) Any facility having a production capacity for synthesis of chemicals specified in subparagraph (a) (i) that is less than 1 tonne;

(ii) Any facility in which a chemical specified in subparagraph (a) (i) is or was produced as an unavoidable by-product of activities for purposes not prohibited under this Convention, provided that the chemical does not exceed 3 per cent of the total product and that the facility is subject to declaration and inspection under the Annex on Implementation and Verification (hereinafter referred to as “Verification Annex”); or

(iii) The single small-scale facility for production of chemicals listed in Schedule 1 for purposes not prohibited under this Convention as referred to in Part VI of the Verification Annex.

10. "Production Capacity" means:

The annual quantitative potential for manufacturing a specific chemical based on the technological process actually used or, if the process is not yet operational, planned to be used at the relevant facility. It shall be deemed to be equal to the nameplate capacity or, if the nameplate capacity is not available, to the design capacity. The nameplate capacity is the product output under conditions optimized for maximum quantity for the production facility, as demonstrated by one or more test-runs. The design capacity is the corresponding theoretically calculated product output.

The Technical Secretariat shall inform the Executive Council of any problem that has arisen with regard to the discharge of its functions, including doubts, ambiguities or uncertainties about compliance with this Convention that have come to its notice in the performance of its verification activities and that it has been unable to resolve or clarify through its consultations with the State Party concerned.

41. The Technical Secretariat shall comprise a Director-General, who shall be its head and chief administrative officer, inspectors and such scientific, technical and other personnel as may be required.

42. The Inspectorate shall be a unit of the Technical Secretariat and shall act under the supervision of the Director-General.

43. The Director-General shall be appointed by the Conference upon the recommendation of the Executive Council for a term of four years, renewable for one further term, but not thereafter.

44. The Director-General shall be responsible to the Conference and the Executive Council for the appointment of the staff and the organization and functioning of the Technical Secretariat. The paramount consideration in the employment of the staff and in the determination of the conditions of service shall be the necessity of securing the highest standards of efficiency, competence and integrity. Only citizens of States Parties shall serve as the Director-General, as inspectors or as other members of the professional and clerical staff. Due regard shall be paid to the importance of recruiting the staff on as wide a geographical basis as possible. Recruitment shall be guided by the principle that the staff shall be kept to a minimum necessary for the proper discharge of the responsibilities of the Technical Secretariat.

45. The Director-General shall be responsible for the organization and functioning of the Scientific Advisory Board referred to in paragraph 21 (h). The Director-General shall, in consultation with States Parties, appoint members of the Scientific Advisory Board, who shall serve in their individual capacity. The members of the Board shall be appointed on the basis of their expertise in the particular scientific fields relevant to the implementation of this Convention. The Director-General may also, as appropriate, in consultation with members of the Board, establish temporary working groups of scientific experts to provide recommendations on specific issues. In regard to the above, States Parties may submit lists of experts to the Director-General.

46. In the performance of their duties, the Director-General, the inspectors and the other members of the staff shall not seek or receive instructions from any Government or from any other source external to the Organization. They shall refrain from any action that might reflect on their positions as international officers responsible only to the Conference and the Executive Council.

47. Each State Party shall respect the exclusively international character of the responsibilities of the Director-General, the inspectors and the other members of the staff and not seek to influence them in the discharge of their responsibilities.

E. Privileges and immunities

48. The Organization shall enjoy on the territory and in any other place under the jurisdiction or control of a State Party such legal capacity and such privileges and immunities as are necessary for the exercise of its functions.

49. Delegates of States Parties, together with their alternates and advisers, representatives appointed to the Executive Council together with their alternates and advisers, the Director-General and the staff of the Organization shall enjoy such privileges and immunities as are necessary in the independent exercise of their functions in connection with the Organization.

50. The legal capacity, privileges, and immunities referred to in this Article shall be defined in agreements between the Organization and the States Parties as well as in an agreement between the Organization and the State in which the headquarters of the Organization is seated. These agreements shall be considered and approved by the Conference pursuant to paragraph 21 (i).

51. Notwithstanding paragraphs 48 and 49, the privileges and immunities enjoyed by the Director-General and the staff of the Technical Secretariat during the conduct of verification activities shall be those set forth in Part II, Section B, of the Verification Annex.

Article IX. Consultations, cooperation and fact-finding

1. States Parties shall consult and cooperate, directly among themselves, or through the Organization or other appropriate international procedures, including procedures within the framework of the United Nations and in accordance with its Charter, on any matter which may be raised relating to the object and purpose, or the implementation of the provisions, of this Convention.

2. Without prejudice to the right of any State Party to request a challenge inspection, States Parties should, whenever possible, first make every effort to clarify and resolve, through exchange of information and consultations among themselves, any matter which may cause doubt about compliance with this Convention, or which gives rise to concerns about a related matter which may be considered ambiguous. A State Party which receives a request from another State Party for clarification of any matter which the requesting State Party believes causes such a doubt or concern shall provide the requesting State Party as soon as possible, but in any case not later than 10 days after the request, with information sufficient to answer the doubt or concern raised along with an explanation of how the information provided resolves the matter. Nothing in this Convention shall affect the right of any two or more States Parties to arrange by mutual consent for inspections or any other procedures among themselves to clarify and resolve any matter which may cause doubt about compliance or gives rise to a concern about a related matter which may be considered ambiguous. Such arrangements shall not affect the rights and obligations of any State Party under other provisions of this Convention.

Procedure for requesting clarification

3. A State Party shall have the right to request the Executive Council to assist in clarifying any situation which may be considered ambiguous or which gives rise to a concern about the possible non-compliance of another State Party with this Convention. The Executive Council shall provide appropriate information in its possession relevant to such a concern.

4. A State Party shall have the right to request the Executive Council to obtain clarification from another State Party on any situation which may be considered ambiguous or which gives rise to a concern about its possible non-compliance with this Convention. In such a case, the following shall apply:

(a) The Executive Council shall forward the request for clarification to the State Party concerned through the Director-General not later than 24 hours after its receipt;

(b) The requested State Party shall provide the clarification to the Executive Council as soon as possible, but in any case not later than 10 days after the receipt of the request;

(c) The Executive Council shall take note of the clarification and forward it to the requesting State Party not later than 24 hours after its receipt;

(d) If the requesting State Party deems the clarification to be inadequate, it shall have the right to request the Executive Council to obtain from the requested State Party further clarification;

(e) For the purpose of obtaining further clarification requested under subparagraph (d), the Executive Council may call on the Director-General to establish a group of experts from the Technical Secretariat, or if appropriate staff are not available in the Technical Secretariat, from elsewhere, to examine all available information and data relevant to the situation causing the concern. The group of experts shall submit a factual report to the Executive Council on its findings;

(f) If the requesting State Party considers the clarification obtained under subparagraphs (d) and (e) to be unsatisfactory, it shall have the right to request a special session of the Executive Council in which States Parties involved that are not members of the Executive Council shall be entitled to take part. In such a special session, the Executive Council shall consider the matter and may recommend any measure it deems appropriate to resolve the situation.

5. A State Party shall also have the right to request the Executive Council to clarify any situation which has been considered ambiguous or has given rise to a concern about its possible non-compliance with this Convention. The Executive Council shall respond by providing such assistance as appropriate.

6. The Executive Council shall inform the States Parties about any request for clarification provided in this Article.

7. If the doubt or concern of a State Party about a possible non-compliance has not been resolved within 60 days after the submission of the request for clarification to the Executive Council, or it believes its doubts warrant urgent consideration, notwithstanding its right to request a

challenge inspection, it may request a special session of the Conference in accordance with Article VIII, paragraph 12 (c). At such a special session, the Conference shall consider the matter and may recommend any measure it deems appropriate to resolve the situation.

Procedures for challenge inspections

8. Each State Party has the right to request an on-site challenge inspection of any facility or location in the territory or in any other place under the jurisdiction or control of any other State Party for the sole purpose of clarifying and resolving any questions concerning possible non-compliance with the provisions of this Convention, and to have this inspection conducted anywhere without delay by an inspection team designated by the Director-General and in accordance with the Verification Annex.

9. Each State Party is under the obligation to keep the inspection request within the scope of this Convention and to provide in the inspection request all appropriate information on the basis of which a concern has arisen regarding possible non-compliance with this Convention as specified in the Verification Annex. Each State Party shall refrain from unfounded inspection requests, care being taken to avoid abuse. The challenge inspection shall be carried out for the sole purpose of determining facts relating to the possible non-compliance.

10. For the purpose of verifying compliance with the provisions of this Convention, each State Party shall permit the Technical Secretariat to conduct the on-site challenge inspection pursuant to paragraph 8.

11. Pursuant to a request for a challenge inspection of a facility or location, and in accordance with the procedures provided for in the Verification Annex, the inspected State Party shall have:

- (a) The right and the obligation to make every reasonable effort to demonstrate its compliance with this Convention and, to this end, to enable the inspection team to fulfil its mandate;
- (b) The obligation to provide access within the requested site for the sole purpose of establishing facts relevant to the concern regarding possible non-compliance; and
- (c) The right to take measures to protect sensitive installations, and to prevent disclosure of confidential information and data, not related to this Convention.

12. With regard to an observer, the following shall apply:

(a) The requesting State Party may, subject to the agreement of the inspected State Party, send a representative who may be a national either of the requesting State Party or of a third State Party, to observe the conduct of the challenge inspection.

(b) The inspected State Party shall then grant access to the observer in accordance with the Verification Annex.

(c) The inspected State Party shall, as a rule, accept the proposed observer, but if the inspected State Party exercises a refusal, that fact shall be recorded in the final report.

13. The requesting State Party shall present an inspection request for an on-site challenge inspection to the Executive Council and at the same time to the Director-General for immediate processing.

14. The Director-General shall immediately ascertain that the inspection request meets the requirements specified in Part X, paragraph 4, of the Verification Annex, and, if necessary, assist the requesting State Party in filing the inspection request accordingly. When the inspection request fulfils the requirements, preparations for the challenge inspection shall begin.

15. The Director-General shall transmit the inspection request to the inspected State Party not less than 12 hours before the planned arrival of the inspection team at the point of entry.

16. After having received the inspection request, the Executive Council shall take cognizance of the Director-General's actions on the request and shall keep the case under its consideration throughout the inspection procedure. However, its deliberations shall not delay the inspection process.

17. The Executive Council may, not later than 12 hours after having received the inspection request, decide by a three-quarter majority of all its members against carrying out the challenge inspection, if it considers the inspection request to be frivolous, abusive or clearly beyond the scope of this Convention as described in paragraph 8. Neither the requesting nor the inspected State Party shall participate in such a decision. If the Executive Council decides against the challenge inspection, preparations shall be stopped, no further action on the inspection request shall be taken, and the States Parties concerned shall be informed accordingly.

18. The Director-General shall issue an inspection mandate for the conduct of the challenge inspection. The inspection mandate shall be the inspection request referred to in paragraphs 8 and 9 put into operational terms, and shall conform with the inspection request.

19. The challenge inspection shall be conducted in accordance with Part X or, in the case of alleged use, in accordance with Part XI of the Verification Annex. The inspection team shall be guided by the principle of conducting the challenge inspection in the least intrusive manner possible, consistent with the effective and timely accomplishment of its mission.

20. The inspected State Party shall assist the inspection team throughout the challenge inspection and facilitate its task. If the inspected State Party proposes, pursuant to Part X, Section C, of the Verification Annex, arrangements to demonstrate compliance with this Convention, alternative to full and comprehensive access, it shall make every reasonable effort, through consultations with the inspection team, to reach agreement on the modalities for establishing the facts with the aim of demonstrating its compliance.

21. The final report shall contain the factual findings as well as an assessment by the inspection team of the degree and nature of access and cooperation granted for the satisfactory implementation of the challenge inspection. The Director-General shall promptly transmit the final report of the inspection team to the requesting State Party, to the inspected State Party, to the Executive Council and to all other States Parties. The Director-General shall further transmit promptly to the Executive Council the assessments of the requesting and of the inspected States Parties, as well as the views of other States Parties which may be conveyed to the Director-General for that purpose, and then provide them to all States Parties.

22. The Executive Council shall, in accordance with its powers and functions, review the final report of the inspection team as soon as it is presented, and address any concerns as to:

- (a) Whether any non-compliance has occurred;
- (b) Whether the request had been within the scope of this Convention; and
- (c) Whether the right to request a challenge inspection had been abused.

23. If the Executive Council reaches the conclusion, in keeping with its powers and functions, that further action may be necessary with regard to paragraph 22, it shall take the appropriate measures to redress the situation and to ensure compliance with this Convention, including specific recommendations to the Conference. In the case of abuse, the Executive Council shall examine whether the requesting State Party should bear any of the financial implications of the challenge inspection.

24. The requesting State Party and the inspected State Party shall have the right to participate in the review process. The Executive Council shall inform the States Parties and the next session of the Conference of the outcome of the process.

25. If the Executive Council has made specific recommendations to the Conference, the Conference shall consider action in accordance with Article XII.

Article X. Assistance and protection against chemical weapons

1. For the purposes of this Article, "Assistance" means the coordination and delivery to States Parties of protection against chemical weapons, including, *inter alia*, the following: detection equipment and alarm systems; protective equipment; decontamination equipment and decontaminants; medical antidotes and treatments; and advice on any of these protective measures.

2. Nothing in this Convention shall be interpreted as impeding the right of any State Party to conduct research into, develop, produce, acquire, transfer or use means of protection against chemical weapons, for purposes not prohibited under this Convention.

3. Each State Party undertakes to facilitate, and shall have the right to participate in, the fullest possible exchange of equipment, material and scientific and technological information concerning means of protection against chemical weapons.

4. For the purposes of increasing the transparency of national programmes related to protective purposes, each State Party shall provide annually to the Technical Secretariat information on its programme, in accordance with procedures to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

5. The Technical Secretariat shall establish, not later than 180 days after entry into force of this Convention and maintain, for the use of any requesting State Party, a data bank containing freely available information concerning various means of protection against chemical weapons as well as such information as may be provided by States Parties.

The Technical Secretariat shall also, within the resources available to it, and at the request of a State Party, provide expert advice and assist the State Party in identifying how its programmes for the development and improvement of a protective capacity against chemical weapons could be implemented.

6. Nothing in this Convention shall be interpreted as impeding the right of States Parties to request and provide assistance bilaterally and to conclude individual agreements with other States Parties concerning the emergency procurement of assistance.

7. Each State Party undertakes to provide assistance through the Organization and to this end to elect to take one or more of the following measures:

(a) To contribute to the voluntary fund for assistance to be established by the Conference at its first session;

(b) To conclude, if possible not later than 180 days after this Convention enters into force for it, agreements with the Organization concerning the procurement, upon demand, of assistance; (c) To declare, not later than 180 days after this Convention enters into force for it, the kind of assistance it might provide in response to an appeal by the Organization. If, however, a State Party subsequently is unable to provide the assistance envisaged in its declaration, it is still under the obligation to provide assistance in accordance with this paragraph.

8. Each State Party has the right to request and, subject to the procedures set forth in paragraphs 9, 10 and 11, to receive assistance and protection against the use or threat of use of chemical weapons if it considers that:

(a) Chemical weapons have been used against it;

(b) Riot control agents have been used against it as a method of warfare; or

(c) It is threatened by actions or activities of any State that are prohibited for States Parties by Article I.

9. The request, substantiated by relevant information, shall be submitted to the Director-General, who shall transmit it immediately to the Executive Council and to all States Parties. The Director-General shall immediately forward the request to States Parties which have volunteered, in accordance with paragraphs 7 (b) and (c), to dispatch emergency assistance in case of use of chemical weapons or use of riot control agents as a method of warfare, or humanitarian assistance in case of serious threat of use of chemical weapons or serious threat of use of riot control agents as a method of warfare to the State Party concerned not later than 12 hours after receipt of the request. The Director-General shall initiate, not later than 24 hours after receipt of the request, an investigation in order to provide foundation for further action. He shall complete the investigation within 72 hours and forward a report to the Executive Council. If additional time is required for completion of the investigation, an interim report shall be submitted within the same time-frame. The additional time required for investigation shall not exceed 72 hours. It may, however, be further

extended by similar periods. Reports at the end of each additional period shall be submitted to the Executive Council. The investigation shall, as appropriate and in conformity with the request and the information accompanying the request, establish relevant facts related to the request as well as the type and scope of supplementary assistance and protection needed.

10. The Executive Council shall meet not later than 24 hours after receiving an investigation report to consider the situation and shall take a decision by simple majority within the following 24 hours on whether to instruct the Technical Secretariat to provide supplementary assistance. The Technical Secretariat shall immediately transmit to all States Parties and relevant international organizations the investigation report and the decision taken by the Executive Council. When so decided by the Executive Council, the Director-General shall provide assistance immediately. For this purpose, the Director-General may cooperate with the requesting State Party, other States Parties and relevant international organizations. The States Parties shall make the fullest possible efforts to provide assistance.

11. If the information available from the ongoing investigation or other reliable sources would give sufficient proof that there are victims of use of chemical weapons and immediate action is indispensable, the Director-General shall notify all States Parties and shall take emergency measures of assistance, using the resources the Conference has placed at his disposal for such contingencies. The Director-General shall keep the Executive Council informed of actions undertaken pursuant to this paragraph.

Article XI. Economic and technological development

1. The provisions of this Convention shall be implemented in a manner which avoids hampering the economic or technological development of States Parties, and international cooperation in the field of chemical activities for purposes not prohibited under this Convention including the international exchange of scientific and technical information and chemicals and equipment for the production, processing or use of chemicals for purposes not prohibited under this Convention.

2. Subject to the provisions of this Convention and without prejudice to the principles and applicable rules of international law, the States Parties shall:

- (a) Have the right, individually or collectively, to conduct research with, to develop, produce, acquire, retain, transfer, and use chemicals;
- (b) Undertake to facilitate, and have the right to participate in, the fullest possible exchange of chemicals, equipment and scientific and technical information relating to the development and application of chemistry for purposes not prohibited under this Convention;
- (c) Not maintain among themselves any restrictions, including those in any international agreements, incompatible with the obligations undertaken under this Convention, which would restrict or impede trade and the development and promotion of scientific and technological knowledge in the field of chemistry for industrial, agricultural, research, medical, pharmaceutical or other peaceful purposes;
- (d) Not use this Convention as grounds for applying any measures other than those provided for, or permitted, under this Convention nor use any other international agreement for pursuing an objective inconsistent with this Convention;
- (e) Undertake to review their existing national regulations in the field of trade in chemicals in order to render them consistent with the object and purpose of this Convention.

Article XII. Measures to redress a situation and to ensure compliance, including sanctions

1. The Conference shall take the necessary measures, as set forth in paragraphs 2, 3 and 4, to ensure compliance with this Convention and to redress and remedy any situation which contravenes the provisions of this Convention. In considering action pursuant to this paragraph, the Confer-

ence shall take into account all information and recommendations on the issues submitted by the Executive Council.

2. In cases where a State Party has been requested by the Executive Council to take measures to redress a situation raising problems with regard to its compliance, and where the State Party fails to fulfil the request within the specified time, the Conference may, *inter alia*, upon the recommendation of the Executive Council, restrict or suspend the State Party's rights and privileges under this Convention until it undertakes the necessary action to conform with its obligations under this Convention.

3. In cases where serious damage to the object and purpose of this Convention may result from activities prohibited under this Convention, in particular by Article I, the Conference may recommend collective measures to States Parties in conformity with international law.

4. The Conference shall, in cases of particular gravity, bring the issue, including relevant information and conclusions, to the attention of the United Nations General Assembly and the United Nations Security Council.

2. When a dispute arises between two or more States Parties, or between one or more States Parties and the Organization, relating to the interpretation or application of this Convention, the parties concerned shall consult together with a view to the expeditious settlement of the dispute by negotiation or by other peaceful means of the parties' choice, including recourse to appropriate organs of this Convention and, by mutual consent, referral to the International Court of Justice in conformity with the Statute of the Court. The States Parties involved shall keep the Executive Council informed of actions being taken.

3. The Executive Council may contribute to the settlement of a dispute by whatever means it deems appropriate, including offering its good offices, calling upon the States Parties to a dispute to start the settlement process of their choice and recommending a time-limit for any agreed procedure.

4. The Conference shall consider questions related to disputes raised by States Parties or brought to its attention by the Executive Council. The Conference shall, as it finds necessary, establish or entrust organs with tasks related to the settlement of these disputes in conformity with Article VIII, paragraph 21 (f).

5. The Conference and the Executive Council are separately empowered, subject to authorization from the General Assembly of the United Nations, to request the International Court of Justice to give an advisory opinion on any legal question arising within the scope of the activities of the Organization. An agreement between the Organization and the United Nations shall be concluded for this purpose in accordance with Article VIII, paragraph 34 (a).

6. This Article is without prejudice to Article IX or to the provisions on measures to redress a situation and to ensure compliance, including sanctions.

The Amendment Conference shall be held immediately following a regular session of the Conference unless the requesting States Parties ask for an earlier meeting. In no case shall an Amendment Conference be held less than 60 days after the circulation of the proposed amendment.

3. Amendments shall enter into force for all States Parties 30 days after deposit of the instruments of ratification or acceptance by all the States Parties referred to under subparagraph (b) below:

(a) When adopted by the Amendment Conference by a positive vote of a majority of all States Parties with no State Party casting a negative vote; and

ANNEX ON CHEMICALS

A. Guidelines for schedules of chemicals

Guidelines for Schedule 1

1. The following criteria shall be taken into account in considering whether a toxic chemical or precursor should be included in Schedule 1:

(a) It has been developed, produced, stockpiled or used as a chemical weapon as defined in Article II;

(b) It poses otherwise a high risk to the object and purpose of this Convention by virtue of its high potential for use in activities prohibited under this Convention because one or more of the following conditions are met:

- (i) It possesses a chemical structure closely related to that of other toxic chemicals listed in Schedule 1, and has, or can be expected to have, comparable properties;
- (ii) It possesses such lethal or incapacitating toxicity as well as other properties that would enable it to be used as a chemical weapon;
- (iii) It may be used as a precursor in the final single technological stage of production of a toxic chemical listed in Schedule 1, regardless of whether this stage takes place in facilities, in munitions or elsewhere;

(c) It has little or no use for purposes not prohibited under this Convention.

Guidelines for Schedule 2

2. The following criteria shall be taken into account in considering whether a toxic chemical not listed in Schedule 1 or a precursor to a Schedule 1 chemical or to a chemical listed in Schedule 2, part A, should be included in Schedule 2:

(a) It poses a significant risk to the object and purpose of this Convention because it possesses such lethal or incapacitating toxicity as well as other properties that could enable it to be used as a chemical weapon;

(b) It may be used as a precursor in one of the chemical reactions at the final stage of formation of a chemical listed in Schedule 1 or Schedule 2, part A;

(c) It poses a significant risk to the object and purpose of this Convention by virtue of its importance in the production of a chemical listed in Schedule 1 or Schedule 2, part A;

(d) It is not produced in large commercial quantities for purposes not prohibited under this Convention.

Guidelines for Schedule 3

3. The following criteria shall be taken into account in considering whether a toxic chemical or precursor, not listed in other Schedules, should be included in Schedule 3:

- (a) It has been produced, stockpiled or used as a chemical weapon;
- (b) It poses otherwise a risk to the object and purpose of this Convention because it possesses such lethal or incapacitating toxicity as well as other properties that might enable it to be used as a chemical weapon;
- (c) It poses a risk to the object and purpose of this Convention by virtue of its importance in the production of one or more chemicals listed in Schedule 1 or Schedule 2, part B;
- (d) It may be produced in large commercial quantities for purposes not prohibited under this Convention.

B. Schedules of chemicals

The following Schedules list toxic chemicals and their precursors. For the purpose of implementing this Convention, these Schedules identify chemicals for the application of verification measures according to the provisions of the Verification Annex. Pursuant to Article II, subparagraph 1 (a), these Schedules do not constitute a definition of chemical weapons.

(Whenever reference is made to groups of dialkylated chemicals, followed by a list of alkyl groups in parentheses, all chemicals possible by all possible combinations of alkyl groups listed in the parentheses are considered as listed in the respective Schedule as long as they are not explicitly exempted. A chemical marked “*” on Schedule 2, part A, is subject to special thresholds for declaration and verification, as specified in Part VII of the Verification Annex.)

2. Each State Party shall immediately acknowledge receipt of the list of inspectors and inspection assistants, proposed for designation communicated to it. The State Party shall inform the Technical Secretariat in writing of its acceptance of each inspector and inspection assistant, not later than 30 days after acknowledgement of receipt of the list. Any inspector and inspection assistant included in this list shall be regarded as designated unless a State Party, not later than 30 days after acknowledgement of receipt of the list, declares its non-acceptance in writing. The State Party may include the reason for the objection.

In the case of non-acceptance, the proposed inspector or inspection assistant shall not undertake or participate in verification activities on the territory or in any other place under the jurisdiction or control of the State Party which has declared its non-acceptance. The Technical Secretariat shall, as necessary, submit further proposals in addition to the original list.

3. Verification activities under this Convention shall only be performed by designated inspectors and inspection assistants.

4. Subject to the provisions of paragraph 5, a State Party has the right at any time to object to an inspector or inspection assistant who has already been designated. It shall notify the Technical Secretariat of its objection in writing and may include the reason for the objection. Such objection shall come into effect 30 days after receipt by the Technical Secretariat. The Technical Secretariat shall immediately inform the State Party concerned of the withdrawal of the designation of the inspector or inspection assistant.

7. If, in the opinion of the Director-General, the non-acceptance of proposed inspectors or inspection assistants impedes the designation of a sufficient number of inspectors or inspection assistants or otherwise hampers the effective fulfilment of the tasks of the Technical Secretariat, the Director-General shall refer the issue to the Executive Council.

8. Whenever amendments to the above-mentioned lists of inspectors and inspection assistants are necessary or requested, replacement inspectors and inspection assistants shall be designated in the same manner as set forth with respect to the initial list.

9. The members of the inspection team carrying out an inspection of a facility of a State Party located on the territory of another State Party shall be designated in accordance with the procedures set forth in this Annex as applied both to the inspected State Party and the Host State Party.

If the inspected State Party or Host State Party considers that there has been an abuse of privileges and immunities specified in this Annex, consultations shall be held between the State Party and the Director-General to determine whether such an abuse has occurred and, if so determined, to prevent a repetition of such an abuse.

14. The immunity from jurisdiction of members of the inspection team may be waived by the Director-General in those cases when the Director-General is of the opinion that immunity would

impede the course of justice and that it can be waived without prejudice to the implementation of the provisions of this Convention. Waiver must always be express.

15. Observers shall be accorded the same privileges and immunities accorded to inspectors pursuant to this section, except for those accorded pursuant to paragraph 11 (d).

C. Standing arrangements

Points of entry

These points of entry shall be such that the inspection team can reach any inspection site from at least one point of entry within 12 hours. Locations of points of entry shall be provided to all States Parties by the Technical Secretariat.

17. Each State Party may change the points of entry by giving notice of such change to the Technical Secretariat. Changes shall become effective 30 days after the Technical Secretariat receives such notification to allow appropriate notification to all States Parties.

18. If the Technical Secretariat considers that there are insufficient points of entry for the timely conduct of inspections or that changes to the points of entry proposed by a State Party would hamper such timely conduct of inspections, it shall enter into consultations with the State Party concerned to resolve the problem.

19. In cases where facilities or areas of an inspected State Party are located on the territory of a Host State Party or where the access from the point of entry to the facilities or areas subject to inspection requires transit through the territory of another State Party, the inspected State Party shall exercise the rights and fulfil the obligations concerning such inspections in accordance with this Annex. The Host State Party shall facilitate the inspection of those facilities or areas and shall provide for the necessary support to enable the inspection team to carry out its tasks in a timely and effective manner. States Parties through whose territory transit is required to inspect facilities or areas of an inspected State Party shall facilitate such transit.

20. In cases where facilities or areas of an inspected State Party are located on the territory of a State not Party to this Convention, the inspected State Party shall take all necessary measures to ensure that inspections of those facilities or areas can be carried out in accordance with the provisions of this Annex. A State Party that has one or more facilities or areas on the territory of a State not Party to this Convention shall take all necessary measures to ensure acceptance by the Host State of inspectors and inspection assistants designated to that State Party. If an inspected State Party is unable to ensure access, it shall demonstrate that it took all necessary measures to ensure access.

21. In cases where the facilities or areas sought to be inspected are located on the territory of a State Party, but in a place under the jurisdiction or control of a State not Party to this Convention, the State Party shall take all necessary measures as would be required of an inspected State Party and a Host State Party to ensure that inspections of such facilities or areas can be carried out in accordance with the provisions of this Annex. If the State Party is unable to ensure access to those facilities or areas, it shall demonstrate that it took all necessary measures to ensure access. This paragraph shall not apply where the facilities or areas sought to be inspected are those of the State Party.

Arrangements for use of non-scheduled aircraft

22. For inspections pursuant to Article IX and for other inspections where timely travel is not feasible using scheduled commercial transport, an inspection team may need to utilize aircraft owned or chartered by the Technical Secretariat. Not later than 30 days after this Convention enters into force for it, each State Party shall inform the Technical Secretariat of the standing diplomatic clearance number for non-scheduled aircraft transporting inspection teams and equipment necessary for inspection into and out of the territory in which an inspection site is located. Aircraft routings to and from the designated point of entry shall be along established international airways

that are agreed upon between the States Parties and the Technical Secretariat as the basis for such diplomatic clearance.

23. When a non-scheduled aircraft is used, the Technical Secretariat shall provide the inspected State Party with a flight plan, through the National Authority, for the aircraft's flight from the last airfield prior to entering the airspace of the State in which the inspection site is located to the point of entry, not less than six hours before the scheduled departure time from that airfield. Such a plan shall be filed in accordance with the procedures of the International Civil Aviation Organization applicable to civil aircraft. For its owned or chartered flights, the Technical Secretariat shall include in the remarks section of each flight plan the standing diplomatic clearance number and the appropriate notation identifying the aircraft as an inspection aircraft.

24. Not less than three hours before the scheduled departure of the inspection team from the last airfield prior to entering the airspace of the State in which the inspection is to take place, the inspected State Party or Host State Party shall ensure that the flight plan filed in accordance with paragraph 23 is approved so that the inspection team may arrive at the point of entry by the estimated arrival time.

25. The inspected State Party shall provide parking, security protection, servicing and fuel as required by the Technical Secretariat for the aircraft of the inspection team at the point of entry when such aircraft is owned or chartered by the Technical Secretariat. Such aircraft shall not be liable for landing fees, departure tax, and similar charges. The Technical Secretariat shall bear the cost of such fuel, security protection and servicing.

Administrative arrangements

26. The inspected State Party shall provide or arrange for the amenities necessary for the inspection team such as communication means, interpretation services to the extent necessary for the performance of interviewing and other tasks, transportation, working space, lodging, meals and medical care. In this regard, the inspected State Party shall be reimbursed by the Organization for such costs incurred by the inspection team.

Approved equipment

27. Subject to paragraph 29, there shall be no restriction by the inspected State Party on the inspection team bringing onto the inspection site such equipment, approved in accordance with paragraph 28, which the Technical Secretariat has determined to be necessary to fulfil the inspection requirements. The Technical Secretariat shall prepare and, as appropriate, update a list of approved equipment, which may be needed for the purposes described above, and regulations governing such equipment which shall be in accordance with this Annex. In establishing the list of approved equipment and these regulations, the Technical Secretariat shall ensure that safety considerations for all the types of facilities at which such equipment is likely to be used, are taken fully into account. A list of approved equipment shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

28. The equipment shall be in the custody of the Technical Secretariat and be designated, calibrated and approved by the Technical Secretariat. The Technical Secretariat shall, to the extent possible, select that equipment which is specifically designed for the specific kind of inspection required. Designated and approved equipment shall be specifically protected against unauthorized alteration.

29. The inspected State Party shall have the right, without prejudice to the prescribed time-frames, to inspect the equipment in the presence of inspection team members at the point of entry, i.e., to check the identity of the equipment brought in or removed from the territory of the inspected State Party or the Host State. To facilitate such identification, the Technical Secretariat shall attach documents and devices to authenticate its designation and approval of the equipment. The inspection of the equipment shall also ascertain to the satisfaction of the inspected State Party that the equipment meets the description of the approved equipment for the particular type of inspection. The inspected State Party may exclude equipment not meeting that description or equipment without the above-

mentioned authentication documents and devices. Procedures for the inspection of equipment shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

30. In cases where the inspection team finds it necessary to use equipment available on site not belonging to the Technical Secretariat and requests the inspected State Party to enable the team to use such equipment, the inspected State Party shall comply with the request to the extent it can.

D. Pre-inspection activities

Notification

31. The Director-General shall notify the State Party before the planned arrival of the inspection team at the point of entry and within the prescribed time-frames, where specified, of its intention to carry out an inspection.

32. Notifications made by the Director-General shall include the following information:

- (a) The type of inspection;

Entry into the territory of the inspected State Party or Host State and transfer to the inspection site

35. The inspected State Party or Host State Party which has been notified of the arrival of an inspection team, shall ensure its immediate entry into the territory and shall through an in-country escort or by other means do everything in its power to ensure the safe conduct of the inspection team and its equipment and supplies, from its point of entry to the inspection site(s) and to a point of exit.

36. The inspected State Party or Host State Party shall, as necessary, assist the inspection team in reaching the inspection site not later than 12 hours after the arrival at the point of entry.

Pre-inspection briefing

37. Upon arrival at the inspection site and before the commencement of the inspection, the inspection team shall be briefed by facility representatives, with the aid of maps and other documentation as appropriate, on the facility, the activities carried out there, safety measures and administrative and logistic arrangements necessary for the inspection. The time spent for the briefing shall be limited to the minimum necessary and in any event not exceed three hours.

E. Conduct of inspections

40. The activities of the inspection team shall be so arranged as to ensure the timely and effective discharge of its functions and the least possible inconvenience to the inspected State Party or Host State and disturbance to the facility or area inspected. The inspection team shall avoid unnecessarily hampering or delaying the operation of a facility and avoid affecting its safety. In particular, the inspection team shall not operate any facility. If inspectors consider that, to fulfil their mandate, particular operations should be carried out in a facility, they shall request the designated representative of the inspected facility to have them performed. The representative shall carry out the request to the extent possible.

41. In the performance of their duties on the territory of an inspected State Party or Host State, the members of the inspection team shall, if the inspected State Party so requests, be accompanied by representatives of the inspected State Party, but the inspection team must not thereby be delayed or otherwise hindered in the exercise of its functions.

42. Detailed procedures for the conduct of inspections shall be developed for inclusion in the inspection manual by the Technical Secretariat, taking into account guidelines to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

Safety

43. In carrying out their activities, inspectors and inspection assistants shall observe safety regulations established at the inspection site, including those for the protection of controlled environments within a facility and for personal safety. In order to implement these requirements, appropriate detailed procedures shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

Communications

44. Inspectors shall have the right throughout the in-country period to communicate with the Headquarters of the Technical Secretariat. For this purpose they may use their own, duly certified, approved equipment and may request that the inspected State Party or Host State Party provide them with access to other telecommunications. The inspection team shall have the right to use its own two-way system of radio communications between personnel patrolling the perimeter and other members of the inspection team.

Inspection team and inspected State Party rights

45. The inspection team shall, in accordance with the relevant Articles and Annexes of this Convention as well as with facility agreements and procedures set forth in the inspection manual, have the right to unimpeded access to the inspection site. The items to be inspected will be chosen by the inspectors.

46. Inspectors shall have the right to interview any facility personnel in the presence of representatives of the inspected State Party with the purpose of establishing relevant facts. Inspectors shall only request information and data which are necessary for the conduct of the inspection, and the inspected State Party shall furnish such information upon request. The inspected State Party shall have the right to object to questions posed to the facility personnel if those questions are deemed not relevant to the inspection. If the head of the inspection team objects and states their relevance, the questions shall be provided in writing to the inspected State Party for reply. The inspection team may note any refusal to permit interviews or to allow questions to be answered and any explanations given, in that part of the inspection report that deals with the cooperation of the inspected State Party.

47. Inspectors shall have the right to inspect documentation and records they deem relevant to the conduct of their mission.

48. Inspectors shall have the right to have photographs taken at their request by representatives of the inspected State Party or of the inspected facility. The capability to take instant development photographic prints shall be available. The inspection team shall determine whether photographs conform to those requested and, if not, repeat photographs shall be taken. The inspection team and the inspected State Party shall each retain one copy of every photograph.

49. The representatives of the inspected State Party shall have the right to observe all verification activities carried out by the inspection team.

50. The inspected State Party shall receive copies, at its request, of the information and data gathered about its facility(ies) by the Technical Secretariat.

51. Inspectors shall have the right to request clarifications in connection with ambiguities that arise during an inspection. Such requests shall be made promptly through the representative of the inspected State Party. The representative of the inspected State Party shall provide the inspection team, during the inspection, with such clarification as may be necessary to remove the ambiguity. If questions relating to an object or a building located within the inspection site are not resolved, the object or building shall, if requested, be photographed for the purpose of clarifying its nature and function. If the ambiguity cannot be removed during the inspection, the inspectors shall notify the Technical Secretariat immediately. The inspectors shall include in the inspection report any such unresolved question, relevant clarifications, and a copy of any photographs taken.

Collection, handling and analysis of samples

52. Representatives of the inspected State Party or of the inspected facility shall take samples at the request of the inspection team in the presence of inspectors. If so agreed in advance with the representatives of the inspected State Party or of the inspected facility, the inspection team may take samples itself.

53. Where possible, the analysis of samples shall be performed on-site. The inspection team shall have the right to perform on-site analysis of samples using approved equipment brought by it. At the request of the inspection team, the inspected State Party shall, in accordance with agreed procedures, provide assistance for the analysis of samples on-site. Alternatively, the inspection team may request that appropriate analysis on-site be performed in its presence.

54. The inspected State Party has the right to retain portions of all samples taken or take duplicate samples and be present when samples are analysed on-site.

55. The inspection team shall, if it deems it necessary, transfer samples for analysis off-site at laboratories designated by the Organization.

56. The Director-General shall have the primary responsibility for the security, integrity and preservation of samples and for ensuring that the confidentiality of samples transferred for analysis off-site is protected. The Director-General shall do so in accordance with procedures, to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i), for inclusion in the inspection manual. He shall:

- (a) Establish a stringent regime governing the collection, handling, transport and analysis of samples;
- (b) Certify the laboratories designated to perform different types of analysis;
- (c) Oversee the standardization of equipment and procedures at these designated laboratories, mobile analytical equipment and procedures, and monitor quality control and overall standards in relation to the certification of these laboratories, mobile equipment and procedures; and
- (d) Select from among the designated laboratories those which shall perform analytical or other functions in relation to specific investigations.

57. When off-site analysis is to be performed, samples shall be analysed in at least two designated laboratories. The Technical Secretariat shall ensure the expeditious processing of the analysis. The samples shall be accounted for by the Technical Secretariat and any unused samples or portions thereof shall be returned to the Technical Secretariat.

58. The Technical Secretariat shall compile the results of the laboratory analysis of samples relevant to compliance with this Convention and include them in the final inspection report. The Technical Secretariat shall include in the report detailed information concerning the equipment and methodology employed by the designated laboratories.

Extension of inspection duration

59. Periods of inspection may be extended by agreement with the representative of the inspected State Party.

Debriefing

60. Upon completion of an inspection the inspection team shall meet with representatives of the inspected State Party and the personnel responsible for the inspection site to review the preliminary findings of the inspection team and to clarify any ambiguities. The inspection team shall provide to the representatives of the inspected State Party its preliminary findings in written form according to a standardized format, together with a list of any samples and copies of written information and data gathered and other material to be taken off-site. The document shall be signed by the head of the inspection team. In order to indicate that he has taken notice of the contents of the document, the representative of the inspected State Party shall countersign the document. This meeting shall be completed not later than 24 hours after the completion of the inspection.

F. Departure

61. Upon completion of the post-inspection procedures, the inspection team shall leave, as soon as possible, the territory of the inspected State Party or the Host State.

G. Reports

62. Not later than 10 days after the inspection, the inspectors shall prepare a factual, final report on the activities conducted by them and on their findings. It shall only contain facts relevant to compliance with this Convention, as provided for under the inspection mandate. The report shall also provide information as to the manner in which the State Party inspected cooperated with the inspection team. Differing observations made by inspectors may be attached to the report. The report shall be kept confidential.

63. The final report shall immediately be submitted to the inspected State Party. Any written comments, which the inspected State Party may immediately make on its findings shall be annexed to it. The final report together with annexed comments made by the inspected State Party shall be submitted to the Director-General not later than 30 days after the inspection.

64. Should the report contain uncertainties, or should cooperation between the National Authority and the inspectors not measure up to the standards required, the Director-General shall approach the State Party for clarification.

65. If the uncertainties cannot be removed or the facts established are of a nature to suggest that obligations undertaken under this Convention have not been met, the Director-General shall inform the Executive Council without delay.

H. Application of general provisions

66. The provisions of this Part shall apply to all inspections conducted pursuant to this Convention, except where the provisions of this Part differ from the provisions set forth for specific types of inspections in Parts III to XI of this Annex, in which case the latter provisions shall take precedence.

A. Initial inspections and facility agreements

1. Each declared facility subject to on-site inspection pursuant to Articles IV, V, and VI, paragraph 3, shall receive an initial inspection promptly after the facility is declared. The purpose of this

inspection of the facility shall be to verify information provided and to obtain any additional information needed for planning future verification activities at the facility, including on-site inspections and continuous monitoring with on-site instruments, and to work on the facility agreements.

2. States Parties shall ensure that the verification of declarations and the initiation of the systematic verification measures can be accomplished by the Technical Secretariat at all facilities within the established time-frames after this Convention enters into force for them.

3. Each State Party shall conclude a facility agreement with the Organization for each facility declared and subject to on-site inspection pursuant to Articles IV, V, and VI, paragraph 3.

4. Facility agreements shall be completed not later than 180 days after this Convention enters into force for the State Party or after the facility has been declared for the first time, except for a chemical weapons destruction facility to which paragraphs 5 to 7 shall apply.

5. In the case of a chemical weapons destruction facility that begins operations more than one year after this Convention enters into force for the State Party, the facility agreement shall be completed not less than 180 days before the facility begins operation.

6. In the case of a chemical weapons destruction facility that is in operation when this Convention enters into force for the State Party, or begins operation not later than one year thereafter, the facility agreement shall be completed not later than 210 days after this Convention enters into force for the State Party, except that the Executive Council may decide that transitional verification arrangements, approved in accordance with Part IV (A), paragraph 51, of this Annex and including a transitional facility agreement, provisions for verification through on-site inspection and monitoring with on-site instruments, and the time-frame for application of the arrangements, are sufficient.

7. In the case of a facility, referred to in paragraph 6, that will cease operations not later than two years after this Convention enters into force for the State Party, the Executive Council may decide that transitional verification arrangements, approved in accordance with Part IV (A), paragraph 51, of this Annex and including a transitional facility agreement, provisions for verification through on-site inspection and monitoring with on-site instruments, and the time-frame for application of the arrangements, are sufficient.

8. Facility agreements shall be based on models for such agreements and provide for detailed arrangements which shall govern inspections at each facility. The model agreements shall include provisions to take into account future technological developments and shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

9. The Technical Secretariat may retain at each site a sealed container for photographs, plans and other information that it may wish to refer to in the course of subsequent inspections.

B. Standing arrangements

10. Where applicable, the Technical Secretariat shall have the right to have continuous monitoring instruments and systems and seals installed and to use them, in conformity with the relevant provisions in this Convention and the facility agreements between States Parties and the Organization.

11. The inspected State Party shall, in accordance with agreed procedures, have the right to inspect any instrument used or installed by the inspection team and to have it tested in the presence of representatives of the inspected State Party. The inspection team shall have the right to use the instruments that were installed by the inspected State Party for its own monitoring of the technological process of the destruction of chemical weapons. To this end, the inspection team shall have the right to inspect those instruments that it intends to use for purposes of verification of the destruction of chemical weapons and to have them tested in its presence.

12. The inspected State Party shall provide the necessary preparation and support for the establishment of continuous monitoring instruments and systems.

13. In order to implement paragraphs 11 and 12, appropriate detailed procedures shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

14. The inspected State Party shall immediately notify the Technical Secretariat if an event occurs or may occur at a facility where monitoring instruments are installed, which may have an impact on the monitoring system. The inspected State Party shall coordinate subsequent actions with the Technical Secretariat with a view to restoring the operation of the monitoring system and establishing interim measures, if necessary, as soon as possible.

15. The inspection team shall verify during each inspection that the monitoring system functions correctly and that emplaced seals have not been tampered with. In addition, visits to service the monitoring system may be required to perform any necessary maintenance or replacement of equipment, or to adjust the coverage of the monitoring system as required.

16. If the monitoring system indicates any anomaly, the Technical Secretariat shall immediately take action to determine whether this resulted from equipment malfunction or activities at the facility. If, after this examination, the problem remains unresolved, the Technical Secretariat shall immediately ascertain the actual situation, including through immediate on-site inspection of, or visit to, the facility if necessary. The Technical Secretariat shall report any such problem immediately after its detection to the inspected State Party which shall assist in its resolution.

C. Pre-inspection activities

17. The inspected State Party shall, except as specified in paragraph 18, be notified of inspections not less than 24 hours in advance of the planned arrival of the inspection team at the point of entry.

18. The inspected State Party shall be notified of initial inspections not less than 72 hours in advance of the estimated time of arrival of the inspection team at the point of entry.

Declarations of chemical weapons pursuant to Article III, paragraph 1 (a) (iii)

4. The declaration of chemical weapons pursuant to Article III, paragraph 1 (a) (iii), shall contain all information specified in paragraphs 1 to 3 above. It is the responsibility of the State

Party on whose territory the chemical weapons are located to make appropriate arrangements with the other State to ensure that the declarations are made. If the State Party on whose territory the chemical weapons are located is not able to fulfil its obligations under this paragraph, it shall state the reasons therefor.

Declarations of past transfers and receipts

5. A State Party that has transferred or received chemical weapons since 1 January 1946 shall declare these transfers or receipts pursuant to Article III, paragraph 1 (a) (iv), provided the amount transferred or received exceeded 1 tonne per chemical per year in bulk and/or munition form. This declaration shall be made according to the inventory format specified in paragraphs 1 and 2. This declaration shall also indicate the supplier and recipient countries, the dates of the transfers or receipts and, as precisely as possible, the current location of the transferred items. When not all the specified information is available for transfers or receipts of chemical weapons for the period between 1 January 1946 and 1 January 1970, the State Party shall declare whatever information is still available to it and provide an explanation as to why it cannot submit a full declaration.

Submission of the general plan for destruction of chemical weapons

6. The general plan for destruction of chemical weapons submitted pursuant to Article III, paragraph 1 (a) (v), shall provide an overview of the entire national chemical weapons destruction programme of the State Party and information on the efforts of the State Party to fulfil the destruction requirements contained in this Convention. The plan shall specify:

(a) A general schedule for destruction, giving types and approximate quantities of chemical weapons planned to be destroyed in each annual destruction period for each existing chemical weapons destruction facility and, if possible, for each planned chemical weapons destruction facility;

(b) The number of chemical weapons destruction facilities existing or planned to be operated over the destruction period;

(c) For each existing or planned chemical weapons destruction facility:

(i) Name and location; and

(ii) The types and approximate quantities of chemical weapons, and the type (for example, nerve agent or blister agent) and approximate quantity of chemical fill, to be destroyed;

(e) The national standards for safety and emissions that the destruction facilities must satisfy;

(f) Information on the development of new methods for destruction of chemical weapons and on the improvement of existing methods;

(g) The cost estimates for destroying the chemical weapons; and

(h) Any issues which could adversely impact on the national destruction programme.

B. Measures to secure the storage facility and storage facility preparation

7. Not later than when submitting its declaration of chemical weapons, a State Party shall take such measures as it considers appropriate to secure its storage facilities and shall prevent any movement of its chemical weapons out of the facilities, except their removal for destruction.

8. A State Party shall ensure that chemical weapons at its storage facilities are configured to allow ready access for verification in accordance with paragraphs 37 to 49.

9. While a storage facility remains closed for any movement of chemical weapons out of the facility other than their removal for destruction, a State Party may continue at the facility standard maintenance activities, including standard maintenance of chemical weapons; safety monitoring and physical security activities; and preparation of chemical weapons for destruction.

10. Maintenance activities of chemical weapons shall not include:

- (a) Replacement of agent or of munition bodies;
 - (b) Modification of the original characteristics of munitions, or parts or components thereof.
11. All maintenance activities shall be subject to monitoring by the Technical Secretariat.

C. Destruction

Principles and methods for destruction of chemical weapons

12. "Destruction of chemical weapons" means a process by which chemicals are converted in an essentially irreversible way to a form unsuitable for production of chemical weapons, and which in an irreversible manner renders munitions and other devices unusable as such.

13. Each State Party shall determine how it shall destroy chemical weapons, except that the following processes may not be used: dumping in any body of water, land burial or open-pit burning. It shall destroy chemical weapons only at specifically designated and appropriately designed and equipped facilities.

14. Each State Party shall ensure that its chemical weapons destruction facilities are constructed and operated in a manner to ensure the destruction of the chemical weapons; and that the destruction process can be verified under the provisions of this Convention.

Order of destruction

15. The order of destruction of chemical weapons is based on the obligations specified in Article I and the other Articles, including obligations regarding systematic on-site verification. It takes into account interests of States Parties for undiminished security during the destruction period; confidence-building in the early part of the destruction stage; gradual acquisition of experience in the course of destroying chemical weapons; and applicability irrespective of the actual composition of the stockpiles and the methods chosen for the destruction of the chemical weapons. The order of destruction is based on the principle of levelling out.

16. For the purpose of destruction, chemical weapons declared by each State Party shall be divided into three categories:

- Category 1: Chemical weapons on the basis of Schedule 1 chemicals and their parts and components;
- Category 2: Chemical weapons on the basis of all other chemicals and their parts and components;
- Category 3: Unfilled munitions and devices, and equipment specifically designed for use directly in connection with employment of chemical weapons.

17. A State Party shall start:

(a) The destruction of Category 1 chemical weapons not later than two years after this Convention enters into force for it, and shall complete the destruction not later than 10 years after entry into force of this Convention. A State Party shall destroy chemical weapons in accordance with the following destruction deadlines:

- (i) Phase 1: Not later than two years after entry into force of this Convention, testing of its first destruction facility shall be completed. Not less than 1 per cent of the Category 1 chemical weapons shall be destroyed not later than three years after the entry into force of this Convention;
- (ii) Phase 2: Not less than 20 per cent of the Category 1 chemical weapons shall be destroyed not later than five years after the entry into force of this Convention;
- (iii) Phase 3: Not less than 45 per cent of the Category 1 chemical weapons shall be destroyed not later than seven years after the entry into force of this Convention;
- (iv) Phase 4: All Category 1 chemical weapons shall be destroyed not later than 10 years after the entry into force of this Convention.

(b) The destruction of Category 2 chemical weapons not later than one year after this Convention enters into force for it and shall complete the destruction not later than five years after the entry into force of this Convention. Category 2 chemical weapons shall be destroyed in equal annual increments throughout the destruction period. The comparison factor for such weapons is the weight of the chemicals within Category 2; and

(c) The destruction of Category 3 chemical weapons not later than one year after this Convention enters into force for it, and shall complete the destruction not later than five years after the entry into force of this Convention. Category 3 chemical weapons shall be destroyed in equal annual increments throughout the destruction period. The comparison factor for unfilled munitions and devices is expressed in nominal fill volume (m³) and for equipment in number of items.

18. For the destruction of binary chemical weapons the following shall apply:

(a) For the purposes of the order of destruction, a declared quantity (in tonnes) of the key component intended for a specific toxic end-product shall be considered equivalent to the quantity (in tonnes) of this toxic end-product calculated on a stoichiometric basis assuming 100 per cent yield.

(b) A requirement to destroy a given quantity of the key component shall entail a requirement to destroy a corresponding quantity of the other component, calculated from the actual weight ratio of the components in the relevant type of binary chemical munition/device.

(c) If more of the other component is declared than is needed, based on the actual weight ratio between components, the excess shall be destroyed over the first two years after destruction operations begin.

(d) At the end of each subsequent operational year a State Party may retain an amount of the other declared component that is determined on the basis of the actual weight ratio of the components in the relevant type of binary chemical munition/device.

19. For multicomponent chemical weapons the order of destruction shall be analogous to that envisaged for binary chemical weapons.

Modification of intermediate destruction deadlines

20. The Executive Council shall review the general plans for destruction of chemical weapons, submitted pursuant to Article III, paragraph 1 (a) (v), and in accordance with paragraph 6, *inter alia*, to assess their conformity with the order of destruction set forth in paragraphs 15 to 19. The Executive Council shall consult with any State Party whose plan does not conform, with the objective of bringing the plan into conformity.

21. If a State Party, due to exceptional circumstances beyond its control, believes that it cannot achieve the level of destruction specified for Phase 1, Phase 2 or Phase 3 of the order of destruction of Category 1 chemical weapons, it may propose changes in those levels. Such a proposal must be made not later than 120 days after the entry into force of this Convention and shall contain a detailed explanation of the reasons for the proposal.

22. Each State Party shall take all necessary measures to ensure destruction of Category 1 chemical weapons in accordance with the destruction deadlines set forth in paragraph 17 (a) as changed pursuant to paragraph 21. However, if a State Party believes that it will be unable to ensure the destruction of the percentage of Category 1 chemical weapons required by an intermediate destruction deadline, it may request the Executive Council to recommend to the Conference to grant an extension of its obligation to meet that deadline. Such a request must be made not less than 180 days before the intermediate destruction deadline and shall contain a detailed explanation of the reasons for the request and the plans of the State Party for ensuring that it will be able to fulfil its obligation to meet the next intermediate destruction deadline.

23. If an extension is granted, the State Party shall still be under the obligation to meet the cumulative destruction requirements set forth for the next destruction deadline. Extensions granted pursuant to this Section shall not, in any way, modify the obligation of the State Party to destroy all Category 1 chemical weapons not later than 10 years after the entry into force of this Convention.

Extension of the deadline for completion of destruction

24. If a State Party believes that it will be unable to ensure the destruction of all Category 1 chemical weapons not later than 10 years after the entry into force of this Convention, it may submit a request to the Executive Council for an extension of the deadline for completing the destruction of such chemical weapons. Such a request must be made not later than nine years after the entry into force of this Convention.

25. The request shall contain:

- (a) The duration of the proposed extension;
- (b) A detailed explanation of the reasons for the proposed extension; and
- (c) A detailed plan for destruction during the proposed extension and the remaining portion of the original 10-year period for destruction.

26. A decision on the request shall be taken by the Conference at its next session, on the recommendation of the Executive Council. Any extension shall be the minimum necessary, but in no case shall the deadline for a State Party to complete its destruction of all chemical weapons be extended beyond 15 years after the entry into force of this Convention. The Executive Council shall set conditions for the granting of the extension, including the specific verification measures deemed necessary as well as specific actions to be taken by the State Party to overcome problems in its destruction programme. Costs of verification during the extension period shall be allocated in accordance with Article IV, paragraph 16.

27. If an extension is granted, the State Party shall take appropriate measures to meet all subsequent deadlines.

28. The State Party shall continue to submit detailed annual plans for destruction in accordance with paragraph 29 and annual reports on the destruction of Category 1 chemical weapons in accordance with paragraph 36, until all Category 1 chemical weapons are destroyed. In addition, not later than at the end of each 90 days of the extension period, the State Party shall report to the Executive Council on its destruction activity. The Executive Council shall review progress towards completion of destruction and take the necessary measures to document this progress. All information concerning the destruction activities during the extension period shall be provided by the Executive Council to States Parties, upon request.

Detailed annual plans for destruction

29. The detailed annual plans for destruction shall be submitted to the Technical Secretariat not less than 60 days before each annual destruction period begins pursuant to Article IV, paragraph 7 (a), and shall specify:

- (a) The quantity of each specific type of chemical weapon to be destroyed at each destruction facility and the inclusive dates when the destruction of each specific type of chemical weapon will be accomplished;
- (b) The detailed site diagram for each chemical weapons destruction facility and any changes to previously submitted diagrams; and
- (c) The detailed schedule of activities for each chemical weapons destruction facility for the upcoming year, identifying time required for design, construction or modification of the facility, installation of equipment, equipment check-out and operator training, destruction operations for each specific type of chemical weapon, and scheduled periods of inactivity.

30. A State Party shall provide, for each of its chemical weapons destruction facilities, detailed facility information to assist the Technical Secretariat in developing preliminary inspection procedures for use at the facility.

31. The detailed facility information for each destruction facility shall include the following information:

- (a) Name, address and location;

- (b) Detailed, annotated facility drawings;
- (c) Facility design drawings, process drawings, and piping and instrumentation design drawings;

- (e) Detailed technical descriptions of the destruction process, including material flow rates, temperatures and pressures, and designed destruction efficiency;
- (f) Design capacity for each specific type of chemical weapon;
- (g) A detailed description of the products of destruction and the method of their ultimate disposal;
- (h) A detailed technical description of measures to facilitate inspections in accordance with this Convention;
- (i) A detailed description of any temporary holding area at the destruction facility that will be used to provide chemical weapons directly to the destruction facility, including site and facility drawings and information on the storage capacity for each specific type of chemical weapon to be destroyed at the facility;
- (j) A detailed description of the safety and medical measures in force at the facility;
- (k) A detailed description of the living quarters and working premises for the inspectors; and
- (l) Suggested measures for international verification.

32. A State Party shall provide, for each of its chemical weapons destruction facilities, the plant operations manuals, the safety and medical plans, the laboratory operations and quality assurance and control manuals, and the environmental permits that have been obtained, except that this shall not include material previously provided.

33. A State Party shall promptly notify the Technical Secretariat of any developments that could affect inspection activities at its destruction facilities.

34. Deadlines for submission of the information specified in paragraphs 30 to 32 shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

35. After a review of the detailed facility information for each destruction facility, the Technical Secretariat, if the need arises, shall enter into consultation with the State Party concerned in order to ensure that its chemical weapons destruction facilities are designed to assure the destruction of chemical weapons, to allow advanced planning on how verification measures may be applied and to ensure that the application of verification measures is consistent with proper facility operation, and that the facility operation allows appropriate verification.

Annual reports on destruction

36. Information regarding the implementation of plans for destruction of chemical weapons shall be submitted to the Technical Secretariat pursuant to Article IV, paragraph 7 (b), not later than 60 days after the end of each annual destruction period and shall specify the actual amounts of chemical weapons which were destroyed during the previous year at each destruction facility. If appropriate, reasons for not meeting destruction goals should be stated.

D. Verification

Verification of declarations of chemical weapons through on-site inspection

37. The purpose of the verification of declarations of chemical weapons shall be to confirm through on-site inspection the accuracy of the relevant declarations made pursuant to Article III.

38. The inspectors shall conduct this verification promptly after a declaration is submitted. They shall, *inter alia*, verify the quantity and identity of chemicals, types and number of munitions, devices and other equipment.

39. The inspectors shall employ, as appropriate, agreed seals, markers or other inventory control procedures to facilitate an accurate inventory of the chemical weapons at each storage facility.

40. As the inventory progresses, inspectors shall install such agreed seals as may be necessary to clearly indicate if any stocks are removed, and to ensure the securing of the storage facility during the inventory. After completion of the inventory, such seals will be removed unless otherwise agreed.

Systematic verification of storage facilities

41. The purpose of the systematic verification of storage facilities shall be to ensure that no undetected removal of chemical weapons from such facilities takes place.

42. The systematic verification shall be initiated as soon as possible after the declaration of chemical weapons is submitted and shall continue until all chemical weapons have been removed from the storage facility. It shall in accordance with the facility agreement, combine on-site inspection and monitoring with on-site instruments.

43. When all chemical weapons have been removed from the storage facility, the Technical Secretariat shall confirm the declaration of the State Party to that effect. After this confirmation, the Technical Secretariat shall terminate the systematic verification of the storage facility and shall promptly remove any monitoring instruments installed by the inspectors.

Inspections and visits

44. The particular storage facility to be inspected shall be chosen by the Technical Secretariat in such a way as to preclude the prediction of precisely when the facility is to be inspected. The guidelines for determining the frequency of systematic on-site inspections shall be elaborated by the Technical Secretariat, taking into account the recommendations to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

45. The Technical Secretariat shall notify the inspected State Party of its decision to inspect or visit the storage facility 48 hours before the planned arrival of the inspection team at the facility for systematic inspections or visits. In cases of inspections or visits to resolve urgent problems, this period may be shortened. The Technical Secretariat shall specify the purpose of the inspection or visit.

46. The inspected State Party shall make any necessary preparations for the arrival of the inspectors and shall ensure their expeditious transportation from their point of entry to the storage facility. The facility agreement will specify administrative arrangements for inspectors.

47. The inspected State Party shall provide the inspection team upon its arrival at the chemical weapons storage facility to carry out an inspection, with the following data on the facility:

- (a) The number of storage buildings and storage locations;
- (b) For each storage building and storage location, the type and the identification number or designation, shown on the site diagram; and
- (c) For each storage building and storage location at the facility, the number of items of each specific type of chemical weapon, and, for containers that are not part of binary munitions, the actual quantity of chemical fill in each container.

48. In carrying out an inventory, within the time available, inspectors shall have the right:

- (a) To use any of the following inspection techniques:
 - (i) inventory all the chemical weapons stored at the facility;
 - (ii) inventory all the chemical weapons stored in specific buildings or locations at the facility, as chosen by the inspectors; or

- (iii) inventory all the chemical weapons of one or more specific types stored at the facility, as chosen by the inspectors; and
- (b) To check all items inventoried against agreed records.

49. Inspectors shall, in accordance with facility agreements:

(a) Have unimpeded access to all parts of the storage facilities including any munitions, devices, bulk containers, or other containers therein. While conducting their activity, inspectors shall comply with the safety regulations at the facility. The items to be inspected will be chosen by the inspectors; and

(b) Have the right, during the first and any subsequent inspection of each chemical weapons storage facility, to designate munitions, devices, and containers from which samples are to be taken, and to affix to such munitions, devices, and containers a unique tag that will indicate an attempt to remove or alter the tag. A sample shall be taken from a tagged item at a chemical weapons storage facility or a chemical weapons destruction facility as soon as it is practically possible in accordance with the corresponding destruction programmes, and, in any case, not later than by the end of the destruction operations.

Systematic verification of the destruction of chemical weapons

50. The purpose of verification of destruction of chemical weapons shall be:

- (a) To confirm the identity and quantity of the chemical weapons stocks to be destroyed; and
- (b) To confirm that these stocks have been destroyed.

51. Chemical weapons destruction operations during the first 390 days after the entry into force of this Convention shall be governed by transitional verification arrangements. Such arrangements, including a transitional facility agreement, provisions for verification through on-site inspection and monitoring with on-site instruments, and the time-frame for application of the arrangements, shall be agreed between the Organization and the inspected State Party. These arrangements shall be approved by the Executive Council not later than 60 days after this Convention enters into force for the State Party, taking into account the recommendations of the Technical Secretariat, which shall be based on an evaluation of the detailed facility information provided in accordance with paragraph 31 and a visit to the facility. The Executive Council shall, at its first session, establish the guidelines for such transitional verification arrangements, based on recommendations to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i). The transitional verification arrangements shall be designed to verify, throughout the entire transitional period, the destruction of chemical weapons in accordance with the purposes set forth in paragraph 50, and to avoid hampering ongoing destruction operations.

52. The provisions of paragraphs 53 to 61 shall apply to chemical weapons destruction operations that are to begin not earlier than 390 days after the entry into force of this Convention.

53. On the basis of this Convention and the detailed destruction facility information, and as the case may be, on experience from previous inspections, the Technical Secretariat shall prepare a draft plan for inspecting the destruction of chemical weapons at each destruction facility. The plan shall be completed and provided to the inspected State Party for comment not less than 270 days before the facility begins destruction operations pursuant to this Convention. Any differences between the Technical Secretariat and the inspected State Party should be resolved through consultations. Any unresolved matter shall be forwarded to the Executive Council for appropriate action with a view to facilitating the full implementation of this Convention.

54. The Technical Secretariat shall conduct an initial visit to each chemical weapons destruction facility of the inspected State Party not less than 240 days before each facility begins destruction operations pursuant to this Convention, to allow it to familiarize itself with the facility and assess the adequacy of the inspection plan.

55. In the case of an existing facility where chemical weapons destruction operations have already been initiated, the inspected State Party shall not be required to decontaminate the facility before the Technical Secretariat conducts an initial visit. The duration of the visit shall not exceed five days and the number of visiting personnel shall not exceed 15.

56. The agreed detailed plans for verification, with an appropriate recommendation by the Technical Secretariat, shall be forwarded to the Executive Council for review. The Executive Council shall review the plans with a view to approving them, consistent with verification objectives and obligations under this Convention. It should also confirm that verification schemes for destruction are consistent with verification aims and are efficient and practical. This review should be completed not less than 180 days before the destruction period begins.

57. Each member of the Executive Council may consult with the Technical Secretariat on any issues regarding the adequacy of the plan for verification. If there are no objections by any member of the Executive Council, the plan shall be put into action.

58. If there are any difficulties, the Executive Council shall enter into consultations with the State Party to reconcile them. If any difficulties remain unresolved they shall be referred to the Conference.

59. The detailed facility agreements for chemical weapons destruction facilities shall specify, taking into account the specific characteristics of the destruction facility and its mode of operation:

- (a) Detailed on-site inspection procedures; and
- (b) Provisions for verification through continuous monitoring with on-site instruments and physical presence of inspectors.

60. Inspectors shall be granted access to each chemical weapons destruction facility not less than 60 days before the commencement of the destruction, pursuant to this Convention, at the facility. Such access shall be for the purpose of supervising the installation of the inspection equipment, inspecting this equipment and testing its operation, as well as for the purpose of carrying out a final engineering review of the facility. In the case of an existing facility where chemical weapons destruction operations have already been initiated, destruction operations shall be stopped for the minimum amount of time required, not to exceed 60 days, for installation and testing of the inspection equipment. Depending on the results of the testing and review, the State Party and the Technical Secretariat may agree on additions or changes to the detailed facility agreement for the facility.

61. The inspected State Party shall notify, in writing, the inspection team leader at a chemical weapons destruction facility not less than four hours before the departure of each shipment of chemical weapons from a chemical weapons storage facility to that destruction facility. This notification shall specify the name of the storage facility, the estimated times of departure and arrival, the specific types and quantities of chemical weapons being transported, whether any tagged items are being moved, and the method of transportation. This notification may include notification of more than one shipment. The inspection team leader shall be promptly notified, in writing, of any changes in this information.

Chemical weapons storage facilities at chemical weapons destruction facilities

62. The inspectors shall verify the arrival of the chemical weapons at the destruction facility and the storing of these chemical weapons. The inspectors shall verify the inventory of each shipment, using agreed procedures consistent with facility safety regulations, prior to the destruction of the chemical weapons. They shall employ, as appropriate, agreed seals, markers or other inventory control procedures to facilitate an accurate inventory of the chemical weapons prior to destruction.

63. As soon and as long as chemical weapons are stored at chemical weapons storage facilities located at chemical weapons destruction facilities, these storage facilities shall be subject to systematic verification in conformity with the relevant facility agreements.

64. At the end of an active destruction phase, inspectors shall make an inventory of the chemical weapons, that have been removed from the storage facility, to be destroyed. They shall verify

the accuracy of the inventory of the chemical weapons remaining, employing inventory control procedures as referred to in paragraph 62.

Systematic on-site verification measures at chemical weapons destruction facilities

65. The inspectors shall be granted access to conduct their activities at the chemical weapons destruction facilities and the chemical weapons storage facilities located at such facilities during the entire active phase of destruction.

66. At each chemical weapons destruction facility, to provide assurance that no chemical weapons are diverted and that the destruction process has been completed, inspectors shall have the right to verify through their physical presence and monitoring with on-site instruments:

- (a) The receipt of chemical weapons at the facility;
- (b) The temporary holding area for chemical weapons and the specific type and quantity of chemical weapons stored in that area;
- (c) The specific type and quantity of chemical weapons being destroyed;
- (d) The process of destruction;
- (e) The end-product of destruction;
- (f) The mutilation of metal parts; and
- (g) The integrity of the destruction process and of the facility as a whole.

67. Inspectors shall have the right to tag, for sampling, munitions, devices, or containers located in the temporary holding areas at the chemical weapons destruction facilities.

68. To the extent that it meets inspection requirements, information from routine facility operations, with appropriate data authentication, shall be used for inspection purposes.

69. After the completion of each period of destruction, the Technical Secretariat shall confirm the declaration of the State Party, reporting the completion of destruction of the designated quantity of chemical weapons.

70. Inspectors shall, in accordance with facility agreements:

- (a) Have unimpeded access to all parts of the chemical weapons destruction facilities and the chemical weapons storage facilities located at such facilities, including any munitions, devices, bulk containers, or other containers, therein. The items to be inspected shall be chosen by the inspectors in accordance with the verification plan that has been agreed to by the inspected State Party and approved by the Executive Council;
- (b) Monitor the systematic on-site analysis of samples during the destruction process; and
- (c) Receive, if necessary, samples taken at their request from any devices, bulk containers and other containers at the destruction facility or the storage facility thereat.

B. Destruction

General principles for destruction of chemical weapons production facilities

11. Each State Party shall decide on methods to be applied for the destruction of chemical weapons production facilities, according to the principles laid down in Article V and in this Part.

Principles and methods for closure of a chemical weapons production facility

12. The purpose of the closure of a chemical weapons production facility is to render it inactive.

13. Agreed measures for closure shall be taken by a State Party with due regard to the specific characteristics of each facility. Such measures shall include, *inter alia*:

- (a) Prohibition of occupation of the specialized buildings and standard buildings of the facility except for agreed activities;
- (b) Disconnection of equipment directly related to the production of chemical weapons, including, *inter alia*, process control equipment and utilities;

17. All maintenance activities shall be subject to monitoring by the Technical Secretariat.

Principles and methods for temporary conversion of chemical weapons production facilities into chemical weapons destruction facilities

18. Measures pertaining to the temporary conversion of chemical weapons production facilities into chemical weapons destruction facilities shall ensure that the regime for the temporarily converted facilities is at least as stringent as the regime for chemical weapons production facilities that have not been converted.

19. Chemical weapons production facilities converted into chemical weapons destruction facilities before entry into force of this Convention shall be declared under the category of chemical weapons production facilities.

They shall be subject to an initial visit by inspectors, who shall confirm the correctness of the information about these facilities. Verification that the conversion of these facilities was performed in such a manner as to render them inoperable as chemical weapons production facilities shall also be required, and shall fall within the framework of measures provided for the facilities that are to be rendered inoperable not later than 90 days after entry into force of this Convention.

20. A State Party that intends to carry out a conversion of chemical weapons production facilities shall submit to the Technical Secretariat, not later than 30 days after this Convention enters into force for it, or not later than 30 days after a decision has been taken for temporary conversion, a general facility conversion plan, and subsequently shall submit annual plans.

21. Should a State Party have the need to convert to a chemical weapons destruction facility an additional chemical weapons production facility that had been closed after this Convention entered into force for it, it shall inform the Technical Secretariat thereof not less than 150 days before conversion. The Technical Secretariat, in conjunction with the State Party, shall make sure that the necessary measures are taken to render that facility, after its conversion, inoperable as a chemical weapons production facility.

22. A facility converted for the destruction of chemical weapons shall not be more fit for resuming chemical weapons production than a chemical weapons production facility which has been closed and is under maintenance. Its reactivation shall require no less time than that required for a chemical weapons production facility that has been closed and is under maintenance.

23. Converted chemical weapons production facilities shall be destroyed not later than 10 years after entry into force of this Convention.

24. Any measures for the conversion of any given chemical weapons production facility shall be facility-specific and shall depend upon its individual characteristics.

25. The set of measures carried out for the purpose of converting a chemical weapons production facility into a chemical weapons destruction facility shall not be less than that which is provided for the disabling of other chemical weapons production facilities to be carried out not later than 90 days after this Convention enters into force for the State Party.

Principles and methods related to destruction of a chemical weapons production facility

26. A State Party shall destroy equipment and buildings covered by the definition of a chemical weapons production facility as follows:

- (a) All specialized equipment and standard equipment shall be physically destroyed;
- (b) All specialized buildings and standard buildings shall be physically destroyed.

27. A State Party shall destroy facilities for producing unfilled chemical munitions and equipment for chemical weapons employment as follows:

(a) Facilities used exclusively for production of non-chemical parts for chemical munitions or equipment specifically designed for use directly in connection with chemical weapons employment, shall be declared and destroyed. The destruction process and its verification shall be conducted according to the provisions of Article V and this Part of this Annex that govern destruction of chemical weapons production facilities;

(b) All equipment designed or used exclusively for producing non-chemical parts for chemical munitions shall be physically destroyed. Such equipment, which includes specially designed moulds and metal-forming dies, may be brought to a special location for destruction;

(c) All buildings and standard equipment used for such production activities shall be destroyed or converted for purposes not prohibited under this Convention, with confirmation, as necessary, through consultations and inspections as provided for under Article IX;

(d) Activities for purposes not prohibited under this Convention may continue while destruction or conversion proceeds.

Order of destruction

28. The order of destruction of chemical weapons production facilities is based on the obligations specified in Article I and the other Articles of this Convention, including obligations regarding systematic on-site verification. It takes into account interests of States Parties for undiminished security during the destruction period; confidence-building in the early part of the destruction stage; gradual acquisition of experience in the course of destroying chemical weapons production facilities; and applicability irrespective of the actual characteristics of the facilities and the methods chosen for their destruction. The order of destruction is based on the principle of levelling out.

29. A State Party shall, for each destruction period, determine which chemical weapons production facilities are to be destroyed and carry out the destruction in such a way that not more than what is specified in paragraphs 30 and 31 remains at the end of each destruction period. A State Party is not precluded from destroying its facilities at a faster pace.

30. The following provisions shall apply to chemical weapons production facilities that produce Schedule 1 chemicals:

(a) A State Party shall start the destruction of such facilities not later than one year after this Convention enters into force for it, and shall complete it not later than 10 years after entry into force of this Convention. For a State which is a Party at the entry into force of this Convention, this overall period shall be divided into three separate destruction periods, namely, years 2-5, years 6-8, and years 9-10. For States which become a Party after entry into force of this Convention, the destruction periods shall be adapted, taking into account paragraphs 28 and 29;

(b) Production capacity shall be used as the comparison factor for such facilities. It shall be expressed in agent tonnes, taking into account the rules specified for binary chemical weapons;

(c) Appropriate agreed levels of production capacity shall be established for the end of the eighth year after entry into force of this Convention. Production capacity that exceeds the relevant level shall be destroyed in equal increments during the first two destruction periods;

(d) A requirement to destroy a given amount of capacity shall entail a requirement to destroy any other chemical weapons production facility that supplied the Schedule 1 facility or filled the Schedule 1 chemical produced there into munitions or devices;

(e) Chemical weapons production facilities that have been converted temporarily for destruction of chemical weapons shall continue to be subject to the obligation to destroy capacity according to the provisions of this paragraph.

31. A State Party shall start the destruction of chemical weapons production facilities not covered in paragraph 30 not later than one year after this Convention enters into force for it, and complete it not later than five years after entry into force of this Convention.

- (f) Specify the seals and inspection equipment potentially affected by the conversion, if applicable; and
- (g) Provide a schedule identifying: The time allocated to design, temporary conversion of the facility, installation of equipment, equipment check-out, destruction operations, and closure.

35. In relation to the destruction of a facility that was temporarily converted for destruction of chemical weapons, information shall be provided in accordance with paragraphs 32 and 33.

Review of detailed plans

36. On the basis of the detailed plan for destruction and proposed measures for verification submitted by the State Party, and on experience from previous inspections, the Technical Secretariat shall prepare a plan for verifying the destruction of the facility, consulting closely with the State Party. Any differences between the Technical Secretariat and the State Party concerning appropriate

measures should be resolved through consultations. Any unresolved matters shall be forwarded to the Executive Council for appropriate action with a view to facilitating the full implementation of this Convention.

37. To ensure that the provisions of Article V and this Part are fulfilled, the combined plans for destruction and verification shall be agreed upon between the Executive Council and the State Party. This agreement should be completed, not less than 60 days before the planned initiation of destruction.

38. Each member of the Executive Council may consult with the Technical Secretariat on any issues regarding the adequacy of the combined plan for destruction and verification. If there are no objections by any member of the Executive Council, the plan shall be put into action.

39. If there are any difficulties, the Executive Council shall enter into consultations with the State Party to reconcile them. If any difficulties remain unresolved they shall be referred to the Conference. The resolution of any differences over methods of destruction shall not delay the execution of other parts of the destruction plan that are acceptable.

40. If agreement is not reached with the Executive Council on aspects of verification, or if the approved verification plan cannot be put into action, verification of destruction shall proceed through continuous monitoring with on-site instruments and physical presence of inspectors.

41. Destruction and verification shall proceed according to the agreed plan. The verification shall not unduly interfere with the destruction process and shall be conducted through the presence of inspectors on-site to witness the destruction.

42. If required verification or destruction actions are not taken as planned, all States Parties shall be so informed.

C. Verification

Verification of declarations of chemical weapons production facilities through on-site inspection

43. The Technical Secretariat shall conduct an initial inspection of each chemical weapons production facility in the period between 90 and 120 days after this Convention enters into force for the State Party.

44. The purposes of the initial inspection shall be:

(a) To confirm that the production of chemical weapons has ceased and that the facility has been inactivated in accordance with this Convention;

(b) To permit the Technical Secretariat to familiarize itself with the measures that have been taken to cease production of chemical weapons at the facility;

(c) To permit the inspectors to install temporary seals;

(d) To permit the inspectors to confirm the inventory of buildings and specialized equipment;

(e) To obtain information necessary for planning inspection activities at the facility, including use of tamper-indicating seals and other agreed equipment, which shall be installed pursuant to the detailed facility agreement for the facility; and

(f) To conduct preliminary discussions regarding a detailed agreement on inspection procedures at the facility.

45. Inspectors shall employ, as appropriate, agreed seals, markers or other inventory control procedures to facilitate an accurate inventory of the declared items at each chemical weapons production facility.

46. Inspectors shall install such agreed devices as may be necessary to indicate if any resumption of production of chemical weapons occurs or if any declared item is removed. They shall take the necessary precaution not to hinder closure activities by the inspected State Party. Inspectors may return to maintain and verify the integrity of the devices.

47. If, on the basis of the initial inspection, the Director-General believes that additional measures are necessary to inactivate the facility in accordance with this Convention, the Director-General may request, not later than 135 days after this Convention enters into force for a State Party, that such measures be implemented by the inspected State Party not later than 180 days after this Convention enters into force for it. At its discretion, the inspected State Party may satisfy the request. If it does not satisfy the request, the inspected State Party and the Director-General shall consult to resolve the matter.

Systematic verification of chemical weapons production facilities and cessation of their activities

48. The purpose of the systematic verification of a chemical weapons production facility shall be to ensure that any resumption of production of chemical weapons or removal of declared items will be detected at this facility.

49. The detailed facility agreement for each chemical weapons production facility shall specify:

- (a) Detailed on-site inspection procedures, which may include:
 - (i) Visual examinations;
 - (ii) Checking and servicing of seals and other agreed devices; and
 - (iii) Obtaining and analysing samples;
- (b) Procedures for using tamper-indicating seals and other agreed equipment to prevent the undetected reactivation of the facility, which shall specify:
 - (i) The type, placement, and arrangements for installation; and
 - (ii) The maintenance of such seals and equipment; and
- (c) Other agreed measures.

50. The seals or other approved equipment provided for in a detailed agreement on inspection measures for that facility shall be placed not later than 240 days after this Convention enters into force for a State Party. Inspectors shall be permitted to visit each chemical weapons production facility for the installation of such seals or equipment.

51. During each calendar year, the Technical Secretariat shall be permitted to conduct up to four inspections of each chemical weapons production facility.

52. The Director-General shall notify the inspected State Party of his decision to inspect or visit a chemical weapons production facility 48 hours before the planned arrival of the inspection team at the facility for systematic inspections or visits. In the case of inspections or visits to resolve urgent problems, this period may be shortened. The Director-General shall specify the purpose of the inspection or visit.

53. Inspectors shall, in accordance with the facility agreements, have unimpeded access to all parts of the chemical weapons production facilities. The items on the declared inventory to be inspected shall be chosen by the inspectors.

54. The guidelines for determining the frequency of systematic on-site inspections shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i). The particular production facility to be inspected shall be chosen by the Technical Secretariat in such a way as to preclude the prediction of precisely when the facility is to be inspected.

Verification of destruction of chemical weapons production facilities

55. The purpose of systematic verification of the destruction of chemical weapons production facilities shall be to confirm that the facility is destroyed in accordance with the obligations under this Convention and that each item on the declared inventory is destroyed in accordance with the agreed detailed plan for destruction.

56. When all items on the declared inventory have been destroyed, the Technical Secretariat shall confirm the declaration of the State Party to that effect. After this confirmation, the Technical

Secretariat shall terminate the systematic verification of the chemical weapons production facility and shall promptly remove all devices and monitoring instruments installed by the inspectors.

57. After this confirmation, the State Party shall make the declaration that the facility has been destroyed.

Verification of temporary conversion of a chemical weapons production facility into a chemical weapons destruction facility

58. Not later than 90 days after receiving the initial notification of the intent to convert temporarily a production facility, the inspectors shall have the right to visit the facility to familiarize themselves with the proposed temporary conversion and to study possible inspection measures that will be required during the conversion.

59. Not later than 60 days after such a visit, the Technical Secretariat and the inspected State Party shall conclude a transition agreement containing additional inspection measures for the temporary conversion period. The transition agreement shall specify inspection procedures, including the use of seals, monitoring equipment, and inspections, that will provide confidence that no chemical weapons production takes place during the conversion process. This agreement shall remain in force from the beginning of the temporary conversion activity until the facility begins operation as a chemical weapons destruction facility.

60. The inspected State Party shall not remove or convert any portion of the facility, or remove or modify any seal or other agreed inspection equipment that may have been installed pursuant to this Convention until the transition agreement has been concluded.

61. Once the facility begins operation as a chemical weapons destruction facility, it shall be subject to the provisions of Part IV (A) of this Annex applicable to chemical weapons destruction facilities. Arrangements for the pre-operation period shall be governed by the transition agreement.

62. During destruction operations the inspectors shall have access to all portions of the temporarily converted chemical weapons production facilities, including those that are not directly involved with the destruction of chemical weapons.

63. Before the commencement of work at the facility to convert it temporarily for chemical weapons destruction purposes and after the facility has ceased to function as a facility for chemical weapons destruction, the facility shall be subject to the provisions of this Part applicable to chemical weapons production facilities.

D. Conversion of chemical weapons production facilities to purposes not prohibited under this Convention

Procedures for requesting conversion

Actions pending a decision

68. Pending a decision of the Conference, a State Party may continue to use for purposes not prohibited under this Convention a facility that was being used for such purposes before this Convention enters into force for it, but only if the State Party certifies in its request that no specialized equipment and no specialized buildings are being used and that the specialized equipment and specialized buildings have been rendered inactive using the methods specified in paragraph 13.

69. If the facility, for which the request was made, was not being used for purposes not prohibited under this Convention before this Convention enters into force for the State Party, or if the certification required in paragraph 68 is not made, the State Party shall cease immediately all activ-

ity pursuant to Article V, paragraph 4. The State Party shall close the facility in accordance with paragraph 13 not later than 90 days after this Convention enters into force for it.

Conditions for conversion

70. As a condition for conversion of a chemical weapons production facility for purposes not prohibited under this Convention, all specialized equipment at the facility must be destroyed and all special features of buildings and structures that distinguish them from buildings and structures normally used for purposes not prohibited under this Convention and not involving Schedule 1 chemicals must be eliminated.

71. A converted facility shall not be used:

(a) For any activity involving production, processing, or consumption of a Schedule 1 chemical or a Schedule 2 chemical; or

(b) For the production of any highly toxic chemical, including any highly toxic organophosphorus chemical, or for any other activity that would require special equipment for handling highly toxic or highly corrosive chemicals, unless the Executive Council decides that such production or activity would pose no risk to the object and purpose of this Convention, taking into account criteria for toxicity, corrosiveness and, if applicable, other technical factors, to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

72. Conversion of a chemical weapons production facility shall be completed not later than six years after entry into force of this Convention.

72bis. If a State ratifies or accedes to this Convention after the six-year period for conversion set forth in paragraph 72, the Executive Council shall, at its second subsequent regular session, set a deadline for submission of any request to convert a chemical weapons production facility for purposes not prohibited under this Convention. A decision by the Conference to approve such a request, pursuant to paragraph 75, shall establish the earliest practicable deadline for completion of the conversion. Conversion shall be completed as soon as possible, but in no case later than six years after this Convention enters into force for the State Party. Except as modified in this paragraph, all provisions in Section D of this Part of this Annex shall apply.

Decisions by the Executive Council and the Conference

73. Not later than 90 days after receipt of the request by the Director-General, an initial inspection of the facility shall be conducted by the Technical Secretariat. The purpose of this inspection shall be to determine the accuracy of the information provided in the request, to obtain information on the technical characteristics of the proposed converted facility, and to assess the conditions under which use for purposes not prohibited under this Convention may be permitted. The Director-General shall promptly submit a report to the Executive Council, the Conference, and all States Parties containing his recommendations on the measures necessary to convert the facility to purposes not prohibited under this Convention and to provide assurance that the converted facility will be used only for purposes not prohibited under this Convention.

74. If the facility has been used for purposes not prohibited under this Convention before this Convention enters into force for the State Party, and is continuing to be in operation, but the measures required to be certified under paragraph 68 have not been taken, the Director-General shall immediately inform the Executive Council, which may require implementation of measures it deems appropriate, *inter alia*, shut-down of the facility and removal of specialized equipment and modification of buildings or structures. The Executive Council shall stipulate the deadline for implementation of these measures and shall suspend consideration of the request pending their satisfactory completion. The facility shall be inspected promptly after the expiration of the deadline to determine whether the measures have been implemented. If not, the State Party shall be required to shut down completely all facility operations.

75. As soon as possible after receiving the report of the Director-General, the Conference, upon recommendation of the Executive Council, shall decide, taking into account the report and

any views expressed by States Parties, whether to approve the request, and shall establish the conditions upon which approval is contingent. If any State Party objects to approval of the request and the associated conditions, consultations shall be undertaken among interested States Parties for up to 90 days to seek a mutually acceptable solution. A decision on the request and associated conditions, along with any proposed modifications thereto, shall be taken, as a matter of substance, as soon as possible after the end of the consultation period.

76. If the request is approved, a facility agreement shall be completed not later than 90 days after such a decision is taken. The facility agreement shall contain the conditions under which the conversion and use of the facility is permitted, including measures for verification. Conversion shall not begin before the facility agreement is concluded.

Detailed plans for conversion

The inspectors shall also have the right, in accordance with provisions of Part II, Section E, of this Annex to receive samples from any area of the facility and to analyse them to verify the absence of Schedule 1 chemicals, their stable by-products and decomposition products and of Schedule 2 chemicals and to verify that the activities at the facility are consistent with any other conditions on chemical activities established under this Section, by the Executive Council and the Conference. The inspectors shall also have the right to managed access, in accordance with Part X, Section C, of this Annex, to the plant site at which the facility is located. During the 10-year period, the State Party shall report annually on the activities at the converted facility. Upon completion of the 10-year period, the Executive Council, taking into account recommendations of the Technical Secretariat, shall decide on the nature of continued verification measures.

PART X. CHALLENGE INSPECTIONS PURSUANT TO ARTICLE IX**A. Designation and selection of inspectors and inspection assistants**

1. Challenge inspections pursuant to Article IX shall only be performed by inspectors and inspection assistants especially designated for this function. In order to designate inspectors and inspection assistants for challenge inspections pursuant to Article IX, the Director-General shall, by selecting inspectors and inspection assistants from among the inspectors and inspection assistants for routine inspection activities, establish a list of proposed inspectors and inspection assistants. It shall comprise a sufficiently large number of inspectors and inspection assistants having the necessary qualification, experience, skill and training, to allow for flexibility in the selection of the inspectors, taking into account their availability, and the need for rotation. Due regard shall be paid also to the importance of selecting inspectors and inspection assistants on as wide a geographical basis as possible. The designation of inspectors and inspection assistants shall follow the procedures provided for under Part II, Section A, of this Annex.

2. The Director-General shall determine the size of the inspection team and select its members taking into account the circumstances of a particular request. The size of the inspection team shall be kept to a minimum necessary for the proper fulfilment of the inspection mandate. No national of the requesting State Party or the inspected State Party shall be a member of the inspection team.

B. Pre-inspection activities

3. Before submitting the inspection request for a challenge inspection, the State Party may seek confirmation from the Director-General that the Technical Secretariat is in a position to take immediate action on the request. If the Director-General cannot provide such confirmation immediately, he shall do so at the earliest opportunity, in keeping with the order of requests for confirmation. He shall also keep the State Party informed of when it is likely that immediate action can be taken. Should the Director-General reach the conclusion that timely action on requests can no longer be taken, he may ask the Executive Council to take appropriate action to improve the situation in the future.

Notification

4. The inspection request for a challenge inspection to be submitted to the Executive Council and the Director-General shall contain at least the following information:

- (a) The State Party to be inspected and, if applicable, the Host State;
- (b) The point of entry to be used;
- (c) The size and type of the inspection site;
- (d) The concern regarding possible non-compliance with this Convention including a specification of the relevant provisions of this Convention about which the concern has arisen, and of the nature and circumstances of the possible non-compliance as well as all appropriate information on the basis of which the concern has arisen; and
- (e) The name of the observer of the requesting State Party.

The requesting State Party may submit any additional information it deems necessary.

5. The Director-General shall within one hour acknowledge to the requesting State Party receipt of its request.

6. The requesting State Party shall notify the Director-General of the location of the inspection site in due time for the Director-General to be able to provide this information to the inspected State Party not less than 12 hours before the planned arrival of the inspection team at the point of entry.

7. The inspection site shall be designated by the requesting State Party as specifically as possible by providing a site diagram related to a reference point with geographic coordinates, specified to the nearest second if possible. If possible, the requesting State Party shall also provide a map

with a general indication of the inspection site and a diagram specifying as precisely as possible the requested perimeter of the site to be inspected.

8. The requested perimeter shall:

- (a) Run at least a 10 metre distance outside any buildings or other structures;
- (b) Not cut through existing security enclosures; and
- (c) Run at least a 10 metre distance outside any existing security enclosures that the requesting State Party intends to include within the requested perimeter.

9. If the requested perimeter does not conform with the specifications of paragraph 8, it shall be redrawn by the inspection team so as to conform with that provision.

10. The Director-General shall, not less than 12 hours before the planned arrival of the inspection team at the point of entry, inform the Executive Council about the location of the inspection site as specified in paragraph 7.

11. Contemporaneously with informing the Executive Council according to paragraph 10, the Director-General shall transmit the inspection request to the inspected State Party including the location of the inspection site as specified in paragraph 7. This notification shall also include the information specified in Part II, paragraph 32, of this Annex.

12. Upon arrival of the inspection team at the point of entry, the inspected State Party shall be informed by the inspection team of the inspection mandate.

Entry into the territory of the inspected State Party or the Host State

13. The Director-General shall, in accordance with Article IX, paragraphs 13 to 18, dispatch an inspection team as soon as possible after an inspection request has been received. The inspection team shall arrive at the point of entry specified in the request in the minimum time possible, consistent with the provisions of paragraphs 10 and 11.

14. If the requested perimeter is acceptable to the inspected State Party, it shall be designated as the final perimeter as early as possible, but in no case later than 24 hours after the arrival of the inspection team at the point of entry. The inspected State Party shall transport the inspection team to the final perimeter of the inspection site. If the inspected State Party deems it necessary, such transportation may begin up to 12 hours before the expiry of the time period specified in this paragraph for the designation of the final perimeter. Transportation shall, in any case, be completed not later than 36 hours after the arrival of the inspection team at the point of entry.

15. For all declared facilities, the procedures in subparagraphs (a) and (b) shall apply. (For the purposes of this Part, “declared facility” means all facilities declared pursuant to Articles III, IV, and V. With regard to Article VI, “declared facility” means only facilities declared pursuant to Part VI of this Annex, as well as declared plants specified by declarations pursuant to Part VII, paragraphs 7 and 10 (c), and Part VIII, paragraphs 7 and 10 (c), of this Annex.)

(a) If the requested perimeter is contained within or conforms with the declared perimeter, the declared perimeter shall be considered the final perimeter. The final perimeter may, however, if agreed by the inspected State Party, be made smaller in order to conform with the perimeter requested by the requesting State Party.

(b) The inspected State Party shall transport the inspection team to the final perimeter as soon as practicable, but in any case shall ensure their arrival at the perimeter not later than 24 hours after the arrival of the inspection team at the point of entry.

Alternative determination of final perimeter

16. At the point of entry, if the inspected State Party cannot accept the requested perimeter, it shall propose an alternative perimeter as soon as possible, but in any case not later than 24 hours after the arrival of the inspection team at the point of entry. In case of differences of opinion, the inspected State Party and the inspection team shall engage in negotiations with the aim of reaching agreement on a final perimeter.

17. The alternative perimeter should be designated as specifically as possible in accordance with paragraph 8. It shall include the whole of the requested perimeter and should, as a rule, bear a close relationship to the latter, taking into account natural terrain features and man-made boundaries. It should normally run close to the surrounding security barrier if such a barrier exists. The inspected State Party should seek to establish such a relationship between the perimeters by a combination of at least two of the following means:

- (a) An alternative perimeter that does not extend to an area significantly greater than that of the requested perimeter;
- (b) An alternative perimeter that is a short, uniform distance from the requested perimeter;
- (c) At least part of the requested perimeter is visible from the alternative perimeter.

18. If the alternative perimeter is acceptable to the inspection team, it shall become the final perimeter and the inspection team shall be transported from the point of entry to that perimeter. If the inspected State Party deems it necessary, such transportation may begin up to 12 hours before the expiry of the time period specified in paragraph 16 for proposing an alternative perimeter. Transportation shall, in any case, be completed not later than 36 hours after the arrival of the inspection team at the point of entry.

19. If a final perimeter is not agreed, the perimeter negotiations shall be concluded as early as possible, but in no case shall they continue more than 24 hours after the arrival of the inspection team at the point of entry. If no agreement is reached, the inspected State Party shall transport the inspection team to a location at the alternative perimeter. If the inspected State Party deems it necessary, such transportation may begin up to 12 hours before the expiry of the time period specified in paragraph 16 for proposing an alternative perimeter. Transportation shall, in any case, be completed not later than 36 hours after the arrival of the inspection team at the point of entry.

20. Once at the location, the inspected State Party shall provide the inspection team with prompt access to the alternative perimeter to facilitate negotiations and agreement on the final perimeter and access within the final perimeter.

21. If no agreement is reached within 72 hours after the arrival of the inspection team at the location, the alternative perimeter shall be designated the final perimeter.

Verification of location

22. To help establish that the inspection site to which the inspection team has been transported corresponds to the inspection site specified by the requesting State Party, the inspection team shall have the right to use approved location-finding equipment and have such equipment installed according to its directions. The inspection team may verify its location by reference to local landmarks identified from maps. The inspected State Party shall assist the inspection team in this task.

Securing the site, exit monitoring

23. Not later than 12 hours after the arrival of the inspection team at the point of entry, the inspected State Party shall begin collecting factual information of all vehicular exit activity from all exit points for all land, air, and water vehicles of the requested perimeter. It shall provide this information to the inspection team upon its arrival at the alternative or final perimeter, whichever occurs first.

24. This obligation may be met by collecting factual information in the form of traffic logs, photographs, video recordings, or data from chemical evidence equipment provided by the inspection team to monitor such exit activity. Alternatively, the inspected State Party may also meet this obligation by allowing one or more members of the inspection team independently to maintain traffic logs, take photographs, make video recordings of exit traffic, or use chemical evidence equipment, and conduct other activities as may be agreed between the inspected State Party and the inspection team.

25. Upon the inspection team's arrival at the alternative perimeter or final perimeter, whichever occurs first, securing the site, which means exit monitoring procedures by the inspection team, shall begin.

26. Such procedures shall include: the identification of vehicular exits, the making of traffic logs, the taking of photographs, and the making of video recordings by the inspection team of exits and exit traffic. The inspection team has the right to go, under escort, to any other part of the perimeter to check that there is no other exit activity.

27. Additional procedures for exit monitoring activities as agreed upon by the inspection team and the inspected State Party may include, *inter alia*:

- (a) Use of sensors;
- (b) Random selective access;
- (c) Sample analysis.

28. All activities for securing the site and exit monitoring shall take place within a band around the outside of the perimeter, not exceeding 50 metres in width, measured outward.

29. The inspection team has the right to inspect on a managed access basis vehicular traffic exiting the site. The inspected State Party shall make every reasonable effort to demonstrate to the inspection team that any vehicle, subject to inspection, to which the inspection team is not granted full access, is not being used for purposes related to the possible non-compliance concerns raised in the inspection request.

30. Personnel and vehicles entering and personnel and personal passenger vehicles exiting the site are not subject to inspection.

31. The application of the above procedures may continue for the duration of the inspection, but may not unreasonably hamper or delay the normal operation of the facility.

Pre-inspection briefing and inspection plan

32. To facilitate development of an inspection plan, the inspected State Party shall provide a safety and logistical briefing to the inspection team prior to access.

33. The pre-inspection briefing shall be held in accordance with Part II, paragraph 37, of this Annex. In the course of the pre-inspection briefing, the inspected State Party may indicate to the inspection team the equipment, documentation, or areas it considers sensitive and not related to the purpose of the challenge inspection. In addition, personnel responsible for the site shall brief the inspection team on the physical layout and other relevant characteristics of the site. The inspection team shall be provided with a map or sketch drawn to scale showing all structures and significant geographic features at the site. The inspection team shall also be briefed on the availability of facility personnel and records.

34. After the pre-inspection briefing, the inspection team shall prepare, on the basis of the information available and appropriate to it, an initial inspection plan which specifies the activities to be carried out by the inspection team, including the specific areas of the site to which access is desired. The inspection plan shall also specify whether the inspection team will be divided into subgroups. The inspection plan shall be made available to the representatives of the inspected State Party and the inspection site. Its implementation shall be consistent with the provisions of Section C, including those related to access and activities.

Perimeter activities

35. Upon the inspection team's arrival at the final or alternative perimeter, whichever occurs first, the team shall have the right to commence immediately perimeter activities in accordance with the procedures set forth under this Section, and to continue these activities until the completion of the challenge inspection.

36. In conducting the perimeter activities, the inspection team shall have the right to:

- (a) Use monitoring instruments in accordance with Part II, paragraphs 27 to 30, of this Annex;
- (b) Take wipes, air, soil or effluent samples; and
- (c) Conduct any additional activities which may be agreed between the inspection team and the inspected State Party.

37. The perimeter activities of the inspection team may be conducted within a band around the outside of the perimeter up to 50 metres in width measured outward from the perimeter. If the inspected State Party agrees, the inspection team may also have access to any building or structure within the perimeter band. All directional monitoring shall be oriented inward. For declared facilities, at the discretion of the inspected State Party, the band could run inside, outside, or on both sides of the declared perimeter.

C. Conduct of inspections

General rules

38. The inspected State Party shall provide access within the requested perimeter as well as, if different, the final perimeter. The extent and nature of access to a particular place or places within these perimeters shall be negotiated between the inspection team and the inspected State Party on a managed access basis.

39. The inspected State Party shall provide access within the requested perimeter as soon as possible, but in any case not later than 108 hours after the arrival of the inspection team at the point of entry in order to clarify the concern regarding possible non-compliance with this Convention raised in the inspection request.

40. Upon the request of the inspection team, the inspected State Party may provide aerial access to the inspection site.

41. In meeting the requirement to provide access as specified in paragraph 38, the inspected State Party shall be under the obligation to allow the greatest degree of access taking into account any constitutional obligations it may have with regard to proprietary rights or searches and seizures. The inspected State Party has the right under managed access to take such measures as are necessary to protect national security. The provisions in this paragraph may not be invoked by the inspected State Party to conceal evasion of its obligations not to engage in activities prohibited under this Convention.

42. If the inspected State Party provides less than full access to places, activities, or information, it shall be under the obligation to make every reasonable effort to provide alternative means to clarify the possible non-compliance concern that generated the challenge inspection.

43. Upon arrival at the final perimeter of facilities declared pursuant to Articles IV, V and VI, access shall be granted following the pre-inspection briefing and discussion of the inspection plan which shall be limited to the minimum necessary and in any event shall not exceed three hours. For facilities declared pursuant to Article III, paragraph 1 (d), negotiations shall be conducted and managed access commenced not later than 12 hours after arrival at the final perimeter.

44. In carrying out the challenge inspection in accordance with the inspection request, the inspection team shall use only those methods necessary to provide sufficient relevant facts to clarify the concern about possible non-compliance with the provisions of this Convention, and shall refrain from activities not relevant thereto. It shall collect and document such facts as are related to the possible non-compliance with this Convention by the inspected State Party, but shall neither seek nor document information which is clearly not related thereto, unless the inspected State Party expressly requests it to do so. Any material collected and subsequently found not to be relevant shall not be retained.

45. The inspection team shall be guided by the principle of conducting the challenge inspection in the least intrusive manner possible, consistent with the effective and timely accomplishment of its mission. Wherever possible, it shall begin with the least intrusive procedures it deems acceptable and proceed to more intrusive procedures only as it deems necessary.

Managed access

46. The inspection team shall take into consideration suggested modifications of the inspection plan and proposals which may be made by the inspected State Party, at whatever stage of the inspection including the pre-inspection briefing, to ensure that sensitive equipment, information or areas, not related to chemical weapons, are protected.

47. The inspected State Party shall designate the perimeter entry/exit points to be used for access. The inspection team and the inspected State Party shall negotiate: the extent of access to any particular place or places within the final and requested perimeters as provided in paragraph 48; the particular inspection activities, including sampling, to be conducted by the inspection team; the performance of particular activities by the inspected State Party; and the provision of particular information by the inspected State Party.

48. In conformity with the relevant provisions in the Confidentiality Annex the inspected State Party shall have the right to take measures to protect sensitive installations and prevent disclosure of confidential information and data not related to chemical weapons. Such measures may include, *inter alia*:

- (a) Removal of sensitive papers from office spaces;
- (b) Shrouding of sensitive displays, stores, and equipment;
- (c) Shrouding of sensitive pieces of equipment, such as computer or electronic systems;
- (d) Logging off of computer systems and turning off of data indicating devices;
- (e) Restriction of sample analysis to presence or absence of chemicals listed in Schedules 1, 2 and 3 or appropriate degradation products;
- (f) Using random selective access techniques whereby the inspectors are requested to select a given percentage or number of buildings of their choice to inspect; the same principle can apply to the interior and content of sensitive buildings;
- (g) In exceptional cases, giving only individual inspectors access to certain parts of the inspection site.

49. The inspected State Party shall make every reasonable effort to demonstrate to the inspection team that any object, building, structure, container or vehicle to which the inspection team has not had full access, or which has been protected in accordance with paragraph 48, is not used for purposes related to the possible non-compliance concerns raised in the inspection request.

50. This may be accomplished by means of, *inter alia*, the partial removal of a shroud or environmental protection cover, at the discretion of the inspected State Party, by means of a visual inspection of the interior of an enclosed space from its entrance, or by other methods.

51. In the case of facilities declared pursuant to Articles IV, V and VI, the following shall apply:

- (a) For facilities with facility agreements, access and activities within the final perimeter shall be unimpeded within the boundaries established by the agreements;
- (b) For facilities without facility agreements, negotiation of access and activities shall be governed by the applicable general inspection guidelines established under this Convention;
- (c) Access beyond that granted for inspections under Articles IV, V and VI shall be managed in accordance with procedures of this section.

52. In the case of facilities declared pursuant to Article III, paragraph 1 (d), the following shall apply: if the inspected State Party, using procedures of paragraphs 47 and 48, has not granted full access to areas or structures not related to chemical weapons, it shall make every reasonable effort to demonstrate to the inspection team that such areas or structures are not used for purposes related to the possible non-compliance concerns raised in the inspection request.

Observer

53. In accordance with the provisions of Article IX, paragraph 12, on the participation of an observer in the challenge inspection, the requesting State Party shall liaise with the Technical Sec-

retariat to coordinate the arrival of the observer at the same point of entry as the inspection team within a reasonable period of the inspection team's arrival.

54. The observer shall have the right throughout the period of inspection to be in communication with the embassy of the requesting State Party located in the inspected State Party or in the Host State or, in the case of absence of an embassy, with the requesting State Party itself. The inspected State Party shall provide means of communication to the observer.

55. The observer shall have the right to arrive at the alternative or final perimeter of the inspection site, wherever the inspection team arrives first, and to have access to the inspection site as granted by the inspected State Party. The observer shall have the right to make recommendations to the inspection team, which the team shall take into account to the extent it deems appropriate. Throughout the inspection, the inspection team shall keep the observer informed about the conduct of the inspection and the findings.

56. Throughout the in-country period, the inspected State Party shall provide or arrange for the amenities necessary for the observer such as communication means, interpretation services, transportation, working space, lodging, meals and medical care. All the costs in connection with the stay of the observer on the territory of the inspected State Party or the Host State shall be borne by the requesting State Party.

Duration of inspection

57. The period of inspection shall not exceed 84 hours, unless extended by agreement with the inspected State Party.

D. Post-inspection activities

Departure

58. Upon completion of the post-inspection procedures at the inspection site, the inspection team and the observer of the requesting State Party shall proceed promptly to a point of entry and shall then leave the territory of the inspected State Party in the minimum time possible.

Reports

59. The inspection report shall summarize in a general way the activities conducted by the inspection team and the factual findings of the inspection team, particularly with regard to the concerns regarding possible non-compliance with this Convention cited in the request for the challenge inspection, and shall be limited to information directly related to this Convention. It shall also include an assessment by the inspection team of the degree and nature of access and cooperation granted to the inspectors and the extent to which this enabled them to fulfil the inspection mandate. Detailed information relating to the concerns regarding possible non-compliance with this Convention cited in the request for the challenge inspection shall be submitted as an Appendix to the final report and be retained within the Technical Secretariat under appropriate safeguards to protect sensitive information.

60. The inspection team shall, not later than 72 hours after its return to its primary work location, submit a preliminary inspection report, having taken into account, *inter alia*, paragraph 17 of the Confidentiality Annex, to the Director-General. The Director-General shall promptly transmit the preliminary inspection report to the requesting State Party, the inspected State Party and to the Executive Council.

61. A draft final inspection report shall be made available to the inspected State Party not later than 20 days after the completion of the challenge inspection. The inspected State Party has the right to identify any information and data not related to chemical weapons which should, in its view, due to its confidential character, not be circulated outside the Technical Secretariat. The Technical Secretariat shall consider proposals for changes to the draft final inspection report made by the inspected State Party and, using its own discretion, wherever possible, adopt them. The final report shall then

be submitted not later than 30 days after the completion of the challenge inspection to the Director-General for further distribution and consideration in accordance with Article IX, paragraphs 21 to 25.

21. The inspection team shall have the right to interview and examine persons who may have been affected by the alleged use of chemical weapons. It shall also have the right to interview eyewitnesses of the alleged use of chemical weapons and medical personnel, and other persons who have treated or have come into contact with persons who may have been affected by the alleged use of chemical weapons. E. States not party to this Convention

27. In the case of alleged use of chemical weapons involving a State not Party to this Convention or in territory not controlled by a State Party, the Organization shall closely cooperate with the Secretary-General of the United Nations. If so requested, the Organization shall put its resources at the disposal of the Secretary-General of the United Nations.

(b) All data and documents obtained by the Technical Secretariat shall be evaluated by the appropriate unit of the Technical Secretariat in order to establish whether they contain confidential information. Data required by States Parties to be assured of the continued compliance with this Convention by other States Parties shall be routinely provided to them. Such data shall encompass:

Such procedures shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i);

(d) The level of sensitivity of confidential data or documents shall be established, based on criteria to be applied uniformly in order to ensure their appropriate handling and protection. For this purpose, a classification system shall be introduced, which by taking account of relevant work undertaken in the preparation of this Convention shall provide for clear criteria ensuring the inclu-

sion of information into appropriate categories of confidentiality and the justified durability of the confidential nature of information. While providing for the necessary flexibility in its implementation the classification system shall protect the rights of States Parties providing confidential information. A classification system shall be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i);

(e) Confidential information shall be stored securely at the premises of the Organization. Some data or documents may also be stored with the National Authority of a State Party. Sensitive information, including, *inter alia*, photographs, plans and other documents required only for the inspection of a specific facility may be kept under lock and key at this facility;

(f) To the greatest extent consistent with the effective implementation of the verification provisions of this Convention, information shall be handled and stored by the Technical Secretariat in a form that precludes direct identification of the facility to which it pertains;

(g) The amount of confidential information removed from a facility shall be kept to the minimum necessary for the timely and effective implementation of the verification provisions of this Convention; and

(h) Access to confidential information shall be regulated in accordance with its classification. The dissemination of confidential information within the Organization shall be strictly on a need-to-know basis.

3. The Director-General shall report annually to the Conference on the implementation of the regime governing the handling of confidential information by the Technical Secretariat.

4. Each State Party shall treat information which it receives from the Organization in accordance with the level of confidentiality established for that information. Upon request, a State Party shall provide details on the handling of information provided to it by the Organization.

B. Employment and conduct of personnel in the Technical Secretariat

5. Conditions of staff employment shall be such as to ensure that access to and handling of confidential information shall be in conformity with the procedures established by the Director-General in accordance with Section A.

6. Each position in the Technical Secretariat shall be governed by a formal position description that specifies the scope of access to confidential information, if any, needed in that position.

7. The Director-General, the inspectors and the other members of the staff shall not disclose even after termination of their functions to any unauthorized persons any confidential information coming to their knowledge in the performance of their official duties. They shall not communicate to any State, organization or person outside the Technical Secretariat any information to which they have access in connection with their activities in relation to any State Party.

8. In the discharge of their functions inspectors shall only request the information and data which are necessary to fulfil their mandate. They shall not make any records of information collected incidentally and not related to verification of compliance with this Convention.

9. The staff shall enter into individual secrecy agreements with the Technical Secretariat covering their period of employment and a period of five years after it is terminated.

10. In order to avoid improper disclosures, inspectors and staff members shall be appropriately advised and reminded about security considerations and of the possible penalties that they would incur in the event of improper disclosure.

11. Not less than 30 days before an employee is given clearance for access to confidential information that refers to activities on the territory or in any other place under the jurisdiction or control of a State Party, the State Party concerned shall be notified of the proposed clearance. For inspectors the notification of a proposed designation shall fulfil this requirement.

12. In evaluating the performance of inspectors and any other employees of the Technical Secretariat, specific attention shall be given to the employee's record regarding protection of confidential information.

C. Measures to protect sensitive installations and prevent disclosure of confidential data in the course of on-site verification activities

13. States Parties may take such measures as they deem necessary to protect confidentiality, provided that they fulfil their obligations to demonstrate compliance in accordance with the relevant Articles and the Verification Annex. When receiving an inspection, the State Party may indicate to the inspection team the equipment, documentation or areas that it considers sensitive and not related to the purpose of the inspection.

14. Inspection teams shall be guided by the principle of conducting on-site inspections in the least intrusive manner possible consistent with the effective and timely accomplishment of their mission. They shall take into consideration proposals which may be made by the State Party receiving the inspection, at whatever stage of the inspection, to ensure that sensitive equipment or information, not related to chemical weapons, is protected.

15. Inspection teams shall strictly abide by the provisions set forth in the relevant Articles and Annexes governing the conduct of inspections. They shall fully respect the procedures designed to protect sensitive installations and to prevent the disclosure of confidential data.

16. In the elaboration of arrangements and facility agreements, due regard shall be paid to the requirement of protecting confidential information. Agreements on inspection procedures for individual facilities shall also include specific and detailed arrangements with regard to the determination of those areas of the facility to which inspectors are granted access, the storage of confidential information on-site, the scope of the inspection effort in agreed areas, the taking of samples and their analysis, the access to records and the use of instruments and continuous monitoring equipment.

17. The report to be prepared after each inspection shall only contain facts relevant to compliance with this Convention. The report shall be handled in accordance with the regulations established by the Organization governing the handling of confidential information. If necessary, the information contained in the report shall be processed into less sensitive forms before it is transmitted outside the Technical Secretariat and the inspected State Party.

D. Procedures in case of breaches or alleged breaches of confidentiality

18. The Director-General shall establish necessary procedures to be followed in case of breaches or alleged breaches of confidentiality, taking into account recommendations to be considered and approved by the Conference pursuant to Article VIII, paragraph 21 (i).

19. The Director-General shall oversee the implementation of individual secrecy agreements. The Director-General shall promptly initiate an investigation if, in his judgement, there is sufficient indication that obligations concerning the protection of confidential information have been violated. The Director-General shall also promptly initiate an investigation if an allegation concerning a breach of confidentiality is made by a State Party.

20. The Director-General shall impose appropriate punitive and disciplinary measures on staff members who have violated their obligations to protect confidential information. In cases of serious breaches, the immunity from jurisdiction may be waived by the Director-General.

21. States Parties shall, to the extent possible, cooperate and support the Director-General in investigating any breach or alleged breach of confidentiality and in taking appropriate action in case a breach has been established.

22. The Organization shall not be held liable for any breach of confidentiality committed by members of the Technical Secretariat.

23. For breaches involving both a State Party and the Organization, a “Commission for the settlement of disputes related to confidentiality”, set up as a subsidiary organ of the Conference, shall consider the case. This Commission shall be appointed by the Conference. Rules governing its composition and operating procedures shall be adopted by the Conference at its first session.

99. COMPREHENSIVE NUCLEAR-TEST-BAN TREATY

Done at New York on 10 September 1996

Not yet in force.

United Nations document A/50/1027

Preamble

The States Parties to this Treaty (hereinafter referred to as “the States Parties”),

Welcoming the international agreements and other positive measures of recent years in the field of nuclear disarmament, including reductions in arsenals of nuclear weapons, as well as in the field of the prevention of nuclear proliferation in all its aspects,

Underlining the importance of the full and prompt implementation of such agreements and measures,

Convinced that the present international situation provides an opportunity to take further effective measures towards nuclear disarmament and against the proliferation of nuclear weapons in all its aspects, and declaring their intention to take such measures,

Stressing therefore the need for continued systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of eliminating those weapons, and of general and complete disarmament under strict and effective international control,

Recognizing that the cessation of all nuclear weapon test explosions and all other nuclear explosions, by constraining the development and qualitative improvement of nuclear weapons and ending the development of advanced new types of nuclear weapons, constitutes an effective measure of nuclear disarmament and nonproliferation in all its aspects,

Further recognizing that an end to all such nuclear explosions will thus constitute a meaningful step in the realization of a systematic process to achieve nuclear disarmament,

Convinced that the most effective way to achieve an end to nuclear testing is through the conclusion of a universal and internationally and effectively verifiable comprehensive nuclear test-ban treaty, which has long been one of the highest priority objectives of the international community in the field of disarmament and non-proliferation,

Noting the aspirations expressed by the Parties to the 1963 Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and Under Water to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time,

Noting also the views expressed that this Treaty could contribute to the protection of the environment,

Affirming the purpose of attracting the adherence of all States to this Treaty and its objective to contribute effectively to the prevention of the proliferation of nuclear weapons in all its aspects, to the process of nuclear disarmament and therefore to the enhancement of international peace and security,

Have agreed as follows:

Article I. Basic obligations

1. Each State Party undertakes not to carry out any nuclear weapon test explosion or any other nuclear explosion, and to prohibit and prevent any such nuclear explosion at any place under its jurisdiction or control.

2. Each State Party undertakes, furthermore, to refrain from causing, encouraging, or in any way participating in the carrying out of any nuclear weapon test explosion or any other nuclear explosion.

Article II. The Organization

A. General provisions

1. The States Parties hereby establish the Comprehensive Nuclear Test-Ban Treaty Organization (hereinafter referred to as “the Organization”) to achieve the object and purpose of this Treaty, to ensure the implementation of its provisions, including those for international verification of compliance with it, and to provide a forum for consultation and cooperation among States Parties.

7. Each State Party shall treat as confidential and afford special handling to information and data that it receives in confidence from the Organization in connection with the implementation of this Treaty. It shall treat such information and data exclusively in connection with its rights and obligations under this Treaty.

8. The Organization, as an independent body, shall seek to utilize existing expertise and facilities, as appropriate, and to maximize cost efficiencies, through cooperative arrangements with other international organizations such as the International Atomic Energy Agency. Such arrangements, excluding those of a minor and normal commercial and contractual nature, shall be set out in agreements to be submitted to the Conference of the States Parties for approval.

10. Financial contributions of States Parties to the Preparatory Commission shall be deducted in an appropriate way from their contributions to the regular budget.

11. A member of the Organization which is in arrears in the payment of its assessed contribution to the Organization shall have no vote in the Organization if the amount of its arrears equals or exceeds the amount of the contribution due from it for the preceding two full years. The Conference of the States Parties may, nevertheless, permit such a member to vote if it is satisfied that the failure to pay is due to conditions beyond the control of the member.

10. The provisions of this Treaty shall not be interpreted as restricting the international exchange of data for scientific purposes.

11. Each State Party undertakes to cooperate with the Organization and with other States Parties in the improvement of the verification regime, and in the examination of the verification potential of additional monitoring technologies such as electromagnetic pulse monitoring or satellite monitoring, with a view to developing, when appropriate, specific measures to enhance the efficient and cost-effective verification of this Treaty. Such measures shall, when agreed, be incorporated in existing provisions in this Treaty, the Protocol or as additional sections of the Protocol, in accordance with Article VII, or, if appropriate, be reflected in the operational manuals in accordance with Article II, paragraph 44.

12. The States Parties undertake to promote cooperation among themselves to facilitate and participate in the fullest possible exchange relating to technologies used in the verification of this Treaty in order to enable all States Parties to strengthen their national implementation of verification measures and to benefit from the application of such technologies for peaceful purposes.

13. The provisions of this Treaty shall be implemented in a manner which avoids hampering the economic and technological development of the States Parties for further development of the application of atomic energy for peaceful purposes.

Verification responsibilities of the Technical Secretariat

14. In discharging its responsibilities in the area of verification specified in this Treaty and the Protocol, in cooperation with the States Parties the Technical Secretariat shall, for the purpose of this Treaty:

(a) Make arrangements to receive and distribute data and reporting products relevant to the verification of this Treaty in accordance with its provisions, and to maintain a global communications infrastructure appropriate to this task;

- (k) Make available to any State Party, upon its request, techniques utilized by the Technical Secretariat and its International Data Centre in compiling, storing, processing, analysing and reporting on data from the verification regime; and
- (l) Monitor, assess and report on the overall performance of the International Monitoring System and of the International Data Centre.

15. The agreed procedures to be used by the Technical Secretariat in discharging the verification responsibilities referred to in paragraph 14 and detailed in the Protocol shall be elaborated in the relevant operational manuals.

B. The International Monitoring System

16. The International Monitoring System shall comprise facilities for seismological monitoring, radionuclide monitoring including certified laboratories, hydroacoustic monitoring, infrasound monitoring, and respective means of communication, and shall be supported by the International Data Centre of the Technical Secretariat.

17. The International Monitoring System shall be placed under the authority of the Technical Secretariat. All monitoring facilities of the International Monitoring System shall be owned and operated by the States hosting or otherwise taking responsibility for them in accordance with the Protocol.

18. Each State Party shall have the right to participate in the international exchange of data and to have access to all data made available to the International Data Centre. Each State Party shall cooperate with the International Data Centre through its National Authority.

Funding the International Monitoring System

19. For facilities incorporated into the International Monitoring System and specified in Tables 1-A, 2-A, 3 and 4 of Annex 1 to the Protocol, and for their functioning, to the extent that such facilities are agreed by the relevant State and the Organization to provide data to the International Data Centre in accordance with the technical requirements of the Protocol and relevant operational manuals, the Organization, as specified in agreements or arrangements pursuant to Part I, paragraph 4 of the Protocol, shall meet the costs of:

(a) Establishing any new facilities and upgrading existing facilities, unless the State responsible for such facilities meets these costs itself;

(b) Operating and maintaining International Monitoring System facilities, including facility physical security if appropriate, and application of agreed data authentication procedures;

(c) Transmitting International Monitoring System data (raw or processed) to the International Data Centre by the most direct and cost-effective means available, including, if necessary, via appropriate communications nodes, from monitoring stations, laboratories, analytical facilities or from national data centres; or such data (including samples where appropriate) to laboratory and analytical facilities from monitoring stations; and

(d) Analysing samples on behalf of the Organization.

20. For auxiliary network seismic stations specified in Table 1-B of Annex 1 to the Protocol the Organization, as specified in agreements or arrangements pursuant to Part I, paragraph 4 of the Protocol, shall meet the costs only of:

(a) Transmitting data to the International Data Centre;

(b) Authenticating data from such stations;

(c) Upgrading stations to the required technical standard, unless the State responsible for such facilities meets these costs itself;

(d) If necessary, establishing new stations for the purposes of this Treaty where no appropriate facilities currently exist, unless the State responsible for such facilities meets these costs itself; and

(e) Any other costs related to the provision of data required by the Organization as specified in the relevant operational manuals.

21. The Organization shall also meet the cost of provision to each State Party of its requested selection from the standard range of International Data Centre reporting products and services, as specified in Part I, Section F of the Protocol. The cost of preparation and transmission of any additional data or products shall be met by the requesting State Party.

22. The agreements or, if appropriate, arrangements concluded with States Parties or States hosting or otherwise taking responsibility for facilities of the International Monitoring System shall contain provisions for meeting these costs. Such provisions may include modalities whereby a State Party meets any of the costs referred to in paragraphs 19 (a) and 20 (c) and (d) for facilities which it hosts or for which it is responsible, and is compensated by an appropriate reduction in its assessed financial contribution to the Organization. Such a reduction shall not exceed 50 per cent of the annual assessed financial contribution of a State Party, but may be spread over successive years. A State Party may share such a reduction with another State Party by agreement or arrangement between themselves and with the concurrence of the Executive Council. The agreements or arrangements referred to in this paragraph shall be approved in accordance with Article II, paragraphs 26 (h) and 38 (i).

Changes to the International Monitoring System

23. Any measures referred to in paragraph 11 affecting the International Monitoring System by means of addition or deletion of a monitoring technology shall, when agreed, be incorporated into this Treaty and the Protocol pursuant to Article VII, paragraphs 1 to 6.

24. The following changes to the International Monitoring System, subject to the agreement of those States directly affected, shall be regarded as matters of an administrative or technical nature pursuant to Article VII, paragraphs 7 and 8:

(a) Changes to the number of facilities specified in the Protocol for a given monitoring technology; and

(b) Changes to other details for particular facilities as reflected in the Tables of Annex 1 to the Protocol (including, *inter alia*, State responsible for the facility; location; name of facility; type of facility; and attribution of a facility between the primary and auxiliary seismic networks).

If the Executive Council recommends, pursuant to Article VII, paragraph 8 (d), that such changes be adopted, it shall as a rule also recommend pursuant to Article VII, paragraph 8 (g), that such changes enter into force upon notification by the Director-General of their approval.

25. The Director-General, in submitting to the Executive Council and States Parties information and evaluation in accordance with Article VII, paragraph 8 (b), shall include in the case of any proposal made pursuant to paragraph 24:

- (a) A technical evaluation of the proposal;
- (b) A statement on the administrative and financial impact of the proposal; and
- (c) A report on consultations with States directly affected by the proposal, including indication of their agreement.

Temporary arrangements

26. In cases of significant or irretrievable breakdown of a monitoring facility specified in the Tables of Annex 1 to the Protocol, or in order to cover other temporary reductions of monitoring coverage, the Director-General shall, in consultation and agreement with those States directly affected, and with the approval of the Executive Council, initiate temporary arrangements of no more than one year's duration, renewable if necessary by agreement of the Executive Council and of the States directly affected for another year. Such arrangements shall not cause the number of operational facilities of the International Monitoring System to exceed the number specified for the relevant network; shall meet as far as possible the technical and operational requirements specified in the operational manual for the relevant network; and shall be conducted within the budget of the Organization. The Director-General shall furthermore take steps to rectify the situation and make proposals for its permanent resolution. The Director-General shall notify all States Parties of any decision taken pursuant to this paragraph.

Cooperating national facilities

27. States Parties may also separately establish cooperative arrangements with the Organization, in order to make available to the International Data Centre supplementary data from national monitoring stations that are not formally part of the International Monitoring System.

28. Such cooperative arrangements may be established as follows:

(a) Upon request by a State Party, and at the expense of that State, the Technical Secretariat shall take the steps required to certify that a given monitoring facility meets the technical and operational requirements specified in the relevant operational manuals for an International Monitoring System facility, and make arrangements for the authentication of its data. Subject to the agreement of the Executive Council, the Technical Secretariat shall then formally designate such a facility as a cooperating national facility. The Technical Secretariat shall take the steps required to revalidate its certification as appropriate;

(b) The Technical Secretariat shall maintain a current list of cooperating national facilities and shall distribute it to all States Parties; and

(c) The International Data Centre shall call upon data from cooperating national facilities, if so requested by a State Party, for the purposes of facilitating consultation and clarification and the consideration of on-site inspection requests, data transmission costs being borne by that State Party.

The conditions under which supplementary data from such facilities are made available, and under which the International Data Centre may request further or expedited reporting, or clarifications, shall be elaborated in the operational manual for the respective monitoring network.

C. Consultation and clarification

29. Without prejudice to the right of any State Party to request an on-site inspection, States Parties should, whenever possible, first make every effort to clarify and resolve, among themselves or with or through the Organization, any matter which may cause concern about possible non-compliance with the basic obligations of this Treaty.

30. A State Party that receives a request pursuant to paragraph 29 directly from another State Party shall provide the clarification to the requesting State Party as soon as possible, but in any case no later than 48 hours after the request. The requesting and requested States Parties may keep the Executive Council and the Director-General informed of the request and the response.

31. A State Party shall have the right to request the Director-General to assist in clarifying any matter which may cause concern about possible non-compliance with the basic obligations of this Treaty. The Director-General shall provide appropriate information in the possession of the Technical Secretariat relevant to such a concern. The Director-General shall inform the Executive Council of the request and of the information provided in response, if so requested by the requesting State Party.

32. A State Party shall have the right to request the Executive Council to obtain clarification from another State Party on any matter which may cause concern about possible non-compliance with the basic obligations of this Treaty. In such a case, the following shall apply:

(a) The Executive Council shall forward the request for clarification to the requested State Party through the Director-General no later than 24 hours after its receipt;

(b) The requested State Party shall provide the clarification to the Executive Council as soon as possible, but in any case no later than 48 hours after receipt of the request;

(c) The Executive Council shall take note of the clarification and forward it to the requesting State Party no later than 24 hours after its receipt;

(d) If the requesting State Party deems the clarification to be inadequate, it shall have the right to request the Executive Council to obtain further clarification from the requested State Party. The Executive Council shall inform without delay all other States Parties about any request for clarification pursuant to this paragraph as well as any response provided by the requested State Party.

33. If the requesting State Party considers the clarification obtained under paragraph 32 (d) to be unsatisfactory, it shall have the right to request a meeting of the Executive Council in which States Parties involved that are not members of the Executive Council shall be entitled to take part. At such a meeting, the Executive Council shall consider the matter and may recommend any measure in accordance with Article V.

D. On-site inspections

Request for an on-site inspection

34. Each State Party has the right to request an on-site inspection in accordance with the provisions of this Article and Part II of the Protocol in the territory or in any other place under the jurisdiction or control of any State Party, or in any area beyond the jurisdiction or control of any State.

35. The sole purpose of an on-site inspection shall be to clarify whether a nuclear weapon test explosion or any other nuclear explosion has been carried out in violation of Article I and, to the extent possible, to gather any facts which might assist in identifying any possible violator.

36. The requesting State Party shall be under the obligation to keep the on-site inspection request within the scope of this Treaty and to provide in the request information in accordance with paragraph 37. The requesting State Party shall refrain from unfounded or abusive inspection requests.

37. The on-site inspection request shall be based on information collected by the International Monitoring System, on any relevant technical information obtained by national technical means of verification in a manner consistent with generally recognized principles of international law, or

on a combination thereof. The request shall contain information pursuant to Part II, paragraph 41 of the Protocol.

38. The requesting State Party shall present the on-site inspection request to the Executive Council and at the same time to the Director-General for the latter to begin immediate processing.

Follow-up after submission of an on-site inspection request

39. The Executive Council shall begin its consideration immediately upon receipt of the on-site inspection request.

40. The Director-General, after receiving the on-site inspection request, shall acknowledge receipt of the request to the requesting State Party within two hours and communicate the request to the State Party sought to be inspected within six hours. The Director-General shall ascertain that the request meets the requirements specified in Part II, paragraph 41 of the Protocol, and, if necessary, shall assist the requesting State Party in filing the request accordingly, and shall communicate the request to the Executive Council and to all other States Parties within 24 hours.

41. When the on-site inspection request fulfils the requirements, the Technical Secretariat shall begin preparations for the on-site inspection without delay.

42. The Director-General, upon receipt of an on-site inspection request referring to an inspection area under the jurisdiction or control of a State Party, shall immediately seek clarification from the State Party sought to be inspected in order to clarify and resolve the concern raised in the request.

43. A State Party that receives a request for clarification pursuant to paragraph 42 shall provide the Director-General with explanations and with other relevant information available as soon as possible, but no later than 72 hours after receipt of the request for clarification.

44. The Director-General, before the Executive Council takes a decision on the on-site inspection request, shall transmit immediately to the Executive Council any additional information available from the International Monitoring System or provided by any State Party on the event specified in the request, including any clarification provided pursuant to paragraphs 42 and 43, as well as any other information from within the Technical Secretariat that the Director-General deems relevant or that is requested by the Executive Council.

45. Unless the requesting State Party considers the concern raised in the on-site inspection request to be resolved and withdraws the request, the Executive Council shall take a decision on the request in accordance with paragraph 46.

Executive Council decisions

46. The Executive Council shall take a decision on the on-site inspection request no later than 96 hours after receipt of the request from the requesting State Party. The decision to approve the on-site inspection shall be made by at least 30 affirmative votes of members of the Executive Council. If the Executive Council does not approve the inspection, preparations shall be stopped and no further action on the request shall be taken.

47. No later than 25 days after the approval of the on-site inspection in accordance with paragraph 46, the inspection team shall transmit to the Executive Council, through the Director-General, a progress inspection report. The continuation of the inspection shall be considered approved unless the Executive Council, no later than 72 hours after receipt of the progress inspection report, decides by a majority of all its members not to continue the inspection. If the Executive Council decides not to continue the inspection, the inspection shall be terminated, and the inspection team shall leave the inspection area and the territory of the inspected State Party as soon as possible in accordance with Part II, paragraphs 109 and 110 of the Protocol.

48. In the course of the on-site inspection, the inspection team may submit to the Executive Council, through the Director-General, a proposal to conduct drilling. The Executive Council shall

take a decision on such a proposal no later than 72 hours after receipt of the proposal. The decision to approve drilling shall be made by a majority of all members of the Executive Council.

49. The inspection team may request the Executive Council, through the Director-General, to extend the inspection duration by a maximum of 70 days beyond the 60-day time-frame specified in Part II, paragraph 4 of the Protocol, if the inspection team considers such an extension essential to enable it to fulfil its mandate. The inspection team shall indicate in its request which of the activities and techniques listed in Part II, paragraph 69 of the Protocol it intends to carry out during the extension period. The Executive Council shall take a decision on the extension request no later than 72 hours after receipt of the request. The decision to approve an extension of the inspection duration shall be made by a majority of all members of the Executive Council.

50. Any time following the approval of the continuation of the on-site inspection in accordance with paragraph 47, the inspection team may submit to the Executive Council, through the Director-General, a recommendation to terminate the inspection. Such a recommendation shall be considered approved unless the Executive Council, no later than 72 hours after receipt of the recommendation, decides by a two-thirds majority of all its members not to approve the termination of the inspection. In case of termination of the inspection, the inspection team shall leave the inspection area and the territory of the inspected State Party as soon as possible in accordance with Part II, paragraphs 109 and 110 of the Protocol.

51. The requesting State Party and the State Party sought to be inspected may participate in the deliberations of the Executive Council on the on-site inspection request without voting. The requesting State Party and the inspected State Party may also participate without voting in any subsequent deliberations of the Executive Council related to the inspection.

52. The Director-General shall notify all States Parties within 24 hours about any decision by and reports, proposals, requests and recommendations to the Executive Council pursuant to paragraphs 46 to 50.

Follow-up after Executive Council approval of an on-site inspection

53. An on-site inspection approved by the Executive Council shall be conducted without delay by an inspection team designated by the Director-General and in accordance with the provisions of this Treaty and the Protocol. The inspection team shall arrive at the point of entry no later than six days following the receipt by the Executive Council of the on-site inspection request from the requesting State Party.

54. The Director-General shall issue an inspection mandate for the conduct of the on-site inspection. The inspection mandate shall contain the information specified in Part II, paragraph 42 of the Protocol.

55. The Director-General shall notify the inspected State Party of the inspection no less than 24 hours before the planned arrival of the inspection team at the point of entry, in accordance with Part II, paragraph 43 of the Protocol.

The conduct of an on-site inspection

56. Each State Party shall permit the Organization to conduct an on-site inspection on its territory or at places under its jurisdiction or control in accordance with the provisions of this Treaty and the Protocol. However, no State Party shall have to accept simultaneous on-site inspections on its territory or at places under its jurisdiction or control.

57. In accordance with the provisions of this Treaty and the Protocol, the inspected State Party shall have:

- (a) The right and the obligation to make every reasonable effort to demonstrate its compliance with this Treaty and, to this end, to enable the inspection team to fulfil its mandate;
- (b) The right to take measures it deems necessary to protect national security interests and to prevent disclosure of confidential information not related to the purpose of the inspection;

(c) The obligation to provide access within the inspection area for the sole purpose of determining facts relevant to the purpose of the inspection, taking into account sub-paragraph (b) and any constitutional obligations it may have with regard to proprietary rights or searches and seizures;

(d) The obligation not to invoke this paragraph or Part II, paragraph 88 of the Protocol to conceal any violation of its obligations under Article I; and

(e) The obligation not to impede the ability of the inspection team to move within the inspection area and to carry out inspection activities in accordance with this Treaty and the Protocol.

Access, in the context of an on-site inspection, means both the physical access of the inspection team and the inspection equipment to, and the conduct of inspection activities within, the inspection area.

58. The on-site inspection shall be conducted in the least intrusive manner possible, consistent with the efficient and timely accomplishment of the inspection mandate, and in accordance with the procedures set forth in the Protocol. Wherever possible, the inspection team shall begin with the least intrusive procedures and then proceed to more intrusive procedures only as it deems necessary to collect sufficient information to clarify the concern about possible non-compliance with this Treaty. The inspectors shall seek only the information and data necessary for the purpose of the inspection and shall seek to minimize interference with normal operations of the inspected State Party.

59. The inspected State Party shall assist the inspection team throughout the on-site inspection and facilitate its task.

60. If the inspected State Party, acting in accordance with Part II, paragraphs 86 to 96 of the Protocol, restricts access within the inspection area, it shall make every reasonable effort in consultations with the inspection team to demonstrate through alternative means its compliance with this Treaty.

Observer

61. With regard to an observer, the following shall apply:

(a) The requesting State Party, subject to the agreement of the inspected State Party, may send a representative, who shall be a national either of the requesting State Party or of a third State Party, to observe the conduct of the on-site inspection;

(b) The inspected State Party shall notify its acceptance or non-acceptance of the proposed observer to the Director-General within 12 hours after approval of the on-site inspection by the Executive Council;

(c) In case of acceptance, the inspected State Party shall grant access to the observer in accordance with the Protocol;

(d) The inspected State Party shall, as a rule, accept the proposed observer, but if the inspected State Party exercises a refusal, that fact shall be recorded in the inspection report.

There shall be no more than three observers from an aggregate of requesting States Parties.

Reports of an on-site inspection

62. Inspection reports shall contain:

(a) A description of the activities conducted by the inspection team;

(b) The factual findings of the inspection team relevant to the purpose of the inspection;

(c) An account of the cooperation granted during the on-site inspection;

(d) A factual description of the extent of the access granted, including the alternative means provided to the team, during the on-site inspection; and

(e) Any other details relevant to the purpose of the inspection.

Differing observations made by inspectors may be attached to the report.

63. The Director-General shall make draft inspection reports available to the inspected State Party. The inspected State Party shall have the right to provide the Director-General within 48 hours with its comments and explanations, and to identify any information and data which, in its view, are not related to the purpose of the inspection and should not be circulated outside the Technical Secretariat. The Director-General shall consider the proposals for changes to the draft inspection report made by the inspected State Party and shall wherever possible incorporate them. The Director-General shall also annex the comments and explanations provided by the inspected State Party to the inspection report.

64. The Director-General shall promptly transmit the inspection report to the requesting State Party, the inspected State Party, the Executive Council and to all other States Parties. The Director-General shall further transmit promptly to the Executive Council and to all other States Parties any results of sample analysis in designated laboratories in accordance with Part II, paragraph 104 of the Protocol, relevant data from the International Monitoring System, the assessments of the requesting and inspected States Parties, as well as any other information that the Director-General deems relevant. In the case of the progress inspection report referred to in paragraph 47, the Director-General shall transmit the report to the Executive Council within the time-frame specified in that paragraph.

65. The Executive Council, in accordance with its powers and functions, shall review the inspection report and any material provided pursuant to paragraph 64, and shall address any concerns as to:

- (a) Whether any non-compliance with this Treaty has occurred; and
- (b) Whether the right to request an on-site inspection has been abused.

66. If the Executive Council reaches the conclusion, in keeping with its powers and functions, that further action may be necessary with regard to paragraph 65, it shall take the appropriate measures in accordance with Article V.

Frivolous or abusive on-site inspection requests

67. If the Executive Council does not approve the on-site inspection on the basis that the on-site inspection request is frivolous or abusive, or if the inspection is terminated for the same reasons, the Executive Council shall consider and decide on whether to implement appropriate measures to redress the situation, including the following:

- (a) Requiring the requesting State Party to pay for the cost of any preparations made by the Technical Secretariat;
- (b) Suspending the right of the requesting State Party to request an on-site inspection for a period of time, as determined by the Executive Council; and
- (c) Suspending the right of the requesting State Party to serve on the Executive Council for a period of time.

E. Confidence-building measures

68. In order to:

- (a) Contribute to the timely resolution of any compliance concerns arising from possible misinterpretation of verification data relating to chemical explosions; and
- (b) Assist in the calibration of the stations that are part of the component networks of the International Monitoring System, each State Party undertakes to cooperate with the Organization and with other States Parties in implementing relevant measures as set out in Part III of the Protocol.

Article V. Measures to redress a situation and to ensure compliance, including sanctions

1. The Conference, taking into account, *inter alia*, the recommendations of the Executive Council, shall take the necessary measures, as set forth in paragraphs 2 and 3, to ensure compliance with this Treaty and to redress and remedy any situation which contravenes the provisions of this Treaty.

2. In cases where a State Party has been requested by the Conference or the Executive Council to redress a situation raising problems with regard to its compliance and fails to fulfil the request within the specified time, the Conference may, *inter alia*, decide to restrict or suspend the State Party from the exercise of its rights and privileges under this Treaty until the Conference decides otherwise.

3. In cases where damage to the object and purpose of this Treaty may result from non-compliance with the basic obligations of this Treaty, the Conference may recommend to States Parties collective measures which are in conformity with international law.

4. The Conference, or alternatively, if the case is urgent, the Executive Council, may bring the issue, including relevant information and conclusions, to the attention of the United Nations.

Article VI. Settlement of disputes

1. Disputes that may arise concerning the application or the interpretation of this Treaty shall be settled in accordance with the relevant provisions of this Treaty and in conformity with the provisions of the Charter of the United Nations.

2. When a dispute arises between two or more States Parties, or between one or more States Parties and the Organization, relating to the application or interpretation of this Treaty, the parties concerned shall consult together with a view to the expeditious settlement of the dispute by negotiation or by other peaceful means of the parties' choice, including recourse to appropriate organs of this Treaty and, by mutual consent, referral to the International Court of Justice in conformity with the Statute of the Court. The parties involved shall keep the Executive Council informed of actions being taken.

3. The Executive Council may contribute to the settlement of a dispute that may arise concerning the application or interpretation of this Treaty by whatever means it deems appropriate, including offering its good offices, calling upon the States Parties to a dispute to seek a settlement through a process of their own choice, bringing the matter to the attention of the Conference and recommending a time-limit for any agreed procedure.

4. The Conference shall consider questions related to disputes raised by States Parties or brought to its attention by the Executive Council. The Conference shall, as it finds necessary, establish or entrust organs with tasks related to the settlement of these disputes in conformity with Article II, paragraph 26 (j).

5. The Conference and the Executive Council are separately empowered, subject to authorization from the General Assembly of the United Nations, to request the International Court of Justice to give an advisory opinion on any legal question arising within the scope of the activities of the Organization. An agreement between the Organization and the United Nations shall be concluded for this purpose in accordance with Article II, paragraph 38 (h).

6. This Article is without prejudice to Articles IV and V.

Article VII. Amendments

1. At any time after the entry into force of this Treaty, any State Party may propose amendments to this Treaty, the Protocol, or the Annexes to the Protocol. Any State Party may also propose changes, in accordance with paragraph 7, to the Protocol or the Annexes thereto. Proposals for amendments shall be subject to the procedures in paragraphs 2 to 6. Proposals for changes, in accordance with paragraph 7, shall be subject to the procedures in paragraph 8.

2. The proposed amendment shall be considered and adopted only by an Amendment Conference.

3. Any proposal for an amendment shall be communicated to the Director-General, who shall circulate it to all States Parties and the Depositary and seek the views of the States Parties on whether an Amendment Conference should be convened to consider the proposal. If a majority of the States Parties notify the Director-General no later than 30 days after its circulation that they support further consideration of the proposal, the Director-General shall convene an Amendment Conference to which all States Parties shall be invited.

4. The Amendment Conference shall be held immediately following a regular session of the Conference unless all States Parties that support the convening of an Amendment Conference request that it be held earlier. In no case shall an Amendment Conference be held less than 60 days after the circulation of the proposed amendment.

5. Amendments shall be adopted by the Amendment Conference by a positive vote of a majority of the States Parties with no State Party casting a negative vote.

6. Amendments shall enter into force for all States Parties 30 days after deposit of the instruments of ratification or acceptance by all those States Parties casting a positive vote at the Amendment Conference.

7. In order to ensure the viability and effectiveness of this Treaty, Parts I and III of the Protocol and Annexes 1 and 2 to the Protocol shall be subject to changes in accordance with paragraph 8, if the proposed changes are related only to matters of an administrative or technical nature. All other provisions of the Protocol and the Annexes thereto shall not be subject to changes in accordance with paragraph 8.

8. Proposed changes referred to in paragraph 7 shall be made in accordance with the following procedures:

(a) The text of the proposed changes shall be transmitted together with the necessary information to the Director-General. Additional information for the evaluation of the proposal may be provided by any State Party and the Director-General. The Director-General shall promptly communicate any such proposals and information to all States Parties, the Executive Council and the Depositary;

States Parties shall acknowledge receipt within 10 days;

(d) If the Executive Council recommends to all States Parties that the proposal be adopted, it shall be considered approved if no State Party objects to it within 90 days after receipt of the recommendation. If the Executive Council recommends that the proposal be rejected, it shall be considered rejected if no State Party objects to the rejection within 90 days after receipt of the recommendation;

(e) If a recommendation of the Executive Council does not meet with the acceptance required under subparagraph (d), a decision on the proposal, including whether it fulfils the requirements of paragraph 7, shall be taken as a matter of substance by the Conference at its next session;

(f) The Director-General shall notify all States Parties and the Depositary of any decision under this paragraph;

(g) Changes approved under this procedure shall enter into force for all States Parties 180 days after the date of notification by the Director-General of their approval unless another time period is recommended by the Executive Council or decided by the Conference.

Article VIII. Review of the Treaty

1. Unless otherwise decided by a majority of the States Parties, ten years after the entry into force of this Treaty a Conference of the States Parties shall be held to review the operation and effectiveness of this Treaty, with a view to assuring itself that the objectives and purposes in the Preamble and the provisions of the Treaty are being realized. Such review shall take into account any new scientific and technological developments relevant to this Treaty. On the basis of a request by any State Party, the Review Conference shall consider the possibility of permitting the conduct of underground nuclear explosions for peaceful purposes. If the Review Conference decides by consensus that such nuclear explosions may be permitted, it shall commence work without delay, with a view to recommending to States Parties an appropriate amendment to this Treaty that shall preclude any military benefits of such nuclear explosions. Any such proposed amendment shall be communicated to the Director-General by any State Party and shall be dealt with in accordance with the provisions of Article VII.

3. The Organization, in accordance with Article II, shall, in cooperation and consultation with the States Parties, with other States, and with international organizations as appropriate, establish and coordinate the operation and maintenance, and any future agreed modification or development of the International Monitoring System.

4. In accordance with appropriate agreements or arrangements and procedures, a State Party or other State hosting or otherwise taking responsibility for International Monitoring System facilities and the Technical Secretariat shall agree and cooperate in establishing, operating, upgrading, financing, and maintaining monitoring facilities, related certified laboratories and respective means of communication within areas under its jurisdiction or control or elsewhere in conformity with international law. Such cooperation shall be in accordance with the security and authentication requirements and technical specifications contained in the relevant operational manuals. Such a State shall give the Technical Secretariat authority to access a monitoring facility for checking equipment and communication links, and shall agree to make the necessary changes in the equipment and the operational procedures to meet agreed requirements. The Technical Secretariat shall provide to such States appropriate technical assistance as is deemed by the Executive Council to be required for the proper functioning of the facility as part of the International Monitoring System.

5. Modalities for such cooperation between the Organization and States Parties or States hosting or otherwise taking responsibility for facilities of the International Monitoring System shall be set out in agreements or arrangements as appropriate in each case.

B. Seismological monitoring

6. Each State Party undertakes to cooperate in an international exchange of seismological data to assist in the verification of compliance with this Treaty. This cooperation shall include the establishment and operation of a global network of primary and auxiliary seismological monitoring stations. All stations shall be capable of monitoring for the presence of relevant particulate matter in the atmosphere. Forty of these stations shall also be capable of monitoring for the presence of relevant noble gases upon the entry into force of this Treaty. For this purpose the Conference, at its initial session, shall approve a recommendation by the Preparatory Commission as to which 40 stations from Table 2-A of Annex 1 to this Protocol shall be capable of noble gas monitoring. At its first regular annual session, the Conference shall consider and decide on a plan for implementing noble gas monitoring capability throughout the network. The Director-General shall prepare a report to the Conference on the modalities for such implementation. All monitoring stations shall fulfil the technical and operational requirements specified in the Operational Manual for Radionuclide Monitoring and the International Exchange of Radionuclide Data.

11. The network of radionuclide monitoring stations shall be supported by laboratories, which shall be certified by the Technical Secretariat in accordance with the relevant operational manual for the performance, on contract to the Organization and on a fee-for-service basis, of the analysis of samples from radionuclide monitoring stations. Laboratories specified in Table 2-B of Annex 1 to this Protocol, and appropriately equipped, shall, as required, also be drawn upon by the Technical Secretariat to perform additional analysis of samples from radionuclide monitoring stations. With the agreement of the Executive Council, further laboratories may be certified by the Technical Secretariat to perform the routine analysis of samples from manual monitoring stations where necessary. All certified laboratories shall provide the results of such analysis to the International Data Centre, and in so doing shall fulfil the technical and operational requirements specified in the Operational Manual on Radionuclide Monitoring and the International Exchange of Radionuclide Data.

D. Hydroacoustic monitoring

12. Each State Party undertakes to cooperate in an international exchange of hydroacoustic data to assist in the verification of compliance with this Treaty. This cooperation shall include the establishment and operation of a global network of hydroacoustic monitoring stations. These stations shall provide data in accordance with agreed procedures to the International Data Centre.

14. Each State Party undertakes to cooperate in an international exchange of infrasound data to assist in the verification of compliance with this Treaty. This cooperation shall include the establishment and operation of a global network of infrasound monitoring stations. These stations shall provide data in accordance with agreed procedures to the International Data Centre.

15. The network of infrasound stations shall consist of the stations specified in Table 4 of Annex 1 to this Protocol, and shall comprise an overall network of 60 stations. 16. The International Data Centre shall receive, collect, process, analyse, report on and archive data from International Monitoring System facilities, including the results of analysis conducted at certified laboratories.

17. The procedures and standard event screening criteria to be used by the International Data Centre in carrying out its agreed functions, in particular for the production of standard reporting products and for the performance of a standard range of services for States Parties, shall be elaborated in the Operational Manual for the International Data Centre and shall be progressively developed. The procedures and criteria developed initially by the Preparatory Commission shall be approved by the Conference at its initial session.

International Data Centre standard products

18. The International Data Centre shall apply on a routine basis automatic processing methods and interactive human analysis to raw International Monitoring System data in order to produce and archive standard International Data Centre products on behalf of all States Parties. These products shall be provided at no cost to States Parties and shall be without prejudice to final judgements with regard to the nature of any event, which shall remain the responsibility of States Parties, and shall include:

(a) Integrated lists of all signals detected by the International Monitoring System, as well as standard event lists and bulletins, including the values and associated uncertainties calculated for each event located by the International Data Centre, based on a set of standard parameters;

(b) Standard screened event bulletins that result from the application to each event by the International Data Centre of standard event screening criteria, making use of the characterization parameters specified in Annex 2 to this Protocol, with the objective of characterizing, highlighting in the standard event bulletin, and thereby screening out, events considered to be consistent with natural phenomena or non-nuclear, man-made phenomena. The standard event bulletin shall indicate numerically for each event the degree to which that event meets or does not meet the event screening criteria. In applying standard event screening, the International Data Centre shall use both global and supplementary screening criteria to take account of regional variations where applicable. The International Data Centre shall progressively enhance its technical capabilities as experience is gained in the operation of the International Monitoring System;

(c) Executive summaries, which summarize the data acquired and archived by the International Data Centre, the products of the International Data Centre, and the performance and operational status of the International Monitoring System and International Data Centre; and

(d) Extracts or subsets of the standard International Data Centre products specified in subparagraphs (a) to (c), selected according to the request of an individual State Party.

19. The International Data Centre shall carry out, at no cost to States Parties, special studies to provide in-depth, technical review by expert analysis of data from the International Monitoring System, if requested by the Organization or by a State Party, to improve the estimated values for the standard signal and event parameters.

International Data Centre services to States Parties

20. The International Data Centre shall provide States Parties with open, equal, timely and convenient access to all International Monitoring System data, raw or processed, all International Data Centre products, and all other International Monitoring System data in the archive of the International Data Centre or, through the International Data Centre, of International Monitoring System facilities. The methods for supporting data access and the provision of data shall include the following services:

(a) Automatic and regular forwarding to a State Party of the products of the International Data Centre or the selection by the State Party thereof, and, as requested, the selection by the State Party of International Monitoring System data;

(b) The provision of the data or products generated in response to ad hoc requests by States Parties for the retrieval from the International Data Centre and International Monitoring System facility archives of data and products, including interactive electronic access to the International Data Centre database; and

(c) Assisting individual States Parties, at their request and at no cost for reasonable efforts, with expert technical analysis of International Monitoring System data and other relevant data provided by the requesting State Party, in order to help the State Party concerned to identify the source of specific events. The output of any such technical analysis shall be considered a product of the requesting State Party, but shall be available to all States Parties.

The International Data Centre services specified in subparagraphs (a) and (b) shall be made available at no cost to each State Party. The volumes and formats of data shall be set out in the Operational Manual for the International Data Centre.

National event screening

21. The International Data Centre shall, if requested by a State Party, apply to any of its standard products, on a regular and automatic basis, national event screening criteria established by that State Party, and provide the results of such analysis to that State Party. This service shall be undertaken at no cost to the requesting State Party. The output of such national event screening processes shall be considered a product of the requesting State Party.

Technical assistance

22. The International Data Centre shall, where required, provide technical assistance to individual States Parties:

(a) In formulating their requirements for selection and screening of data and products;

(b) By installing at the International Data Centre, at no cost to a requesting State Party for reasonable efforts, computer algorithms or software provided by that State Party to compute new signal and event parameters that are not included in the Operational Manual for the International Data Centre, the output being considered products of the requesting State Party; and

(c) By assisting States Parties to develop the capability to receive, process and analyse International Monitoring System data at a national data centre.

23. The International Data Centre shall continuously monitor and report on the operational status of the International Monitoring System facilities, of communications links, and of its own processing systems. It shall provide immediate notification to those responsible should the operational performance of any component fail to meet agreed levels set out in the relevant operational manual.

PART II. ON-SITE INSPECTIONS

A. General provisions

1. The procedures in this Part shall be implemented pursuant to the provisions for on-site inspections set out in Article IV.

2. The on-site inspection shall be carried out in the area where the event that triggered the on-site inspection request occurred.

3. The area of an on-site inspection shall be continuous and its size shall not exceed 1,000 square kilometres. There shall be no linear distance greater than 50 kilometres in any direction.

4. The duration of an on-site inspection shall not exceed 60 days from the date of the approval of the on-site inspection request in accordance with Article IV, paragraph 46, but may be extended by a maximum of 70 days in accordance with Article IV, paragraph 49.

5. If the inspection area specified in the inspection mandate extends to the territory or other place under the jurisdiction or control of more than one State Party, the provisions on on-site inspections shall, as appropriate, apply to each of the States Parties to which the inspection area extends.

6. In cases where the inspection area is under the jurisdiction or control of the inspected State Party but is located on the territory of another State Party or where the access from the point of entry to the inspection area requires transit through the territory of a State Party other than the inspected State Party, the inspected State Party shall exercise the rights and fulfil the obligations concerning such inspections in accordance with this Protocol. In such a case, the State Party on whose territory the inspection area is located shall facilitate the inspection and shall provide for the necessary support to enable the inspection team to carry out its tasks in a timely and effective manner. States Parties through whose territory transit is required to reach the inspection area shall facilitate such transit.

7. In cases where the inspection area is under the jurisdiction or control of the inspected State Party but is located on the territory of a State not Party to this Treaty, the inspected State Party shall take all necessary measures to ensure that the inspection can be carried out in accordance with this Protocol. A State Party that has under its jurisdiction or control one or more areas on the territory of a State not Party to this Treaty shall take all necessary measures to ensure acceptance by the State on whose territory the inspection area is located of inspectors and inspection assistants designated to that State Party. If an inspected State Party is unable to ensure access, it shall demonstrate that it took all necessary measures to ensure access.

8. In cases where the inspection area is located on the territory of a State Party but is under the jurisdiction or control of a State not Party to this Treaty, the State Party shall take all necessary measures required of an inspected State Party and a State Party on whose territory the inspection area is located, without prejudice to the rules and practices of international law, to ensure that the on-site inspection can be carried out in accordance with this Protocol. If the State Party is unable to ensure access to the inspection area, it shall demonstrate that it took all necessary measures to ensure access, without prejudice to the rules and practices of international law.

9. The size of the inspection team shall be kept to the minimum necessary for the proper fulfilment of the inspection mandate. The total number of members of the inspection team present on the territory of the inspected State Party at any given time, except during the conduct of drilling, shall not exceed 40 persons. No national of the requesting State Party or the inspected State Party shall be a member of the inspection team.

10. The Director-General shall determine the size of the inspection team and select its members from the list of inspectors and inspection assistants, taking into account the circumstances of a particular request.

11. The inspected State Party shall provide for or arrange the amenities necessary for the inspection team, such as communication means, interpretation services, transportation, working space, lodging, meals, and medical care.

12. The inspected State Party shall be reimbursed by the Organization, in a reasonably short period of time after conclusion of the inspection, for all expenses, including those mentioned in paragraphs 11 and 49, related to the stay and functional activities of the inspection team on the territory of the inspected State Party.

13. Procedures for the implementation of on-site inspections shall be detailed in the Operational Manual for On-Site Inspections.

B. Standing arrangements

Designation of inspectors and inspection assistants

14. An inspection team may consist of inspectors and inspection assistants. An on-site inspection shall only be carried out by qualified inspectors specially designated for this function. They may be assisted by specially designated inspection assistants, such as technical and administrative personnel, aircrew and interpreters.

15. Inspectors and inspection assistants shall be nominated for designation by the States Parties or, in the case of staff of the Technical Secretariat, by the Director-General, on the basis of their expertise and experience relevant to the purpose and functions of on-site inspections. The nominees shall be approved in advance by the States Parties in accordance with paragraph 18.

16. Each State Party, no later than 30 days after the entry into force of this Treaty for it, shall notify the Director-General of the names, dates of birth, sex, ranks, qualifications and professional experience of the persons proposed by the State Party for designation as inspectors and inspection assistants.

17. No later than 60 days after the entry into force of this Treaty, the Technical Secretariat shall communicate in writing to all States Parties an initial list of the names, nationalities, dates of birth, sex and ranks of the inspectors and inspection assistants proposed for designation by the Director-General and the States Parties, as well as a description of their qualifications and professional experience.

18. Each State Party shall immediately acknowledge receipt of the initial list of inspectors and inspection assistants proposed for designation. Any inspector or inspection assistant included in this list shall be regarded as accepted unless a State Party, no later than 30 days after acknowledgment of receipt of the list, declares its non-acceptance in writing. The State Party may include the reason for the objection. In the case of non-acceptance, the proposed inspector or inspection assistant shall not undertake or participate in on-site inspection activities on the territory or in any other place under the jurisdiction or control of the State Party that has declared its non-acceptance. The Technical Secretariat shall immediately confirm receipt of the notification of objection.

19. Whenever additions or changes to the list of inspectors and inspection assistants are proposed by the Director-General or a State Party, replacement inspectors and inspection assistants shall be designated in the same manner as set forth with respect to the initial list. Each State Party shall promptly notify the Technical Secretariat if an inspector or inspection assistant nominated by it can no longer fulfil the duties of an inspector or inspection assistant.

20. The Technical Secretariat shall keep the list of inspectors and inspection assistants up to date and notify all States Parties of any additions or changes to the list.

21. A State Party requesting an on-site inspection may propose that an inspector from the list of inspectors and inspection assistants serve as its observer in accordance with Article IV, paragraph 61.

22. Subject to paragraph 23, a State Party shall have the right at any time to object to an inspector or inspection assistant who has already been accepted. It shall notify the Technical Secretariat of its objection in writing and may include the reason for the objection. Such objection shall come into effect 30 days after receipt of the notification by the Technical Secretariat. The Technical Secretariat shall immediately confirm receipt of the notification of the objection and inform the objecting and nominating States Parties of the date on which the inspector or inspection assistant shall cease to be designated for that State Party.

23. A State Party that has been notified of an inspection shall not seek the removal from the inspection team of any of the inspectors or inspection assistants named in the inspection mandate.

24. The number of inspectors and inspection assistants accepted by a State Party must be sufficient to allow for availability of appropriate numbers of inspectors and inspection assistants. If, in the opinion of the Director-General, the non-acceptance by a State Party of proposed inspectors or inspection assistants impedes the designation of a sufficient number of inspectors and inspection assistants or otherwise hampers the effective fulfilment of the purposes of an on-site inspection, the Director-General shall refer the issue to the Executive Council.

25. Each inspector included in the list of inspectors and inspection assistants shall receive relevant training. Such training shall be provided by the Technical Secretariat pursuant to the procedures specified in the Operational Manual for On-Site Inspections. The Technical Secretariat shall co-ordinate, in agreement with the States Parties, a schedule of training for the inspectors.

Privileges and Immunities

26. Following acceptance of the initial list of inspectors and inspection assistants as provided for in paragraph 18 or as subsequently altered in accordance with paragraph 19, each State Party shall be obliged to issue, in accordance with its national procedures and upon application by an inspector or inspection assistant, multiple entry/exit and/or transit visas and other relevant documents to enable each inspector and inspection assistant to enter and to remain on the territory of that State Party for the sole purpose of carrying out inspection activities. Each State Party shall issue the necessary visa or travel documents for this purpose no later than 48 hours after receipt of the application or immediately upon arrival of the inspection team at the point of entry on the territory of the State Party. Such documents shall be valid for as long as is necessary to enable the inspector or inspection assistant to remain on the territory of the inspected State Party for the sole purpose of carrying out the inspection activities.

27. To exercise their functions effectively, members of the inspection team shall be accorded privileges and immunities as set forth in sub-paragraphs (a) to (i). Privileges and immunities shall be granted to members of the inspection team for the sake of this Treaty and not for the personal benefit of the individuals themselves. Such privileges and immunities shall be accorded to them for the entire period between arrival on and departure from the territory of the inspected State Party, and thereafter with respect to acts previously performed in the exercise of their official functions.

(a) The members of the inspection team shall be accorded the inviolability enjoyed by diplomatic agents pursuant to Article 29 of the Vienna Convention on Diplomatic Relations of 18 April 1961;

(b) The living quarters and office premises occupied by the inspection team carrying out inspection activities pursuant to this Treaty shall be accorded the inviolability and protection accorded to the premises of diplomatic agents pursuant to Article 30, paragraph 1, of the Vienna Convention on Diplomatic Relations;

(c) The papers and correspondence, including records, of the inspection team shall enjoy the inviolability accorded to all papers and correspondence of diplomatic agents pursuant to Article 30, paragraph 2, of the Vienna Convention on Diplomatic Relations. The inspection team shall have the right to use codes for their communications with the Technical Secretariat;

(d) Samples and approved equipment carried by members of the inspection team shall be inviolable subject to provisions contained in this Treaty and exempt from all customs duties. Hazardous samples shall be transported in accordance with relevant regulations;

(e) The members of the inspection team shall be accorded the immunities accorded to diplomatic agents pursuant to Article 31, paragraphs 1, 2 and 3, of the Vienna Convention on Diplomatic Relations;

(f) The members of the inspection team carrying out prescribed activities pursuant to this Treaty shall be accorded the exemption from dues and taxes accorded to diplomatic agents pursuant to Article 34 of the Vienna Convention on Diplomatic Relations;

(g) The members of the inspection team shall be permitted to bring into the territory of the inspected State Party, without payment of any customs duties or related charges, articles for personal use, with the exception of articles the import or export of which is prohibited by law or controlled by quarantine regulations;

(h) The members of the inspection team shall be accorded the same currency and exchange facilities as are accorded to representatives of foreign Governments on temporary official missions; and

(i) The members of the inspection team shall not engage in any professional or commercial activity for personal profit on the territory of the inspected State Party.

28. When transiting the territory of States Parties other than the inspected State Party, the members of the inspection team shall be accorded the privileges and immunities enjoyed by diplomatic agents pursuant to Article 40, paragraph 1, of the Vienna Convention on Diplomatic Relations.

tions. Papers and correspondence, including records, and samples and approved equipment carried by them, shall be accorded the privileges and immunities set forth in paragraph 27 (c) and (d).

29. Without prejudice to their privileges and immunities the members of the inspection team shall be obliged to respect the laws and regulations of the inspected State Party and, to the extent that is consistent with the inspection mandate, shall be obliged not to interfere in the internal affairs of that State. If the inspected State Party considers that there has been an abuse of privileges and immunities specified in this Protocol, consultations shall be held between the State Party and the Director-General to determine whether such an abuse has occurred and, if so determined, to prevent a repetition of such an abuse.

30. The immunity from jurisdiction of members of the inspection team may be waived by the Director-General in those cases when the Director-General is of the opinion that immunity would impede the course of justice and that it can be waived without prejudice to the implementation of the provisions of this Treaty. Waiver must always be express.

31. Observers shall be accorded the same privileges and immunities accorded to members of the inspection team pursuant to this section, except for those accorded pursuant to paragraph 27 (d).

Points of entry

32. Each State Party shall designate its points of entry and shall supply the required information to the Technical Secretariat no later than 30 days after this Treaty enters into force for it. These points of entry shall be such that the inspection team can reach any inspection area from at least one point of entry within 24 hours. Locations of points of entry shall be provided to all States Parties by the Technical Secretariat. Points of entry may also serve as points of exit.

33. Each State Party may change its points of entry by giving notice of such change to the Technical Secretariat. Changes shall become effective 30 days after the Technical Secretariat receives such notification, to allow appropriate notification to all States Parties.

34. If the Technical Secretariat considers that there are insufficient points of entry for the timely conduct of inspections or that changes to the points of entry proposed by a State Party would hamper such timely conduct of inspections, it shall enter into consultations with the State Party concerned to resolve the problem.

Arrangements for use of non-scheduled aircraft

35. Where timely travel to the point of entry is not feasible using scheduled commercial flights, an inspection team may utilize non-scheduled aircraft. No later than 30 days after this Treaty enters into force for it, each State Party shall inform the Technical Secretariat of the standing diplomatic clearance number for non-scheduled aircraft transporting an inspection team and equipment necessary for inspection. Aircraft routings shall be along established international airways that are agreed upon between the State Party and the Technical Secretariat as the basis for such diplomatic clearance.

Approved inspection equipment

36. The Conference, at its initial session, shall consider and approve a list of equipment for use during on-site inspections. Each State Party may submit proposals for the inclusion of equipment in the list. Specifications for the use of the equipment, as detailed in the Operational Manual for On-Site Inspections, shall take account of safety and confidentiality considerations where such equipment is likely to be used.

37. The equipment for use during on-site inspections shall consist of core equipment for the inspection activities and techniques specified in paragraph 69 and auxiliary equipment necessary for the effective and timely conduct of on-site inspections.

108. In cases where one or more States Parties have conducted an investigation of an ambiguous event in an area beyond the jurisdiction or control of any State before a request is made for an on-site inspection in that area, any results of such investigation may be taken into account by the Executive Council in its deliberations pursuant to Article IV.

Post-inspection procedures

109. Upon conclusion of the inspection, the inspection team shall meet with the representative of the inspected State Party to review the preliminary findings of the inspection team and to clarify any ambiguities. The inspection team shall provide the representative of the inspected State Party with its preliminary findings in written form according to a standardized format, together with a list of any samples and other material taken from the inspection area pursuant to paragraph 98. The document shall be signed by the head of the inspection team. In order to indicate that he or she has taken notice of the contents of the document, the representative of the inspected State Party shall countersign the document. The meeting shall be completed no later than 24 hours after the conclusion of the inspection.

Departure

110. Upon completion of the post-inspection procedures, the inspection team and the observer shall leave, as soon as possible, the territory of the inspected State Party. The inspected State Party shall do everything in its power to provide assistance and to ensure the safe conduct of the inspection team, equipment and baggage to the point of exit. Unless agreed otherwise by the inspected State Party and the inspection team, the point of exit used shall be the same as the point of entry.

PART III. CONFIDENCE-BUILDING MEASURES

100. CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND TRANSFER OF ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION

Done at Oslo on 18 September 1997

Entry into force: 1 March 1999

United Nations, *Treaty Series*, vol. 2056, p. 211; Reg. No. 35597

Preamble

The States Parties,

Determined to put an end to the suffering and casualties caused by anti-personnel mines, that kill or maim hundreds of people every week, mostly innocent and defenceless civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and internally displaced persons, and have other severe consequences for years after emplacement,

Believing it necessary to do their utmost to contribute in an efficient and coordinated manner to face the challenge of removing anti-personnel mines placed throughout the world, and to assure their destruction,

Wishing to do their utmost in providing assistance for the care and rehabilitation, including the social and economic reintegration of mine victims,

Recognizing that a total ban of anti-personnel mines would also be an important confidence-building measure,

Welcoming the adoption of the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects, and calling for the early ratification of this Protocol by all States which have not yet done so,

Welcoming also United Nations General Assembly Resolution 51/45 S of 10 December 1996 urging all States to pursue vigorously an effective, legally-binding international agreement to ban the use, stockpiling, production and transfer of anti-personnel landmines,

Welcoming furthermore the measures taken over the past years, both unilaterally and multilaterally, aiming at prohibiting, restricting or suspending the use, stockpiling, production and transfer of anti-personnel mines,

Stressing the role of public conscience in furthering the principles of humanity as evidenced by the call for a total ban of anti-personnel mines and recognizing the efforts to that end undertaken by the International Red Cross and Red Crescent Movement, the International Campaign to Ban Landmines and numerous other non-governmental organizations around the world,

Recalling the Ottawa Declaration of 5 October 1996 and the Brussels Declaration of 27 June 1997 urging the international community to negotiate an international and legally binding agreement prohibiting the use, stockpiling, production and transfer of anti-personnel mines,

Emphasizing the desirability of attracting the adherence of all States to this Convention, and determined to work strenuously towards the promotion of its universalization in all relevant fora including, *inter alia*, the United Nations, the Conference on Disarmament, regional organizations, and groupings, and review conferences of the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,

Basing themselves on the principle of international humanitarian law that the right of the parties to an armed conflict to choose methods or means of warfare is not unlimited, on the principle that prohibits the employment in armed conflicts of weapons, projectiles and materials and methods of warfare of a nature to cause superfluous injury or unnecessary suffering and on the principle that a distinction must be made between civilians and combatants,

Have agreed as follows:

Article 1. General obligations

1. Each State Party undertakes never under any circumstances:

- (a) To use anti-personnel mines;
- (b) To develop, produce, otherwise acquire, stockpile, retain or transfer to anyone, directly or indirectly, anti-personnel mines;
- (c) To assist, encourage or induce, in any way, anyone to engage in any activity prohibited to a State Party under this Convention.

2. Each State Party undertakes to destroy or ensure the destruction of all anti-personnel mines in accordance with the provisions of this Convention.

Article 2. Definitions

1. “Anti-personnel mine” means a mine designed to be exploded by the presence, proximity or contact of a person and that will incapacitate, injure or kill one or more persons. Mines designed to be detonated by the presence, proximity or contact of a vehicle as opposed to a person, that are equipped with anti-handling devices, are not considered anti-personnel mines as a result of being so equipped.

2. “Mine” means a munition designed to be placed under, on or near the ground or other surface area and to be exploded by the presence, proximity or contact of a person or a vehicle.

3. “Anti-handling device” means a device intended to protect a mine and which is part of, linked to, attached to or placed under the mine and which activates when an attempt is made to tamper with or otherwise intentionally disturb the mine.

4. “Transfer” involves, in addition to the physical movement of anti-personnel mines into or from national territory, the transfer of title to and control over the mines, but does not involve the transfer of territory containing emplaced anti-personnel mines.

5. “Mined area” means an area which is dangerous due to the presence or suspected presence of mines.

Article 3. Exceptions

1. Notwithstanding the general obligations under Article I, the retention or transfer of a number of anti-personnel mines for the development of and training in mine detection, mine clearance, or mine destruction techniques is permitted. The amount of such mines shall not exceed the minimum number absolutely necessary for the above-mentioned purposes.

2. The transfer of anti-personnel mines for the purpose of destruction is permitted.

Article 4. Destruction of stockpiled anti-personnel mines

Except as provided for in Article 3, each State Party undertakes to destroy or ensure the destruction of all stockpiled anti-personnel mines it owns or possesses, or that are under its jurisdiction or control, as soon as possible but not later than four years after the entry into force of this Convention for that State Party.

Article 5. Destruction of anti-personnel mines in mined areas

1. Each State Party undertakes to destroy or ensure the destruction of all anti-personnel mines in mined areas under its jurisdiction or control, as soon as possible but not later than ten years after the entry into force of this Convention for that State Party.

2. Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as

possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects.

3. If a State Party believes that it will be unable to destroy or ensure the destruction of all anti-personnel mines referred to in paragraph 1 within that time period, it may submit a request to a Meeting of the States Parties or a Review Conference for an extension of the deadline for completing the destruction of such anti-personnel mines, for a period of up to ten years.

4. Each request shall contain:

- (a) The duration of the proposed extension;
 - (b) A detailed explanation of the reasons for the proposed extension, including:
 - (i) The preparation and status of work conducted under national demining programs;
 - (ii) The financial and technical means available to the State Party for the destruction of all the anti-personnel mines; and
 - (iii) Circumstances which impede the ability of the State Party to destroy all the anti-personnel mines in mined areas;
 - (c) The humanitarian, social, economic, and environmental implications of the extension;
- and
- (d) Any other information relevant to the request for the proposed extension.

5. The Meeting of the States Parties or the Review Conference shall, taking into consideration the factors contained in paragraph 4, assess the request and decide by a majority of votes of States Parties present and voting whether to grant the request for an extension period.

6. Such an extension may be renewed upon the submission of a new request in accordance with paragraphs 3, 4 and 5 of this Article. In requesting a further extension period a State Party shall submit relevant additional information on what has been undertaken in the previous extension period pursuant to this Article.

Article 6. International cooperation and assistance

2. The States Parties shall not impose undue restrictions on the provision of mine clearance equipment and related technological information for humanitarian purposes.

3. Each State Party in a position to do so shall provide assistance for the care and rehabilitation, and social and economic reintegration, of mine victims and for mine awareness programmes. Such assistance may be provided, *inter alia*, through the United Nations system, international, regional or national organizations or institutions, the International Committee of the Red Cross, national Red Cross and Red Crescent societies and their International Federation, non-governmental organizations, or on a bilateral basis.

The Secretary-General of the United Nations shall transmit the submission, accompanied by all appropriate information pertaining to the Request for Clarification, to all States Parties. All such information shall be presented to the requested State Party which shall have the right to respond.

4. Pending the convening of any meeting of the States Parties, any of the States Parties concerned may request the Secretary-General of the United Nations to exercise his or her good offices to facilitate the clarification requested.

5. The requesting State Party may propose through the Secretary-General of the United Nations the convening of a Special Meeting of the States Parties to consider the matter. The Secretary-General of the United Nations shall thereupon communicate this proposal and all information submitted by the States Parties concerned, to all States Parties with a request that they indicate whether they favour a Special Meeting of the States Parties, for the purpose of considering the matter. In the event that within 14 days from the date of such communication, at least one-third of the States Parties favours such a Special Meeting, the Secretary-General of the United Nations shall convene this Special Meeting of the States Parties within a further 14 days. A quorum for this Meeting shall consist of a majority of States Parties.

The requested State Party shall report on all measures taken in response to this request.

19. The Meeting of the States Parties or the Special Meeting of the States Parties may suggest to the States Parties concerned ways and means to further clarify or resolve the matter under consideration, including the initiation of appropriate procedures in conformity with international law. 101. CONVENTION ON CLUSTER MUNITIONS

Done at Dublin on 30 May 2008

Entry into force: 1 August 2010

United Nations, *Treaty Series*, vol. 2688, p. 39; Reg. No. 47713

The States Parties to this Convention,

Deeply concerned that civilian populations and individual civilians continue to bear the brunt of armed conflict,

Determined to put an end for all time to the suffering and casualties caused by cluster munitions at the time of their use, when they fail to function as intended or when they are abandoned,

Concerned that cluster munition remnants kill or maim civilians, including women and children, obstruct economic and social development, including through the loss of livelihood, impede post-conflict rehabilitation and reconstruction, delay or prevent the return of refugees and internally displaced persons, can negatively impact on national and international peace-building and humanitarian assistance efforts, and have other severe consequences that can persist for many years after use,

Deeply concerned also at the dangers presented by the large national stockpiles of cluster munitions retained for operational use and *determined* to ensure their rapid destruction,

Believing it necessary to contribute effectively in an efficient, coordinated manner to resolving the challenge of removing cluster munition remnants located throughout the world, and to ensure their destruction,

Determined also to ensure the full realisation of the rights of all cluster munition victims and *recognising* their inherent dignity,

Resolved to do their utmost in providing assistance to cluster munition victims, including medical care, rehabilitation and psychological support, as well as providing for their social and economic inclusion,

Recognising the need to provide age- and gender-sensitive assistance to cluster munition victims and to address the special needs of vulnerable groups,

Bearing in mind the Convention on the Rights of Persons with Disabilities which, *inter alia*, requires that States Parties to that Convention undertake to ensure and promote the full realisation of all human rights and fundamental freedoms of all persons with disabilities without discrimination of any kind on the basis of disability,

Mindful of the need to coordinate adequately efforts undertaken in various fora to address the rights and needs of victims of various types of weapons, and *resolved* to avoid discrimination among victims of various types of weapons,

Reaffirming that in cases not covered by this Convention or by other international agreements, civilians and combatants remain under the protection and authority of the principles of international law, derived from established custom, from the principles of humanity and from the dictates of public conscience,

Resolved also that armed groups distinct from the armed forces of a State shall not, under any circumstances, be permitted to engage in any activity prohibited to a State Party to this Convention,

Welcoming the very broad international support for the international norm prohibiting anti-personnel mines, enshrined in the 1997 Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction,

Welcoming also the adoption of the Protocol on Explosive Remnants of War, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May be Deemed to be Excessively Injurious or to Have Indiscriminate Effects, and its entry into force on 12 November 2006, and *wishing* to enhance the protection of civilians from the effects of cluster munition remnants in post-conflict environments,

Bearing in mind also United Nations Security Council Resolution 1325 on women, peace and security and United Nations Security Council Resolution 1612 on children in armed conflict,

Welcoming further the steps taken nationally, regionally and globally in recent years aimed at prohibiting, restricting or suspending the use, stockpiling, production and transfer of cluster munitions,

Stressing the role of public conscience in furthering the principles of humanity as evidenced by the global call for an end to civilian suffering caused by cluster munitions and *recognising* the efforts to that end undertaken by the United Nations, the International Committee of the Red Cross, the Cluster Munition Coalition and numerous other non-governmental organisations around the world,

Reaffirming the Declaration of the Oslo Conference on Cluster Munitions, by which, *inter alia*, States recognised the grave consequences caused by the use of cluster munitions and committed themselves to conclude by 2008 a legally binding instrument that would prohibit the use, production, transfer and stockpiling of cluster munitions that cause unacceptable harm to civilians, and would establish a framework for cooperation and assistance that ensures adequate provision of care and rehabilitation for victims, clearance of contaminated areas, risk reduction education and destruction of stockpiles,

Emphasising the desirability of attracting the adherence of all States to this Convention, and *determined* to work strenuously towards the promotion of its universalisation and its full implementation,

Basing themselves on the principles and rules of international humanitarian law, in particular the principle that the right of parties to an armed conflict to choose methods or means of warfare is not unlimited, and the rules that the parties to a conflict shall at all times distinguish between the civilian population and combatants and between civilian objects and military objectives and accordingly direct their operations against military objectives only, that in the conduct of military operations constant care shall be taken to spare the civilian population, civilians and civilian objects and that the civilian population and individual civilians enjoy general protection against dangers arising from military operations,

Article 3. Storage and stockpile destruction

1. Each State Party shall, in accordance with national regulations, separate all cluster munitions under its jurisdiction and control from munitions retained for operational use and mark them for the purpose of destruction.

2. Each State Party undertakes to destroy or ensure the destruction of all cluster munitions referred to in paragraph 1 of this Article as soon as possible but not later than eight years after the entry into force of this Convention for that State Party. Each State Party undertakes to ensure that destruction methods comply with applicable international standards for protecting public health and the environment.

3. If a State Party believes that it will be unable to destroy or ensure the destruction of all cluster munitions referred to in paragraph 1 of this Article within eight years of entry into force of this Convention for that State Party it may submit a request to a Meeting of States Parties or a Review Conference for an extension of the deadline for completing the destruction of such cluster munitions by a period of up to four years. A State Party may, in exceptional circumstances, request additional extensions of up to four years. The requested extensions shall not exceed the number of years strictly necessary for that State Party to complete its obligations under paragraph 2 of this Article.

4. Each request for an extension shall set out:

- (a) The duration of the proposed extension;

5. The Meeting of States Parties or the Review Conference shall, taking into consideration the factors referred to in paragraph 4 of this Article, assess the request and decide by a majority of votes of States Parties present and voting whether to grant the request for an extension. The States Parties may decide to grant a shorter extension than that requested and may propose benchmarks for the

extension, as appropriate. A request for an extension shall be submitted a minimum of nine months prior to the Meeting of States Parties or the Review Conference at which it is to be considered.

6. Notwithstanding the provisions of Article 1 of this Convention, the retention or acquisition of a limited number of cluster munitions and explosive submunitions for the development of and training in cluster munition and explosive submunition detection, clearance or destruction techniques, or for the development of cluster munition counter-measures, is permitted. The amount of explosive submunitions retained or acquired shall not exceed the minimum number absolutely necessary for these purposes.

7. Notwithstanding the provisions of Article 1 of this Convention, the transfer of cluster munitions to another State Party for the purpose of destruction, as well as for the purposes described in paragraph 6 of this Article, is permitted.

States Parties retaining, acquiring or transferring cluster munitions or explosive submunitions for the purposes described in paragraphs 6 and 7 of this Article shall submit a detailed report on the planned and actual use of these cluster munitions and explosive submunitions and their type, quantity and lot numbers. If cluster munitions or explosive submunitions are transferred to another State Party for these purposes, the report shall include reference to the receiving party. Such a report shall be prepared for each year during which a State Party retained, acquired or transferred cluster munitions or explosive submunitions and shall be submitted to the Secretary-General of the United Nations no later than 30 April of the following year.

Warning signs based on methods of marking readily recognisable by the affected community should be utilised in the marking of suspected hazardous areas. Signs and other hazardous area boundary markers should, as far as possible, be visible, legible, durable and resistant to environmental effects and should clearly identify which side of the marked boundary is considered to be within the cluster munition contaminated areas and which side is considered to be safe;

(d) Clear and destroy all cluster munition remnants located in areas under its jurisdiction or control; and

(e) Conduct risk reduction education to ensure awareness among civilians living in or around cluster munition contaminated areas of the risks posed by such remnants.

3. In conducting the activities referred to in paragraph 2 of this Article, each State Party shall take into account international standards, including the International Mine Action Standards (IMAS).

4. This paragraph shall apply in cases in which cluster munitions have been used or abandoned by one State Party prior to entry into force of this Convention for that State Party and have become cluster munition remnants that are located in areas under the jurisdiction or control of another State Party at the time of entry into force of this Convention for the latter.

(a) In such cases, upon entry into force of this Convention for both States Parties, the former State Party is strongly encouraged to provide, *inter alia*, technical, financial, material or human resources assistance to the latter State Party, either bilaterally or through a mutually agreed third party, including through the United Nations system or other relevant organisations, to facilitate the marking, clearance and destruction of such cluster munition remnants.

(b) Such assistance shall include, where available, information on types and quantities of the cluster munitions used, precise locations of cluster munition strikes and areas in which cluster munition remnants are known to be located.

5. If a State Party believes that it will be unable to clear and destroy or ensure the clearance and destruction of all cluster munition remnants referred to in paragraph 1 of this Article within ten years of the entry into force of this Convention for that State Party, it may submit a request to a Meeting of States Parties or a Review Conference for an extension of the deadline for completing the clearance and destruction of such cluster munition remnants by a period of up to five years. (h) The humanitarian, social, economic and environmental implications of the proposed extension; and

(i) Any other information relevant to the request for the proposed extension.

7. The Meeting of States Parties or the Review Conference shall, taking into consideration the factors referred to in paragraph 6 of this Article, including, *inter alia*, the quantities of cluster munition remnants reported, assess the request and decide by a majority of votes of States Parties present and voting whether to grant the request for an extension. The States Parties may decide to grant a shorter extension than that requested and may propose benchmarks for the extension, as appropriate.
